Original contract, \$134,950; total additions, \$2,417.50; total deductions, \$2,872; contract outstanding, \$134,495.50.

ARTIFICIAL STONE SIDEWALKS.

BOSTON, June 4, 1920.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Sylvester Connolly, 47 Draper street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by

the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (\$1000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

Executive approval, June 5, 1920.

RETIREMENT BOARD.

At a meeting of the Retirement Board for City Laborers, held at the Mayor's office on Thursday, June 3, at 3.15 p. m., it was voted to retire the following employee; said retirement to date from Friday, June 4, 1920, at the rate of \$360 per annum.

NAME.	Division.	Age.	Length of Service. (Years.)	Salary.
Thomas Drury.....	Paving.....	63	23	\$1,252 00

CLAIMS.

The Mayor has approved the following claims, with the indorsement of the Corporation Counsel:

John J. Crane, administrator estate of Joseph McGinnis, in the sum of \$2,900 for architect's services, sprinkling system, Long Island, morgue, Long Island, and Police Station No. 2, Franklin Street, 1917 and 1918.

Standard Grocery Company, in the sum of \$750 for damage to groceries by leaking water pipe at 26 Lewis wharf, October 2 and 3, 1918.

Mary Ingari, in the sum of \$125 and costs for personal injuries caused by defective stairway in passageway between Canal and Haverhill streets, April 6, 1920.

Peter F. McCarthy *et al.*, in the sum of \$131.78 for damage to plate glass by rioters during police strike September 10, 1919, at 1365 Dorchester avenue.

REJECTED CLAIMS.

On June 3 the Law Department disapproved thirty-two claims against the city, in nine of which no amounts were specified, and the other twenty-three aggregated \$3,929.38 and are classified as follows:

Against the Fire Department, one, in which no amount was specified; against the Park and Recreation Department, one, amounting to \$7; against the Police Department, fifteen, amounting to \$3,534.86; against the Public Works Department, fifteen, in eight of which no amounts were specified, and the other seven amounted to \$387.52.

All these claims have been disapproved for the reason that there appeared to be no legal liability upon the city.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states that it is his intention

To construct a sanitary sewer and a surface drain of 10-inch and 15-inch earthen pipe, respectively, and 2 catch-basins in Mechanic street from Madison court about 150 feet southerly in the Roxbury district, at an estimated cost of \$4,433.

To construct a surface drain and sanitary sewer of concrete; surface drain 3 feet by 5 feet 4 inches, and sanitary sewer 1 foot 6 inches wide and varying from 3 feet 2 inches to 5 feet 4 inches high, and 1 catch-basin in Berkeley street, south-westerly side, between Providence street and St. James avenue, in the city proper, and a sanitary sewer of 15-inch earthen pipe across Berkeley street at Providence street at an estimated cost of \$14,514.

To construct a sanitary sewer and surface drain of 10-inch and 12-inch earthen pipe, respectively, in Harvard street, between Fabyan street and Greenock street in the Dorchester district, at an estimated cost of \$1,500.

To construct a sanitary sewer of 10-inch earthen pipe and one catch-basin in Chelsea street, southeast side, between Foss street and Wapping street in the Charlestown district, at an estimated cost of \$1,079.

To construct a surface drain of 24-inch, 12-inch and 10-inch earthen pipe and four catch-basins in Falkland terrace, between Hobart street and Brookdale road in the Brighton district, at an estimated cost of \$4,932.

To resurface with asphalt macadam Chadwick, street, from Hampden street to Ambrose street, the estimated cost for labor and material being \$1,900.

FIRE DEPARTMENT ORDERS.

General Order No. 21.

FIREMEN'S MEMORIAL SUNDAY.

Deputy chiefs will detail twelve men from their divisions to act as escort to the various organizations on Firemen's Memorial Sunday, June 13, 1920. The detail will report to the chief marshal, District Chief Edward J. Shallow of this department, at 9 a. m. sharp, at Headquarters Building, Bristol street. The regulation uniform with sack coat, white shirt, white standing collar and white gloves will be worn on this occasion.

The detail will be made, as far as possible, from the trustees of the Boston Firemen's Charitable Association. Exchange of days off will be permitted to conform with this and time will be allowed to report to the chief marshal.

Members of the department who are on day off and on vacation are requested to participate in the memorial exercises.

NEW FIRE ALARM BOXES.

The following new fire alarm boxes will shortly be established:

Box 1514, Eliot and Warrenton streets, connected into circuit No. 7. Assignment of apparatus will be the same as for Box No. 1551.

RETIREMENT.

The retirement of Ladderman Frank P. Chapman of the repair shop, which took effect May 31, 1920, is hereby announced. Ladderman Chapman was appointed to this department as a call man October 12, 1876, and was made a permanent member May 15, 1896.

ALLOWANCE OF PAY.

The following rule is published for the information and guidance of the department, to take effect June 11, 1920:

When a member of the department is absent from duty on account of ordinary sickness or injury and such sickness or injury is certified to by a physician approved by the commissioner, half pay for lost time may be allowed, at the discretion of the commissioner, for not exceeding thirty days; but when the sickness ends in death full pay may be allowed, at the discretion of the commissioner, for not exceeding one hundred days lost in the last one hundred and fifty days immediately preceding the member's death, provided that it is certified by a physician approved by the commissioner that such lost time was caused by the sickness which ultimately resulted in the death of the member.

RULE AMENDED.

Rule No. 388 of the Rules and Regulations of the Department is hereby amended by striking out the words

"brother's wife" and "sister's husband." The rule will hereafter read as follows:

Rule 388. Three days' leave of absence, with pay, will be allowed a member in case of the death of his wife or of anybody in either of the following relationships to himself or wife: father, mother, brother, sister, child, grandchild. Usually, though not necessarily in all cases, sufficient time to attend the funeral of other near relatives will be allowed without loss of pay, with an extension of such time in any particular case at the discretion of the commissioner.

MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasia have been resumed at the various municipal buildings.

The following buildings have gymnasia and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.

Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.

Cabot Street Gymnasium and Swimming Pool.—Roxbury.

Vine Street Gymnasium.—Corner Vine and Dudley streets.

Dorchester Gymnasium.—Corner Columbia road and Bird streets.

Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.

Ward 5 Gymnasium.—Corner Tyler and Oak streets.

D Street Gymnasium.—South Boston.

North Bennet Street Gymnasium.—North End.

Paris Street Gymnasium.—East Boston.

Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasia where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasia.

Basketball is permitted in certain gymnasia on the part of those who participate in class work.

Æsthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls.

BOSTON CITY CHARTER CHANGES IN 10 YEARS SINCE 1909.

First amendment, chapter 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in section 26. Second amendment, chapter 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in section 32; changing the requirement as to signatures on nomination papers to 3,000 for mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in section 53, also limiting the number of nomination papers issued to 300 for a candidate for mayor and 200 for other candidates, referring to section 54. Third amendment, chapter 37, Special Acts of 1918, annulling the jurat at end of nomination papers. Fourth amendment, chapter 94, Special Acts of 1918, abolishing recall of mayor, and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any mayor for other than consecutive terms.

BOSTON NOTES.

SPECIAL LEGISLATIVE ACTS OF 1919
RELATING TO BOSTON.

Chapter 23, approved February 19, abolishing the reserve police force; chapter 32, approved February 19, requiring the registration of all hospitals with the Building Department annually in April, that the utmost precaution against fire may be assured, violation of act punishable by fine not exceeding \$500; chapter 55, approved February 28, providing that laborers, when pensioned at retirement, shall be allowed one half of final year's salary annually; chapter 87, approved March 20, enlarging the powers of the Board of Art Commissioners by placing under their exclusive control all works of art owned by the city; chapter 93, approved March 20, concerning annuities payable to families of deceased policemen and firemen; chapter 116, approved April 2, authorizing the Public Library Trustees to hold bequeathed or donated property to an amount not exceeding \$10,000,000, etc.; chapter 136, approved April 16, concerning the extension of death benefits of the Boston Police Relief Association; chapter 145, approved April 18, concerning the construction and maintenance of Dry Dock avenue on Commonwealth land in South Boston; chapter 155, approved April 24, amending law relating to the inspection of buildings by Building Department; chapter 156, approved April 24, amending regulations as to size, etc., of structures on the roofs of buildings; chapter 163, approved April 30, concerning the construction, alteration and regulation of hospitals in Boston, with penalty of a fine not exceeding \$500 for violation; chapter 168, approved May 7, changing the date from April 30 to June 1 for the annual listing of officials and employees of the city; chapter 172, approved May 9, authorizing for 1919 (as in 1918) a raise in tax limit of \$3 on each \$1,000 of valuation, \$2.34 for municipal purposes and 0.66 for street repair and reconstruction, the effect of which act was to allow the 1919 budget to be increased by \$4,556,817; chapter 132, approved April 9, increasing the maximum pension of retired school janitors and attendance officers from \$360 to \$500; chapter 188, approved May 29, concerning removals, suspensions and transfers in the Police Department; chapter 199, approved June 10, providing for the construction and furnishing of a building for the Public Latin School, for which the School Committee may appropriate not exceeding \$750,000; chapter 206, approved June 14, permitting appropriations of School Committee to extent of \$5.38 on each \$1,000 of valuation in 1919 and \$5.68 in 1920 and thereafter, the tax limit to be raised for said purpose \$0.88 in 1919 and \$1.18 in 1920 and thereafter [this Act subject to acceptance by Mayor and City Council, except that a four-fifths majority of the School Committee overrules them].

AREA OF BOSTON.

Area to ward lines (26 wards), 30,598 acres (*i. e.*, 47.81 square miles), 2,705 acres being filled land and 1,143 acres water area. Land area only, 27,732 acres (*i. e.*, 43.33 square miles). Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, *viz.*, New York, Chicago, Philadelphia, St. Louis and San Francisco. The only city in Massachusetts with larger land area is Taunton.

MAYORS OF BOSTON.

In its 97 years of existence as a city Boston has had 36 elected mayors and five *ex officio* acting mayors. Of the 36 men who have held the office for one year or more, five were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England states, 5; in Ireland, 2. The mayor longest in office was Mayor Lincoln, who served 3 years ending 1860 and then 4 years ending 1866. Next in length of service were the first Mayor Quincy and Mayor Fitzgerald, who served 6 years each. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Curley. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five acting mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, United States Representative and United States Senator before becoming mayor. Mayor Armstrong was Lieutenant-Governor and at times acting governor before serving as mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as governor, after their terms as mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

PUBLIC DEBT, 1919.

Gross funded debt, February 1, 1919, \$127,124,217.69 (including \$400,666.69 issued by state for enlargement of Court House); sinking funds, \$43,068,184.85; other redemption means, \$1,589,130.09; net debt, \$82,466,902.75 (*i. e.*, \$2,103,274.29 less than on February 1, 1918), of which \$49,778,039.21 (*i. e.*, 60.36 per cent) was city debt; \$130,862,113.95 (*i. e.*, 37.42 per cent) Rapid Transit debt (the latter self-paying); \$1,474,749.59 (*i. e.*, 1.79 per cent) county debt, and \$352,000 (*i. e.*, 0.43 per cent) water debt. Net debt per capita (estimated population, 794,817) \$103.76; net debt exclusive of Rapid Transit debt, \$51,604,788.80, or \$64.93 per capita, which is \$25.54 less per capita than in 1907. Loans authorized but not issued (within debt limit) \$440,000.

In the fiscal year 1918-19, the net city debt was reduced by \$2,420,386.24; the net county debt by \$148,474.18; and the net water debt by \$16,000. The net rapid transit debt, *i. e.*, for new tunnel construction, was increased by \$481,586.13. Total debt contracted, \$2,220,500; total debt paid, \$3,694,646.66; total decrease of gross debt, \$1,474,146.66; of net debt, \$2,103,274.29. There has been no such debt reduction since 1901.

Total debt incurred in the ten years 1908-18, \$52,868,633, of which \$20,868,000, or 39.5 was rapid transit debt.

Total amount of debt incurred by the city in the 96 years since its incorporation (in 1822), \$256,113,937, of which 60 per cent belongs to the last 25 years, *i. e.*, 1894 to 1918, inclusive.

BOSTON PUBLIC RECREATION.

Number of large parks, 24; separate playgrounds, 46, with total area of 320 acres, also 12 playgrounds in parks, with area of 97.5 acres; small parks and squares 75; total area, 2,680 acres. Cost of main park system, land and construction (since 1877 when begun) \$11,743,619; of marine park system (since 1883), \$4,330,294; of all other parks and public grounds, \$2,287,446; of separate playgrounds, \$4,281,126. Total cost, \$22,642,485. There are also within the city limits 1,053 acres of metropolitan parks and parkways under state control.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasias, 11; total number of indoor baths taken in year 1917, 1,438,311, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1918-19, \$954,108 or \$13,880 more than in 1917. Outlay for playground improvements, \$124,623; for park improvements, \$485,515, of which \$122,752 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1919, \$11,992,050; for playgrounds, \$2,262,111; total, \$14,254,161 or \$579,450 less than in 1918.

Including the state assessments of \$784,885 for metropolitan parks, boulevards, etc., and \$222,515 for Charles River Basin improvements, the total expended for public recreation purposes in 1918 was \$2,571,646 or \$101,107 less than in 1917.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

Severally laid over under the law.

VETO—COMPENSATION OF PRISON VAN DRIVERS.

The following was received:

City of Boston,
Office of the Mayor, May 26, 1920.

To the City Council:
Gentlemen,—I am herewith returning without my signature the order passed by the City Council on May 3, accepting chapter 271 of the Acts of 1920, entitled "An Act Relative to the Compensation of Persons Employed by the County of Suffolk as Drivers of Prison Vans in the City of Boston."

I am vetoing the acceptance of this act on several grounds. In the first place, legislative authority is not needed to provide an increase for the employees in question. In the second place, the act provides that the increase in salaries be allowed from the first day of January. As the increase in all other salaries this year dated from April 1, it would be unfair to discriminate against the majority of employees and permit the drivers of prison vans to have their increase retroactive to the first day of January.

Although I am vetoing this act, I shall be willing to receive a recommendation from the proper authority for the increase in question.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—JITNEY BUSES, HYDE PARK.

The following was received:

City of Boston,
Office of the Mayor, May 26, 1920.

To the City Council:
Gentlemen,—I am herewith returning without my signature the petition of the Hyde Park Motor Lines, Inc., for a license to operate jitney buses in certain portions of Hyde Park.

I am taking this action for two reasons, first, because the committee representing the Hyde Park Board of Trade has requested that I refuse to grant the permit, and second, because I feel that the granting of this license would constitute a breach of faith with those who are now endeavoring to provide legislation to care for the transportation problems in Hyde Park and which holds out now such a promising possibility of solution.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—PAYMENT TO WILLIAM AND MARY WALLACE.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1920.

To the City Council:
Gentlemen,—I am herewith returning without my signature the order passed by the City Council on May 17 authorizing the payment of the sum of \$4,000 to William and Mary Wallace for the injuries and death of their son, William Wallace, Jr. I am vetoing this order as I do not feel that the city should be called upon to pay to the parents of this child a sum in excess of \$2,500.

Respectfully yours,
ANDREW J. PETERS, Mayor,

Placed on file.

PAYMENT OF WORLD WAR MUNICIPAL EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a communication just received from the City Auditor

and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Auditing Department, June 4, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:
Sir,—Under chapter 235 of the Acts of 1920, which was accepted by the City Council and approved by your Honor April 12, 1920, entitling employees of the city who were drafted for service in the World War, also the enlisted men who have not received the difference between their military and municipal pay, to the difference between their military and municipal pay during the period of their respective service, it will be necessary to make an appropriation to cover this expense as no amounts were allowed in the annual budgets of the departments. Complete returns have not been received at this office, but from those submitted it appears that the amount needed will be in excess of \$50,000.

I would therefore suggest that an order be sent to the City Council giving authority to charge the amount necessary to the Reserve Fund.

Under chapter 254 of the Acts of 1917 there has been paid to the enlisted men who were in the service of the city, March 25, 1917, the sum of \$189,083.68, and charged to the appropriations for the departments in which they were employed.

Respectfully submitted,
J. ALFRED MITCHELL, City Auditor.

Ordered, That the expense of carrying out the provisions of chapter 235 of the Acts of 1920—"An Act Relative to the Payment of Municipal Employees who Served in the World War of the Difference Between Their Military and Municipal Compensation"—be charged to the Reserve Fund. Referred to the Executive Committee.

SITE FOR STATION 2, ETC.

The following was received:

City of Boston,
Office of the Mayor, June 1, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a communication from the Police Commissioner relative to your order of May 24.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Police Department, May 29, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:
Dear Sir,—Referring to the order of the City Council under date of May 24, which you have forwarded to me, I beg to remind your Honor that I have heretofore stated to you the immediate requirements of the Police Department for a site and a building which will suitably house Station 2, the property clerk, the traffic police, and provide a drill hall and a revolver range. I indicated in my previous statement to your Honor the superior adaptability of one of the two sites then under discussion. The order of the City Council above referred to apparently contemplates making provision for new quarters for the municipal courts and officials of Suffolk County. I am concerned only with necessary buildings and accommodations for the administration of the Police Department. I cannot assent to any proposition that would delay the immediate provision for the Police Department because of consideration of other municipal requirements, concerning which I have no duty or relation.

At this particular time the immediate, pressing necessity of this department, which will admit of no delay, is for a suitable site and the erection of a building thereon to properly house Division 2, the traffic police, the property clerk, a drill hall and a revolver range. I therefore respectfully reiterate that I require such accommodations and call upon the city to furnish the same without further delay. I have made known my requirements definitely and with certainty, and if my requirement is not met, I shall be obliged to take such steps as I properly may to enforce such compliance as provided for by statute and demanded by the duties of my office.

Very respectfully,
E. U. CURTIS,
Police Commissioner for the
City of Boston.

Referred to the Executive Committee.

LOAN FOR HEADHOUSE, ETC.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1920.

To the City Council:
Gentlemen,—The Commissioners of the Park and Recreation Department are anxious to proceed with the construction of a new headhouse at City Point, South Boston, as well as with the construction of the bath houses to replace the present houses which are in a dilapidated condition. You will recollect that the old headhouse was destroyed by fire last year.

The plans are now in preparation for a headhouse and bath houses, and as the department will be in a position to advertise the bids for the contracts for these structures it is desirable that adequate funds be made available at the earliest possible moment in order that there may be no unnecessary delay in commencing work.

It is estimated by the Park and Recreation Department that the new headhouse will cost approximately \$125,000 and the bath houses will cost approximately \$20,000.

I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$150,000 be appropriated to be expended by the Park Commissioners, for the rebuilding of the headhouse, bath houses, etc., at Marine Park, South Boston, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Referred to the Committee on Finance.

MONEY FOR DEVELOPMENT OF SQUARE, ROSLINDALE.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a communication received from the Park and Recreation Department relative to an appropriation of funds for the development of the square at Washington, Poplar and Ashland streets, Roslindale, and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Park and Recreation Department,
May 28, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:
Dear Sir,—At a meeting of the Board of Park and Recreation Commissioners held Tuesday, May 25, it was

"Voted, To respectfully request the city government to appropriate the sum of \$26,000 for the development of the square at Washington, Poplar and Ashland streets, Roslindale, recently purchased by the city."

Inclosed is a detailed estimate of the work necessary for its completion, and also a plan of the proposed improvement.

Very respectfully yours,
JAMES B. SHEA, Chairman.

May 28, 1920.

James B. Shea, Chairman,
Park and Recreation Department:
Dear Sir,—The cost of completing the Ashland street square, Roslindale, according to the landscape plan of Mr. Arthur A. Shurtleff, Landscape Architect, dated April 8, 1920, is estimated as follows:

800 linear feet new curb at \$3.	\$2,400 00
1,200 cubic yards excavation at \$2.50.	3,000 00
700 cubic yards loam furnished at \$3.	2,100 00
1,100 square yards concrete walk at \$3.	3,300 00
1,600 square yards granolithic surface at \$3.50.	5,600 00
350 linear feet seats at \$3.50.	1,225 00
800 linear feet boundary fence at \$6.	4,800 00
Flag pole.	1,200 00
Water supply and drainage.	800 00
Planting.	500 00
Entrances to the square.	1,075 00

Total amount. \$26,000 00

Respectfully,
JOHN J. MURPHY, Engineer.

Ordered, That the sum of \$26,000 be appropriated to be expended by the Park Commissioners for the development of the square at Washington, Poplar, Ashland and South streets, Roslindale, the appropriation to be met from the unappropriated cash remaining in the treasury, January 31, 1920.

Referred to the Executive Committee.

SITE FOR BRANCH LIBRARY, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a communication received from the trustees of the Boston Public Library relative to the purchase of a suitable site for a new branch library building in West Roxbury.

In order to purchase the necessary additional land the sum of \$7,000 must be made available,

I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Boston, April 23, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—The Board of Trustees of the Public Library gave a hearing to the West Roxbury Library Committee, representing a number of the leading secular and religious organizations of the West Roxbury postal district, on April 9, wherein they presented to the Board a recommendation for the purchase of a suitable site for a new public library building in West Roxbury. At the meeting of the Board on April 23, it was

"Voted, That the Board approves the recommendation made by the West Roxbury Library Committee with reference to the purchase of a site which includes the present library lot and land adjoining for the location of a suitable library building in that district."

Very truly yours,
WILLIAM F. KENNEY, President.

Ordered, That the sum of \$7,000 be appropriated, to be expended for the purchase of a site for a branch public library, West Roxbury, the appropriation to be met from the unappropriated cash remaining in the treasury January 31, 1920.

Referred to the Executive Committee.

COLLECTION OF ASHES AND GARBAGE.

The following was received:

City of Boston,
Office of the Mayor, June 2, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting a communication just received from the Commissioner of Public Works in connection with your order of March 1, requesting that you be informed as to the rules, regulations and customs of collecting ashes and garbage in New York, Philadelphia, St. Louis and Chicago.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

Public Works Department, June 1, 1920.

To the Honorable the Mayor:

I return herewith order of the City Council, dated March 1, requesting that they be informed regarding the rules and regulations and customs of collecting ashes and garbage in New York, Philadelphia, St. Louis and Chicago, and what co-operation is demanded in these cities from tenants and householders.

The delay in replying to this request is due entirely to the fact that one of the cities mentioned has only just replied to our repeated requests for this information.

In New York the collections are made by day labor force, and the rules of the department require that the material must be placed on the sidewalk within or against the building line. In Philadelphia the collections are made by contract, and the regulations require that the material must be placed on the sidewalk. In certain cases, however, waste is removed from easily accessible places on the premises if a card is displayed in the window. In Chicago the collections are made by day labor, and the regulations require that all of the material be placed at the curb either in front of the premises or in an alley at the rear. In St. Louis ashes and refuse are not collected or disposed of by the city. Each individual property owner collects and disposes of ashes and refuse.

The city does not collect ashes and rubbish from buildings used exclusively for business purposes in any of the four cities referred to above. This is all done by private contractors who make individual arrangements with property owners.

Yours respectfully,
T. F. SULLIVAN,
Commissioner of Public Works.

Placed on file.

COMPLETION OF HIGH PRESSURE FIRE SERVICE.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting a communication just received from the Commissioner of Public Works relative to an additional appropriation of \$300,000 for the completion of the high pressure fire service, and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

Public Works Department, June 3, 1920.

To the Honorable the Mayor:

I respectfully recommend that you request the City Council to grant a special appropriation of \$300,000 in order to make ready for service the High Pressure Fire Service at the Lincoln Wharf and Atlantic avenue stations.

Arrangements have been completed whereby the city has been enabled to establish pumping stations at the Lincoln power station of the Elevated Railway Company and at the Atlantic avenue and Stuart street stations of the Edison Company, and very favorable contracts have been made for the use of a portion of these properties as well as for supplying power.

The original appropriation of \$1,000,000 for the installation of a high pressure system is practically exhausted, and in order to put in operation two of these stations during the present year it will be necessary to have this additional appropriation made at once. This appropriation will be expended as follows:

Laying two miles of pipe.....	\$137,000 00
Additional special connections and gates.....	10,000 00
Suction and force mains at Lincoln power station.....	10,000 00
Pumps and installation at Lincoln power station.....	60,000 00
Pumps and installation at Atlantic avenue station.....	65,000 00
Suction and force mains at Atlantic avenue station	18,000 00
	<u>\$300,000 00</u>

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Ordered, That the sum of \$300,000 be appropriated, to be expended by the Commissioner of Public Works, for the completion of the high pressure fire service, the appropriation to be met from the unappropriated cash remaining in the treasury January 31, 1920.

Referred to the Executive Committee.

DEPARTMENT TRANSFERS.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1920.

To the City Council:

Gentlemen,—I am transmitting herewith requests for various transfers within department appropriations, and respectfully recommend the passage of the accompanying orders.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers in the appropriations for Cemetery Department:

From the appropriation for A-1, Permanent Employees, Laborers, 42 at \$3.50-\$4 per day, \$1,329, to the appropriation for A-1, Permanent Employees, Foreman, 1 at \$4 (\$4.50) per day, \$129; A-3, Unassigned, \$1,211.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers in the appropriations for Hospital Department:

From the appropriation for A-1, Permanent Employees, Hospital Employees, Class D, not exceeding \$9 per week, \$283.22, to the appropriation for A-1, Permanent Employees, Hospital Employee, 1 at \$30-\$32-\$36 per week, \$136; Hospital Employee, 1 at \$18-\$19-\$23.33 per week, \$147.22.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfer in the appropriations for Public Works Department, Sanitary Service:

From the appropriation for A-1, Permanent Employees, Laborers, Teamsters, Stablenmen, Watchmen, Yardmen, Janitors, etc., 511 at \$3.50-\$4 per day, \$1,600.66, to the appropriation for A-2, Temporary Employees, \$1,600.66.

Referred to the Executive Committee.

BUILDING FOR STATION 8 AND ENGINE 31.

The following was received:

City of Boston,
Office of the Mayor, June 2, 1920.

To the City Council:

Gentlemen,—A year ago last fall the collapse of the molasses tank in the North End destroyed the living quarters of the crew of Engine 31, one of the fireboats. In the course of the discussion of plans for new quarters for the crew of Engine 31 it was suggested that the city might erect a building which provided quarters not only for the crew of Engine 31 but also provide new quarters for the officers of Police Division 8; that is, the harbor police. This matter was brought to the attention of the Police Commissioner and he agreed to the proposition.

Under the present arrangement, therefore, the city plans to erect a building suitable to house the men both in Division 8 and Fireboat 31. These two groups will, of course, occupy entirely distinct quarters. The building will be erected in the North End paving yard which is already the property of the City of Boston. This will therefore eventually make it possible to dispose of the present site of Police Station 8 to the financial gain of the city.

The Superintendent of Public Buildings estimates that the cost of the building, together with the cost of the installation of a coal pocket, which is desired by the Fire Commissioner, will amount to \$225,000.

I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$225,000 be appropriated, to be expended by the Superintendent of Public Buildings, for the erection of a building for Police Station 8 and Engine 31, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Referred to the Committee on Finance.

TREATMENT OF DRUG ADDICTS.

The following was received:

City of Boston,
Office of the Mayor, June 1, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting a communication just received from the Commissioner of Penal Institutions in connection with the order of the City Council of May 10, requesting that a ward be established in the hospital at Long Island for the treatment of drug addicts.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

Penal Institutions Department, May 17, 1920.
Hon. Andrew J. Peter,

Mayor of Boston:

Dear Sir,—I have your communication of the 12th instant, inclosing an order of the City Council under date of May 10, ordering the Boston Infirmary Trustees to establish a ward at the Long Island Hospital for the treatment of drug addicts.

I have discussed with Doctor Kline, chairman of the Commission on Mental Diseases, the matter of caring for voluntary patients formerly cared for at the Norfolk State Hospital. I find that after the Federal Government took over the Norfolk State Hospital the patients formerly committed thereto were boarded at the Washington Home and one other private institution at a cost of \$4 per day to the state. That the Legislature of this year authorized the reception of such patients to the State Infirmary at Tewksbury, but today there is no voluntary patient suffering from drug addiction at that institution, and I am also informed by Commissioner Kline that the private institutions for inebriates and drug addicts have not applied for licenses to operate during the coming year. This does not mean that "dope fiends" are less numerous, but indicates that they are for the most part persons with criminal records, and are not those who would naturally voluntarily seek a cure.

However, I can see no good reason why your Honor should not proclaim that the City of Boston is prepared at Long Island to care for any voluntary patients suffering from drug addiction.

Yours respectfully,
THOMAS C. O'BRIEN, Commissioner.

Placed on file.

MUNICIPAL BUILDING, HYDE PARK.

The following was received:

City of Boston,
Office of the Mayor, June 3, 1920.

To the City Council:

Gentlemen,—The city has acquired the triangular plot of land bounded by River street, Central avenue and Winthrop street in Hyde Park for a municipal building for that district.

The Superintendent of Public Buildings estimates that the cost of a suitable building will be \$300,000. It is desirable that plans be drawn and work started on this structure as soon as possible.

I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$300,000 be appropriated, to be expended by the Superintendent of Public Buildings, for the erection and completion of a municipal building in Hyde Park, the appropriation to be met from the unappropriated cash remaining in the treasury January 31, 1920.

Referred to the Executive Committee.

SITE FOR STATIONS 2 AND 3.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to inform the City Council if, in his opinion, it would be advisable for the city to acquire the land known as the site of the Revere House and the erection thereon of a building suitable for the use of Police Stations 2 and 3, and the traffic squad and police headquarters and for the use of the municipal courts of Suffolk County.

Coun. WATSON—Will you read the order again, Mr. President?

President MORIARTY—If there is no objection the Clerk will read the order again.

The order was read a second time, and Coun. HAGAN moved suspension of the rule and passage of the order.

President MORIARTY—For myself I will say that I do not like to leave the chair, but I also do not like to be put on record as being in favor of the Revere House site—or any other site. I believe that ought to be given some consideration in Executive Committee.

Coun. HAGAN—Mr. Chairman, I do not want to embarrass anybody with the presentation of the order. A similar order was presented here a few meetings ago and passed by the City Council, in which we asked the Police Commissioner to give his opinion. The Police Commissioner gave his opinion in what I conceived to be a rather evasive way, because he treated upon the use and occupancy of the building in question for a municipal court room, and did not give us any advantage of his opinion as to whether or not this building and the site would be suitable for a police station. Now, I want to get the Mayor's personal opinion on this matter, as I have been unable to get any satisfactory information from the Police Commissioner. The object of the order is simply to ascertain, and get in an official form, the opinion of the Mayor upon the advisability of acquiring this site, and, naturally, the erection of the building. It does not commit you, nor I, nor anybody else, as I understand the order, and certainly I have no such intention as that in view. It is to get the Mayor's opinion on this matter. I have it privately—and I would like to have it publicly.

Coun. WATSON—As a matter of record, perhaps the gentleman will give us the Mayor's opinion.

Coun. HAGAN—I said at the last meeting, and I have no hesitancy in saying it now, that I am of the opinion that the Mayor approves this.

Coun. WATSON—Then why do we need the order?

Coun. HAGAN—I want to get it in official form. I want to get his opinion. He may have changed his opinion; I would like to know what he has in his mind.

Coun. WATSON in the chair.

Coun. MORIARTY—Mr. Chairman, I am not for the order in so far as the Revere House site is concerned, neither am I against it. I feel, and I feel it very keenly, that the Mayor, through his secretary downstairs who is being paid by the City of Boston as an employee of the City of Boston, has been giving some unfavorable news to the newspapers. There has been more or less criticism in so far as a building for Station 2 is concerned, and I do not like being "kicked" all over the city because of a site for Station 2. They have already had three sites that have been acceptable to the Police Commissioner—not the present Police Commissioner, but the Police Commissioner prior to Commissioner Curtis. They were all acceptable to him, even the site at the corner of Arch and Hawley streets. Now, if I remember correctly, and if I may be permitted to use Coun. Collins' name, he (Coun. Collins) said it was not within our right to take sites. I agree with him. But I do believe that, when the Mayor sends an order in here for a site for a public building, and the money is appropriated to buy that site, we are putting ourselves in a ridiculous position by trying to pick out other sites. The Mayor made a statement before the Executive Committee some months ago, and he was quoted at the last meeting, or the meeting prior, by my colleague, Coun. McLaughlin, that if the site was not accepted and the appropriation passed for the Sears and Milk streets property, he would proceed forthwith on the first day of April to build that building. I think that we are putting the Council in a very embarrassing position at this time by trying to select different sites. I think that we ought to say to the Police Commissioner and to the Mayor, "The city has acquired a site at the corner of Hawley and Arch streets, and we are with you. We want the station, there is the site that was bought and which was acceptable to the Police Commissioner and the Mayor of Boston. We believe that that site ought to be considered, and, if so, you will have a station to carry along the business of the Police Department." I do not want to interfere; I have no fight with Mr. Curtis, notwithstanding the newspapers and the man who sits downstairs who say that because of the policemen's trouble I am against the site. I want to deny that assertion, and say that I am ready, if the Mayor will send in an appropriation for the building of Station 2, to vote to appropriate the money, but on the site that the city has already paid for. I am not going to be led around by anybody just because they want to get a few dollars to pick out sites. I believe that the Mayor ought to start the erection of the building for Station 2 on the site now owned by the city, at the corner of Hawley and Arch streets.

Coun. COLLINS—Mr. Chairman, I would like to ask through the Chair whether, in Coun. Hagan's offering of this order, it is his purpose to have this Council select a site, or is it his purpose to get an official expression from the Mayor of the City of Boston as to this particular location?

Chairman WATSON—Will Coun. Hagan answer that question?

Coun. HAGAN—Mr. Chairman, it is not my purpose to have this Council select a site, as I am aware that that would be contrary to law. I endeavored in my original order, Mr. Chairman, to obtain the advice of the Police Commissioner upon the availability of the Revere House site, and the advisability of acquiring it. I have been unable to get any satisfactory opinion from that direction, so I am now making an effort to obtain the advice of the Mayor as to whether he thinks the site is an adaptable one, and whether or not it is advisable for the city to acquire that land. I am simply asking at this time for information from the Mayor; information that I was unable to receive in any satisfactory form from the original request, as made by this Council, upon the Police Commissioner. I believe that my esteemed colleague, Coun. Moriarty, has a wrong angle entirely upon this matter. The Mayor has stated that the site at Hawley and Arch streets is not suitable; the Police Commissioner has stated likewise. This is all because of the fact that since that site was selected the traffic squad has come into existence; some place must be provided for the proper housing of the traffic squad, and the area of that particular site evidently is not sufficient. Therefore, a new site was selected by somebody, at Sears and Milk streets. Now, it develops that the Council does not approve of the site at Sears and Milk streets, and the Mayor and the Police Commissioner do not approve of the present site owned by the city at Hawley and Arch street; and, in consequence, there will be no provision made for the establishment of a police station anywhere if this condition continues to exist, and the Council and the Mayor continue to be at loggerheads on this important problem. Now the Mayor has stated publicly in the Press that no other location is available that would be suitable, and it so happens that well-informed citizens believe that this particular site of the old Revere House is suitable—more suitable than the one the city owns, and far more suitable than the one that the Mayor is intending to purchase. We want to convince the Mayor, if possible, that another site is available, a site that is more suitable from many points of view than is the one that the Mayor has in mind, or the one that the city now owns at Hawley and Arch streets. I am not particularly anxious to press this matter under a suspension of the rules, nor do I wish to embarrass anybody. There is no immediate rush to pass it. I supposed that as a similar order was passed here two or three weeks ago there would be no objection to the passage of this order, which is of like tenor. I am simply asking for information at this time. If it is going to embarrass anybody, I won't press it under a suspension of the rules; but I would like to get an official expression of opinion.

Coun. FORD—In view of what has been said on the matter, I think it might be a good idea, and I so move, that the order be referred to the Committee on Finance, where the other orders in respect to sites now are.

Chairman WATSON—Does the gentleman offer that as a substitute for the original motion?

Coun. FORD—Yes.

Chairman WATSON—Does the Chair understand that Coun. Hagan will withdraw his motion that this matter be acted upon under a suspension of the rules?

Coun. MORIARTY—Mr. Chairman, I want to say this—that I am not so much opposed to reference of the order. But I do not want the newspapers at some future time to say that I approved of sending this to the Mayor for his approval, and then for some reason or another changed my mind and was against the Revere House site. I am not talking about the site. There is something new that has arrived since we passed a similar order. After that order was sent to the Police Commissioner by the Mayor the newspapers published a statement one night last week that the Mayor said that if we were not furnished with a police station he would reserve his rights under a certain act and build the building. I have no fight with the Police Commissioner; but I believe that sometimes a lot of us feel that his position is bigger than it really is, and he has assumed that in the answer which the Mayor sent to this body today. I do not want to be in the position of saying that I am either in favor or against the Revere House site, nor do I want to give the Police Commissioner the right to say that we have not furnished a site. I want to put the responsibility where it rightfully belongs, in the hands of the Mayor. He has had this property for more than a year, and if he started when the land was bought we would have a station there today, and the men would have been housed. But the Mayor may try to throw the responsibility onto the Council—as he has on numerous other occasions—by saying: "The Council has asked me to consider another site, and I have that under advisement." I heard some of the members say today that he works with great speed! I am wondering whether another year will pass before we will have a so-called Station 2! The city government has been building a Police Station 2 since 1914. As I said here some meetings ago, all they do is draw sets of plans; then somebody

is not satisfied with a particular set of plans because it does not enable him to exact his pound of flesh in payment of a political debt. Coun. Hagan's order says: "That his Honor the Mayor be requested to inform the City Council if, in his opinion, it would be advisable for the city to acquire the land known as the site of the Revere House, and the erection thereon of a building." If that isn't selecting a site, and if that isn't the Council selecting a site, I miss my guess, because if the Mayor acquiesces and says that that is a reasonable site, it would be backed, not by the Council but by the introducer of the order, who will ask us to agree with him that that is the right site for Station 2. If that isn't what his order means, then I read it wrong. I do not want to go on record either in favor or against the order. It is immaterial to me where Station 2 is built, so long as we get a station. But I do not believe that we ought to pass this order when we have such a situation confronting us now,—with the Police Commissioner and the Mayor and the Council at odds in so far as the appropriation for sites is concerned.

Chairman WATSON—Does the Chair understand that Coun. Hagan's motion to suspend the rules has been waived?

Coun. HAGAN—I haven't waived it.

Chairman WATSON—I thought you did, and that you were willing that Coun. Ford's motion should prevail.

Coun. FORD—Mr. Chairman, in view of Coun. Hagan's expression, with the consent of the body, I now withdraw my motion so as to allow his motion for the suspension of the rules and the passage of the order to stand before the body.

Chairman WATSON—The question is on the suspension of the rules and the passage of the order.

Coun. HAGAN—Mr. Chairman, when I drafted this order I had no thought of committing the body to the selection of a site. There was no such thought in my mind then nor is there now. I cannot conceive how anybody can reasonably read any such thought as that into this order. I have asked for the opinion of his Honor the Mayor (reading): "That his Honor the Mayor be requested to inform the City Council if, in his opinion" the site is a reasonable one. Now, if the City Council does not care to get this information, I am willing to change the order so that it shall read: "That his Honor the Mayor be requested to inform a member of the City Council." In other words, I would like to obtain the Mayor's opinion as to the advisability of this site, as one member of this Council, if I can have this order passed through the Council. I do not want to add any more to it in any way, shape or manner. I simply want the Mayor to know that there are other sites. I want to remove this loggerhead condition which exists between the City Council and the Mayor. I am going to ask the privilege of withdrawing my suggestion, Mr. Chairman, of having this order passed under a suspension of the rules. I am going to give the body plenty of time to consider this matter, so I now ask that the matter be referred to the Executive Committee for future consideration.

Chairman WATSON—If there is no objection, the order will be referred to the Executive Committee.

NAMING OF NORMAN PRINCE SQUARE

Coun. WATSON offered an order—That Prince square at the intersection of Devonshire and State streets be named and hereafter known as Norman Princesquare.

Passed, under a suspension of the rules.

GENERAL RECONSIDERATION.

OFFICIAL COMMUNICATION.

REPORT OF FINANCE COMMISSION ON SALE OF PIANOS FOR PUBLIC SCHOOLS.

BOSTON, June 14, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—The Finance Commission has investigated the sale of a used Steinway grand piano, No. 52034, the property of the director of music in the public schools, to the School Committee of the City of Boston, and the alleged receipt of commissions by the same director for the sale of certain upright pianos to the School Committee, and reports as follows:

1.—SALE OF A USED STEINWAY PIANO OWNED BY JOHN A. O'SHEA, DIRECTOR OF MUSIC IN THE PUBLIC SCHOOLS TO THE SCHOOL COMMITTEE OF BOSTON.

For some years past, at the request of the business agent of the School Committee, the assistant superintendent who has supervision of music in the public schools, and an assistant director have acted as an

advisory committee to the business agent on the purchase of musical instruments.

Whenever musical instruments are purchased by the business agent of the School Committee, all offers or bids received by him are referred with the specifications to this advisory committee on musical instruments for its examination of the instruments offered. Invariably this committee's recommendations are accepted by the business agent. In the matter of purchasing pianos especially, the advisory committee on musical instruments is guided largely by the director of music.

In practice, a majority of this committee passes upon all musical instruments, except new concert grand pianos, when custom requires that all three of the committee make the examination together.

John A. O'Shea has been director of music in the public schools of the city since October 2, 1916, succeeding James M. McLaughlin in that position. Prior to becoming director he was assistant director of music from September 1, 1902.

Since 1883 Mr. O'Shea has had a studio in the building occupied by M. Steinert & Sons Company. In December, 1916, Mr. O'Shea purchased two new Steinway grand pianos of M. Steinert & Sons Company. An old Steinway concert grand piano, No. 52034, which Mr. O'Shea then owned, was offered as part payment for the new pianos, but the allowance of \$200 offered by the Steinert Company was not acceptable to Mr. O'Shea. Thereupon Mr. O'Shea placed this piano in the storage warehouses of M. Steinert & Sons Company with an order to sell it, and under an agreement that he was not to be charged any storage.

In May, 1919, M. Steinert & Sons Company notified Mr. O'Shea that after July 1, 1919, it would charge him storage at the rate of \$5 per month.

On October 18, 1919, the business agent of the School Committee advertised for bids for furnishing concert grand pianos. M. Steinert & Sons Company of 162 Boylston street, Boston, was the only bidder. It offered to furnish a reconstructed Chickering grand piano for \$500 and a Steinway grand piano for \$550. Neither piano was indicated by number in this bid.

About this time Mr. O'Shea was told by the then sales manager of M. Steinert & Sons Company, William A. Byrne, that the company had offered to sell his piano to the School Committee, to which Mr. O'Shea replied "All right."

The business agent, following his custom, sent the specifications and offer of M. Steinert & Sons Company to the chairman of the advisory committee on musical instruments. Assistant Superintendent Rafter who, with Mr. O'Shea, called at M. Steinert & Sons Company's place of business, examined the Chickering reconstructed piano and rejected it. They were then shown a used Steinway concert grand in the storage rooms, No. 52034, the property of Mr. O'Shea, and made an examination of it. Mr. O'Shea took part in this examination, knowing that it was his own piano, but did not reveal his ownership to Mr. Rafter. Another Steinway grand was also examined at the same time.

The advisory committee reported in writing to the business agent, under date of November 6, 1919, that it approved two used Steinway grand pianos, one a concert grand, No. 52034, and the other a Steinway grand. This report was accepted by the business agent and accordingly an order for these two pianos was sent to M. Steinert & Sons Company on November

19, 1919. The sum for which each piano was offered included delivery to the school-houses named and such repair work as Mr. O'Shea advised.

On November 20, 1919, Mr. Alexander Steinert, the treasurer of M. Steinert & Sons Company, sent the following letter to Mr. O'Shea:

MR. JOHN O'SHEA,
120 Sutherland Road, Brookline, Mass.:

DEAR SIR,—We beg to say we have received an order from the School Committee, City of Boston, for the purchase of your Steinway grand 52034, with instructions to deliver the piano immediately. In order to have the piano in suitable playable condition for the work necessary in the school it will take about three days' work. We will make a special price to you of \$25 for doing the work. Kindly let us know immediately if you desire the work done, which we will be pleased to do.

Yours very sincerely,
M. STEINERT & SONS COMPANY.

Thereafter Mr. O'Shea indicated the work to be done upon his piano, which was no more than driving the pins and tuning. The piano was shipped to the Henry L. Pierce School in Dorchester, for which shipment Mr. O'Shea was charged \$11 by the Steinert Company.

On January 7, 1920, when the money for this piano had been received by M. Steinert & Sons Company from the City of Boston, it credited Mr. O'Shea for the balance—some \$400—still remaining unpaid on account of the two pianos purchased in December, 1916, above referred to, charged him with the repairs, cartage and five months' storage at \$5 a month, and sent him a check for the balance, \$33.62.

Mr. Alexander Steinert admits that he knew after he received the order that his company was selling to the City of Boston as its property a piano that was the property of Mr. O'Shea, who was then director of music in the public schools.

Mr. O'Shea admits that he knew that his piano was being sold to the School Committee by M. Steinert & Sons Company for and in his behalf, and that as a member of the advisory committee on musical instruments, for the purpose of advising the business agent on the quality of the piano, he examined his own piano with the chairman of the committee, Mr. Rafter, without notifying Mr. Rafter or anybody else representing the School Committee that the piano was his own property. He stated that his reason for concealing his ownership from Mr. Rafter was to insure Mr. Rafter's unbiased opinion on the piano. Later, and unknown to Mr. Rafter, Mr. O'Shea sent the other member of the committee, Mr. Drake, to examine this piano. Mr. Drake approved the piano, although he recognized, but did not divulge it to Mr. O'Shea, that the piano belonged to Mr. O'Shea.

2.—ALLEGED RECEIPT OF COMMISSIONS BY JOHN A. O'SHEA, DIRECTOR OF MUSIC IN THE PUBLIC SCHOOLS, ON SALES OF PIANOS MADE BY M. STEINERT & SONS COMPANY TO THE BOSTON SCHOOL COMMITTEE.

William A. Byrne, formerly sales manager of the M. Steinert & Sons Company, testified that he did not know from actual knowledge that Mr. O'Shea ever received money from the Steinert Company as commissions on sales of pianos to the city or to individuals, except in one instance hereinafter considered. But Mr. Byrne did testify that he understood, as sales manager, that Mr. O'Shea was paid a commission on all sales of pianos made by the M. Steinert & Sons Company to the School Committee of the City of Boston and to individuals.

Mr. Alexander Steinert and Jerome F. Murphy, treasurer and assistant treasurer, respectively, of the Steinert Company, testified that they never authorized or paid any commission to Mr. O'Shea for sales of pianos or other musical instruments to the City of Boston. An examination of the M. Steinert & Sons Company accounts was made by the commission, which disclosed no record of a payment of money to Mr. O'Shea as commission on sales of pianos or other musical instruments to the city. The examination, however, did disclose a money transaction between M. Steinert & Sons Company and Mr. O'Shea.

In 1916 the Steinert Company abandoned the bound-book system of book-keeping theretofore used by it. The new system is an unbound check and voucher system. All moneys received by the concern are required to be deposited before used. All payments made by the concern are made by check, with the exception that under this system, in order to make possible necessary cash payments of small amounts, the cashier is provided with a fund called "petty cash," originated and replenished from the proceeds of checks drawn to "petty cash," and charged to the cashier who must at all times be able to show cash or voucher receipts for the amounts charged against her. This petty cash fund is supposed to remain at about a thousand dollars. When small expenditures aggregating \$150 to \$300 are made from this fund, voucher receipts for the items expended are furnished by the cashier to the treasurer or assistant treasurer and a check is drawn to petty cash for the amount of the voucher receipts. All vouchers are filed alphabetically under department headings.

Under the heading "Services," which designation includes commissions, no voucher or payment was found to Mr. O'Shea for sales to the City of Boston. But under the heading "Personals" was found a voucher showing a payment of \$300 to Mr. O'Shea on December 26, 1919, and designated "Loan."

Assistant Treasurer Murphy stated that he did not take any writing in the nature of a note or other evidence of a loan from Mr. O'Shea, except the check made payable to Mr. O'Shea's order and indorsed by him. This loan was marked "paid" on the voucher February 2, 1920.

William A. Byrne, the then sales manager, testified that this \$300 was not a loan, but was a payment on account of commission to Mr. O'Shea on a contract given by the City of Boston to M. Steinert & Sons Company for nineteen pianos on December 11, 1919. Mr. Byrne further testified that when the contract for these nineteen pianos was received by the Steinert Company from the City of Boston, Mr. O'Shea said to Mr. Byrne, who had charge of the sale, "I think I ought to get 10 per cent on this sale." Mr. Byrne testified his understanding was that Mr. O'Shea up to that time had received \$25 commission for each piano sold to the city, and this 10 per cent was an increase of that rate, as pianos had gone up from \$50 to \$75, the sale of the nineteen pianos being at \$300 each.

Mr. Byrne testified further that Mr. Alexander Steinert objected to this increase in Mr. O'Shea's commission and that later Mr. O'Shea called on Mr. Byrne and said he needed some money to pay his taxes. Mr. Byrne communicated this request to Mr. Alexander Steinert and Mr. Steinert said, "Tell Murphy to give him a check for \$300." Mr. Byrne communicated Mr. Steinert's order to Mr. Murphy, the assistant treasurer, and a check for \$300 was made

out to Mr. O'Shea and given to him on December 26, 1919. Mr. O'Shea testified that this amount was more than he expected to receive.

Mr. Byrne testified that on January 30, 1920, the day before he started on a month's vacation, he was told by Mr. Alexander Steinert that this \$300 paid to Mr. O'Shea stood on the books as a loan, and that he did not like to have it stand that way for fear an investigation would disclose just what it was paid for. A conference was thereupon had with Mr. Murphy, who suggested that Mr. Byrne write a memorandum, dating it back to December 26, 1919, to conform with the date of the check given to Mr. O'Shea. Mr. Murphy dictated this memorandum and Mr. Byrne wrote it, as follows:

December 26, 1919.

DEAR JEROME,—John O'Shea has requested a loan from me personally to take care of his taxes. Will you be good enough to write check for this amount and I will reimburse you in a few days. He will pay it to me in a few weeks—at least this is his promise.

Thanks for the favor,
W. A. B.

It is to be noted that this request is silent as to any definite amount of money.

Mr. Byrne was then, about a month after this loan, requested to give his check to M. Steinert & Sons Company for \$300, for which he would be given \$300 in cash. Mr. Byrne thereupon drew his check for \$300 on the Prudential Trust Company to the order of M. Steinert & Sons Company. The check was received, indorsed and deposited by the Steinert Company, and Mr. Byrne testified that he received \$300 in cash from Mr. Murphy in the presence of Mr. Alexander Steinert.

Mr. Steinert and Mr. Murphy both admit the receipt of Mr. Byrne's check, but deny that he was paid cash for it. The voucher records of the Steinert Company, however, show that a check for \$300 was drawn to petty cash on that same day and no receipt voucher showing its disposition appeared in the records or could be shown by the Steinert Company.

It is to be noted that when the Finance Commission called for the January vouchers this particular \$300 voucher to petty cash was not furnished. Nor was it furnished the commission until its existence was learned by the commission from an examination of check payments through the bank.

There was no petty cash check except this single check that had not attached to it voucher receipts showing its disposition. Moreover, Mr. Byrne's bank account showed that on the next day, January 31, 1920, he deposited \$275 in cash. He testified that he kept \$25 for pocket use and at that time no other money had been received by him from any other source that could make up this \$275 deposit.

According to the testimony of Mr. Steinert and Mr. Murphy, Mr. O'Shea applied to Mr. Byrne for a loan of \$300. Mr. Byrne, not being able to make the loan, although his bank account showed something better than \$1,000 on hand at the time, asked Mr. Murphy to advance \$300 to Mr. O'Shea, promising that in a few days he, Mr. Byrne, would reimburse the company; that Mr. Byrne paid this loan to the company on January 30, 1920. On the records of the Steinert Company the loan was made direct and charged to Mr. O'Shea.

Mr. O'Shea testified that he paid \$300 in cash the latter part of January, 1920, but took no receipt and could show no check, and had no witnesses to the payment. Mr. Byrne testified that Mr.

O'Shea had never paid him \$300, nor did Mr. O'Shea ever or even now owe him \$300.

Mr. O'Shea further stated that when he told his son William that he had borrowed \$300 from Mr. Byrne, his son was irritated and gave his father \$300 to discharge the loan. William A. O'Shea, son of John A. O'Shea, testified that he gave his father \$300 the latter part of January, 1920, in cash, which he drew from the bank on a check, made payable to himself or to cash, but was unable to produce a check payable to himself or to cash for \$300 or over in January, although he had an account with the Cosmopolitan Trust Company and testified that he had between three and four thousand dollars in it at that time.

On January 7, 1920, the following letter was sent to Mr. O'Shea by M. Steinert & Sons Company:

DEAR SIR.—We are pleased to advise you that we received your check [meaning check of City of Boston for his piano] of \$550 today in settlement of a Steinway grand No. 52034, and take pleasure in handing you our check for \$33.62, being the difference between the amount you owe us, as shown by the inclosed receipts and the check of \$550.

Wishing you a very Happy New Year, we are,
Very truly yours,
M. STEINERT & SONS COMPANY.

This letter seems to state very clearly that the indebtedness of Mr. O'Shea to M. Steinert & Sons Company had become entirely discharged by the application of this check for his piano from the city, and in contradiction to Mr. Steinert's testimony and the "Loan" records of the company.

3.—AWARD OF BID MADE TO THE SCHOOL COMMITTEE FOR UPRIGHT PIANOS IN APRIL, 1920.

In April of the present year the business agent of the School Committee advertised for bids for furnishing upright pianos for use in the public schools, not to exceed \$300 in price. Three bids were received. M. Steinert & Sons Company offered its "Berkshire" upright piano at \$300; Charles S. Norris offered an unnamed piano at \$300, and Chickering & Sons offered its "Brewster" piano at \$290.

The business agent of the School Committee, following his custom, referred the bids and the specifications on which they were based to the advisory committee on musical instruments for examination and report. Mr. Rafter and Mr. O'Shea visited the salesrooms of the bidders and examined the pianos offered, reporting in favor of the "Berkshire" piano offered by M. Steinert & Sons Company and rejecting the lowest bid, which was made by Chickering & Sons.

The Chickering Company protested to the business agent that the award should be made to the lowest bidder, although the proposal reserved the right to the business agent, in accordance with the charter requirements, to reject any or all bids or to accept any, whether the lowest or not.

The business agent gave a hearing to representatives of the Chickering Company, inviting the advisory committee on musical instruments to be present. Mr. Rafter and Mr. O'Shea were present at that hearing. After the hearing the business agent communicated with his advisory committee, setting out the points made by the protesting bidder and requesting the advisory committee to advise him in the light of their examinations and the facts disclosed at the hearing.

They replied in writing that they were of the same opinion as originally indicated, namely, in favor of the piano offered by M. Steinert & Sons Company, although it

was quoted at \$10 more than the piano offered by the protesting bidder.

Both Mr. Keough, the business agent, and Mr. Rafter, the chairman of the advisory committee, testified that they never ventured to set their judgment on the tone quality of a piano against the judgment of Mr. O'Shea. The decision of the advisory committee in selecting the Steinert Company bid was based on its superior workmanship and tone.

Neither Mr. Keough, the business agent, nor Mr. Rafter, the chairman of the advisory committee on musical instruments, is in the slightest way involved in the irregularities herein disclosed. They were both deceived and misled by Mr. O'Shea, as were the other city officials to whom he owed a duty as an employee, and under the charter, although this deception may not have resulted in any financial loss to the city.

Section 8 of the charter amendment provides as follows:

It shall be unlawful for the mayor or for a member of the city council or for any officer or employee of the city or of the county of Suffolk or for a member of the finance commission directly or indirectly to make a contract with the city or with the county of Suffolk, or to receive any commission, discount, bonus, gift, contribution or reward from or any share in the profits of any person or corporation making or performing such contract, unless such mayor, member of the city council, officer, or employee or member of the finance commission immediately upon learning of the existence of such contract or that such contract is proposed, shall notify in writing the mayor, city council, and finance commission of such contract and of the nature of his interest in such contract and shall abstain from doing any official act on behalf of the city in reference thereto.

A violation of any provision of this section shall render the contract in respect to which such violation occurs voidable at the option of the city or county. Any person violating the provisions of this section shall be punished by a fine of not more than one thousand dollars, or by imprisonment for not more than one year, or both.

Mr. O'Shea did not notify the Mayor, the City Council and the Finance Commission of this contract made with the City of Boston, as required by said section 8.

Mr. Alexander Steinert is treasurer of M. Steinert & Sons Company and owner of a majority of the capital stock in that company. He is a city official, having membership in the Art Commission. Mr. Steinert did not notify the Mayor, the City Council and the Finance Commission that M. Steinert & Sons Company, in which he owned a majority of the stock, had contracted to sell a piano to the city in November, 1919; and in December, 1919, and January, 1920, had contracted to sell nineteen other pianos; and in April, 1920, nine more pianos, as he was required to do under said section 8.

From all the evidence offered before the commission in this transaction, the commission finds itself unable to believe that the \$300 given to Mr. O'Shea by M. Steinert & Sons Company on December 26, 1919, and designated "Loan," was in fact given as a loan to Mr. O'Shea, and does believe that this \$300 has never been returned to the Steinert Company by Mr. O'Shea or by anybody for him.

It is obvious from the foregoing and from all the evidence offered before the commission, that Mr. O'Shea has rendered himself unfit to represent the City of Boston in the purchase of musical instruments with fairness to any firm that may bid in competition with M. Steinert & Sons Company.

It also seems to the commission obvious that, apart from the violation of the requirements of the charter amendments when dealing with the city in a contractual way, Mr. O'Shea practised a

deceit upon the School Committee and its other representatives, with whom he was acting for the city, in passing upon his own piano and permitting the School Committee to purchase it as the property of M. Steinert & Sons Company.

The matter dealt with in this report is a serious one. Two city officials, one in a department under your immediate control, and the other under the control of the School Committee, have admittedly committed acts which are in violation of the charter amendments above quoted.

The Finance Commission therefore recommends that you transmit a copy of this report to the School Committee and that you take such action in the premises yourself as this report warrants.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

OFFICIAL COMMUNICATION.

STATEMENT OF FRANK V. THOMPSON, SUPERINTENDENT OF SCHOOLS, ON MEDICAL INSPECTION IN THE PUBLIC SCHOOLS.

In view of the recently published attack of Dr. W. R. P. Emerson upon the School Department of the City of Boston, the School Committee of Boston authorizes the following statement:

The School Committee of Boston maintains an efficient, thoroughly organized, competent department of medical inspection, comprising a director of medical inspection, forty-eight visiting physicians, one supervising nurse, forty-seven school nurses employed on full time.

The children of Boston are examined regularly to ascertain physical defects. All instances of physical defects are brought to the attention of parents of the children, with the advice that such defects be treated by the family physician. There exists, likewise, a thoroughly well-organized system of co-operation with the Forsyth Dental Infirmary. Children whose parents so desire, and whose teeth need attention, are brought in groups by school nurses for treatment to the Forsyth Infirmary. There is also an efficient system of co-operation with Harvard and Tufts Dental Schools, Boston Dispensary, and the out-patient departments of the several hospitals.

During the past two years a plan of co-operation has been developed whereby anæmic or malnourished children of our schools are furnished, at cost, with nourishing foods. During the past year the number of children so benefited amounts to 5,500. In addition, some 25,000 children brought their own lunches to school. The School Committee of Boston wishes to emphasize the fact that children of the malnourished or anæmic type who cannot attend school sessions full time are, upon the recommendation of the school physician, dismissed from school for rest periods.

The charge was made by Dr. W. R. P. Emerson that anæmic and physically unfit children are committed to summer review schools. The truth of the matter is that the School Committee of Boston maintains summer review schools for high and elementary pupils for such pupils of good health as the parents may choose to have attend. This opportunity is given to backward children to save the loss in a year of school work. The sum-

mer review school is an opportunity which is permitted; not an obligation which is enforced. The criticisms made by Dr. W. R. P. Emerson have no foundation in fact in the belief of the School Committee. His criticism apparently deliberately ignores the well-organized, carefully supervised, and well-supported department of medical inspection, for which the money raised by taxation of the citizens of Boston is appropriated. In the budget for the current school year the amount of money raised by taxation for medical inspection, school physicians and nurses amounts to \$114,930.33. In addition, the School Committee appropriates for physical education (including supervised and organized play on public playgrounds) the sum of \$149,034.31, making a total amount of money appropriated for the health of the school children of Boston of \$263,964.64.

The School Committee of Boston invites the attention of any interested citizens to an investigation of what is now being done for the health and physical welfare of the school children of Boston.

The only explanation which the School Committee can offer for the public criticism of Dr. W. R. P. Emerson may be the fact that Doctor Emerson is known to be a single-eyed enthusiast for *one aspect* of medical inspection, that he sets himself up as the sole judge of a competent program of medical inspection, and offers a criticism which is misleading to our citizens and untrue in relation to the facts.

TION COMMISSIONERS, 33 Beacon street,
for information as to the care of the Com-
mon, Public Garden, Franklin Park,
Franklin Field, Commonwealth avenue,
Back Bay Fens, Marine Park and the
small parks and playgrounds in general
throughout the city; and as to the exter-
mination of gypsy moths and the charges
made for such service. Application may
be made to this department for informa-
tion regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
Room 1007, City Hall Annex, for informa-
tion as to the construction and repair of
school buildings.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are especially indicated. Week ending June 24, 1920:

PARK AND RECREATION DEPARTMENT.

On June 19 to Nickolas D. Titus for leasing the refreshment privilege and rental of boats concession at the public landing, City Point, South Boston, for a term of one year from June 1, 1920. Bids opened May 27:

Nickolas D. Titus, \$250; James P. Kelleher, \$100.

On June 19 to D. M. Biggs & Co. for grading, drainage and walk on Eagle Hill reservoir. Bids opened June 10:

Smith & Leonard Company, \$35,154; J. C. Coleman & Sons Company, \$34,855; A. G. Tomasello & Co., \$32,970; D. M. Biggs & Co., \$32,245.

On June 19 to A. Piotti for a field house and shelter at Eagle Hill reservoir. Bids opened June 10:

A. Piotti, \$36,784; Joseph Rugo, \$37,800 (tin roof), \$38,400 (asbestos); R. A. Bossi, \$39,200 (tin roof), \$39,300 (asbestos); Charles H. Meade, \$40,517; J. Slotnik, \$43,578.

On June 19 to Warren Brothers Company for pavement in the Fens, between Gaston square and Peterborough street. Bids opened June 10:

J. C. Coleman & Sons Company, \$33,502.50; Central Construction Company, \$29,577.50; Warren Brothers Company, \$28,784.25.

On June 23 to the Warren Brothers Company, second lowest bidder, as per following communication:

BOSTON, June 22, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—You are respectfully notified that proposals were opened at this office on June 10, 1920, for pavement of Jamaica way, between Huntington avenue and Willow Pond road, as follows:

J. C. Coleman & Sons Company, 1620 Tremont street, Boston (bitulithic pavement).....	\$32,730 00
Warren Brothers Company, 142 Berkeley street, Boston (bitulithic pavement).....	29,290 90
Central Construction Company, 228 Southampton street, Boston (sheet asphalt).....	28,730 00

By vote of this Board, subject to your approval, the contract was awarded to the second lowest bidder, Warren Brothers Company, for the approximate sum of \$29,290.90 for bitulithic pavement, same to be charged to the general maintenance appropriation, F-12, Special Items, Parkway Resurfacing.

The commission was guided in its selection of the bitulithic pavement by making a comparison of roadways under the control of this department surfaced with bitulithic and sheet asphalt pavements. Columbia road, from Blue Hill avenue to Edward Everett square, is a bitulithic pavement laid down in the year 1915, and is in excellent condition today. Commonwealth avenue, from Arlington street to Brookline avenue, is also a bitulithic pavement, laid down in the year 1916, and is in very good condition today. The bitulithic pavement on Charlesgate East and Charlesgate West, laid down in 1917, is in very good condition today. The only roadway constructed of sheet asphalt is on Commonwealth avenue, between Beacon street and the Newton line, and a comparison of the two types of pavement shows distinctly to the advantage of the bitulithic pavement.

As the bid of Warren Brothers Company for bitulithic pavement is only \$560.90 more than that of the lowest bidder (whose

bid of \$28,730 is for a sheet asphalt pavement) it is the opinion of the commission that it is to the best economic advantage of the city to award the contract for a bitulithic pavement at this slight difference in cost.

Very respectfully yours,

DANIEL J. BYRNE,
Secretary.

PENAL INSTITUTIONS DEPARTMENT.

On June 22 to the Atlantic Works as per following communication:

BOSTON, June 22, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—The steamer "Monitor" is now at the Atlantic Works, East Boston, for inspection by the steamboat inspectors.

While she is tied up there it will be necessary to repair damaged sheathing both port and starboard, damage on the port side after gangway, repair dock sheathing and provide new covering for deck plates. It will also be necessary to make repairs on the fresh water tanks.

In their communications of June 15 and 21, the Atlantic Works inform me that the approximate cost for the carpenter work will be \$475; for repairs to water tanks, \$443. I am informed this morning by the captain that upon emptying the fresh water tanks further damage was discovered which will necessitate the expenditure of approximately \$160 more, which will bring the total amount to be expended at the Atlantic Works over \$1,000.

You are respectfully asked to grant permission to award the contract for the work above described to the Atlantic Works at a cost not to exceed \$1,200.

Very truly yours,

THOMAS C. O'BRIEN,
Commissioner.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

On June 23 to the Boston Elevated Railway Company, as per following communication:

BOSTON, June 22, 1920.

To the Mayor of Boston:

I am submitting herewith a request for authority to award a contract to the Boston Elevated Railway Company to pave the track area and the space between the tracks on Washington street, between Archdale road and the southerly side of Corinth street, West Roxbury, at an approximate cost of \$26,000.

These tracks are owned by the Eastern Massachusetts Street Railway Company and leased by the Boston Elevated Railway Company, and under the provisions of section 20 of chapter 188 of the Special Acts of 1918 the Eastern Massachusetts Street Railway Company is exempted during the continuance of the war and for a period of two years thereafter, without the express approval of the Public Service Commission, from paying any part of the expense of the construction, alteration, maintenance or repair of any street, highway or other structure.

The Public Utilities Commission, after a hearing on a similar case, declined to request this company to do similar work, and in my opinion this work in the track area and the space between the tracks can be done more economically by the Elevated Railway Company during the progress of their track reconstruction.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

On June 16 to the Burton-Furber Coal Company as per following communication:

BOSTON, June 7, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Premission is respectfully requested to award a contract, without publicly advertising for same, to the Burton-Furber Coal Company for delivery of approximately 300 tons of Pocahontas coal to the Boston City Hospital at a price of \$13 per ton alongside, East Boston, plus demurrage charges not to exceed 50 cents per ton.

The attached list of prices were obtained by this office and as the Burton-Furber Coal Company was the lowest

bidder, I respectfully request that the permission asked for be granted.

Respectfully yours,
G. J. CRONIN,
Superintendent of Supplies.

BOSTON, June 7, 1920.

On June 16 to the White Company as per following communication:

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to purchase from the White Company, without publicly advertising for same, for the Boston City Hospital, three Model 15 White truck chassis, f. o. b., Cleveland, Ohio, as follows: Wheel base, 133½ inches. Tires, front, 34 by 4½. Tires, rear, 34 by 4½.

Price, including standard equipment, \$2,400 each.....	\$7,200 00
Special equipment for each:	
Electric lights and generator at \$120.....	360 00
Stewart Warner speedometer at \$25.....	75 00
Westinghouse air springs, including war tax, at \$272.50.....	817 50
Total.....	\$8,452 50
War excise tax.....	378 00
Freight, freight tax and handling.....	154 50
Allowance on three Fords.....	1,200 00
Total.....	\$8,985 00
Balance due.....	\$7,785 00

I am attaching herewith letter from Dr. John J. Dowling of the Boston City Hospital in which he states it is his intention to standardize on this equipment, and as the White ambulances already in use at the City Hospital have in every way fulfilled the requirements necessary, I respectfully ask permission to award this contract to the White Company.

Respectfully yours,
G. J. CRONIN,
Superintendent of Supplies.

BOSTON, June 11, 1920.

On June 16 to W. & L. E. Gurley as per following communication:

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Authority is respectfully requested to enter into a contract, without public advertising, for three complete sets of sealers' working equipment standards; also twenty-three (23) extra pieces of standard working equipment for the Sealing of Weights and Measures Department. This equipment to be purchased from W. & L. E. Gurley of Troy, N. Y., which firm is the only one who can supply this material according to the Sealer of Weights and Measures. The Sealer of Weights and Measures was in communication with Troemner & Co. of Philadelphia, New England Scale Company and the Fairbanks Company of Boston, and he states that these companies are not in a position to make deliveries. Troemner & Co. could supply some of the articles desired, but the prices are far in excess of the prices submitted by W. & L. E. Gurley, and their types of standards are not in accordance with the ideas of the Sealer of Weights and Measures.

Attached hereto is a letter from the Sealer of Weights and Measures requesting this purchase.

Yours respectfully,
G. J. CRONIN,
Superintendent of Supplies.

BOSTON, June 14, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Supplementing my request of the eleventh instant to purchase sealers'

working equipment standards and twenty-three extra pieces of standard working equipment from W. & L. E. Gurley of Troy, N. Y., you are advised that the total amount of the contract would be \$1,562.40.

Yours respectfully,
G. J. CRONIN,
Superintendent of Supplies.

On June 21 to George F. Smith as per following communication:

BOSTON, June 21, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully request authority to enter into contract to purchase, without publicly advertising, nine (9) pure bred Holstein heifers at a total cost of \$1,850, the contract to be awarded to Mr. George F. Smith, Barre, Mass. These animals were purchased by the Penal Institutions Commissioner at a public auction in the city of Worcester on the 19th of May.

Attached hereto is a letter of the Penal Commissioner requesting the purchase.

Yours respectfully,
G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

INFIRMARY DEPARTMENT.

An addition, amounting to \$475, on contract with George Lawley & Sons Corporation, dated April 30, 1920, viz.: Furnish and install one 52-inch by 80-inch propellor having a blade area of about 340 square inches and weighing approximately 540 pounds. Original contract, \$5,500; total addition, \$475; contract outstanding, \$5,975.

PARK AND RECREATION DEPARTMENT.

An addition, amounting to \$1,552.38, on contract with William Crane, dated April 12, 1920, erection of field house and swing shelter, Mozart Street Playground, viz.: For extending concrete foundations through filling at site. Original contract, \$16,445; total addition, \$1,552.38; contract outstanding, \$17,997.38.

A change on contract with Archdeacon & Sullivan, dated November 7, 1919, erection of sanitary and locker building, Portsmouth Street Playground, viz.: Substitution of cypress for pine on outside wood finish. No change in contract price. Original contract, \$17,814; contract outstanding, \$17,814.

A deduction—amount to be fixed later—on contract with Archdeacon & Sullivan, dated November 7, 1919, erection of sanitary and locker building, Portsmouth Street Playground, viz.: For substitution of sand and gravel from the site for sand and crushed stone specified. Original contract, \$17,814; contract outstanding, \$17,814.

PUBLIC BUILDINGS DEPARTMENT.

A deduction, amounting to \$770, on contract with Langan & Shaw Construction Company, dated December 2, 1919, "for alterations to Suffolk County Jail," viz.: In place of the concrete piles as shown on old building substitute four (4) Cavanagh piles with reinforced beams, all as per sketch, for which a deduction is made in the sum of \$120. In place of reinforcing rods, ½-inch thick, 6 inches on centers, substitute Clinton

wire cloth 3-inch by 8-inch mesh, No. 8 and No. 10 wire, and increase the thickness of the concrete slab from 5 inches to 6 inches, for which neither addition nor deduction is made. Omit the fire escapes as shown on plans, for which a deduction will be made of \$650. Original contract, \$248,500; total deductions, \$770; contract outstanding, \$247,730.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To resurface with tar macadam Clifton street, from Dudley street to Shirley street, the estimated cost for labor and material being \$2,500.

To resurface with asphalt macadam Winslow street, from Dudley street to Eustis street, the estimated cost for labor and material being \$1,500.

To resurface with bituminous macadam Warren street, from Townsend street to Blue Hill avenue, the estimated cost for labor and material being \$3,000.

To resurface with asphalt macadam Canterbury street, from Blue Hill avenue across Angell street, the estimated cost for labor and material being \$1,400.

To resurface with asphalt macadam and regulate Burnett street, from Washington street to Washington street, West Roxbury, the estimated cost for labor and material being \$2,000.

ARTIFICIAL STONE SIDEWALKS.

BOSTON, June 18, 1920.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the John Kelly Company, 5 Ulmer street, Roxbury, and G. Rossetti, 30 Davis street, Revere, and Domenico Guerriero, 35 Dacia street, Roxbury, is hereby requested on the ground that these contractors are not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,
T. F. SULLIVAN,
Commissioner of Public Works.

Approved June 19, 1920.

STREET COMMISSIONERS.

OFFICIAL COMMUNICATION.

TAKE DOWN.

BOSTON, June 14, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—Premises, 60 Wren street, Ward 23, is in such a dilapidated and unsafe condition that it constitutes a decided fire menace and danger to the neighborhood as will be seen by the accompanying photographs. The property belongs to the Chandler Ford estate. We have notified John H. Bourne, as owner or trustee under the will of said Chandler Ford, at his last known residence, Millbrook, Mass., care of H. Walker. We have sent two notices by registered mail under date of December 9, 1919, and April 2, 1920. No notice has been taken of said complaints and no action has been taken toward securing or taking down the dangerous structure. The building has been placarded by this department as will be seen by photograph showing front door.

In consequence of this neglect, in order to secure the public, I ask your permission under section 5, chapter 550, Acts of 1907 as amended to take said building down.

Yours very truly,
 HERBERT A. WILSON,
Building Commissioner.

LAND-TAKING FOR SCHOOL.

BOSTON, June 8, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for the purpose of erecting thereon an elementary school, lower grades, a certain piece or parcel of land in the Lewis District, Roxbury, bounded and described as follows:

Beginning at a point on the northwesterly corner of Walnut avenue and Elmore street, thence northwesterly by line of Elmore street 150.00 feet to land now or formerly of Charles A. Dean; thence turning and running northeasterly by land of said Dean and Andrews et al.,

194.00 feet to land of Rose E. Nawn thence turning and running southeasterly by land of said Nawn 144.00 feet to line of Walnut avenue; thence turning and running southwesterly by line of Walnut avenue 212.00 feet to the point of beginning; and contains 31,077 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding—eminent domain—for carrying out the same.

Respectfully,

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

Approved June 16, 1920.

ANDREW J. PETERS, Mayor.

SIGNAL SYSTEM CONNECTED WITH HIGH PRESSURE FIRE SERVICE APPROVED BY MAYOR PETERS.

BOSTON, June 21, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I have had a study made to decide as to the best system for signalling to be used in connection with the High Pressure Fire Service. From the information submitted to me I am of the opinion that the best system is one by which signals can be transmitted by telegraph from the location of the fire to the fire alarm and pumping stations direct. At the pumping stations all signals would be recorded on a tape with the time of receipt automatically stamped thereon. In addition direct telephone service could be maintained between the boxes and pumping stations so as to verify messages and to be used in the case of faulty telegraph service.

If the above method of signalling is adopted it will be necessary to install a system similar to that used by the police, and in addition to the usual mechanism installed in each box a telegraph key and sounder to be used as a reserve feature. The installation of such a system would cost approximately sixty-five thousand dollars.

There is a second system of transmitting signals which has the approval of Superintendent Fickett of the Fire Alarm Branch of the Fire Department. He suggests that such a system should be adopted for the present. The system is as follows:

A plug device to be installed in the fire alarm box posts in the High Pressure Fire Service district. Portable telephones and telegraph instruments may by this device be connected into the circuits. Telegraph messages to be transmitted through the fire alarm office to the pumping stations from the location of the fire, and these messages to be recorded in the fire alarm office as well as at the pumping stations. By this method apparatus used for receiving and recording signals at the pumping stations would be similar to that used in the first system. If, for any cause, transmission from the fire alarm box to the pumping stations through the fire alarm office becomes inoperative, the signals in such an event could be transmitted to the fire alarm office on the box circuits, and on receipt of such signals the fire alarm operator would then key the signals to the pumping station. Telephone connection can also be maintained between the fire alarm box, the fire alarm office, and pumping stations. The fire alarm box posts which would be used in this system are close enough together in the high pressure zone to give reasonably good service. The cost of installing this second method will be approximately five thousand dollars.

Whatever work is done and apparatus purchased under the second method could be used in installing the system first outlined if it is decided later that that system should be installed.

In New York and Philadelphia special telephone service is used for the signal system connected with the High Pressure Fire Service. In Baltimore portable telephones are carried on all apparatus and connection can be made with the pumping station through fire alarm signal boxes.

I am informed that in New York it is customary to increase the pressure in the High Pressure Fire Service to 125 pounds

on receipt of alarms from the territory covered by the service and that once in four or five times when the system is used the demands of the fire require the pressure to be increased beyond that point. In Philadelphia the signal system is used about six times in a year. If the signal system is used in Boston in the same proportion as in these two cities I doubt the wisdom of spending sixty-five thousand dollars for an elaborate system until we have tried the satisfactory system of a simpler design recommended by Super-

intendent Fickett, and which will cost approximately five thousand dollars.

I therefore request authority from your Honor to install the second system as above described, at a cost of approximately five thousand dollars, to be paid for out of the appropriation made for the extension of the High Pressure Fire Service.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

TEMPORARY ASSIGNMENTS OF EMPLOYEES.

BOSTON, June 4, 1920.

To the Mayor of Boston:

The following employees of the Paving Service have been assigned temporarily as asphalt plant operators, as provided for in the budget. I respectfully request your approval to the increase of their wages to \$4.25 per day when they are so employed and to pay them their regular rate of \$4 per day when working as laborers:

Daniel Murphy, Patrick Martin, Arthur Hickey, John Connolly, John Lally, John Concannon, Thomas Connolly, Brian McGowan, Timothy McCarthy, Patrick McKenna, Daniel Dolan, Michael Graham, James Killion.

The following employees of the Paving Service have been assigned temporarily

as cement finishers, and I respectfully request your approval to the increases as indicated, provision having been made in the budget.

James Lally, paver, from \$5 to \$5.50 per day; William J. Monahan, paver, from \$4.50 to \$5.50 per day; Patrick Burke, laborer, from \$4 to \$5.50 per day; Archangelo Faiella, laborer, from \$4 to \$5.50 per day.

These men will be paid \$5.50 per day when employed as cement finishers; when employed in their former positions the regular rate will prevail.

All of the above increases are to be effective from June 4, 1920.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved June 16, 1920.

OFFICIAL COMMUNICATION.

REPORT OF RENT AND HOUSING COMMITTEE.

BOSTON, June 18, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—From the date of its organization on March 26 last to June 15 the Rent and Housing Committee, in its endeavors to equitably adjust differences between landlords and tenants, has obtained results in 1,125 cases. These results are shown in a general way as follows:

Rent increases adjusted.....	241
Rent increases found to be not unreasonable, Tenant and owner to adjust.....	130
Extension obtained on vacate notices.....	170
Extension impossible to obtain on vacate notices.....	209
	37

No rent increase until repairs are made....	9
Information asked by tenants for future action.....	75
Complaints investigated and held at request of tenant.....	52
Referred to Board of Health.....	35
Referred to Fire Department.....	6
Referred to Police Department.....	2
Referred to Water Department.....	1
Referred to other cities.....	25
Referred to Legal Aid Society.....	4
Adjusted at State House.....	6
Pending in court.....	21
Disposed of by tenant.....	11
Vacate notices found to be illegal.....	42
Miscellaneous.....	49
	1,125

In cases where legal notice to vacate has been served the committee has been successful in obtaining extensions beyond the time specified in 85 per cent of such cases.

In complaints of rent increases it has

Amount authorized.....	\$2,500 00
Salaries of adjusters.....	\$780 00
Salary of clerk and stenographer.....	222 33
	\$1,002 33
Stationery and printing.....	\$133 45
Postage.....	108 64
Supplies.....	18 21
Due Transit Department for time of its employees.....	44 56
	304 86
	1,307 19
	\$1,192 81

This unexpended balance of \$1,192.81 will be sufficient to carry on the work of the committee up to August 1 next.

It seems to your committee from the number of cases that continue to come to its attention that there will be a demand for some time for work of a character which the committee is performing. Moreover there is a great deal of opinion that when the fall months come there is likely to be a considerable increase of complaints which the committee ought to be prepared to meet without any delay. While the expenditures of the committee have been mainly for the purpose of handling rent complaints there are, of course, general aspects of the housing situation which have required attention and in the future probably will require attention. An illustration of this is the demand for information as to just how acute the shortage is, what is the probable number of houses needed and how adequate are the existing housing accommodations.

To meet this kind of inquiry the committee has investigated by questionnaire all of the many habitations called to its attention by the Board of Assessors. This kind of service, of course, is to be distinguished from the inquiries which have been prosecuted by the City Planning Board.

It is the experience of the committee that more attention is continually required for the proper handling of these complaints, not only from new cases but from new situations developing in old cases. This will undoubtedly necessitate the services of an additional adjuster and in all probability will call for an increase in the compensation of the present force.

It is our belief that it would be wise and prudent to continue the present activities of the committee which is now being constantly consulted upon the manifold difficulties arising between landlords and tenants. Our study of the immediate future leads us to the conclusion that the expense necessary to carry on our work will be in the vicinity of one thousand dollars per month and that provision should be made to continue the work of the committee to January 31, 1921.

The committee therefore respectfully recommends that the sum of six thousand dollars be authorized to meet the expenses

made adjustments in 45 per cent of such complaints; has found rent increases to be not unreasonable in 24 per cent; and has effected agreements between landlords and tenants themselves to adjust amicably in 31 per cent. In other words, adjustments were made directly or indirectly by the committee in 76 per cent of the complaints of rent increases presented to it.

The total expenditure incurred to date has been \$1,307.19. This figure includes the amount expended for questionnaire sent out relative to vacant property, so that the average cost per case of rent increase complaints has been about \$1.

On March 29 the City Council authorized to meet the expenses necessary to carry on the work of the committee the sum of \$2,500. The expenditures to date are detailed as follows:

incurred or to be incurred by this committee to January 31, 1921.

Yours very truly,

MALCOLM E. NICHOLS,
Chairman.

ACTS RELATING TO CITY OF BOSTON.

[CHAPTER 440.]

AN ACT RELATIVE TO THE USE OF AUTOMATIC SPRINKLERS IN TENEMENT HOUSES IN THE CITY OF BOSTON, AND TO APPEALS FROM DECISIONS OF THE BUILDING COMMISSIONER.

Be it enacted, etc., as follows:

SECTION 1. Section forty-five of chapter five hundred and fifty of the acts of nineteen hundred and seven, as amended by section ten of chapter seven hundred and eighty-two of the acts of nineteen hundred and fourteen and by section four of chapter three hundred and fifty-two of the Special Acts of nineteen hundred and fifteen, is hereby further amended by striking out the fourth paragraph and substituting the following paragraphs:—Stairway enclosures, and elevator, light, ventilating and dumb-waiter shafts in all tenement houses, now or hereafter existing, being more than three stories high and containing more than ten suites, shall be provided with a system of automatic sprinklers approved as to situation, arrangement and efficiency by the building commissioner.

As to existing tenement houses of first class construction, and as to existing tenement houses of second or third class construction in which any stairway enclosure, elevator, light, ventilating or dumb-waiter shaft is fireproof, as defined in section thirty-three, as amended by section fourteen of chapter one hundred and seventy-nine of the Special Acts of nineteen hundred and eighteen, the commissioner may waive the provisions of this section in respect to automatic sprinklers, except in cases where, in his opinion, a fire hazard exists.

The building commissioner may order the basement or cellar of any tenement house more than three stories in height and having more than ten suites to be provided with a system of automatic sprinklers approved by him as to situation, arrangement and efficiency unless the ceilings of such basements or cellars and all partitions therein are protected with fireproofing as provided in section thirty-three. If the ceilings and partitions of such a basement or cellar are protected, as aforesaid, with fireproofing, the commissioner may, nevertheless, require to be installed therein a system of automatic sprinklers approved by him as to situation, arrangement and efficiency, provided that he finds a hazardous fire condition to exist in such basement or cellar.

SECT. 2. Said section forty-five, amended as aforesaid, is hereby further amended by striking out the sixth paragraph, and substituting the following:—

In every tenement house now or hereafter existing which is more than three stories high and has more than eight suites, all elevator, vent and dumb-waiter shafts and stairways shall be enclosed in the basement or cellar by masonry walls not less than eight inches thick, or by two-inch solid metal and plaster partitions with fireproof self-closing doors.

SECT. 3. Section seven of said chapter five hundred and fifty is hereby amended by striking out the word "ten", in the fourth line, and substituting the word:—thirty,—so that the first paragraph of the said section will read as follows:—An applicant for a permit whose application has been refused may appeal therefrom within ninety days. A person who has been ordered by the commissioner to

incur any expense may within thirty days after being notified of such order appeal therefrom by giving to the commissioner notice in writing of his appeal. Such notice or a certified copy thereof shall at once be transmitted by the commissioner to the board of appeal. After notice given to such parties as the board shall order, a hearing shall be had, and the board shall affirm, annul or modify said refusal or order. The board may vary the provisions of this act in specific cases which appear to them not to have been contemplated by this act although covered by it, or in cases where manifest injustice is done, provided that the decision of the board in such a case shall be unanimous and shall not conflict with the spirit of any provision of this act. [Approved May 12, 1920.]

[CHAPTER 443.]

AN ACT TO ESTABLISH A BASIS FOR DETERMINING THE ANNUAL ASSESSMENTS UPON THE MUNICIPALITIES WITHIN THE METROPOLITAN PARKS DISTRICT FOR INTEREST, SINKING FUND AND SERIAL BOND REQUIREMENTS AND COST OF MAINTENANCE.

Be it enacted, etc., as follows:

SECTION 1. The proportions in which each of the cities and towns of the metropolitan parks district, including Cohasset with respect to Nantasket beach reservation only, shall annually pay money into the treasury of the commonwealth to meet the interest, sinking fund and serial or other bond requirements for each year and any deficiency in the amounts previously paid in, as estimated by the state treasurer, shall be as follows:—The city of Boston shall pay as a special assessment sixteen and two thirds per cent of the money so required on account of the amount expended for construction of the marginal conduit on the Boston side of the Charles river basin as heretofore determined by the apportionment commission appointed by the supreme judicial court in the year nineteen hundred and ten; the city of Cambridge shall pay as a special assessment sixteen and two thirds per cent of the money so required on account of the amount expended for construction of the marginal conduit on the Cambridge side of the Charles river basin as heretofore determined by the said apportionment commission; and the payment of the balance shall be based upon the respective taxable valuations of the property of said cities and towns of the metropolitan parks district.

SECT. 2. The proportion in which each city and town of said district shall annually pay money into the treasury of the commonwealth to meet the cost of maintenance of reservations, exclusive of Nantasket beach reservation and the Charles river basin, and any deficiency in the amounts previously paid in, as found by said treasurer, shall be apportioned according to the average percentage of valuation and population, determined as to any city or town by adding together the percentage which the valuation of the same bears to the total valuation of the cities and towns of the district and the percentage which the population of the same bears to the total population of the cities and towns of the district, and dividing this sum by two.

SECT. 3. The proportion in which each city and town of the metropolitan parks district, including Cohasset with respect

to the maintenance of Nantasket beach reservation only, shall annually pay money into the treasury of the commonwealth to meet the cost of maintenance of said reservation and the Charles river basin and one half the cost of maintenance of boulevards and any deficiency in the amounts previously paid in, as found by said treasurer, shall be based upon the respective taxable valuations of the property of said cities and towns. The remaining half of the cost of maintenance of boulevards shall be paid by all the cities and towns of the state as a part of the annual state tax.

SECT. 4. The metropolitan district commission shall annually, in accordance with the provisions of the foregoing sections, determine the proportion in which each of the cities and towns of said district shall annually pay money into the treasury of the commonwealth to meet the interest, sinking fund and serial or other bond requirements and the cost of maintenance of reservations and boulevards, and shall transmit the determinations of the commission to the state treasurer.

SECT. 5. The amount of money required each year from every such city or town to meet the interest, sinking fund and serial or other bond requirements and the cost of maintenance aforesaid, and the deficiency, if any, shall be estimated by the state treasurer, in accordance with the proportions determined as aforesaid by said commission, together with any amounts required by law to be specially assessed upon any particular city or town, and shall be included and made a part of the sum charged to such city or town, and shall be paid by such city or town into the state treasury at the time required for the payment of its proportion of the state tax.

SECT. 6. This act shall apply to the apportionment and payment of interest, sinking fund and serial or other bond requirements and costs of maintenance by said cities and towns for the year nineteen hundred and twenty and each year thereafter. For the purposes of this act, the words "taxable valuations of the property of cities and towns" shall mean taxable valuations of property last established next prior to such apportionment by the general court as a basis of apportionment for state and county taxes; and the words "population of the cities and towns" shall mean the population as determined by the latest census, state or national, next prior to such apportionment.

SECT. 7. This act shall take effect upon its passage. [Approved May 13, 1920.]

[CHAPTER 528.]

AN ACT AUTHORIZING CITIES AND TOWNS TO MAKE APPROPRIATIONS FOR ERECTING HEADSTONES OR OTHER MONUMENTS AT THE GRAVES OF PERSONS WHO SERVED IN THE WORLD WAR.

Whereas, The deferred operation of this act would be inconsistent with the duty the public owes to the veterans of the world war, therefore, it is hereby declared to be an emergency law necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

Paragraph thirteen of section fifteen of chapter twenty-five of the Revised Laws, as amended by section one of chapter ninety of the acts of nineteen hundred and ten, is hereby further amended by inserting after the word "war" in the sixth and tenth lines, the words:—or in the world war,—so as to read as follows:—For erect-

ing headstones or other monuments at the graves of persons who served in the war of the revolution, the war of eighteen hundred and twelve, the Seminole war, the Mexican war or the war of the rebellion, or who served in the military or naval service of the United States in the Spanish-American war, or in the world war; for erecting or dedicating monuments in memory of soldiers who died in the service of the country in the war of the rebellion, or of soldiers or sailors who died in the service of the United States in the Spanish-American war or in the world war; and for keeping in repair or decorating graves, monuments or other memorials erected to the memory of soldiers or sailors who served the United States, or to the memory of its firemen who died from injuries received in the performance of their duties in the fire service, or for other memorial observances in their honor. Money appropriated in honor of such firemen may be paid over to, and expended for such purpose by, any veteran firemen's association or similar organization. [Approved May 27, 1920.]

[CHAPTER 508.]

AN ACT RELATIVE TO THE MEDICAL SERVICE FURNISHED TO THE MUNICIPAL COURT OF THE CITY OF BOSTON SITTING FOR CRIMINAL BUSINESS.

Be it enacted, etc., as follows:

SECTION 1. Section one of chapter one hundred and sixty-six of the General Acts of nineteen hundred and fifteen is hereby amended by striking out all after the word "annually", in the fourth line, and substituting the following:—such sum, not exceeding ten thousand dollars, as the justices of the said court may, from time to time, determine to be necessary, and as shall be approved by the mayor of Boston, the same to be paid by the county of Suffolk upon vouchers approved by the chief justice of the said court,—so as to read as follows:—*Section 1.* The municipal court of the city of Boston may secure for the criminal business of said court medical service, and the equipment necessary therefor, and for this purpose may expend annually such sum, not exceeding ten thousand dollars, as the justices of the said court may, from time to time, determine to be necessary, and as shall be approved by the mayor of Boston, the same to be paid by the county of Suffolk upon vouchers approved by the chief justice of the said court.

SECT. 2. This act shall take effect upon its acceptance by vote of the city council of the said city, subject to the provisions of its charter, provided that such acceptance occurs prior to the thirty-first day of December in the current year. [Approved May 25, 1920.]

[CHAPTER 514.]

AN ACT TO CONTINUE THE COMMISSION ON FOREIGN AND DOMESTIC COMMERCE.

Be it enacted, etc., as follows:

SECTION 1. The commission on foreign and domestic commerce established by chapter one hundred and nineteen of the General Acts of nineteen hundred and nineteen, is hereby continued and placed in the department of labor and industries. The commission shall consist of five members, one of whom shall be the commissioner of labor and industries and shall choose one of its members as chairman. The other four members shall be appointed by the governor, with the advice and consent of the council for terms of four years, except that the ini-

tial appointments shall be for one, two, three and four years. The members of the commission shall serve without compensation.

SECT. 2. Subject to the approval of the governor and council, the commission may secure an office in the city of Boston and may appoint and fix the compensation of a secretary and an assistant secretary and such experts as it may require and may remove them with like approval. Subject to chapter nineteen of the Revised Laws as amended and chapter two hundred and twenty-eight of the acts of nineteen hundred and eighteen as amended the commission may employ such other clerks and employees as it may require.

SECT. 3. The commission shall take such measures as it may deem suitable to develop and increase the foreign and domestic commerce of the commonwealth, and shall co-operate with any similar public bodies or officials in developing and increasing such commerce. The commission, on behalf of the commonwealth, may accept contributions, and, subject to the approval of the governor and council, may expend the same and also such sums as may be appropriated by the general court, for the purpose of carrying out the provisions of this act.

SECT. 4. This act shall take effect as of December first, nineteen hundred and twenty, except that the appointment of the commissioners shall be made as of November fifteenth, nineteen hundred and twenty. [Approved May 25, 1920.]

[CHAPTER 515.]

AN ACT TO PROVIDE FOR AN ALLOWANCE TO THE FAMILIES OF CERTAIN POLICEMEN KILLED OR FATALLY INJURED IN THE DISCHARGE OF THEIR DUTIES.

Be it enacted, etc., as follows:

SECTION 1. If a policeman in a regularly organized police department of a city or town, or a member of the department of public safety doing police duty is killed, or dies within sixty days from injuries received, while in the performance of his duties, and his death is certified by the city or town clerk or commissioner of public safety, as the case may be, and by the attending physician or medical examiner, to the officer required to make payment as hereinafter provided, there shall be paid to his executor or administrator the sum of one thousand dollars for the use equally of his widow and minor children; or if there are minor children but no widow, to their use, or if there is no minor child, to the use of the widow. A child of full age dependent upon such policeman for support shall be regarded as a minor child. Payment shall be made by the treasurer of the city or town concerned, if the policeman was in the service of a city or town, and by the state treasurer if the policeman was a member of the department of public safety doing police duty.

SECT. 2. Section four of chapter four hundred and fifty-three of the acts of nineteen hundred and nine, as amended by chapter five hundred and forty-five of the acts of nineteen hundred and thirteen, is hereby further amended by striking out the said section and substituting the following:—*Section 4.* If any officer of the metropolitan park police shall die from injuries received while in the discharge of his duty and shall leave a widow, or if no widow, any child or children under the age of sixteen years, a sum not exceeding one thousand dol-

lars may be paid as an annuity to such widow so long as she remains unmarried, or for the benefit of such child or children so long as he or any one of them continue under the age of sixteen years, and the metropolitan district commission may from time to time determine the amount of such annuity within the limits aforesaid. [Approved May 25, 1920.]

[CHAPTER 524.]

AN ACT FURTHER TO REGULATE APPROPRIATIONS BY THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

Be it enacted, etc., as follows:

SECTION 1. Section one of chapter two hundred and six of the Special Acts of nineteen hundred and nineteen is hereby amended by striking out item (b) and substituting the following:—(b) For the construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards, and the preparing of school yards for use, and for the rent of hired school accommodations: for the financial years ending on the thirty-first day of January, nineteen hundred and twenty-one, nineteen hundred and twenty-two, and nineteen hundred and twenty-three, respectively, one dollar and sixty-three cents; and for each financial year thereafter sixty-eight cents: *provided*, that for the financial year ending on the thirty-first day of January, nineteen hundred and twenty-one, a sum not exceeding six hundred thousand dollars shall be set aside for and devoted to meeting the expense of constructing and furnishing a public Latin school in said city, which amount shall be in addition to the appropriation authorized by chapter one hundred and ninety-nine of the Special Acts of nineteen hundred and nineteen; and *provided, further*, that for the financial year ending on the thirty-first day of January, nineteen hundred and twenty-two, a sum not exceeding four hundred and fifty thousand dollars shall be set aside for and devoted to the purpose of acquiring a site for an administration building and for constructing and furnishing such building, in addition to the amounts authorized therefor under the provisions of section two of chapter four hundred and fifty of the acts of nineteen hundred and seven and of chapter three hundred and thirty-one of the acts of nineteen hundred and fourteen, as amended by section three of chapter two hundred and sixty-seven of the Special Acts of nineteen hundred and sixteen, and orders passed by the school committee in pursuance of said acts.

SECT. 2. Section one of said chapter two hundred and six is hereby further amended by striking out item (c) and substituting the following:—(c) For the alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards: for the financial years ending on the thirty-first day of January, nineteen hundred and twenty-one, nineteen hundred and twenty-two, and nineteen hundred and twenty-three, respectively, eighty-four cents, and for each financial year thereafter, thirty-five cents: *provided*, that if the school committee shall fail during any one of the financial years ending on the thirty-first day of January, nineteen hundred and twenty-one, nineteen hundred and twenty-two, and nineteen hundred and twenty-three, respectively, to appropriate the full amount which it is authorized to

appropriate for this item, it may correspondingly increase by such an amount unappropriated in excess of thirty-five cents the appropriation which it is authorized to make under item (b).

SECT. 3. Nothing in this act shall be construed to impair the validity of or to prevent the issue of negotiable bonds to meet the expense of constructing and furnishing the public Latin school in said city as provided by chapter one hundred and ninety-nine of the Special Acts of nineteen hundred and nineteen.

SECT. 4. To provide for the increased expenditures authorized by chapter two hundred and six of the Special Acts of nineteen hundred and nineteen, as amended by chapter two hundred and forty-nine of the Special Acts of nineteen hundred and nineteen, and for the increased expenditures authorized by this act, the limit of the amount of taxes on property in the city of Boston is hereby increased in the years nineteen hundred and twenty, nineteen hundred and twenty-one and nineteen hundred and twenty-two by three dollars and sixty-five cents, and in each year thereafter by two dollars and twenty-one cents on each one thousand dollars of the valuation upon which the appropriations of the city council of the city of Boston are based.

SECT. 5. So much of section ten of said chapter two hundred and six, amended as aforesaid, as is inconsistent herewith, is hereby repealed.

SECT. 6. This act shall take effect upon its acceptance by the mayor, the city council, and the school committee of said city. [Approved May 26, 1920.]

[CHAPTER 530.]

AN ACT TO AUTHORIZE THE METROPOLITAN DISTRICT COMMISSION TO MAKE CERTAIN EXPENDITURES FOR THE IMPROVEMENT AND DEVELOPMENT OF THE METROPOLITAN WATER SYSTEM.

Be it enacted, etc., as follows:

SECTION 1. The metropolitan district commission may incur expenditures for replacements and permanent improvements for the metropolitan water district as follows: for the purchase and installation of certain equipment at the northern high-service pumping station at Spot pond in Stoneham, a sum not exceeding two hundred and fifty thousand dollars; for the purchase and installation of certain equipment for the southern high-service pumping stations at Chestnut Hill reservoir in Brighton, a sum not exceeding two hundred thousand dollars; for replacing the Arlington standpipe and expenses incidental thereto, a sum not exceeding one hundred and seventy-five thousand dollars; for increasing the capacity and re-enforcing the pipe line for the northern high-service district, a sum not exceeding two hundred and eighty thousand dollars; for the construction of direct gravity lines to connect with the proposed Western aqueduct and Spot pond, a sum not exceeding one million eight hundred thousand dollars.

SECT. 2. To meet the expenditures to be incurred under this act, the treasurer and receiver-general may issue notes or bonds for a sum not exceeding two million seven hundred and five thousand dollars, for terms not exceeding forty years as recommended by the governor in a message to the general court dated May twenty, nineteen hundred and twenty, in accordance with section three of Article LXII of the amendments to the constitution, and at such rates of interest as the treasurer and receiver-general, with the approval of the governor and council,

may fix. The said loan shall be in addition to the loan authorized by chapter four hundred and eighty-eight of the acts of eighteen hundred and ninety-five and acts in amendment thereof and in addition thereto, which act shall be applicable hereto except as otherwise provided herein. [Approved May 27, 1920.]

[CHAPTER 531.]

AN ACT TO PROVIDE THAT VETERANS IN THE PUBLIC SERVICE SHALL HAVE LEAVE OF ABSENCE ON MEMORIAL DAY.

Be it enacted, etc., as follows:

SECTION 1. No veteran, as defined in section one of chapter one hundred and fifty of the General Acts of nineteen hundred and nineteen, in the service of the commonwealth or of any county, city or town therein, or of the metropolitan district commission, except policemen and firemen and members of the department of public safety doing police duty shall be required to perform any service on Memorial day.

SECT. 2. Veterans, as so defined, employed as policemen or firemen by the metropolitan district commission or by any city or town, may be granted leave of absence without loss of pay on Memorial day by the said commission or by the governing authorities in cities and towns. [Approved May 27, 1920.]

[CHAPTER 534.]

AN ACT TO PROVIDE FOR AN ITALIAN INTERPRETER FOR THE EAST BOSTON DISTRICT COURT.

Be it enacted, etc., as follows:

The presiding justice of the East Boston district court may appoint an Italian interpreter for service in that court who shall receive from the county of Suffolk an annual salary not exceeding twelve hundred dollars. [Approved May 27, 1920.]

[CHAPTER 538.]

AN ACT TO EXTEND THE DURATION OF AN ACT RELATIVE TO TERMINATION OF TENANCIES AT WILL.

Be it enacted, etc., as follows:

Section two of chapter two hundred and fifty-seven of the General Acts of nineteen hundred and nineteen is hereby amended by striking out the word "twenty-one", at the end thereof, and substituting the word:—twenty-two,—so as to read as follows:—Section 2. This act shall take effect upon its passage, but shall become null and void on the first day of february in the year nineteen hundred and twenty-two. [Approved May 27, 1920.]

[CHAPTER 545.]

AN ACT TO PROVIDE FOR THE REGULATION OF ADVERTISING SIGNS AND DEVICES WITHIN THE PUBLIC VIEW.

Be it enacted, etc., as follows:

SECTION 1. The division of highways of the department of public works, hereinafter called the division, shall within sixty days after the passage of this act, make rules and regulations for the proper control and restriction of billboard and other advertising devices on public ways or on private property within public view of any highway, public park or reservation, and the division may, from time to time, amend, repeal or add to the said rules and regulations. The rules and regulations so made may require that billboards or other devices as aforesaid shall be licensed in accordance with the provisions thereof and of this act. The said rules and regulations need not be uniform throughout the

commonwealth, and may prescribe license fees, to be fixed with regard to the cost of administering the provisions of this act.

SECT. 2. The division shall, before establishing or amending rules or regulations hereunder, hold duly advertised public hearings in the city of Boston and elsewhere in the commonwealth as it deems necessary or expedient.

SECT. 3. Cities and towns may, by ordinance or by-law, subject to the approval of the division and not inconsistent with the provisions of this act or of the rules and regulations made by the division, further regulate and restrict the said billboards or other devices within their respective limits.

SECT. 4. No person, firm, association or corporation shall post, erect, display or continue to maintain any billboard or other advertising device, whether already erected at the time when this act takes effect or not, on any public way or on private property within public view from any highway, public park or reservation, which advertises or calls attention to any business, article, substance or any other thing, unless such billboard or device conforms to the rules, regulations, ordinance or by-laws established under authority of this act: *provided, however*, that nothing herein contained shall apply to signs or other devices erected and maintained in conformity with existing law, advertising or indicating the person occupying the premises in question or the business transacted thereon, or advertising the property itself or any part thereof as for sale or to let.

SECT. 5. This act shall not apply to signs and other devices on or in the rolling stock, station, subways or structures of or used by common carriers.

SECT. 6. The supreme judicial court and the superior court shall have jurisdiction in equity on petition of the attorney-general or of any city or town, or of any officer thereof or of any interested party, to restrain the erection or maintenance of any billboard, sign or device erected or maintained in violation of the provisions of any rule, regulation, ordinance or by-law adopted under the provisions of this act, and to order its removal or abatement as a nuisance.

SECT. 7. Any violation of any rule, regulation, ordinance or by-law adopted hereunder shall be punished by a fine of not more than one hundred dollars. Whoever unlawfully maintains a billboard, sign or advertising device as herein described for a period of twenty days after conviction thereof, shall be deemed to be guilty of a second offense and shall be further punished by a fine not exceeding five hundred dollars. [Approved May 27, 1920.]

[CHAPTER 552.]

AN ACT RELATIVE TO ABATEMENTS OF POLL TAXES.

Be it enacted, etc., as follows:

SECTION 1. The assessors in cities and towns may, from time to time, certify under oath to the commissioner of corporations and taxation, in such form and detail as may be required by him, abatements of poll taxes of the years nineteen hundred and twenty, nineteen hundred and twenty-one, nineteen hundred and twenty-two and nineteen hundred and twenty-three made by them on the ground that the same were illegally assessed, or abatements made pursuant to any of the following-named provisions of law:—The tenth clause of section five of Part I of chapter four hundred and ninety of the acts of nineteen hundred and nine; the fourteenth clause of the said section five

as amended by chapter three hundred and thirty-three of the acts of nineteen hundred and ten, and by section three of chapter one hundred and forty-four of the General Acts of nineteen hundred and sixteen; chapter forty-nine of the General Acts of nineteen hundred and eighteen, as amended by chapter nine of the General Acts of nineteen hundred and nineteen; section nine of chapter two hundred and eighty-three of the General Acts of nineteen hundred and nineteen: *provided*, that written application has been made to the assessors for abatement, stating the grounds on which the same is applied for, or that such other proof has been obtained by the assessors as the said commissioner approves; and *provided*, further, that said abatements are first entered, in accordance with the provisions of chapter five hundred and seventeen of the acts of nineteen hundred and nine, in a record of abatements kept by the assessors, showing the cause or reason for the abatement. The certificate shall state the number of poll taxes and the amount of the abatements made on the ground of illegal assessment, and also the number of poll taxes and the amount of abatements made under each of the statutory provisions above mentioned.

SECT. 2. If the commissioner of corporations and taxation is satisfied that the abatements certified to him pursuant to the provisions of this act have been made and recorded in accordance with law he may make allowance with respect to such portion or the whole thereof as, in his judgment, represents unavoidable loss in the collection of the taxes assessed, either in assessing taxes upon the respective municipalities pursuant to the provisions of said chapter two hundred and eighty-three, or by making and certifying to the treasurer and receiver-general abatements from taxes already so assessed.

SECT. 3. If, upon due investigation or proof, the assessors of the city of Boston are satisfied that a person whose name appears upon the lists furnished them under the provisions of section five of chapter ninety-three of the Special Acts of nineteen hundred and eighteen (a) was not an inhabitant of said city on April first, or (b) was named more than once upon said lists, or (c) was not in existence on April first, said assessors shall be empowered to correct said lists before assessing a poll tax to such person, and if such tax shall have already been assessed before discovery by the assessors of the error in said lists, the assessors shall have the power of their own motion, at any time, to abate such tax as erroneously or illegally assessed. [Approved May 27, 1920.]

[CHAPTER 553.]

AN ACT TO ESTABLISH A NEW PROCEDURE FOR THE HEARING AND DETERMINATION OF SMALL CLAIMS.

Be it enacted, etc., as follows:

SECTION 1. The justices or a majority of them of all the police, district and municipal courts, except the municipal court of the city of Boston, shall make uniform rules applicable to said courts, and the justices of the municipal court of the city of Boston or a majority of them shall make rules applicable to that court, providing for a simple, informal, and inexpensive procedure, hereinafter called the procedure, for the determination, according to the rules of substantive law, of claims in the nature of contract or tort, other than slander and libel, in which the plaintiff does not claim as debt or damages more than thirty-five

dollars, and for a review of judgments upon such claims when justice so requires. The procedure shall not be exclusive, but shall be alternative to the formal procedure for causes begun by writ. The procedure shall include the beginning of actions with an entry fee of one dollar but without writ, and without requirement, except by special order of court, of other pleading than a statement to a clerk or an assistant clerk of the court, who shall reduce the same to concise written form in a docket kept for the purpose. The procedure shall include notice by registered mail instead of the mode of legal service heretofore required, and shall further include provisions for early hearing of actions thus begun. The procedure may include the modification of any or all existing rules of pleading and practice, and a stay of the entry of judgment or of the issue of execution. The rules for the procedure may provide for the elimination of any or all fees and costs now fixed by law, and may also provide that the imposition of costs in causes under the procedure shall be in the discretion of the court. In causes begun under the procedure the court may on application for cause shown issue writs of attachment of property or person as in causes begun by writ.

SECT. 2. A plaintiff beginning a cause under the procedure shall be deemed to have waived a trial by jury and his right of appeal to the superior court, or in the municipal court of the city of Boston to a report to the appellate division of said court, unless said cause shall be removed to the superior court as herein-after provided, in which case the plaintiff shall have the same right to claim a trial by jury as if the cause had been begun in the superior court. No other party to a cause under the procedure shall be entitled to an appeal or report as aforesaid. In lieu thereof, any such party may, prior to the day upon which he shall be notified to appear, file in the court in which the cause is pending a claim of trial by jury, and his affidavit that there are questions of fact in the cause requiring trial, with specifications of the same, and that such trial is intended in good faith, together with the sum of three dollars for the entry of the cause in the superior court. The clerk shall forthwith transmit such original papers or attested copies thereof, as the rules made under section one of this act may provide, and the superior court may try the cause as transmitted or may require pleadings as in a cause begun by writ, but the cause may be marked for trial on the list of causes advanced for speedy trial by jury.

SECT. 3. The provisions of section four of chapter six hundred and forty-nine of the acts of nineteen hundred and twelve shall apply to all police, district and municipal courts in causes begun under this act.

SECT. 4. The court may, in its discretion, transfer a cause begun under this act to the regular civil docket for formal hearing and determination as though it had been begun by writ, and may impose terms upon such transfer.

SECT. 5. In any cause begun by writ which might have been begun under the informal procedure herein provided for, the rules may provide, or the court may by special order direct, that the costs to be recovered by the plaintiff, if he prevails, shall be eliminated in whole or in part.

SECT. 6. This act shall take effect on the first day of January, nineteen hundred and twenty-one. [Approved May 27, 1920.]

[CHAPTER 554.]

AN ACT TO AUTHORIZE CITIES AND TOWNS TO PROVIDE SHELTER FOR THEIR INHABITANTS IN CASE OF EMERGENCY.

Whereas, The emergency which this act is intended to meet is immediate and pressing, therefore the act is hereby declared to be an emergency law, necessary for the immediate preservation of the public health, safety and convenience.

Be it enacted, etc., as follows:

SECTION 1. A city or town in which the mayor or a majority of the board of selectmen proclaim that a public exigency or emergency or public distress exists because of an insufficient supply of shelter or available dwellings for its inhabitants, may acquire by purchase or take by right of eminent domain unimproved or improved real property in fee or for any less estate, and improve or dispose of the same in such manner as to provide shelter for its inhabitants and to afford adequate relief in case of a public exigency or emergency, or public distress, as aforesaid.

SECT. 2. In case a city or town takes property hereunder by right of eminent domain and is unable to agree with the owners as to the damages to be paid therefor, the same shall be assessed as in the case of land taken for highway purpose, and shall be paid by the city or town.

SECT. 3. For the purposes of this act, a city or town may borrow such sums, in excess of the statutory limit of indebtedness, as may be necessary, but not exceeding one per cent of its assessed valuation, and may issue therefor bonds or notes for periods not exceeding ten years, and otherwise subject to the provisions of chapter seven hundred and nineteen of the acts of nineteen hundred and thirteen, and the amendments thereof, so far as applicable.

SECT. 4. No city or town shall acquire by purchase or take by eminent domain any property under the provisions of this act unless such purchase or taking is made prior to the first day of February in the year nineteen hundred and twenty-two.

SECT. 5. Any property taken or acquired by purchase under the provisions of this act shall be taken or acquired subject to the provisions of chapter two hundred and sixty-three of the General Acts of nineteen hundred and fifteen and acts in amendment thereof, so far as applicable. [Approved May 28, 1920.]

[CHAPTER 71.]

RESOLVE PROVIDING FOR AN INVESTIGATION RELATIVE TO TRANSPORTATION FACILITIES BETWEEN THE CITIES OF BOSTON AND CHELSEA.

Resolved, That the division of waterways and public lands of the department of public works shall investigate the matter of improving transportation facilities between the cities of Boston and Chelsea, either by constructing a separate tunnel between the said cities or by providing such additional means of transportation in the East Boston tunnel or in a tunnel hereafter to be constructed, as will give the city of Chelsea better transportation both for passengers and freight to and from the city of Boston. The said division shall report to the general court not later than the first day of February, nineteen hundred and twenty-one. [Approved May 27, 1920.]

MINORS' LICENSES.

President MORIARTY submitted reports on petitions for minors' licenses for six newsboys and eight vendors—recommending that licenses be granted.

Reports accepted; licenses granted on the usual conditions.

POLICE BUILDING, STATION 2.

Coun. McLAUGHLIN offered an order—That the sum of \$400,000 be appropriated to be ex-

pend by the Superintendent of Public Buildings for the construction of a police building for Police Station No. 2, on the site on Arch street and Hawley place, taken for the purpose in January, 1918, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. McLAUGHLIN—Mr. President, I do not intend to speak at any length on this matter but will move that the order be sent to the Finance Committee for discussion this afternoon. As long as there has been a great deal of talk and criticism relative to this particular matter, I thought it behooved the Council to give the necessary amount of money so that he could go ahead and build if he so saw fit, and thereby remove a source of criticism that I think has been entirely unjustified.

The order was referred to the Committee on Finance.

NAMING OF DOOLEY SQUARE.

Coun. WATSON offered an order—That the junction of Massachusetts avenue, Southampton street and Gerard street be named William R. Dooley square, in honor of William R. Dooley, who gave up his life for the cause of liberty during the World War, and that said space be suitably designated by signs.

Referred to the Committee on Public Lands.

NAMING OF MAHONEY SQUARE.

President MORIARTY offered an order—That the name of Hyde square, Jamaica Plain, be changed to Cornelius J. Mahoney square, in honor of said Mahoney, who gave his life for his country in France, and that said square be suitably marked with signs.

Referred to the Committee on Public Lands.

NAMING OF DALY SQUARE.

President MORIARTY offered an order—That the space at the junction of West Canton street and Columbus avenue be named Edwin A. Daly square, in honor of Lieut. Edwin A. Daly, who gave his life for the cause of liberty on July 29, 1918, and that said location be suitably marked with signs.

Referred to the Committee on Public Lands.

RECESS TAKEN.

The Council voted at 2.31 p. m., on motion of Coun. McLAUGHLIN, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 4.02 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Reports on petitions (referred today) for permits for children under fifteen years of age to appear at places of amusement—that permits be granted, viz.:

William H. Russell, Dudley Street Opera House, June 16.

Mary F. Dowd, Steinert Hall, June 23.

Reports accepted; permits granted on the usual conditions.

2. Reports on petitions (referred today) for permits to sell, rent or lease firearms—that permits be granted, viz.:

Goldberg Brothers, 40 Broadway, Ward 5.

William H. Bright, 942 Tremont street, Ward 13.

Reports accepted; permits granted on the usual conditions.

3. Report on order (referred June 7) for opinion of Mayor as to Revere House site for Police Station No. 2—that the order ought to pass.

Report accepted; order passed.

ORDINANCES.

Coun. BRICKLEY, for the Committee on Ordinances, submitted a report on ordinance (referred June 7) concerning sweeping of sidewalks—that the ordinance ought to pass.

Report accepted; ordinance passed.

FINANCE.

Coun. McLAUGHLIN, for the Committee on Finance, submitted the following, viz.:

1. Report on message of Mayor and order (referred June 7) for loan of \$150,000 for headhouse at Marine Park—that the order ought to pass.

The report was accepted, and the order was given its first reading and passed, yeas 9.

The order will take its final reading not less than fourteen days from date.

2. Report on message of Mayor and order (referred May 24) for appropriation of \$89,000 for Police Station No. 2—that the order ought to pass.

Report accepted; order rejected, yeas 5, nays 4 (six votes being necessary), the vote being:

Yeas—Coun. Collins, Ford, Hagan, Lane,

Watson—5.

Nays—Coun. Brickley, Donoghue, McLaughlin,

Moriarty—4.

3. Report on order (referred today) for loan of \$400,000 for construction of police building for Police Station No. 2—that the order ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. LANE—Mr. President, I move an amendment, to strike out the words "on the site of Hawley street and Arch street."

The question came on the adoption of the amendment, and Coun. LANE called for the yeas and nays.

Coun. DONOGHUE—Mr. President, I would like to ask the councilor who has just made the motion to strike out those particular words what his reasons are, if any, so that we may vote intelligently on this proposition.

Coun. LANE—Mr. President, my reason is that I have favored right through the Sears street property, and now Coun. Hagan has just had passed here unanimously an order to look into the Revere House site. It seems to me we will make ourselves ridiculous if we investigate another site for the proposed police station and vote \$400,000 for a different specified site.

Coun. BRICKLEY—I don't know whether it shows ignorance on the part of my colleague or somebody else, but I understand the situation to be that we have a site and he now wants to buy a new site. Under the circumstances I don't know who is showing ignorance, he or somebody else. I think the site we have is suitable, and therefore I favor the location on Hawley and Arch streets.

Coun. WATSON—Mr. President, as one of the five members of this body who have voted for the \$89,000 appropriation for Sears street and for every other appropriation for the erection of any police station in the City of Boston, I wish simply to say that I realize that the \$89,000 order cannot pass this body, for the reason that there are only five members who favor it, while four are opposed. That is the line-up today, and I believe it is bound to continue. In the meantime the matter of erecting a police station is held in abeyance. Therefore I am in the position of voting for anything and everything that will speed up the building of a police station for the members of the traffic squad and the officers of Station 2, or for any other station that the Mayor and Police Commissioner may desire to erect for the policemen of Boston. It is true that we have voted down the Sears street \$89,000 appropriation. That is dead. We now have before us an order that has been reported out of the Executive Committee in favor of the appropriation of a sum sufficient to go ahead on the site owned by the city. We at least should go to work and pass this order and then let the Mayor veto it if he desires. We can perhaps then start over again and try to arrive at some other solution of the police station matter. I don't think amending the order so as to strike out the words referring to the location will make any difference, because it stands to reason that the only location we can consider for the erection of the building, in connection with the passage of a loan order, is the Arch street property. The amendment is therefore of no consequence, and I intend to vote for the \$400,000 order as reported by the committee.

Coun. DONOGHUE—Mr. President, as one of the members who have voted against the Sears street location for a police station I want to say that my position has been consistent; that I feel that in voting consistently, the four of us, against that proposition we have done more toward the actual accomplishment of the erection of a police station than has been done by all the talk that has been going on over the proposition for the six, eight or ten months that it has been before us. There has been a lot of talk and no action. I believe the only way to get action is to center our fire on one particular proposition. To my way of thinking, the only way in which the police in old Station 2 can get a new building is by our voting for the erection of a police station on the site that the city now owns. I object to striking out the words referred to in the amendment, for the reason that I think such action is only going to tend to again create confusion. If the city can build on no other site than that, why object to words naming that particular location being left in the appropriation measure? I think we ought to vote for the appropriation as it stands, and that is the way I intend to vote on the proposition.

Coun. FORD—Mr. President, may I say just one word in reference to the amendment offered by Coun. Lane? If the amendment were not offered, and we then voted "no" on the proposition submitted, that is, against the order calling for \$400,000 for the Hawley street site,—we might be in this position, refusing to provide money for the police station. But in order that we might appear in the position of being willing to vote money for a police station, and so that it may appear on the record forever more that we are willing to appropriate money for a police station, I personally, and some of my colleagues, will vote for the amendment. In answer to what Coun. Donoghue has suggested, true there will be only one site left, but, as I set out in Executive Committee, having voted and committed myself to the Sears street site for the reasons that were advanced by the

Police Commissioner and the Mayor, I wanted then, and do now, to have those words stricken out, so that the position taken will not be considered inconsistent, favoring the Sears street site and favoring the Hawley street site. That position would, of course, be inconsistent. Hence, in voting for the amendment, I do two things. First, I show that I am willing to provide money, and second, I show that I am still in favor of the Sears street site as being a better one on the whole proposition submitted.

Coun. DONOGHUE in the chair.

Coun. MORIARTY—Mr. President, I see no need of having any Executive Committee in so far as this Council is concerned. If there was anything more deliberately done in the way of playing the political game with Station 2 than is proposed here I have yet to see it. Generally in Executive Committee we are able to come to an agreement, but everybody is playing the political game with Station 2. Personally I will say that I am going to go so far, if the order is amended, as to vote against it on passage. I am going to play the same game that they are playing, for the protection of the individual. The councilor on the other side, who spoke last, says he only wants to show that he is not inconsistent in regard to his Sears street position. He has on many occasions changed his vote and had it appear in the records that he was still in favor. But why wasn't he as fair as Coun. Watson, who said it was going to be impossible to break down the combination as it now stands, five to four, and get the Sears street station? If he is sincere, with only one station, he could say, as a matter of record, what his preference was, and that he voted for the Mayor's message and would continue to vote for the Mayor's message, but because the policemen of Boston in the Station 2 district need a police station and the only available way to get it was to vote for the station on the one site that the City of Boston now has other than the site where Station 2 now sits, he would vote for the order. I don't care whether the station is built on Arch and Hawley streets. As I said last week, however, nobody, so far as I individually am concerned, is going to tie any real estate proposition around my neck, and the Sears and Milk street property is an absolute real estate transaction in payment of a political debt. This thing could be got over in Executive Committee, but everybody wants to stand on his position. He doesn't dare to change, because he is afraid that some of the newspapers in Boston may take advantage of him for doing so. But the whole Council at the present time is being criticised for not building a station, and if we strike out the words proposed by this amendment someone has got to show me that the Police Commissioner has not got the power to go down and buy for \$39,000 the site on Milk and Sears streets. There have been a lot of funny things done by the administration under which we are now serving, and the Police Commissioner may have that power under the general act creating his office, and if we appropriate \$400,000 for Police Station 2 he may spend that money at Milk and Sears streets. So, in order that my position may be honest and consistent in this matter, if the amendment proposed is carried today by vote of the five members who will probably vote in the affirmative, the amendment requiring only a majority vote, I shall vote against the order and take the consequences of so doing.

Coun. FORD—Mr. President, I tried to follow the councilor's remarks closely and at the same time talk to my colleague on the right. Therefore I am not quite sure of the councilor's position, as far as I am concerned, but I don't think he accused me of insincerity. From the first I voted for the Sears street site because I thought it was the better site, better suited for the purpose, as pointed out by both the Mayor and the Police Commissioner. The councilor suggests that it is impossible to secure a site because it is impossible to break down the opposition, but after having said that I hardly think it is just the thing for him to accuse us of not being willing to give way. If the Sears street site is as well suited for the purpose as the Hawley street site, and is strongly desired by the department, I think members might as well yield on the other side as on this side. I think, summing the matter up, that it is, after all, a matter of individual opinion, and not a thing that we should get worked up or disturbed over, because most of us here are trying to do our best. Irrespective of the accusation that some of us are playing politics, we are all here trying to serve the best interests of the public, the councilor as well as myself. Sometimes if it seems to some members that other members are not doing it correctly, or just right, that is nothing to get excited about. Each of us is doing his best. A new Police Station 2 will be completed in good time, and we will all be given credit for giving to the subject our best opinion, our best endeavor and effort, for its proper carrying through, and any expression of public opinion as to the merit or demerit of our action will be voiced later.

Coun. COLLINS—Mr. President, I think I made my position clear at an earlier meeting concerning the orders before us. I do think at the present time, having in mind the order which has now been reported and is before us for consideration, that the few words relative to the Hawley street site may very properly be eliminated at this time. Therefore I think Coun. Lane's motion to strike out those words should prevail. As I have already stated, the Police Commissioner says that the

Sears street site is the most desirable site, and the Mayor, who is the second person who has a right to pass upon particular locations, says it is a much better site than others which have been proposed. After listening to all the arguments, it seems to me that my duty is plain—to provide the money for the Sears street site, not favoring action by which the Council will directly or indirectly be placed in the position of insisting on the location of a police building on Hawley street, a location which in my judgment is inferior to the Sears street location. For that reason, as well as from the standpoint of efficiency in proper housing of the Police Department, I don't think the Council should be placed in the position of insisting on that location. Consequently I shall vote for the amendment, and, if the amendment is defeated, shall vote against the order.

Coun. BRICKLEY—Mr. President, I think the time is ripe for us to get away from some of the theories advanced here concerning the infallibility of the Police Commissioner and his Honor the Mayor. I think it is just as plausible to consider them to be wrong as anybody else. As far as I can see, the way things are going, the only site that everybody will be able to agree on will be the Hawley street site. I don't see why there should be any wrangling over any new property. So I would move you, sir, that the matter be put to a vote.

President MORIARTY in the chair.

Coun. Lane's amendment was rejected, yeas 4, nays 5:

Yeas—Coun. Collins, Ford, Hagan, Lane—4.
Nays—Coun. Brickley, Donoghue, McLaughlin, Moriarty, Watson—5.

The order as reported was rejected (a two-third vote being necessary for passage), yeas 5, nays 4.

Yeas—Coun. Brickley, Donoghue, McLaughlin, Moriarty, Watson—5.
Nays—Coun. Collins, Ford, Hagan, Lane—4.

PUBLIC LANDS.

Coun. FORD, for the Committee on Public Lands, submitted the following, viz.:

1. Report on message of Mayor and order (referred May 24) for sale of parcel of land on Shirley street, Roxbury, containing 420 square feet, for \$420—that the order ought to pass.

The report was accepted, and the order was given its first reading and passed, yeas 9.

The order will take its final reading not less than fourteen days from date.

2. Report on order (referred today) to change name of Hyde square, Jamaica Plain, to Cornelius J. Mahoney square—that the order ought to pass. Report accepted; order passed.

3. Report on order (referred today) to name junction of West Canton street and Columbus avenue Edwin A. Daly square—that the order ought to pass.

Report accepted; order passed.

4. Report on order (referred today) to name junction of Massachusetts avenue, Southampton street and Gerard street William R. Dooley square—that the order ought to pass.

Report accepted; order passed.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of June, 1920.

Report accepted; order passed.

CONFIRMATION OF APPOINTMENTS.

President MORIARTY called up unfinished business, Nos. 1, 2, 3 and 4, viz.:

Action on appointments submitted by the Mayor, June 7, 1920, viz.:

1. Fred G. Trask, to be a Constable.
2. M. Gorsey, to be a Weigher of Coal.
3. Ralph S. Leonard, to be a Weigher of Beef.
4. George F. Smith, James S. Hussion, William J. Halpin, William R. MacMillan, Thomas Bond and William F. Heavey, to be Weighers of Goods.

The question came on confirmation. Committee—Coun. Watson and McLaughlin. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

GENERAL RECONSIDERATION.

Coun. HAGAN moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

REGULATION OF SCHOOL APPROPRIATION.

The following was received:

City of Boston,

Office of the Mayor, June 19, 1920.

To the City Council:

Gentlemen,—The School Committee of the City of Boston has accepted chapter 524 of the Acts of 1920, "An Act to Regulate Appropriations by the School Committee of the City of Boston."

I am herewith attaching a copy of the letter from the School Committee notifying me of such acceptance. It is desirable that the city government immediately accept this act in order that the School Committee may make its appropriations and proceed immediately with the prosecution of necessary work.

I therefore recommend the passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That chapter 524 of the Acts of 1920, entitled "An Act to Regulate appropriations by the School Committee of the City of Boston," be and the same hereby is accepted.

The School Committee of the City of Boston.

Office of the Secretary, June 8, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—I inclose herewith an attested copy of an order passed by the School Committee at its meeting held on Monday, June 7, 1920, accepting chapter 524 of the Acts of 1920—An Act to Regulate Appropriations by the School Committee of the City of Boston.

Very truly yours,

THORNTON D. APOLLONIO,
Secretary.

City of Boston,

In School Committee, June 7, 1920.

Ordered, That the School Committee of the City of Boston hereby accepts chapter 524 of the Acts of 1920—An Act to Regulate Appropriations by the School Committee of the City of Boston.

Passed unanimously.

A true copy.

Attest:

ELLEN M. CRONIN,

Secretary pro tempore.

The question came on the passage of the order. Coun. FORD—Mr. President, I move suspension of the rule.

The rules were suspended.

Coun. WATSON—Mr. President, why not make note of the fact that this matter has been explained to us, to make it a matter of record.

President MORIARTY—I will say, as a matter of record, that Joseph P. Lomasney, the chairman of the Schoolhouse Commission, appeared before the Executive Committee of the Council two weeks ago today and explained the act, and the reason for the passage of the act today under suspension of the rule is that they may get to work on the schools and have them in proper shape for the children when they return to school in September.

The order was passed.

Adjourned at 2.25 p. m., to meet on Monday, June 28, at 2 p. m.

On June 28 to P. Holdenson Company as per following communication:

BOSTON, June 25, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The bids on painting work at the Gaston School, submitted to the Schoolhouse Commissioners and opened on June 22, were as follows:

D. Dugan & Son, \$2,500; P. Holdenson Company, \$3,788; Albert C. Haley, \$3,750; J. W. Graham & Son, \$3,780; W. J. Kelly, \$3,900; T. F. McGrath & Co., \$3,940; A. D. Howlett Company, \$4,239; C. E. Bradley, \$4,260; James I. Wingate & Son, \$4,300.

The Board has voted, subject to the approval of your Honor, to award the contract, under Item 1, to P. Holdenson Company, the second lowest bidder, in the sum of \$3,738.

You will notice that the lowest bidder was D. Dugan & Son, in the sum of \$2,500, there being a difference of \$1,238. This Board has employed the firm of D. Dugan & Son as a painting contractor several times in the course of the last six years, and I am sorry to have to state that in many cases they have not complied with the terms and conditions of the contract. I wish to state also, on behalf of the Board, that this Board is of opinion that if the contract were awarded to the said firm at the proposal price submitted, the work would not be done in compliance with the terms and conditions of the contract, and therefore the City of Boston would not receive full value for the money paid.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

1920, covering proposals for furnishing hay, grain and straw to the various city departments during the month of July, 1920.

I respectfully request permission to award these contracts to the lowest bidders in each district as indicated on the attached list of bids with the following exceptions:

In the South Boston district I respectfully request permission to award the contract for oats and shorts to Lord & Webster as the John J. White Company has stated to this office they would prefer not to receive contract for shorts alone in this district. Regarding the corn, would state that there is no corn used in this district. In the East Boston district I respectfully request permission to award the contract for the oats and shorts to William Culkeen & Sons Company as Lord & Webster Company have notified this office that they do not desire to accept the contract for shorts alone. Regarding the corn, would state that there is no corn used in this district. In the Brighton district, I respectfully request permission to award this contract to Ogden & Thompson Company on the hay, grain and straw. As the amount of straw used in this district will not exceed one or two tons and the Hosmer-Robinson Company have asked to be released from furnishing the straw only on this contract as it would mean a loss to them on account of the trucking expense incurred.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

	\$1,603 00

Less 10 per cent for cash within ten days.

Attached hereto is a letter from the Superintendent of the Boston City Hospital in which he states that Doctor Granger of the Boston City Hospital staff, who will use this equipment, has advised the Superintendent that the equipment above is the best on the market and that no other will suit the conditions at the hospital.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Bridge Service).

An addition, amounting to \$50, on contract with W. H. Ellis & Sons Company for repairing face of channelway, Dorchester Avenue Bridge, over Fort Point channel, on account of driving tree nails where directed in old planking not removed. Original contract, \$1,221.50; total addition, \$50; contract as standing, \$1,271.50.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$150, on contract with James Doherty for wood block pavement in Beacon street, from Massachusetts avenue to Raleigh street, city proper, on account of chipping existing concrete base where directed. Original contract, \$43,055.30; total addition, \$150; contract as standing, \$43,205.30.

An addition, amounting to \$330, on contract with M. DeMatteo for Topeka pavement in Hyde Park avenue, from Metropolitan avenue to River street, on account of removing two trees and one stump and trimming one tree. Original contract, \$124,585; total addition, \$330; total deduction, \$860; contract as standing, \$124,055.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$160, on contract with James Barletta for laying and relaying water pipes in Hastings street, Walter street and Centre street, between Church street and Spring street, West Roxbury, on account of cutting arch of surface drain; setting envelope pipe; repairing surface drain; removing of watering post with pipe connection; concreting old Lowry post in Water street; locating old 8-inch pipe back of railroad abutment wall and making special temporary connection in Centre street.

SUPPLY DEPARTMENT.

On June 28 to the Clapp-Anderson Company, as per following communication:

BOSTON, June 25, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully request permission to enter into contract and pur-

Original contract, \$4,558.75; total additions, \$320; contract as standing, \$4,986.75.

ARTIFICIAL STONE SIDEWALKS.

BOSTON, June 25, 1910.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Fred T. Ley & Company, Inc., 209 Washington street, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN.

Commissioner of Public Works.

MILK BID REJECTED.

BOSTON, June 24, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Inclosed please find bid, which was publicly opened and read at this office on June 24, for furnishing milk to the Infirmary Department for the months of July and August.

I respectfully recommend that this bid of H. P. Hood & Sons be rejected for the reasons that the grade of milk bid upon was not in accordance with the Supply Department specifications and also because of the fact that but one bid was received. I am of the opinion that if they are readvertised more competition will be secured.

Yours respectfully,

G. J. CRONIN,

Commissioner of Supplies.

Bids on milk for the Infirmary Department opened June 24, 1920:

Three Thousand Four Hundred Cans Massachusetts Standard Grade "A" Milk.—H. P. Hood & Sons, \$1.18 (Hood's Grade "A"), 8½-quart can; \$1.05 (Hood's Jersey Brand), 8½-quart can.

Eight Hundred Seventy Quarts Certified Milk.—H. P. Hood & Sons, 23 cents per quart.

One Hundred Twenty-five Pints Medium Cream.—H. P. Hood & Sons, 30 cents per pint.

RULES AND REGULATIONS FOR OPERATION OF CARS AND TRAINS OF THE UNION FREIGHT RAILROAD COMPANY.

Order of the Street Commissioners dated June 30, 1919, and approved by his Honor the Mayor on the same day, established rules and regulations for the operation of cars and trains of the Union Freight Railroad Company on Atlantic avenue, Commercial street, Causeway street, Lowell street and Northern avenue for the period ending July 1, 1920. The order submitted as follows extends these rules and regulations indefinitely, subject to amendment or repeal:

Ordered, That, on and after July 1, 1920, cars and trains shall be operated on the tracks of the Union Freight Railroad Company on Atlantic avenue, Commercial, Causeway and Lowell streets, in conformity with the following regulations:

Between the hours of 7 a. m. and 7 p. m. no train consisting of more than fifteen cars shall be operated on the tracks of said railroad company in said avenue and streets.

Between the hours of 7 p. m. and 7 a. m. no train consisting of more than thirty-five cars shall be operated on the tracks of said railroad company in said avenue and streets.

From 5 p. m. to 6.30 p. m. no trains shall be operated, nor cars left standing on Atlantic avenue, between East street and the northerly line of Broad street, nor on Causeway street, between Prince and Nashua streets.

No cars shall be stored or left standing on the tracks of the said railroad company on Atlantic avenue, Commercial or Causeway streets which are not intended for delivery to consignees who take delivery from the said railroad company; and the railroad company shall not store or leave standing on its tracks in the aforesaid avenue or streets, cars in excess of the daily requirements of consignees who take delivery from its tracks.

The said railroad company shall not store any car on its track in the aforesaid avenue or street, or permit it to remain standing therein for a longer period than from 6 p. m. of one day to 6 p. m. of the following day; nor shall the same car be permitted to remain standing on the tracks of the said railroad company in the aforesaid avenue or streets on successive days.

No train or cars shall be left standing on the tracks of the said railroad company on Atlantic avenue, Commercial or Causeway streets in such a way as to obstruct any portion of any street connecting with or crossing the avenue or street in which the tracks of the said railroad company are located.

No car shall be unloaded in any street unless its contents consist of material for street or railroad construction to be used at the point at which it is to be unloaded.

Ordered, That, on and after July 1, 1920, cars and trains shall be operated on the tracks of the Union Freight Railroad Company on Northern avenue, in conformity with the following regulations:

Between the hours of 6 p. m. and 7 a. m. no trains consisting of more than thirty-five cars shall be operated on the tracks of said railroad company in said Northern avenue.

Between the hours of 7 a. m. and 6 p. m. the said railroad company may operate, on said Northern avenue, one train of not more than fifteen cars, or two trains of not more than eight cars each, whichever conditions at the time may require. The said trains shall be operated by continuous movement only, and no cars shall, at any time, be stored or left standing on the tracks of the said railroad company in said avenue.

Any or all of the foregoing regulations may be amended or repealed at any time by the Board of Street Commissioners with the approval of the Mayor.

FIRE DEPARTMENT ORDERS.

General Order No. 24.

ENGINE COMPANY 48.

On Friday, June 23, 1920, the horse-drawn apparatus attached to Engine Company 48 was replaced by motor-driven apparatus. The steam fire engine was replaced by a steam fire engine equipped with a Christie tractor and the horse-drawn hose wagon was replaced by an American-LaFrance motor-driven combination hose and chemical car equipped with a deck gun and all necessary tools and appliances. The old apparatus was placed in reserve and the horses turned over to the veterinary surgeon.

CHEMICAL COMPANY 14.

At 9 a. m., Friday, June 23, 1920, Chemical Company 14, District No. 15, was disbanded, the apparatus delivered to the Bureau of Supplies and Repairs, and the members of the company reassigned. The horses were turned over to the department veterinary surgeon.

TRANSFERS.

John T. Murphy from Chemical 14 to Engine 19.

Edwin McNamara from Chemical 14 to Ladder 28.

John J. Corcoran from Chemical 14 to Engine 48.

NEW FIRE ALARM BOX.

Fire alarm Box No. 3841 will shortly be established at River and Norton streets and will be connected into circuit No. 59. Assignment of apparatus will be the same as for Box No. 3842.

COMMENDATION.

Ladderman William F. Keenan, of Ladder Company 9, on June 14, 1920, captured a dangerous criminal on Tremont street. Ladderman Keenan, while returning to quarters, saw a man struggling with a lady on Tremont street near Park street. When Ladderman Keenan approached them the man started to run away. Ladderman Keenan gave chase to the man when he was informed by the woman that he was an escaped thief. He finally captured him on Tremont street and turned him over to the police of Division 2. It was subsequently found that he was a man with a criminal record, and it was claimed that he had robbed the lady some time ago of twenty-two dollars. Ladderman Keenan is commended for the courage displayed and the promptness with which he acted on this occasion.

By order of the Fire Commissioner,

PETER E. WALSH,
Chief of the Department.

OFFICIAL COMMUNICATIONS.

PROPOSAL FOR DESIGN AND SUPERVISION OF CONSTRUCTION OF NEW FERRYBOAT.

BOSTON, March 31, 1920.

The Commissioner of Public Works, City Hall, Boston:

DEAR SIR,—We hereby propose to undertake the design and the supervision of construction of the new ferryboat, for which an appropriation has recently been made by the city government, on the following terms and conditions:

I. SERVICES TO BE RENDERED.

The services to be rendered by us will include the following:

1. The preparation of preliminary studies and layouts of the boat, with recommendations regarding same, sufficient to enable you to select and approve the size and type of boat to be built.

2. The preparation of the contract drawings for the type of boat adopted; these drawings to be in such complete detail as to show the essential features of the boat and sufficient, in conjunction with the specifications, to prescribe the requirements of construction and to enable contractors to submit their bids for the work.

3. The preparation of full specifications for the construction of the boat.

4. The preparation of an estimate of cost as a basis for comparing bids.

5. Service in connection with the securing of bids for the work requiring visits to shipbuilding yards and conferences with representatives of shipbuilding companies best fitted to handle work of this character in order to acquaint them with the details of the work and to aid in securing low bids for construction.

6. Advice on the award of the construction contract.

7. The checking and approval of working drawings made by the contractor.

8. General supervision and inspection of the work while under construction to insure that the boat will comply with the requirements of the contract drawings and specifications; resident inspectors, if required, to be paid by the city.

9. Approval of payments to the contractor on account of the contract.

10. Conferences from time to time with yourself and your representatives throughout the entire period of our service in order to secure full co-operation between your department and ourselves in carrying out the work entrusted to us.

II. FEE.

Our total fee for the above services will be ten thousand five hundred (10,500) dollars plus the actual cost of such expenses as are necessarily incurred in traveling in connection with the work.

Payments on account of the above fee are to be made to us by the city as follows:

(a) Upon completion of the preliminary studies and layouts of the boat to be built, the sum of.....	\$1,500 00
(b) Upon completion of the contract drawings, specifications and estimate of cost, the sum of.....	4,000 00
(c) Upon the award of the contract for construction, the sum of.....	2,500 00
(d) Upon the launching of the boat, the sum of.....	1,250 00
(e) Upon delivery of the boat to, and acceptance of same by, the city, the sum of.....	1,250 00
	<u>\$10,500 00</u>

(f) Reimbursement to us of the traveling expenses noted above is to be made within thirty days after presentation by us of proper bills therefor.

In carrying out the work we shall provide at our own expense and have available at all its stages the services of one or more competent naval architects. The naval architects associated with us at the present time are Messrs. A. Loring Swasey and Arthur B. Raymond, naval architects of long and wide experience.

We will undertake and carry through our work promptly and our fee is based upon the understanding that the construction of the boat will be completed within twelve months from the completion by us of the contract drawings and specifications. Should our services be required for a longer period on account of delays from causes beyond our control, we are to receive additional compensation commensurate with such extension of our services, the terms of this additional compensation to be determined upon in advance.

Should the services of resident inspectors at the ship yard be found necessary during the period of construction, they will be provided by us, subject to your approval, and paid directly by the city.

The services herein outlined are to apply to the design and supervision of the construction of one complete ferryboat. Drawings prepared by us are to be and remain our property; three complete sets of prints of all drawings and of the specifications will be furnished your department without charge, and such additional sets as you may require for the securing of bids, for the award of the contract and for the records of your department will be furnished by us at the expense of the city.

It is understood that this proposal relates to the services to be rendered as outlined herein and it does not cover any service we may later be called upon to render in connection with the ferry landings, drops, slips or tanks, nor in connection with investigations and recommendations, if any, concerning general policies of the Ferry Service.

Respectfully submitted,

FAY, SPOFFORD AND THORNDIKE,
by FREDERIC H. FAY.

Accepted April 30, 1920.

T. F. SULLIVAN,
Commissioner of Public Works.

Approved June 28, 1920.

ANDREW J. PETERS, Mayor.

Approved.

ARTHUR D. HILL.

SUPPLEMENTARY PROPOSAL FOR USE OF DESIGN AND FOR SUPERVISION OF CONSTRUCTION OF ADDITIONAL NEW FERRYBOATS.

BOSTON, June 4, 1920.

The Commissioner of Public Works, City Hall, Boston:

DEAR SIR,—I. This proposal is supplementary to our proposal of March 31, 1920, for the design and supervision of the construction of one complete ferryboat and is made to provide for the building for the city from the design prepared thereunder of one or more ferryboats in addition to the single ferryboat contemplated under said proposal of March 31, 1920. The provisions of our proposal of March 31, 1920, shall apply to this supplementary proposal in so far as they are consistent herewith.

II. In lieu of the fee named in Article II of our proposal of March 31, 1920, the following shall apply:

For each additional boat built from the

contract drawings and specifications prepared in accordance with our proposal of March 31, 1920, and for which a contract is let within one year from the date of this supplementary proposal, we are to receive a fee of seven thousand five hundred (7,500) dollars, plus the actual cost of such expenses as are necessarily incurred in traveling in connection with the work.

Payments on account of the above fee are to be made to us by the city as follows:

1. For use of the contract drawings, the sum of.....	\$2,500
--	---------

Payable:

(a) Upon award of contract.....

(b) Upon the launching of boat.....

2. For services in connection with the securing of bids, the award of contract and the supervision of construction as outlined specifically in Items 4, 5, 6, 7, 8, 9 and 10 of Article I of our proposal of March 31, 1920, the sum of.....	\$5,000
--	---------

Payable:

(a) Upon award of contract for construction.....

IRVING W. ADAMS PARK.

BOSTON, June 25, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—At a meeting held by this Board on Tuesday, June 22, it was Voted, that the plot of ground recently purchased

by the city at the junction of Washington, South and Poplar streets in Roslindale be named Irving W. Adams Park, in honor of Irving W. Adams, the first soldier killed from that section of the city in the Great War.

This action was taken in response to a communication from the Irving W. Adams Post, American Legion, and following a public hearing held by the full Board at the Roslindale Municipal Building.

Very respectfully yours,

JAMES B. SHEA,
Chairman.

Approved June 28, 1920.

ANDREW J. PETERS, Mayor.

MUNICIPAL BAND CONCERTS.

The Park and Recreation Department, acting in conjunction with the Mayor's advisory committee on music, of which Wallace Goodrich is chairman, announces its schedule of concerts for the summer. With an increased appropriation the department will be able to provide a substantially larger number of concerts this year. There will be ten concerts each at Marine Park and Franklin Park, and five each on alternate Sundays at Wood Island Park and Jamaica Pond. All these concerts are given on Sunday afternoons at 3.30 p. m., beginning July 4.

The concerts on the Common will begin Sunday, June 27, at the same hour and will continue until the first part of September. There will also be a six weeks' season of concerts on the Common, beginning at noon and at eight o'clock in the evening, following the plan that was so successful last year. These concerts, which are to start Tuesday, July 6, will be given every week day except Monday, and on Sunday evenings. They are designed for the great down-town working population, as well as for the residents of the thickly settled sections of the city proper—the North, South and West Ends—and for the public in general. They represent an effort on the part of those in charge to raise Boston to the level of the more progressive cities in the quality and quantity of its summer music. It is hoped that certain improvements may be made next fall in the arrangement of the ground about the Parkman Bandstand, so that these working people's concerts on Boston Common may ultimately take their place as a distinctive feature.

The bands at Marine Park, Jamaica Pond and Wood Island Park have been enlarged this year to thirty men. The Sunday afternoon concerts on the Common are to be given, as last year, by bands of forty. The other bands will consist of twenty-six men.

Emil Mollenhauer and Walter M. Smith will conduct the band during the six weeks' regular season on the Common. Among the other bands engaged are several of the best known musical organizations in the city, including Gallo's, D'Avino's, Ives', and Moore's Bands, the First Corps Cadets and 101st Infantry Veterans Bands. Schedules announcing all the concerts may be obtained at the office of the Park and Recreation Department, 33 Beacon street, and will be distributed on the Common and elsewhere.

BOSTON, June 21, 1920.

MR. J. ALFRED MITCHELL,
City Auditor:

DEAR SIR,—By vote of this Board, the following list of band concerts has been approved for the season of 1920. The committee is also authorized to appoint a soloist at such concerts as they think necessary, at an additional expense of \$5 for each soloist:

FINAL HEARING BY COMMITTEE
ON NEW SOURCES OF REVENUE
ON ITS TENTATIVE PROPO-
SALS.

The Committee on New Sources of Revenue appointed some time ago by Mayor Peters will hold a final hearing on its tentative proposals on Thursday, July 8, at 4 p. m., in the old Aldermanic Chamber at City Hall. The plans suggested by the committee, and made public several weeks ago, include an excise of 1 per cent upon all sales at retail, a similar excise at the rate of from $\frac{1}{2}$ to 1 per cent upon the gross receipts of practically all occupations and professions, and an excise upon amusements, soft drinks and so-called luxuries similar to that provided for in the schedule of the Federal War Revenue Act. These proposals are merely tentative and do not embody, either individually or in the aggregate, the settled opinion of any one member of the committee. They include what appear to be the most plausible methods of raising revenue that have been tried elsewhere and have, therefore, been outlined for the purpose of obtaining an expression of public opinion.

Three public hearings have been held by the committee to date, all of which have been well attended and have attracted considerable attention and discussion. Representatives of the Boston Chamber of Commerce, the Massachusetts Real Estate Exchange, the Massachusetts Single Tax Association and several other organizations and persons have signified their attention of appearing at the final hearing announced for Thursday, July 8. The committee would also be pleased to hear from other parties who wish to make constructive suggestions and criticisms in regard to the tentative proposals or on the general subject of new sources of revenue.

REJECTED CLAIMS.

On June 30 the Law Department disapproved fourteen claims against the city, in ten of which no amounts were specified, and the other four aggregated to \$230.48 and are classified as follows:

Against the Fire Department, one, in which no amount was specified; against the Hospital Department, one, amounting to \$15; against the Public Works Department, ten, in nine of which no amounts were specified, and the other one amounted to \$7.50; against the Police Department, two, amounting to \$207.98.

All these claims have been disapproved for the reason that there appeared to be no legal liability upon the city.

INCREASE OF PUBLIC DEBT IN LEADING
CITIES, 1908-1918 (RANKING FROM
HIGHEST).

The net debt in the 10-year period increased as follows: (1) San Francisco, \$31,534,084 or 267.57 per cent; (2) Detroit, \$11,561,738 or 118.10 per cent; (3) Baltimore, \$32,797,853 or 98.40 per cent; (4) Cleveland, \$23,673,565 or 72.59 per cent; (5) Buffalo, \$13,026,177 or 61.14 per cent; (6) Pittsburgh, \$20,912,039 or 58.76 per cent; (7) Philadelphia, \$47,282,300 or 57.62 per cent; (8) New York, \$348,840,074 or 50.97 per cent; (9) Boston, \$12,596,050 or 17.11 per cent.

All of Boston's increase was rapid transit debt, representing a $4\frac{1}{2}$ per cent investment. Omitting this, there was a decrease of \$3,849,927 or 5.23 per cent in Boston's net debt during the period stated.

PROCEEDINGS OF SCHOOL COMMITTEE.

June 21, 1920.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Building, Mason Street, at 6:19 o'clock P. M., the Chairman presiding.

Present: Messrs. Bogan, Corcoran, Miss Curtis, Messrs. Lane and O'Connor.

SECRETARY PRO TEMPORE.

In the absence of the Secretary, Ellen M. Cronin was elected Secretary pro tempore.

AMENDMENT AND APPROVAL OF RECORDS.

On motion, the minutes of the meeting of June 7, 1920, (p. 20) were amended to provide that the leave of absence for study granted to Harriet Barthelmess, research assistant, department of educational investigation and measurement, shall read from Sept. 20, 1920, to Aug. 31, 1921, instead of from Sept. 1, 1920, to Aug. 31, 1921.

The reading of the records of the last meeting was omitted, the Board approving them as printed, as amended.

Michael Potocki, Christopher C. Callahan, and William B. Dooley.
Placed on file.

PERMANENT APPOINTMENT OF JANITRESS, MASON STREET BUILDING.

A communication was received from the Secretary, under date of June 21, 1920, recommending that, with the approval of the Division of Civil Service, the provisional ap-

pointment of Elizabeth A. Rooney as janitress, Mason Street Building, be made permanent, to take effect June 21, 1920.

Placed on file, and the appointment approved, to take effect on the date stated.

REPORT ON ATTENDANCE AT CONVENTION.

A communication was received from the Business Agent, under date of June 21, 1920, submitting, in compliance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, a report on his attendance at the annual meeting of the National Association of School Accounting and Business Officials of Public Schools, held at Minneapolis, Minn., May 18, 19 and 20, 1920.

Placed on file.

SALARIES OF TEACHERS RE-ENTERING SERVICE.

A communication was received from the Business Agent, under date of May 26, 1920, recommending that the regulations be amended to provide that teachers and members of the supervising staff re-entering the service since Jan. 1, 1920, be extended the increases granted on that date.

Placed on file.

The following was offered:

ORDERED, That the regulations be amended as follows:

Section 320, paragraph 2. Strike out the paragraph and substitute the following:

2. The salary of each person whose retirement took effect prior to September 1, 1918, shall, on the date of reappointment, be fixed at that sum which shall equal the salary received at the time of retirement plus the amount by which the minimum salary of the rank at the time of reappointment has been increased over that of the minimum salary of the rank at the time of retirement, and shall be advanced on respective anniversaries by the annual increment provided in the schedule of the rank until the maximum of the rank is reached; provided, that the final increment shall be such an amount as shall place the person on the maximum salary of the rank.

Section 320, paragraph 3. Strike out the paragraph and substitute the following:

3. The salary of each person whose retirement took effect on or subsequent to September 1, 1918, and prior to January 1, 1920, and who at the time of retirement was on any year of the salary schedule of the rank, shall be placed upon that year of service in the rank for which the rate of compensation shall be the same as, or shall most closely correspond with, that received at the time of retirement, increased by the amount which the minimum salary of the rank at the time of reappointment has been increased over that of the minimum salary of the rank at the time of retirement.

Section 320, paragraph 4. Strike out the paragraph and substitute the following:

4. The salary of each person whose retirement took effect on or subsequent to September 1, 1918, and prior to January 1, 1920, and who by the operation of Order 1A of the salary schedules for the years ending August 31, 1919, and August 31, 1920, was not on that year of the salary schedule which corresponded to the term of service, shall upon reappointment be fixed at the sum re-

ceived at the time of retirement plus the amount by which the minimum salary of the rank at the time of reappointment has been increased over the minimum salary of the rank at the time of retirement, and shall be advanced on respective anniversaries by one annual increment in accordance with the schedule of the rank until the maximum of the rank is reached; provided, that the final increment shall be such an amount as shall place the person upon the maximum salary of the rank.

Section 320, paragraph 5. Renumber the paragraph "7," and insert the following new paragraphs:

5. The salary of each person whose retirement takes effect on or subsequent to January 1, 1920, and who, at the time of retirement, is on any year of the salary schedule of the rank, shall be placed upon that year of service in the rank to which the reappointment may be made for which the rate of compensation shall be the same as or shall most closely correspond to that received at the time of retirement.

6. The salary of each person whose retirement takes effect on or subsequent to January 1, 1920, and who, by the operation of Order 1A of the salary schedule for the year ending August 31, 1919, and similar orders in subsequent schedules extending the operation of said order, is not on that year of the salary schedule which corresponds to the term of service, shall be fixed at that sum received at the time of retirement plus the amount by which the minimum salary of the rank at time of reappointment has been increased over the minimum salary of the rank at time of retirement, and shall be advanced on respective anniversaries by one annual increment in accordance with the schedule of the rank until the maximum of the rank is reached; provided, that the final increment shall be such an amount as shall place the person on the maximum salary of the rank.

CITY OF BOSTON.

FIRE DEPARTMENT.

PROPOSALS FOR UNDERGROUND CONSTRUCTION.

Proposals are invited for the doing of work in connection with the underground fire alarm service of the Fire Department of the City of Boston. Such proposals will be received at the office of the Fire Commissioner, Bristol street, and the same will be publicly opened and read, at said office, at 12 o'clock noon, July 9, 1920. Proposals must be sealed and marked "Proposals for Underground Construction," and shall be made in duplicate, one to be deposited at the office of the Fire Commissioner and contain a certified check, made payable to the City of Boston, for two hundred and fifty (250) dollars, said check to be forfeited if the proposal accepted is not carried out; the other proposal is to be deposited at the office of the City Auditor, City Hall, previous to the time above stated for the opening of the bids. The work to be done comprises approximately the laying of 2,820 feet of single duct, the setting of nineteen (19) fire alarm box posts and the construction of three (3) hand-holes; said work is to be done in accordance with plans and specifications which may be obtained at the office of the Superintendent of the Fire Alarm Branch, Bristol street. The successful bidder will be required to furnish a bond in the sum of one thousand (1,000) dollars of an approved surety company doing business in the State of Massachusetts. The Fire Commissioner reserves the right to reject any and all bids or to award the contract as he deems best.

JOHN R. MURPHY,
Fire Commissioner.

ACTS RELATING TO CITY OF BOSTON.

[CHAPTER 555.]

AN ACT TO PENALIZE VIOLATION OF CERTAIN RIGHTS OF TENANTS.

Whereas, The deferred operation of this act would defeat its purpose to provide immediate relief from hardship incident to the present scarcity of houses and buildings available for habitation, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public health and convenience.

Be it enacted, etc., as follows:

SECTION 1. Any lessor of any building, or part thereof, who is required by the terms, expressed or implied, of any contract or lease to furnish water, heat, light, power, elevator service or telephone service to any occupant of the building, who wilfully or intentionally fails to furnish such water, heat, light, power, elevator service or telephone service at any time when the same is necessary to the proper or customary use of the building, or part thereof, or any lessor who wilfully and intentionally interferes with the quiet enjoyment of the leased premises by such occupant, shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than six months.

SECT. 2. This act shall become null and void on the first day of February in the year nineteen hundred and twenty-two. [Approved May 28, 1920.]

[CHAPTER 558.]

AN ACT TO DEFINE AND PUNISH THE CRIME OF EAVESDROPPING.

Be it enacted, etc., as follows:

SECTION 1. Whoever, except when authorized by written permission of the attorney-general of the commonwealth, or of the district attorney for the district, secretly overhears, or attempts secretly to overhear, or to have any other person secretly overhear, any spoken words in any building by using a device commonly known as a dictagraph or dictaphone, or however otherwise described, or any similar device or arrangement, or by tapping any wire, with intent to procure information concerning any official matter or to injure another, shall be guilty of the crime of eavesdropping and shall be punished by imprisonment for not more than two years or by a fine of not more than one thousand dollars, or by both such fine and imprisonment.

SECT. 2. Whoever, except when so authorized as aforesaid, either on his own account or as the servant or agent of another, permits or acquiesces in the installing of a device commonly known as a dictagraph or dictaphone or any similar device or arrangement or the tapping of any wire, with intent to procure or knowing or intending that it will be used to procure information concerning any official matter or to injure another, shall be punished by imprisonment for not more than two years or by a fine of not more than one thousand dollars or by both such fine and imprisonment.

SECT. 3. Proof of the installation in any building of any device or arrangement which may be used for the purpose of violating the provisions of section one of this act by listening to any spoken words or proof of the tapping of any wire, unless authorized as aforesaid and unless done with the consent of the owner or person in control of the building, shall be prima

facie evidence of the commission of the crime of eavesdropping; but nothing contained in this act shall render it unlawful for any person to install and use such a device on premises under his exclusive control.

SECT. 4. The following form of complaint or indictment shall be sufficient to charge the offense of eavesdropping as defined in this act. That A. B. did commit the crime of eavesdropping.

SECT. 5. This act shall not apply to a corporation subject to the jurisdiction of the department of public utilities of this commonwealth or to the jurisdiction of the interstate commerce commission, nor shall it apply to the employees of any such corporation while engaged in the conduct of its business. [Approved May 28, 1920.]

[CHAPTER 559.]

AN ACT RELATIVE TO THE PUBLICATION OF LISTS OF CANDIDATES AND FORMS OF QUESTIONS BEFORE STATE AND CITY ELECTIONS.

Be it enacted, etc., as follows:

Section two hundred and sixty-nine of chapter eight hundred and thirty-five of the acts of nineteen hundred and thirteen, as amended by chapter fifty-four of the General Acts of nineteen hundred and nineteen, is hereby further amended by striking out the said section and substituting the following:—Section 269. Before every state election, the secretary of the commonwealth shall cause to be published a list of all candidates to be voted for in each senatorial district, except that in the county of Suffolk the publication shall be of all candidates to be voted for therein. He shall also publish with said lists the form of any question to be submitted to the voters. Before every city election, the city clerk, or in Boston the election commissioners, shall cause to be published a list of all candidates to be voted for in their respective cities, and the form of any question to be submitted to the voters at such election. Such lists and questions shall in all cases be in the form, as near as may be, in which they are to appear upon the official ballot, and for state elections shall be printed in at least four newspapers, if there be so many, published in English in each senatorial district, or in the county of Suffolk, as the case may be. Such publication shall, so far as is practicable, be in newspapers representing the two political parties, and at such reasonable cost as the secretary may determine. For city elections the publication shall be made in at least two newspapers representing the two leading political parties, if there are so many in the city, devoted wholly or chiefly to the publication of local or general news. [Approved May 28, 1920.]

[CHAPTER 567.]

AN ACT RELATIVE TO THE APPOINTMENT OF WOMEN AS SPECIAL POLICE OFFICERS WITHIN THE METROPOLITAN PARKS DISTRICT.

Be it enacted, etc., as follows:

SECTION 1. The metropolitan district commission may appoint, subject to the civil service laws and rules, one or more women as special police officers, who shall have, within the limits of the metropolitan parks district, all the powers conferred by law upon constables, except in relation to the service of civil process,

and all the powers conferred upon the police as watchmen.

SECT. 2. This act shall take effect upon its passage. [Approved May 29, 1920.]

[CHAPTER 573.]

AN ACT TO ESTABLISH THE SALARY OF THE COURT OFFICER OF THE LAND COURT SITTING IN THE COUNTY OF SUFFOLK.

Be it enacted, etc., as follows:

SECTION 1. Section sixteen of chapter one hundred and twenty-eight of the Revised Laws, as amended by chapter six hundred and ninety-six of the acts of nineteen hundred and fourteen, and by section one of chapter one hundred and fifty-five of the General Acts of nineteen hundred and nineteen, is hereby further amended by striking out the word "nineteen," in the tenth and eleventh lines, and substituting the word:—twenty-one,—so as to read as follows:—Section 16. The land court in all matters over which it has jurisdiction may enforce its orders or decrees in the same manner as decrees are enforced in equity, and upon request of the justices of the land court, the sheriff of any county other than Suffolk shall assign a deputy to attend the sittings of the court in that county. The justices of the land court shall appoint an officer for attendance upon the sessions of said court in the county of Suffolk. The officer in attendance upon said court in the county of Suffolk shall receive in full for all services performed by him an annual salary of twenty-one hundred dollars, which shall be paid monthly by the commonwealth.

SECT. 2. This act shall not take effect until an appropriation has been made sufficient to meet the expense involved, and then as of the first day of June in the current year. [Approved May 29, 1920.]

[CHAPTER 574.]

AN ACT RELATIVE TO THE RETIREMENT OF CERTAIN VETERANS IN THE PUBLIC SERVICE.

Be it enacted, etc., as follows:

SECTION 1. A veteran, as defined in section four of this act, who is in the service of the commonwealth, or of any county, city, town or district thereof, shall be retired with the consent of the retiring authority, as defined in section five, if incapacitated for active service, at one half the regular rate of compensation paid to him at the time of retirement, and payable from the same source: *provided*, that he has been in the said service at least ten years, has reached the age of fifty years, and has a total income from all sources, exclusive of such retirement allowance, not exceeding five hundred dollars.

SECT. 2. A veteran as defined in section four, who has been in the service of the commonwealth or of any county, city, town or district thereof, for a total period of ten years, may, upon petition to the retiring authority as defined in section five, be retired, in the discretion of said authority, from active service, at one half the regular rate of compensation paid to him at the time of retirement and payable from the same source, if he is found by said authority to have become incapacitated for active service, provided that he has a total income, from all sources, not exceeding five hundred dollars.

SECT. 3. A veteran as defined in section four, who has been in the service of the commonwealth, or of any county,

city, town or district, for a total period of thirty years, shall, at his own request, with the approval of the retiring authority as defined in section five, be retired from active service at one half the regular rate of compensation paid to him at the time of retirement, and payable from the same source.

SECT. 4. For the purposes of this act, a veteran is hereby defined as a person who has served in the army, navy or marine corps of the United States in the Spanish war or Philippine insurrection between April twenty-first, eighteen hundred and ninety-eight and July fourth, nineteen hundred and two, or in the world war between April sixth, nineteen hundred and seventeen, and November eleventh, nineteen hundred and eighteen, and has been honorably discharged from such service or released from active duty therein.

SECT. 5. The words "retiring authority", as used in this act, shall mean as to the commonwealth, the governor; as to a county, the county commissioners; as to a city, the mayor; as to a town, the selectmen; as to the metropolitan district, the metropolitan district commission; and as to all other districts, the governing boards thereof.

SECT. 6. As affecting retirements in any county, city, town or district, this act shall not take effect therein until accepted by the retiring authority, as defined in section five, of the particular county, city, town or district.

SECT. 7. This act shall not apply to veterans who are members of the police department of the city of Boston. [Approved May 29, 1920.]

[CHAPTER 577.]

AN ACT TO PROVIDE FOR A DISCRETIONARY STAY OF PROCEEDINGS IN ACTIONS OF SUMMARY PROCESS TO RECOVER POSSESSION OF DWELLINGS.

Whereas, The deferred operation of this act would defeat its purpose to provide immediate relief from hardship incident to the present scarcity of houses and buildings available for habitation, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public health and convenience.

Be it enacted, etc., as follows:

SECTION 1. In an action of summary process to recover possession of premises occupied for dwelling purposes, other than a room or rooms in a hotel, lodging house or rooming house, where a tenancy has been terminated without fault of the tenant, either by operation of law or by act of the landlord, except by a notice to quit for non-payment of rent as provided in section twelve of chapter one hundred and twenty-nine of the Revised Laws, a discretionary stay of judgment and execution may be granted, as hereinafter provided, upon application of the tenant, for a period not exceeding six months, as the court may deem just and reasonable.

SECT. 2. Upon application for such a stay of proceedings, the court shall hear the parties, and if upon the hearing it appears that the premises of which possession is sought to be recovered are used for dwelling purposes; that the applicant cannot secure suitable premises for himself and his family elsewhere within the city or town in a neighborhood similar to that in which the premises occupied by him are situated; that he has used due and reasonable effort to secure such other premises; that his application is made in

good faith and that he will abide by and comply with such terms and provisions as the court may prescribe; or that by reason of other facts such action will be warranted, the court may grant a stay as hereinbefore provided, on condition that the terms upon which such stay is granted be complied with.

SECT. 3. Such stay shall be granted and continue effective only upon the condition that the applicant shall make a deposit in court of the entire amount, or such instalments thereof from time to time, as the court may direct, for the occupation of the premises for the period of the stay, at the rate to which he was liable as rent for the month immediately prior to the expiration of his term or tenancy plus such additional amount, if any, as the court may determine to be reasonable. The deposit shall also include all rent unpaid prior to the period of the stay. The amount of the deposit shall be determined by the court at the hearing upon the application for the stay, and such determination shall be final and conclusive in respect to the amount of the deposit, and the amount thereof shall be paid into court, in such manner and in such instalments, if any, as the court may direct. A separate account shall be kept of the amount to the credit of each proceeding, and all such payments shall be deposited by the clerk of the court and paid over to the landlord or his duly authorized agent, in accordance with the terms of the stay or the further order of the court.

SECT. 4. Any provision of a lease whereby a lessee or tenant waives any provision of this act shall be deemed to be against public policy and void.

SECT. 5. The provisions of this act shall not apply to pending causes of action.

SECT. 6. This act shall become null and void on the first day of February in the year nineteen hundred and twenty-two. [Approved June 2, 1920.]

[CHAPTER 578.]

AN ACT TO PROVIDE THAT UNJUST, UNREASONABLE AND OPPRESSIVE AGREEMENTS SHALL BE A DEFENCE IN ACTIONS FOR RENT.

Whereas, The deferred operation of this act would defeat its purpose to provide immediate relief from hardship incident to the present scarcity of houses and buildings available for habitation, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public health and convenience.

Be it enacted, etc., as follows:

SECTION 1. Unjust, unreasonable and oppressive agreements for the payment of rent or for the use and occupation of premises occupied for dwelling purposes, other than a room or rooms in a hotel, lodging house or rooming house, shall be unenforceable by action. Where it appears that the rent has been increased more than twenty-five per cent over the rent as it existed one year prior to the time of the agreement under which rent is sought to be recovered, except in cases where unusual repairs and alterations have been made, the agreement shall be presumptively unjust, unreasonable and oppressive; but nothing herein contained shall prevent either party from pleading and proving in an action that a greater increase was a fair and reasonable rent or that a lesser increase was an unjust, unreasonable and oppressive rent for the premises in such action, or from institut-

ing a separate action for the recovery thereof. In any action on such an agreement or in a separate action the landlord may recover the fair rental of his premises.

SECT. 2. The provisions of this act shall not apply to pending causes of action.

SECT. 3. The act shall become null and void on the first day of February in the year nineteen hundred and twenty-two. [Approved June 2, 1920.]

[CHAPTER 579.]

AN ACT TO ENABLE WOMEN VOTERS TO VOTE AT PRIMARIES AND ELECTIONS WHEN QUALIFIED.

Whereas, Upon the ratification of the proposed amendment to the federal constitution which provides that the rights of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex, the immediate taking effect of this act would be necessary in order that provision may be made for the registration and listing of female voters in this commonwealth, therefore this act is hereby declared to be an emergency act necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter eight hundred and thirty-five of the acts of nineteen hundred and thirteen is hereby amended by striking out section sixty and substituting the following:—Section 60. Registrars or election commissioners shall, from the names entered in the annual register of voters, prepare voting lists for use at the several elections to be held therein. In such voting lists they shall place the names of all voters entered on the annual register, together with the names of female voters qualified under the provisions of section thirteen, and no others, and opposite to the name of each, his or her residence on the preceding first day of April or at the time of his or her becoming an inhabitant of such place after such day. In cities they shall prepare such voting lists by wards, and if a ward or town is divided into voting precincts, they shall prepare the same by precincts in alphabetical order, or by streets, except that in Boston the voting lists shall be prepared by streets. Names shall be added thereto or taken therefrom as persons are found to be qualified or not qualified to vote.

SECT. 2. Every female citizen having the qualification of male voters under the provisions of section twelve of said chapter eight hundred and thirty-five shall have the right to vote in any city, town or state election, or primary or caucus.

SECT. 3. If the name of a female who is duly registered as a voter is changed by marriage or by decree of court within sixty days prior to any city, town or state election or primary or caucus, she may vote at such election, primary or caucus in her former name, but at any election, primary or caucus held after the expiration of such period she may not vote without first re-registering in her new name, and on any re-registration on account of change of name the marriage certificate or decree of court, as the case may be, or a certified copy thereof shall be exhibited to the registrar.

SECT. 4. This act shall take effect upon the adoption of the proposed amendment to the federal constitution which provides that the rights of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex. [Approved June 2, 1920.]

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To resurface with asphalt macadam, East Lenox street, from Washington street to Fellows street, the estimated cost for labor and material being \$2,000.

To renew deck and sheathing of Fairmount Avenue Bridge, over New York, New Haven & Hartford Railroad, Hyde Park, the estimated cost for labor and materials being \$3,500.

To reset edgestone, relay brick sidewalks and relay granite block paving with grout joints in Austin street, Charlestown, from Main street to Seminary place, the estimated cost for labor and material being \$1,300.

To grade, set edgestone, lay granite block paving, grout joints, on 6-inch concrete base and construct sidewalks in Chelsea street, from Foss street to Adams street, Charlestown, the estimated cost for labor and material being \$28,000.

ARTIFICIAL STONE SIDEWALKS.

BOSTON, July 6, 1920.

To the Mayor of Boston:

DEAR SIR,—Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Frank Drinkwater, 35 Hemlock street, West Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

The authority requested is hereby given. July 8, 1920.

ANDREW J. PETERS, Mayor.

CLAIMS.

The Mayor has approved the following claims, with the indorsement of the Corporation Counsel:

M. E. Lemery, in the sum of \$1,000, for breach of contract, on account of refusal to receive road oil contracted for April 25, 1917, said oil to be used by the Public Works Department.

Catherine Keyes, in the sum of \$150, for personal injuries caused by defective condition of sidewalk on west side of Adams street, Dorchester, about eighty feet from northwest corner of Minot street, February 11, 1919.

Martha Wilmot, in the sum of \$75, for personal injuries caused by defect in highway January 2, 1920, on Tremont street, near junction of Milford street.

Fred P. Smith, for damage to clothing caused by nail projecting in waiting room of ferryboat "General Sumner," February 26, 1920, by payment of \$25.

Rose Boyle, for personal injuries caused by hole in sidewalk on Columbus avenue, west side, opposite No. 776, March 10, 1920, by payment of \$125.

Thomas B. McMahon, in the sum of \$300, for personal injuries caused by defective sewer cover at Shirley street, opposite Star Brewery, July 18, 1919.

Annie M. Glennon, in the sum of \$300, for personal injuries caused by hole in sidewalk at 18 Sudan street, March 20, 1920.

Nicola Sacco, in the sum of \$300, for personal injuries and damage to automobile caused by hole in street on Columbus avenue, November 22, 1919.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states that it is his intention:

To construct a sanitary sewer and surface drain of concrete, each 18 inches by 18 inches and one catch-basin and connections in Public Alley 909, between Hemenway street and Massachusetts avenue, in the Roxbury district, at an estimated cost of \$12,819.

To construct a surface water conduit of concrete, 9 feet 8 inches by 10 feet, for the purpose of carrying Muddy river with the necessary surface drain connections, and four catch-basins in Brookline avenue, between Beacon street and Audubon road, in the Roxbury district, at an estimated cost of \$301,000.

AMERICA AND ITS VITAL PROBLEM.

ORATION BY JACOB L. WISEMAN.

DELIVERED AT FANEUIL HALL, JULY 5, 1920.

Mr. Mayor and Fellow Citizens:

We are here assembled to fittingly celebrate the greatest day of our history. One hundred and forty-four years of achievement have elapsed since that great dawn of day that has meant so much to mankind. We should this day review our succeeding steps of development, and once more be reminded that Washington, Franklin and their associates planned for a people, planned that all who landed on these shores may enter where men of every class are free. This country was established for people of other nations who wish to share in the privileges of free and independent men. Our ancestors who gave force to the Revolution, and established this nation, were men morally and intellectually great, noble and unselfish; who cherished an ideal and never swerved from it. It has been our heritage and that of the generations before us to respect and live up to their aims and ideals.

It is advisable that we pause and see whether we have done as they would do if they were in our place; or failed in our duty and proper inspiration. We should today once more pledge allegiance to, and drink at the fountain of inspiration, the ideals of our forefathers, so that our faith and purpose may be strengthened to perform our duties in the future.

History tells us that our forefathers fled from Europe to escape religious persecution. The first immigration to this country started in 1565 when the Spaniards settled in Florida and on the southwestern coast, most of which is now California. Then came the English, who landed in Virginia, the Pilgrims in Plymouth, the Dutch in New York, and the Portuguese Jews in Newport. This early cosmopolitan influx all took place prior to 1650. Then to the days of the Revolution continued the flow of immigration of the English, Irish, Alsatian, the Swiss, French and Scotch.

These colonists came, with different traditions, languages and religions, but with one ideal of freedom and liberty. It was that spirit that made possible the Revolution. The English, French, Irish, Dutch and Jew all became blended into a powerful body of patriots. Though they were few in number they were unconquerable in spirit, with the result that these colonists declared their independence. Then was this government founded and civilization was given a new champion, established in order and obedience to law, and for preservation of property and religious freedom. Our progress is dependent upon this foundation; and the great leaders of the Revolution had the wonderful vision to see that the happiness of the people required its existence. We must never weaken in upholding these principles.

After the Revolution immigration still continued. The first effort that was made to better the conditions of the then future citizens that were landing on these shores was in 1815, when immigration laws were passed, stopping to some extent the exploiting of the immigrant, making provisions for their comfort and convenience on their arrival here. History records that the first real big wave of immigration began in 1848 after the European Revolution, when the Germans and Irish came over in large numbers. These people

came here to escape political punishment and persecution. Then followed the second wave of immigration in 1882, and the records show that England, Ireland, France, Germany and Sweden furnished ninety-five per cent of the total number of immigrants. The third wave of immigration came in 1892, and of the total, eighty-one per cent came from Austria-Hungary, Italy, Russia and Servia. Since then, to 1914, twenty-three per cent of the total came from Italy, twenty-three per cent from Austria-Hungary, and twenty-one per cent from Russia, and the balance from other countries of Europe. It can safely be said that the immigrant who came here since 1892, with the exception of the Russian Jew, was influenced in coming here primarily by economic motives and desire for economic betterment. Thus you have a picture of the people who have made this country, the elements constituting it now, the reasons for their coming here, and some of the causes which make our problem today.

It has been more difficult to Americanize the immigrant who has arrived here since 1892 than those who arrived prior to that date, primarily because of the different motives actuating the coming of these later immigrants. The Immigration Commission has reported that out of 3,199,061 admitted in 1909 and 1910, 1,918,825 over fourteen years of age could not read or write. The percentage of immigrants who have remained in this country a few years, saved some money and returned to their native shores with their little fortunes has been great. The Irish and the Jew, of the recent immigrants have been the only two races that have apparently settled here permanently, only six to eight per cent returning to their native shores since 1892.

Another very apparent fact has come to light that of the many immigrants entering this country since 1900, seven out of ten who landed at our ports from southern and eastern Europe were engaged in agricultural pursuits at home, but here have found employment in New England textile centers, in steel, iron, clothing, and coal centers of the middle and western states.

The dearth of farm labor in this country has become a lamented fact; it has become more and more difficult to find labor, and were it not for many inventions of labor-saving devices it would be impossible to do so much harvesting of our staple crops. In the West and in our own New England one sees vast stretches of vacant lands under cactus and weeds, for want of proper cultivation, due to the crowding of our cities and rush to the industrial centers by immigrants and native farmers.

Today every industrial center has its colonies of Italians, Slavs, and Hungarians. The congestion is very unsatisfactory from every viewpoint. One reason for this congestion of agriculturally trained immigrants in industrial centers is that they do not wish to be segregated from their own groups because they do not speak the English language and are fearful to stray from their own.

Thus in this short review one sees one of the big problems the awakened people of America are facing. Can we harmonize these varied elements? Can we appreciate the benefits to be derived from

associations with people who are so different from ourselves? The chief difficulty in the past has been that in our social and political intercourse, and to some extent in the industrial, we have associated with groups of similar tastes and habits, thus losing that broadening effect and wider vision of ideas and affairs gained through mingling; for it is only by the intermingling of peoples and by their contributions to our civilization that this country has progressed.

Our language, customs, ideals are practically unchanged despite the influx of the immigrants with foreign speech and alien ways. It is true we have not fully harmonized the immigrant of the last twenty-five years; but they have not materially lowered our ideals or corrupted our manners or impaired our national consciousness.

The situation today, therefore, is complex. We are Jew and Gentile, Protestant, Greek and Roman Catholic, English, Italian, Irish, German, French and Slav. We are everything out of which we must shape a new spirit, a better ideal, a people with but one thought,—to be American. We must forget our old prejudices, we must cease being indifferent; we must endeavor to understand the recent immigrants and to improve their conditions.

There is a great field open for us and vast possibilities are offered for real patriotic service in improving these serious conditions.

SIGNIFICANCE OF IMMIGRANT COMMUNITIES.

The problem affecting our alien population, the low standard of living, the absence of industrial training, lack of tractability and aggressiveness of the southern and eastern European, their segregation into small colonies where they have little contact with American life and scant opportunity to acquire the English language; the sudden transplanting of an agricultural group from the old world and conditions and environment to industrial communities, render the recent immigrant liable to serious physical and moral deterioration. Insufficient sanitary measures for maintaining their health constitute a serious danger, and the political, social and industrial manipulation by unscrupulous leaders will leave its impress, unless proper Americanization work is begun, and vigorously prosecuted.

That is why restlessness prevails today in our business, social and personal conduct. The conditions existing today are the desire to become rich, the reckless expenditure of money and radical ideas that are expounded for our government control, and attacks on our fundamental principles of government. We are in the midst of a moral and mental unrest.

It is for us during this period to be steadfast, patient, tolerant and yet firm. Our problems must be worked out, law and order maintained; common sense must prevail. We need a new program based upon a sounder analysis of causes of political abuses, social instability and prejudice, and a greater tolerance towards each other in the solution of industrial problems.

This country was established to perpetuate democratic principles. Each man must be treated on his value as a man without regard to the land from which he or his forefathers came, and without regard to the creed which he professes.

Our duty is to secure each man against any injustice from his fellowman.

RELIGIOUS FREEDOM.

The first solution of our problem is religious freedom and tolerance of the

other fellow's views. We should not oppose anyone because he is not of our creed; this applies to Jew and Gentile alike. Prejudice against a religion only increases sectarian intolerance which our country cannot and should not countenance. Everyone should respect the other fellow's faith and each citizen should have a knowledge and reverence of his own faith. Each citizen should teach the history and tenets of his faith to his children so that they might grow up to manhood and womanhood with a proper respect for themselves, their parents and their faith; and thus better appreciate the opportunities of this country, because of the knowledge of sufferings and disadvantages of their ancestors in the country from which their parents came. Neither should one's faith or religion be the cause of advancement to office. America should be free of class or religious distinction and each man judged on his merits.

Every immigrant must become Americanized; he must become imbued with the spirit, soul and ideal of his adopted country. There must be union, harmony of nationalities, otherwise small groups serving different interests, each at heart feeling more sympathy with his personal cause rather than with the interests of and loyalty to his country, will spell ruin to this country.

Roosevelt has said, "Men who do not become Americans . . . are hyphenated Americans and there ought to be no room for them in this country." We must by our actions prove ourselves Americans. This country was founded by foreigners originally, yet they were all Americanized and we today should desire that the policy of the United States should be so shaped with reference to the best interests of the country, that we should be incapable of making any discrimination. We must put devotion and duty above selfish individual rights.

EDUCATION.

No alien can become a good citizen if he does not learn to speak the English language. Each community should develop community spirit, especially in the industrial centers and congested districts of our large cities. Through the medium of lectures, schools, papers, we should arouse self-respect and spirit and a realization on the part of these new Americans that they are part and parcel of our community; that they should consider themselves part of our government, instead of being exploited politically and otherwise, or playing upon their prejudices and permitting impressions that our laws are not just. These new Americans should be aided in every way to advance themselves and to improve their unsanitary surroundings.

They should be made to realize, as were the millions of Americans that were drafted into our great army during the World War, that there is need of a common language; that citizenship is necessary to have loyalty for our country and our flag. These new Americans should be enlightened instead of being compelled to depend for enlightenment upon their own compatriots solely, if we desire to reduce industrial and social unrest.

AMERICANIZATION.

The day is gone when we should consider an immigrant merely as an industrial asset. He must be fused and made to harmonize; we must do justice, teach him our language and imbue him with our ideals. We must accept these new

Americans socially instead of ostracizing them. Their welfare must be regarded and studied intelligently. Municipalities must do away with squalid, overcrowded surroundings and arouse in them a desire to have a decent living.

We must reduce the illiteracy of the adult immigrant as well as the alarming number of illiterates discovered among our native Americans in the mountainous districts of the South, the swamps of Louisiana and the plains of the West, where men and women have grown up unable to read and write. This education is a matter of grave public importance. The new Americans need not forget their own tongue; but they should know English to obtain a better knowledge of our country. There should be a genuine understanding between us, and a sympathy for the new American, so necessary to arouse that faith in this new American, in order to enable him to understand the freedom and democracy of our country.

As a people we must be united. We must be taught to recognize the rights of others. All of us, irrespective of the land from which we or our parents came, regardless of the manner in which we worship God, must stand shoulder to shoulder for a united America; for equal justice to all, for elimination of race and religious prejudice, and for proper maintenance of right standards of living. Each individual must strive for the performance of the duty he owes to his neighbor and his country.

It is true that most of us are dependent upon a leader for guidance and truth. We all seem to have a longing, human desire for a Messiah. In the past we have been fortunate to have Washington for our father, Abraham Lincoln for our big brother. Now we have grown up and we need counsel and advice. We need a citizenship aroused to a realization of our duties and a new leader will surely arise to guide us in our deliberation. Our new Americans and their children will be what we make of them. Their destiny and our future is in our own hands. We must learn how to live with one another. Our new alien population is human and we should not treat them as competitors. They are our brothers, and not strangers. We, with our historic inheritance, our native genius, the wonderful contribution from all races of the world, must make ourselves worthy Americans. Only in this manner shall we be able to establish common standards; a realization of ideals; a higher standard of living; a better appreciation of opportunity and of social and industrial justice.

We should love our America. We should be thrilled by her very name; cherish her history as the record of those who have lived, suffered and died for our ideals. Our thoughts and actions should be united irrespective of our nationality, color or creed. President Woodrow Wilson has said, "All our citizens were drawn across the ocean by a vision of justice, by the expectation of a better kind of life."

You must work and take part in the heartrending burden of this struggle; but you should not lose spirit of hope, liberty and justice."

We have seen the possibilities of fusion and intelligent harmonizing in every one of our great crises. The Revolution, the Civil War, the Great World War,—what a wonderful example of all factions, all races, alien and native, forgetting they were Jew or Gentile, all joining to secure for our country what can be achieved only by harmony and union! Thousands and thousands have died for our country; we should now consecrate ourselves to live for our country!

REVISED SCHEDULE OF PERMIT CHARGES.

BOSTON, June 30, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—In accordance with chapter 571 of the Acts of 1910, your approval is respectfully asked for the following revision of the schedule of permit charges now in use by this department, so that they will conform to the schedule of permit charges of the Public Works Department, said charges to take effect July 1, 1920:

On and after July 1, 1920, a charge will be made for each permit issued by this department in accordance with the following schedule:

1. Openings in roadways, walks, or grounds, 50 cents each, limited to 100 linear feet on one permit.
2. Emergency permits (for the above purpose), 50 cents for each opening.
3. Cleaning snow from roofs (occupation of sidewalk and street while so doing), annual permit, \$1.
4. Teaming or trucking on park roads, \$5 per day.
5. Erecting and repairing awning (annual permit), \$1.
6. Occupation of street or sidewalk, erecting, altering or repairing building, 2 cents per square foot per month up to 5,000 feet; the minimum charge to be at one month rate.
7. Painting or minor repairs, \$1 each.
8. Moving buildings in streets, \$5 per day; minimum charge, \$10.
9. Placing and maintaining gasoline dispensers, not including signs (annual permit), \$50.
10. Special permits for other than above purposes, \$1 each.
11. Annual permits at rates other than those in the preceding classes, when in the opinion of the commission such permits are requisite to proper conduct of the permit system.

All extensions will be considered renewals and the charge collected as for a new permit.

JAMES B. SHEA,
JAMES E. McCONNELL,
CHARLES A. COOLIDGE,
Park and Recreation Commissioners.

Very respectfully yours,

DANIEL J. BYRNE,
Secretary.

Approved July 6, 1920.

ANDREW J. PETERS,
Mayor.

EWES TRANSFERRED TO LONG ISLAND.

BOSTON, July 1, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—At the request of Commissioner Thomas C. O'Brien of the Penal Institutions Department, I have shipped to Long Island twelve ewes from our flock at Franklin Field. I ask your approval for their transfer to the Penal Institutions Department without remuneration, as I understand that Commissioner O'Brien has no item in his budget to provide for the payment of the same.

I have also transferred to the Penal Institutions Department, at Commissioner O'Brien's request, one horse lawn mower. I also ask your permission for this transfer without remuneration, except for the repairs and purchase of new parts, which have been arranged for through this department.

Very respectfully yours,

JAMES B. SHEA,
Chairman.

Approved July 6, 1920.

ANDREW J. PETERS, *Mayor.*

ACTS RELATING TO CITY OF BOSTON.

[CHAPTER 580.]

AN ACT TO PROVIDE FOR THE ESTABLISHMENT AND REGULATION OF PUBLIC MARKETS.

Whereas, It is urgently necessary to reduce the present high cost of farm products and other food stuffs to the consumer, and to insure to producers a greater proportion of the prices finally paid by consumers for such products, objects likely to be attained by enabling producers and consumers to deal directly with one another, therefore this act is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. All cities, and all towns having a population of ten thousand persons or more, may provide and maintain public markets with suitable buildings and grounds. For this purpose any such city or town may acquire land by gift, purchase or lease, with or without buildings, and may make alterations in buildings and construct new buildings on land so acquired.

SECT. 2. Cities and towns which do not maintain public markets under the provisions of section one hereof shall upon petition of not less than five per cent of their voters designate one or more streets or squares, or parts thereof, or other public places which shall be suitably situated and shall be approved by the department of agriculture, to be used by farmers as public market places. Petitions under the provisions of this section shall be filed with the city or town clerk of the city or town to which the petition applies, and it shall be the duty of the clerk to determine whether the petition contains a sufficient number of signatures and whether such signatures are bona fide, and, when satisfied that the petition meets the requirements of this section, he shall certify the same to the mayor of the city or the chairman of the board of selectmen of the town, and shall also notify the commissioner of agriculture that the petition has properly been filed, stating the date of the filing.

SECT. 3. Any city or town which maintains a public market or market place in accordance with the provisions of this act may make rules and regulations for the management and use thereof, subject to the approval of the commissioner of agriculture, and may prescribe penalties for their violation. Such a city or town shall also designate a market master who may be a police officer or other municipal officer or employee. The market master shall have charge of such markets and market places and shall conduct them in the interest of the market men and their customers, shall enforce the rules and regulations aforesaid, and shall maintain order within the market limits.

SECT. 4. Chapter one hundred and nineteen of the General Acts of nineteen hundred and fifteen, as amended by chapter seventy-nine of the General Acts of nineteen hundred and sixteen, is hereby repealed. [Approved June 2, 1920.]

[CHAPTER 584.]

AN ACT TO PERMIT THE ACCEPTANCE OF SAVINGS DEPOSITS AND FEDERAL, STATE AND MUNICIPAL BONDS AS SECURITY FOR BAIL IN CRIMINAL CASES.

Be it enacted, etc., as follows:

SECTION 1. Section thirty-five of chapter two hundred and seventeen of the

Revised Laws, as amended by chapter one hundred and sixty-four of the acts of nineteen hundred and four, is hereby further amended by striking out the said section and substituting the following:—*Section 35.* If the recognizer does not appear according to the condition of his recognizance, the court or justice may issue process to bring him unto court for trial. The court or justice may at any time after his failure to appear according to the condition of his recognizance, order his default to be recorded, but the default may be taken off for good cause at any time to which the case may be continued. If the default is not taken off, the recognizance shall be certified with a record of the default to the superior court, and like proceedings shall be had thereon as upon a breach of the condition of a recognizance for appearance before the superior court, except in cases where bank books, money or bonds have been deposited on such recognizance.

SECT. 2. Section fifty-six of said chapter two hundred and seventeen, as amended by chapter two hundred and twenty-six of the acts of nineteen hundred and twelve, and by section one of chapter three hundred and ninety of the acts of nineteen hundred and fourteen, is hereby further amended by striking out the said section and substituting the following:—*Section 56.* A justice of the supreme judicial court or of the superior court, a clerk of courts or the clerk of the superior court for criminal business in the county of Suffolk, a standing or special commissioner appointed by either of said courts, a justice or clerk of a police, district or municipal court, a master in chancery or a trial justice, upon application of a prisoner or witness held under arrest or committed, either on a warrant or without one, or held in the custody of an officer under a mittimus, may inquire into the case and admit such prisoner or witness to bail; and may admit to bail any person who is committed for not finding sureties to recognize for him. All persons authorized to take bail under the provisions of this section shall be governed by the rules established by the supreme judicial court or the superior court. But no person offering himself a surety shall be deemed to be insufficient if he deposits money of an amount equal to the amount of the bail required of him in such recognizance, or a bank book of a savings bank or of the savings department of a trust company doing business in the commonwealth, properly assigned to the justice or clerk with whom the same is deposited, or his successor, and satisfactory to the person so authorized to take bail, or non-registered bonds of the United States or bonds of the commonwealth or of any county, city or town within the commonwealth at their face value to the amount of the bail which he is ordered to furnish or for which he is to become surety.

SECT. 3. Said chapter two hundred and seventeen is hereby amended by striking out section fifty-nine and substituting the following:—*Section 59.* If bail is taken out of court, the person authorized to take bail in criminal cases shall cause a certificate to be signed and sworn to by each surety, which shall contain the name, the residence, including the name of the street and number of the dwelling house thereon, the occupation and place of business of the surety, a statement of the nature, location and value of his property, and of the incumbencies, if any, thereon, the amount of his indebtedness and all other matters

pertinent to the amount and value of such property, and shall return a proper recognizance to the proper court. A surety may, instead of making the said certificate, give his personal recognizance as surety and deposit money of an amount equal to the amount of the bail for which he is to become surety, or a bank book of a savings bank or of the savings department of a trust company doing business in the commonwealth, properly assigned as hereinbefore provided and satisfactory to the person so authorized to take bail, or non-registered bonds of the United States or bonds of the commonwealth or of any county, city or town within the commonwealth at their face value to the amount of the bail which he is ordered to furnish or for which he is to become surety, whether bail is taken in court or out of court.

SECT. 4. Section sixty-six of said chapter two hundred and seventeen, as amended by section four hundred and fifty-nine of chapter two hundred and fifty-seven of the General Acts of nineteen hundred and eighteen, is hereby further amended by striking out the said section and substituting the following:—*Section 66.* Bail in criminal cases may be exonerated at any time before default upon their recognizance by surrendering their principal into court or to the jailer in the county in which the principal is held to appear, or by such voluntary surrender by the principal himself, and in either event, in all cases where bank books, money or bonds are deposited by the surety, the court shall thereupon order the bank books, money or bonds so deposited to be returned to the surety or his order, and to be re-assigned to the person entitled thereto. They shall deliver to the jailer their principal, with a certified copy of the recognizance, and he shall be received and detained by the jailer, but may again be bailed in the same manner as if committed for not finding sureties to recognize for him. The jailer shall forthwith notify the clerk or justice of the court in which the proceeding is pending of such surrender.

SECT. 5. Said chapter two hundred and seventeen is hereby amended by striking out section sixty-nine and substituting the following:—*Section 69.* If a person who is under recognizance to appear and answer or to prosecute an appeal in a criminal case fails to appear for that purpose according to the condition of his recognizance, and if a person under recognizance to testify in a criminal prosecution fails to perform the condition of his recognizance, his default may be recorded, his obligation and that of his sureties shall be forfeited and process shall, except in cases where bank books, money or bonds have been deposited on such recognizance, be issued against them or such of them as the prosecuting officer directs; but in such a suit no costs shall be taxed for travel.

SECT. 6. Section seventy-seven of said chapter two hundred and seventeen, as amended by chapter two hundred and twenty-one of the acts of nineteen hundred and six and by chapter one hundred and sixty of the acts of nineteen hundred and eleven, is hereby further amended by striking out the said section and substituting the following:—*Section 77.* A person who is held in custody or committed upon a criminal charge, is entitled to be released on bail, or a person who is held in custody or committed as a witness to a crime, may at any time, instead of giving surety or sureties, give his personal recognizance to appear before any court or trial justice and deposit the amount of the bail which he is ordered to furnish, or he may deposit

a bank book of a savings bank or of the savings department of a trust company doing business in the commonwealth, properly assigned, as hereinbefore provided, and satisfactory to the person so authorized to take bail, or non-registered bonds of the United States or bonds of the commonwealth or of any county, city or town within the commonwealth at their face value to the amount of the bail which he is ordered to furnish, with the court, trial justice or magistrate authorized by law to take the recognizance who shall give him a certificate thereof, and upon delivering said certificate to the officer in whose custody he is, he shall be released. The money, bank books or bonds shall thereupon be deposited with the clerk of the court before which such person was recognized to appear, or if the court has no clerk, with the justice thereof.

SECT. 7. Said chapter two hundred and seventeen is hereby amended by striking out section seventy-eight and substituting the following:—*Section 78.* Upon the default of the defendant, such court, trial justice or magistrate may at any time thereafter order the money or bonds deposited as aforesaid to be forfeited, and the justice, trial justice, magistrate or clerk with whom the said deposit was made shall thereupon pay over the money to the county treasurer, and the clerk of the court, or, if the court has no clerk, the justice thereof, shall immediately proceed to sell the said bonds at either private or public sale, and shall forthwith turn over the proceeds, after deducting the expenditures incurred in conducting the sale, to the county treasurer. In the case of bank books, he shall proceed to collect the amount of bail from the depository, and shall turn over the same, less the expense of collection, to the county treasurer.

SECT. 8. Section seventy-nine of said chapter two hundred and seventeen, as amended by section one of chapter two hundred and thirty-six of the acts of nineteen hundred and three, is hereby further amended by striking out the said section and substituting the following:—*Section 79.* The defendant may surrender himself at any time before a default, in the same manner as sureties in criminal cases may surrender their principal, and the court shall thereupon order the bank books to be reassigned and the money or bonds so deposited to be returned to him or his order, or to his surety or his order. At any time after a default, on the surrender or recaption of the defendant, the court may order the whole or any part of the money so deposited or of the bonds, or of the amount of the net proceeds of the sale of said bonds, or the bank books, or the whole or any part of the amount collected from the depository thereunder, to be returned to him or to his surety. If the amount realized by sale or collection pursuant to the provisions of section seventy-eight shall exceed the amount of the recognizance, the court shall, on an application made at any time, order such excess in the net proceeds of the sale to be returned to the party found by the court to be entitled thereto. [Approved June 2, 1920.]

[CHAPTER 587.]

AN ACT TO AMEND THE LAW RELATIVE TO THE FEES OF REGISTERS OF DEEDS.

Whereas, the deferred operation of this act would cause confusion and inconvenience in the fixing of fees for recording legal documents in registries of deeds, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

Section twenty-nine of chapter two hundred and four of the Revised Laws, as amended by chapter three hundred and sixty-five of the acts of nineteen hundred and eight, by chapter two hundred and seventy-three of the acts of nineteen hundred and ten, and by section one of chapter four hundred and ninety-five of the acts of the present year, is hereby further amended by striking out the clause which reads as follows:—"For entering and filing a plan, of a size not over four inches by nine and one half inches, one dollar; for larger sizes, not less than two dollars", and substituting the following:—"For entering and filing a plan, of a size not over fourteen inches by nine and one half inches, one dollar; for larger sizes, not less than two dollars. [Approved June 3, 1920.]

[CHAPTER 594.]

AN ACT INCREASING THE AMOUNTS ALLOWED FOR CLERICAL ASSISTANCE TO THE REGISTERS OF PROBATE AND INSOLVENCY FOR CERTAIN COUNTIES.

Be it enacted, etc., as follows:

SECTION 1. The registers of probate and insolvency for the counties of Berkshire, Essex, Hampden, Middlesex, Norfolk and Suffolk shall be allowed for clerical assistance, in addition to the amounts now allowed by law, amounts not exceeding the following-named sums, to be paid from the treasury of the commonwealth upon the certificate of the register, approved by a judge of probate and insolvency for the county concerned:—

The register for the county of Berkshire, \$100.
The register for the county of Essex, \$2,000.
The register for the county of Hampden, \$800.
The register for the county of Middlesex, \$5,000.
The register for the county of Norfolk, \$1,000.
The register for the county of Suffolk, \$500.

SECT. 2. The increases for clerical assistance provided for by this act shall not take effect until a sufficient appropriation has been made therefor, and then as of the first day of January in the year nineteen hundred and twenty. [Approved June 3, 1920.]

[CHAPTER 608.]

AN ACT RELATIVE TO ABATEMENTS OF THE WAR POLL TAX ASSESSED ON VETERANS OF THE SPANISH WAR, THE PHILIPPINE INSURRECTION AND THE WORLD WAR.

Whereas, In order to carry out the purpose of this act it must take effect at once, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Any honorably discharged veteran of the Spanish war or of the Philippine insurrection, shall, upon application in writing to the board of assessors of the city or town in which he resides, receive an abatement of any war poll tax assessed upon him under the provisions of chapter two hundred and eighty-three of the General Acts of nineteen hundred and nineteen.

SECT. 2. No application for an abatement under this act, and no application for abatement made by a veteran of the world war under section nine of chapter two hundred and eighty-three of the General Acts of nineteen hundred and nineteen, shall be considered unless made within ninety days from the date of the tax bill. [Approved June 4, 1920.]

[CHAPTER 73.]

RESOLVE TO PROVIDE FOR CONTINUING THE INVESTIGATION RELATIVE TO A TRAFFIC TUNNEL BETWEEN BOSTON AND EAST BOSTON.

Resolved, That the division of waterways and public lands of the department of public works and the transit department of the city of Boston are hereby created a joint board for the purpose of continuing the investigation authorized by chapter fifty-one of the resolves of nineteen hundred and nineteen relating to a traffic tunnel to connect Boston and East Boston. The board shall consider the advantages and disadvantages of a double-barrel traffic tunnel substantially as recommended in the preliminary report made under said chapter fifty-one; shall prepare final plans for such a tunnel as may be approved and final estimates of the cost of construction and maintenance thereof, and a comprehensive financial plan applicable thereto; and shall report to the next general court not later than the fifteenth day of January. The expenses incurred by the board hereby created shall be divided in the manner provided in said chapter fifty-one and paid from the fund established thereunder, and any unexpended balance of the appropriation made therefor by the city of Boston shall be refunded to the city. [Approved May 27, 1920.]

[CHAPTER 78.]

RESOLVE PROVIDING FOR AN INVESTIGATION BY THE DEPARTMENT OF PUBLIC UTILITIES RELATIVE TO THE USE OF THE EAST BOSTON TUNNEL BY THE EASTERN MASSACHUSETTS STREET RAILWAY COMPANY.

Resolved, That the department of public utilities shall investigate the expediency and practicability of authorizing the Eastern Massachusetts Street Railway Company to acquire by purchase, lease or otherwise the franchises and rights now held by the Boston Elevated Railway Company in respect to the East Boston tunnel and other property in East Boston, and also the expediency of granting to the Eastern Massachusetts Street Railway Company certain locations in the cities of Boston, Chelsea and Revere in connection with the use of the said tunnel. The department shall take into consideration the matters contained in House Bill number 1356, now pending, and shall report to the next general court, with any recommendations for legislation which it may deem proper, on or before the second Wednesday in January. [Approved May 27, 1920.]

EXPORTS AND IMPORTS, MASSACHUSETTS CUSTOMS DISTRICT, 1918.

Dating from July 1, 1913, the district includes Boston and the eight minor ports of the state. Value of exports in calendar year, 1918, \$221,477,295, or \$12,509,458 (i. e., 5.99 per cent) more than in 1917; of imports, \$295,907,047 or \$66,665,716 (i. e., 29.08 per cent) more than in 1917; total foreign trade, \$517,384,342, an increase of \$79,175,174 or 18.07 per cent over the same in 1917. Boston's total foreign trade for year 1918, the largest on record, ranks fifth among American ports, New York, Seattle, Philadelphia and New Orleans leading, the latter only slightly. Tonnage of vessels in foreign trade (entered and cleared) in year, 2,427,772, or 547,752 less than in 1917; number of vessels, 1,686 or 352 less than in 1917.

CONSOLIDATION OF CITY DEPARTMENTS.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1920.

To the City Council:

Gentlemen,—I am herewith attaching a communication addressed to the City Council on April 5 relative to the consolidation of several city departments, and I again recommend the passage of the accompanying ordinance.

Respectfully yours,
ANDREW J. PETERS, Mayor.

April, 1920.

To the City Council:

Gentlemen,—On July 16, 1919, I sent the following message to the City Council:

"In my opinion the efficient and economic administration of certain city departments which now have charge and control over the institutions maintained by the City of Boston on the three islands in Boston Harbor require that certain changes be made in the conduct of such departments.

"A recent act of Legislature authorizes the consolidation of the Penal Institutions Department, Infirmary Department, Children's Institutions Department and Institutions Registration Department. Previous to 1897 these departments were conducted under one head, and were separated at that time for certain reasons which do not now exist. The administration of the Infirmary Department and the Children's Institutions Department was placed under the control of boards of trustees. I think it has been demonstrated that this form of administration has not been conducive to efficient government.

"Many conditions exist whereby through a closer co-operation of administrative work of these four departments a considerable sum of money may be saved. In many instances duplications exist in the matter of investigation, supervision and the purchase of supplies. Valuable farm lands remain uncultivated on Long Island, and at the same time labor which could be utilized to improve these acres is unused. Without depriving any employee of his position it has been estimated that a substantial sum can be saved each year through the co-operative administration of the business end of these institutions.

"As will be seen by the accompanying draft of an ordinance, it is not contemplated in any way that the institutions located on the islands of Boston Harbor shall be united, nor the inmates therein intermingled or associated. The existing policy of separating the worthy poor, the delinquent children and the adult criminals will be strictly adhered to.

"The city of Detroit, I am informed, has a commission of charities and correction. This is also true in Cleveland and New York, and it seems to be the tendency to unite the administrative features of city departments for economic reasons.

"At present there are but two of these seven members of the Board of Trustees of the Infirmary Department holding office. The term of office of three of the seven members of the Children's Institutions Department has expired.

"I therefore submit that it is the logical, economical and efficient thing to do, to place those departments under one administrative head, and I therefore recommend the passage of the accompanying ordinance."

In September the City Council rejected the proposed consolidation. About a month later I sent another message to the City Council recommending the consolidation of the Children's Institutions Department, the Infirmary Department and the Institutions Registration Department, thus omitting the Penal Institutions Department, which was included in the consolidation as originally proposed. The City Council also rejected this consolidation. I have never been officially informed of any sufficient reason for this action.

Since taking office it has been apparent to me, and I have maintained, that the control of these institutions by a board of trustees is not only impracticable, but wholly undesirable and inefficient. The experience of the past two years has confirmed my judgment and a committee of the City Council has publicly stated that conditions, particularly at Long Island, were not what they should be; a reconfirmation of my contention that the department cannot be efficiently administered under the present system.

A number of months ago I appointed a committee to study and report on the general conditions at the institutions on Long Island. This committee, composed of men pre-eminently qualified to conduct such an investigation and to make a report both reliable and worthy of consideration, recommended that the various institutions on the island be removed to the mainland, the almshouse to be quartered in the new West Department buildings in West Roxbury, the tubercular patients to be cared for at the Boston Consumptives' Hospital at Mattapan, and the patients at the chronic hospital to be cared for in the new buildings on the mainland, where competent medical attention would be available at all times. These recommendations had and still have my complete approval, but these changes cannot be made efficiently except under a consolidation such as I recommend.

The present system of administering the affairs of the departments which I recommended be consolidated, with the exception of the Penal Institutions Department, is wholly indefensible, and I hope that the time has come when the City Council will recognize the wisdom of the consolidation of these four departments into one department under the control of a commissioner. I believe that such a consolidation is the only solution of the difficulties which we are constantly called upon to face in the administration of these departments.

At no time has the City Council shown a disposition to be helpful in the solution of the problems of administering these departments. In recommending the adoption of the accompanying ordinance to consolidate the four departments in question, an opportunity is given the City Council to act constructively. I sincerely hope that your body will make the most of this opportunity.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston.

In the year Nineteen Hundred and Twenty, An Ordinance Concerning the Consolidation of the Penal Institutions Department, the Boston Infirmary Department, the Children's Institutions Department and the Institutions Registration Department.

Be it ordained by the City Council of Boston, as follows:

Section 1. The penal institutions department, the Boston infirmary department, the children's institutions department and the institutions registration department are hereby abolished. All the rights, powers, duties and obligations of the said departments and of any officer, board or member thereof are hereby transferred to and shall hereafter be exercised and performed by the institutions department established by this ordinance which shall be the lawful successor of the said departments. All employees of the said departments shall as temporary appointees of the institutions department continue to perform their usual duties upon the same terms and conditions as heretofore until removed, appointed to positions in accordance with the provisions of this ordinance, or transferred to other departments.

Section 2. The institutions department shall be under the supervision and control of a commissioner to be known as the commissioner of institutions who shall be appointed by the mayor in accordance with the provisions governing appointments in chapter 486 of the Acts of 1909 and acts in amendment thereof, and who shall receive an annual salary of \$7,500.

Section 3. The commissioner shall be the executive and administrative head of the department and may organize said department in such divisions as he may find necessary for its proper conduct.

Section 4. The mayor, subject to the provisions of Special Acts 1919, chapter 222, section 2, may

appoint, and fix the compensation of, not more than two deputy commissioners, who shall act directly under the commissioner of institutions and perform such duties as the said commissioner shall direct.

Section 5. So much of this ordinance as relates to the appointment of the commissioner of institutions shall take effect upon its passage; all other provisions shall take effect when such appointment becomes operative. All ordinances and parts of ordinances inconsistent herewith are hereby repealed.

Referred to the Committee on Ordinances.

APPROPRIATION FOR COMMITTEE ON RENT AND HOUSING.

The following was received:

City of Boston,
Office of the Mayor, June 23, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting a copy of a communication recently received from the Rent and Housing Committee. In accordance with the request in the last paragraph, I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Rent and Housing Committee, June 18, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—From the date of its organization on March 26 last to June 15, the Rent and Housing Committee, in its endeavors to equitably adjust differences between landlords and tenants, has obtained results in 1,125 cases. These results are shown in a general way as follows:

Rent increases adjusted.....	241
Rent increases found to be not unreasonable, 130	
Tenant and owner to adjust.....	170
Extension obtained on vacate notices.....	209
Extension impossible to obtain on vacate notices.....	37
No rent increase until repairs are made.....	9
Information asked by tenants for future action.....	75
Complaints investigated and held at request of tenant.....	52
Referred to Board of Health.....	35
Referred to Fire Department.....	6
Referred to Police Department.....	2
Referred to Water Department.....	1
Referred to other cities.....	25
Referred to Legal Aid Society.....	4
Adjusted at State House.....	6
Pending in court.....	21
Disposed of by tenant.....	11
Vacate notices found to be illegal.....	42
Miscellaneous.....	49
	<u>1,125</u>

In cases where legal notice to vacate has been served the committee has been successful in obtaining extensions beyond the time specified in 85 per cent of such cases.

In complaints of rent increases it has made adjustments in 45 per cent of such complaints; has found rent increases to be not unreasonable in 24 per cent; and has effected agreements between landlord and tenants themselves to adjust amicably in 31 per cent. In other words, adjustments were made directly or indirectly by the committee in 76 per cent of the complaints of rent increases presented to it.

The total expenditure incurred to date has been \$1,307.19. This figure includes the amount expended for questionnaire sent out relative to vacant property, so that the average cost per case of rent increase complaints has been about \$1.

On March 29 the City Council authorized to meet the expenses necessary to carry on the work of the committee the sum of \$2,500. The expenditures to date are detailed as follows:

Amount authorized.....	\$2,500 00
Salaries of adjusters, \$780 00	
Salary of clerk and stenographer.....	222 33
	<u>\$1,002 33</u>
Stationery and printing.....	\$133 45
Postage.....	108 64
Supplies.....	18 21
Due Transit Department for time of its employees.....	44 56
	<u>304 86</u>
	<u>\$1,307 19</u>
	<u>\$1,192 81</u>

This unexpended balance of \$1,192.81 will be sufficient to carry on the work of the committee up to August 1 next.

It seems to your committee from the number of cases that continue to come to its attention that there will be a demand for some time for work of a character which the committee is performing. Moreover there is a great deal of opinion that when the fall months come there is likely to be a considerable increase of complaints

which the committee ought to be prepared to meet without any delay. While the expenditures of the committee have been mainly for the purpose of handling rent complaints, there are, of course, general aspects of the housing situation which have required attention and in the future probably will require attention. An illustration of this is the demand for information as to just how acute the shortage is, what is the probable number of houses needed, and how adequate are the existing housing accommodations.

To meet this kind of inquiry the committee has investigated by questionnaire all of the many habitations called to its attention by the Board of Assessors. This kind of service, of course, is to be distinguished from the inquiries which have been prosecuted by the City Planning Board.

It is the experience of the committee that more attention is continually required for the proper handling of these complaints, not only from new cases, but from new situations developing in old cases. This will undoubtedly necessitate the services of an additional adjuster and in all probability will call for an increase in the compensation of the present force.

It is our belief that it would be wise and prudent to continue the present activities of the committee which is now being constantly consulted upon the manifold difficulties arising between landlords and tenants. Our study of the immediate future leads us to the conclusion that the expense necessary to carry on our work will be in the vicinity of \$1,000 per month and that provision should be made to continue the work of the committee to January 31, 1921.

The committee therefore respectfully recommends that the sum of \$6,000 be authorized to meet the expenses incurred or to be incurred by this committee to January 31, 1921.

MALCOLM E. NICHOLS, Chairman.

Ordered, That the Committee on Rent and Housing be and hereby is authorized to spend, under the direction of the Mayor, an additional sum of \$6,000, said amount to be charged to the Reserve Fund.

Referred to the Executive Committee.

RESCISSION OF ORDER FOR FERRYBOAT.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1920.

To the City Council:

Gentlemen,—Several years ago an appropriation of \$400,000 was made for a new municipal building for Ward 12. Of this sum \$196,000 was used for the purchase of a site at the corner of West Brookline street and Shawmut avenue and for the preparation of plans for the building. There is therefore at the present time available for the building the sum of \$204,000.

The Superintendent of Public Buildings estimates that the cost of the building will be \$400,000, and in all likelihood new plans will have to be prepared as I understand that the original plans were for a smaller building than is now proposed. In other words, an additional appropriation of \$200,000 is necessary. The only money available to make up this additional \$200,000 is the original appropriation of \$400,000 made for a new ferryboat. Some time ago I put in an order to release this appropriation for other purposes inasmuch as the city is empowered to borrow a million dollars outside of the debt limit for new ferryboats, in accordance with the terms of an act passed by this year's Legislature. I plan to use a portion of the funds thus made available for the new building in Ward 12, and I regret that the unfavorable action of the City Council has necessitated a delay in going forward with these plans. If the original appropriation of \$400,000 is released for other purposes, I shall use \$200,000 of this amount to make up the sum necessary for the Ward 12 building. If it is not released it will be impossible to provide a municipal building for Ward 12 as there are no other funds to draw on, and I trust that the City Council will appreciate the urgent need of our making an immediate beginning on this work.

It may be pertinent to point out at this time that the sum of \$1,000,000 which may be borrowed outside of the debt limit for ferry improvements for East Boston, will provide two new ferryboats as well as greatly improve the docking facilities. The city is planning to supply ferryboats that will be twice as large as any of the old boats now in the service. It will therefore thus be seen that this improvement is the greatest that has ever been given to East Boston in any administration, and to insist that a third boat be given to this district is not only unreasonable, but it would be distinctly unfair to other districts which have not fared anywhere nearly as well as East Boston.

As the passage of the accompanying order is essential to the provision of a new municipal building in Ward 12, I recommend that the City Council take immediate favorable action on it. I am now holding a message recommending the passage of an order appropriating \$200,000 for a new municipal building in Ward 12, and as soon as the City Council notifies me that the order accompanying this message has been passed, I will submit the order for the appropriation of \$200,000 for the Ward 12 building.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the order approved by the Mayor March 12, 1920, appropriating \$400,000 for the construction of New Ferryboat and Runways, to be met from the unappropriated cash remaining in the treasury January 31, 1920, be and the same is hereby rescinded.

Referred to the Committee on Finance.

ADDITIONAL APPROPRIATION, PRINTING DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1920.
To the City Council:
Gentlemen,—I am transmitting herewith a communication from the Superintendent of the Printing Department requesting an additional appropriation, and recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,
Printing Department, June 2, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Your Honor is respectfully requested to grant us permission to make the following transfer:

Transfer to C-2, Machinery, \$700; transfer from Department Income, \$700.

The above is necessary in order to pay for six electro-magnetic gas demagnetizers and ink dryers for our Whitlock presses, four of which had already been installed prior to the cutting of C-2 item in Printing Department budget.

Respectfully yours,
CHARLES S. LAWLER, Superintendent.

Approved.
RUPERT S. CARVEN,
Budget Commissioner.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of February, 1920, the sum of \$700 be and the same hereby is appropriated from the income of the Printing Department for C-2, Machinery.

Referred to the Executive Committee.

GREAT WHITE WAY, JAMAICA PLAIN.

The following was received:

City of Boston,
Office of the Mayor, June 25, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a communication received from the Commissioner of Public Works in answer to the order passed by the City Council on March 22 requesting me to consider the advisability of installing a so-called "Great White Way" system of lighting on a certain portion of Centre street, Jamaica Plain.

I do not believe that the city would be justified at this time in making the expenditure required to install this system. I shall be glad, however, to keep this matter in mind and give it consideration in the new budget.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Public Works Department,
June 22, 1920.

To the Honorable the Mayor:

I return herewith order of the City Council dated March 22, 1920, "That his Honor the Mayor be requested to consider the advisability of installing the so-called 'Great White Way' system of lighting on Centre street, Jamaica Plain, from St. John street to Greenough avenue."

This matter has been investigated, and the expense is estimated as follows:

Ten new magnetite lamps (boulevard type).....	\$796 00
Sixteen new posts (boulevard type)....	560 00
Construction, changing from overhead to underground system.....	3,573 24
Six magnetite arc lamps, same locations, changed to boulevard type.....	476 00
	<u>\$5,405 24</u>

There is no money available for this purpose as no provision was made in the budget for any "White Way" systems of lighting during the current year.

Yours respectfully,
T. F. SULLIVAN,
Commissioner of Public Works.

Placed on file.

RESTORATION OF PORTRAITS, COUNCIL CHAMBER.

The following was received:

City of Boston,
Office of the Mayor, June 28, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith a communication from the Art Commission relative to the restoration of two portraits in the City Council Chamber, the expense of which is to be charged to the Reserve Fund. I recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,
Art Commission, June 7, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Replying to your letter of May 20 relative to the proposed restoration of two portraits in the City Council Chamber, the Art Commission would suggest that the money needed for this purpose, \$200, be taken from the Reserve Fund.

I have the honor to be,

Yours respectfully,

J. TEMPLETON COOLIDGE, Secretary,
by H. L. STORY, Clerk.

Approved.

RUPERT S. CARVEN,
Budget Commissioner.

Ordered, That the Art Commission be authorized to incur an expenditure, not exceeding two hundred (200) dollars, for restoring two portraits in the City Council Chamber and repairing the frames of the same, said amount to be charged to the Reserve Fund.

Referred to the Executive Committee.

VETO—CHANGE IN SQUARE NAME.

The following was received:

City of Boston,

Office of the Mayor, June 16, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council passed on June 14 to change the name of Hyde square, Jamaica Plain, to Cornelius J. Mahoney square.

My reason for vetoing this order was indicated in my message to the City Council on April 28 when I vetoed a similar order together with a number of others.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO—PENSIONING OF FOREMEN, ETC.

The following was received:

City of Boston,

Office of the Mayor, June 18, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on June 7 to accept chapter 179 of the Acts of 1920, entitled "An Act to Provide for the Pensioning of Foremen, Inspectors, Mechanics, Drawtenders, Assistant Drawtenders and Storekeepers in the Employ of Cities and Towns."

My reasons for vetoing the acceptance of this act were indicated in my veto of the order on May 19, 1920.

Respectfully yours,

ANDREW J. PETERS, Mayor.

VETO—PAYMENT TO MRS. WELLS H. JOHNSON.

The following was received:

City of Boston,

Office of the Mayor, June 23, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council accepting chapter 438 of the Acts of 1920, entitled "An Act to Authorize the County of Suffolk to Pay a Sum of Money to the Widow of Wells H. Johnson." I am also returning without my signature the order passed by the City Council authorizing the payment of a sum of money to the widow of Wells H. Johnson specified in chapter 438 of the Acts of 1920.

Wells H. Johnson died March 6, 1920, and the amount which would be paid to his widow were the city to accept the act to authorize payment would be \$1,983.34.

I believe that the same general principle applies to this case as applied to the suggested payment to the widow of Robert Herter, and I cannot convince myself that the city would be justified in paying out such a sum of money.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO—RESOLVE CONCERNING MRS. ROBERT HERTER.

The following was received:

City of Boston,

Office of the Mayor, June 23, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council accepting chapter 35 of the Resolves of 1920, entitled "Resolve in Favor of the Widow of Robert Herter."

The reasons for this action on my part were stated in full on September 9, 1919, when I vetoed the acceptance of a similar resolve passed by the Legislature of 1919.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO—ORDINANCE CONCERNING OPENING OF STREETS.

The following was received:

City of Boston,

Office of the Mayor, June 23, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the ordinance passed by the City Council on June 7 to amend section 9, chapter 28, of the Revised Ordinances of 1914.

I have gone over this matter very thoroughly with the Corporation Counsel and the Commissioner of Public Works, and I am attaching herewith the report of the latter on the proposed change. The present administration requires public service corporations when they open a street to engage to relay the surface the contractor who originally put it down. In this way it is possible to hold the contractor to his guarantee on the pavement. The passage of the amendment suggested would make it impossible for the city to enforce the guarantee. It is for this reason and because of the contention of the Commissioner of Public Works that I am vetoing the proposed ordinance.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Public Works Department,
June 22, 1920.

To the Honorable the Mayor:

This department has given careful consideration to the revision of chapter 28 of the Ordinances of 1914, whereby it is proposed to strike out the words "or by contract or otherwise at his discretion" in paragraph one of section nine, so that, in effect, the restoration of the paving or other surface of all streets opened for any purpose shall be done by city employees alone.

In the past, permits to open public streets amounting to a million linear feet of roadway have been issued in one year and the restoration of the paving surface, which is only a small part of the amount of work involved, would require a force of several thousand men at times. A very large portion of the work of the public service corporations is done at night and on Sundays. In order to comply with this proposed change, it would require this department to employ a large force of supervisory officials, mechanics, laborers, watchmen, etc., with no knowledge in advance of the work contemplated. The responsibility for the safety of the roadways where openings are made, which now devolves upon the corporation, would have to be assumed by the city, and I do not believe that the department could undertake to do the work involved by the proposed change in the ordinances.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Placed on file.

VETO—SALARY OF SUPERINTENDENT OF PRINTING.

The following was received

City of Boston,

Office of the Mayor, June 18, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the revision of section 5 of chapter 3 of the Revised Ordinances of 1914 to increase the salary of the Superintendent of the Printing Department from \$4,000 to \$5,000 a year.

I am vetoing this ordinance, for were I to approve the suggested increase without additional duties being conferred on the Superintendent of the Printing Plant, I should be doing an injustice to other department heads whose salaries would not be increased.

I do not believe any increases should be made in the salaries of the heads of departments at this time except where additional duties are added to those they already perform.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

ICE FOR DRINKING FOUNTAINS.

The following was received:

City of Boston,

Office of the Mayor, June 28, 1920.

To the City Council:

Gentlemen,—I believe it is desirable that the city ice such fountains as are adapted to this form of cooling, during the summer months. There is no appropriation available for this purpose at the present time, and I am therefore attaching an order appropriating the sum of \$6,000 to be spent for ice for fountains and I recommend its passage.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Passed.

Coun. DONOGHUE offered an order—That the Commissioner of Public Works make a sidewalk along Clifton street, between Shirley and Burrell streets, Roxbury, Ward 12, in front of the estates bordering thereon, said sidewalk to be from three to ten inches above the gutter adjoining, to be from five to twelve feet in width, and to be built of brick with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.
Passed.

ADDITIONAL FACILITIES, CITY HOSPITAL.

Coun. DONOGHUE offered an order—That the sum of \$750,000 be appropriated to be expended by the trustees of the City Hospital for additional facilities, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. DONOGHUE—Mr. President, I introduce that order at this time because I feel that the City Hospital is in need of very many facilities. Going up there recently I found that some of the patients have to be taken care of in basement wards. I think that that is not as it should be, and that the people of the City or Boston ought to be provided with space to be taken care of properly when they are sick. I think also that the dormitories up in the City Hospital for the use of the medical men are a disgrace to the city and should have been remedied long before now. Also the private ward pavilion that has been in contemplation of building for some time,—at the last budget hearing we were told by the men in charge of the institution that a private ward pavilion would pay for itself in practically no time; and I think it is a needed improvement and that the money we would spend on such a proposition as this would be well spent; it ought to be built as soon as it is possible to do so.

They are also in need of an X-ray department up there, and a department of therapeutics, and I think at this time that the statement of Dr. Henry S. Rowen, who appeared at our budget hearings, might well be read to the Council:

"STATEMENT OF HENRY S. ROWEN, M. D.

"Doctor ROWEN—I would like to say just a word, if permissible, in regard to the work we contemplate doing during the ensuing year. Perhaps I may put it this way. It has been felt for some time that the Boston City Hospital has been a first-class boarding house, and for some time the trustees have felt that we needed to do more progressive scientific work at the hospital. To accomplish that purpose we needed new equipment. As a beginning, the trustees took over the Thorndike Fund, amounting to \$700,000, from the original trustees, and we hired an architect and attempted to have that building put up this year within that sum. But it was found that for what we wanted the means were inadequate. In consequence, we are going to come and ask you folks for an additional \$100,000 or \$150,000 to equip the Thorndike building. That building, roughly, will be a scientific building. We hope to do special investigation along certain lines—for instance, scientific kidney work. That can be done only by intensive study. It can't be done with half a dozen men having cases scattered all over the hospital. What we want to do is to concentrate certain lines of work in certain places, equipping the building for that purpose. We also hope to have in every building in the hospital the instrument referred to, that the doctor has described, the cardiograph, so that it will be possible to take a record of anybody's heart, no matter where situated. That will re-

quire an outlay of a considerable sum in addition to the original equipment. Besides that, we contemplate having a very large increase in the X-ray department, taking in two floors, which will be a big advance over the present rather cramped quarters. We will also have a department of therapeutics in that building, which will be useful to the general physicians of the whole city. As one of the Council has remarked, the present quarters of the physicians are very, very bad. We have a staff up there, roughly, of sixty young men, coming from all over the eastern part of the United States, who give their services free at the end of their education, and we have had—I will not say the pick, but we have had good men there. We hope by giving these men better facilities in the way of housing to get a little bit better element than we have at the present time. As you know these men come to us and give their services, and some of them pay the penalty. We lost two young men last year during the grippe. We also want to enlarge outside of the budget our research work, our pathological work, a very important branch of the medical profession. Our quarters at the present time are very, very limited. The gentleman at the head of the department is one of the leaders in this country. He himself for the last six or eight years has given up part of his salary to add to the pay of his girl clerk. . . . There is one other point I want to bring out, although perhaps it is not necessary. In this city we have three large institutions—the Peter Bent Brigham, the Massachusetts General Hospital and the Boston City Hospital. There are others equally important but not so large. But this hospital has its doors open for twenty-four hours a day and 365 days in the year. No questions are asked as to what they are or who they are. The one thing of importance is, if a person is in need of attention. If so, they get it irrespective of their money or anything else. That cannot be said of any other institution connected with this city or in this state."

Now, Mr. President, I think this matter has hung fire long enough. I was in hopes that the Mayor might send in an order long before now to have the needed improvements at the Boston City Hospital taken care of. So I introduce this order at this time hoping it will pass.

Referred to the Committee on Finance.

BRIDGE TO EAST BOSTON.

Coun. DONOGHUE offered an order—That the Mayor of the City of Boston be requested to petition the next session of the General Court for authority to spend a sufficient amount of money, outside the debt limit, for the building of a passenger and teaming bridge to East Boston.

Coun. DONOGHUE—Mr. President, I do not think that it requires any amount of talk on anybody's part to realize that the citizens of East Boston, irrespective of the fact that a million dollars has just been appropriated for new ferryboats over there, are not adequately protected in case of conflagration in their district. We had an illustration of that during the Chelsea fire. Some of the fire apparatus got on the ferryboats going over and they were stalled for half an hour. If the Standard Oil Company tank over there blew up, or anything happened in the way of a large conflagration, practically all of East Boston would be wiped out before fire engines could be gotten over there to handle the situation and put the fire out. I think that the spending of a million dollars on ferryboats may be a pretty good thing at the present time, but I think that what the people of East Boston need, and need more than anything else, is a more direct line of communication with the city proper, and I think the only way in which that can be accomplished is by spending the money that will build a bridge to East Boston. I know that the Transit Commission has investigated this proposition and submitted a report on it; but that report was made some years ago, and we all know and realize that building costs have so materially increased that the old report would be practically useless today. However, I feel that, if this proposition meets with the approval of the Mayor, previous to the petition being submitted to the Legislature he should get in touch with the Transit Commission and ask them to make an investigation of this proposition, specifying how much money it will require to build the same. I hope that the order will pass.

Referred to the Committee on Finance.

PARKING SPACE FOR AUTOS, COURT-HOUSE.

Coun. McLAUGHLIN offered an order—That the Board of Street Commissioners be requested to report to the City Council as to the feasibility and advisability of utilizing the space at the easterly front of the Courthouse, now occupied by grass plots, and the sidewalk of Pemberton square, for parking space for automobiles.
Referred to the Executive Committee.

NAMING OF SOLARI SQUARE.

Coun. McLAUGHLIN offered an order—That the open space at the junction of Thatcher

and North Margin streets be named and hereafter known as Solari square, in memory of Arthur J. Solari, who gave up his life in the service of his country.
Passed.

NAMING OF JAMES J. GATELY SQUARE.

Coun. McLAUGHLIN offered an order—That John J. Gately square at the junction of Mt. Pleasant avenue, Blue Hill avenue, Magazine and Dudley streets be named and hereafter known as James J. Gately square.
Passed.

NAMING OF JAMES J. GLENNON SQUARE.

Coun. HAGAN offered an order—That the square at the junction of Savin Hill avenue and Dorchester avenue now unnamed be named and known hereafter as James J. Glennon square, to commemorate the memory of Private James J. Glennon of the 28th Division.
Passed.

NAMING OF CHRISTOPHER LEE PARK.

Coun. EAGAN offered an order—That the public park now known as Richardson Park, and located at the junction of Columbia road and West Cottage street be renamed and known hereafter as Christopher Lee Park, in commemoration of the memory of Major Christopher Lee.

Coun. FORD—Mr. President, as chairman of the Committee on Public Lands, it might be well for me to explain why the rules are allowed to be suspended in reference to some squares and not in reference to others, so that it might be a matter of record. I think the general policy of the Council is that where the square has not a name now, is unnamed at the present time, it is well to suspend the rules; but where the square is now named, or a park is now named, it might be well to refer it to the committee in order to get the opinion of the Park Department or whatever department might be interested in it. So that in deference to this order now introduced by Coun. Hagan, personally as chairman of the Committee on Public Lands, I thought that it ought to be referred, with the consent of the Council, in order to get the opinion of the Park Department, unless the Council thinks otherwise.

Coun. HAGAN—Mr. President, I have no objection to having it referred to the Committee on Public Lands, in fact, I anticipated that it would be. I will say, however, as the matter has been brought up, that an order was presented here some time ago asking that the Dorchester end of the Strandway be named Christopher Lee Park, to commemorate the memory of Major Christopher Lee. There was a little minor objection on the part of the Park Department because of the fact that that entire district had been rechristened a few months ago as Columbus Park. I have taken it up with the Park Department and, following their advice and in consultation with friends of Major Lee, I have decided to withdraw the order now in Public Lands and substitute this new order with respect to Richardson Park. Richardson Park is a small park at the junction of Columbia road and West Cottage street, in poor condition now, but it is going to be improved and fixed up by the Park Department as a children's playground, and friends of Major Lee think that that spot will be sufficient to meet every requirement.

Coun. FORD—Of course, Mr. President, I do not oppose the naming of the park, as the councilor knows, but I thought (as chairman of the committee), that that would be a good rule to adopt, because I thought it would be a waste of time to send the order to Public Lands where the square is unnamed.

Coun. HAGAN—Mr. President, I will ask that the order be referred to the Committee on Public Lands.

Referred to the Committee on Public Lands.

ALTERATION IN GRADE CROSSING, BIRD STREET.

President MORIARTY offered an order—That whereas there is in the City of Boston a public way known as Bird street which crosses the tracks of the New York, New Haven and Hartford Railroad at grade near the Bird Street Station, and that the City Council of Boston is of the opinion that it is necessary for the security and convenience of the public that an alteration should be so made in such crossing and the approaches thereto in the location of the railroad or public way or in the grades thereof as to avoid a crossing at grade; that the Corporation Counsel in the name of the City Council of Boston file a petition in the Superior Court for the County of Suffolk in compliance with section twenty-nine, part one, of chapter four hundred and sixty-three of the Acts of the year nineteen hundred and nine and acts in amendment thereto, and take such further proceedings as may be necessary to have said grade crossing abolished.
Referred to the Executive Committee.

NAMING OF JOHN C. KELLEY SQUARE.

O. Whitney, Chief Engineer, Street Laying-Out Department," and on file in the office of the Board of Street Commissioners, and to execute and deliver in the name and behalf of the city in form satisfactory to the Law Department a deed of said land.

On June 14, 1920, the foregoing order was read once and passed, yeas 9.

The order was given its final reading and passed, yeas 9.

RECESS TAKEN.

The Council voted at 2.52 p. m., on motion of Coun. HAGAN, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.45 p. m.

AMENDMENTS TO RULES.

A communication was received from the Board of Superintendents, under date of June 28, 1920, recommending the passage of an accompanying order amending section 80 of the rules.

Placed on file.

The following was offered:

ORDERED, That the rules be amended as follows:

Section 80, paragraph IV. High School: Strike out the opening sentence and substitute in place thereof the following:

IV. High School: To masters, junior masters, first assistants and assistants of day high schools; to assistants, senior instructors, heads of division (girls) and heads of division (boys), Continuation School; and to senior instructors and vice-principal, Boston Trade School.

In the paragraph describing the certificate inclusions, strike out "XXXII-B" so that the paragraph will read as follows:

"This certificate includes certificates designated V., XIII. and XV.; also certificates for special studies valid in day high schools."

Paragraph VII. Elementary School, Class A.: Strike out the opening sentence and substitute in place thereof the following:

VII. Elementary School, Class A.: To sub-masters, masters' assistants, first assistants in charge of day intermediate and day elementary schools; first assistants, grammar schools; senior instructors, Boston Trade School; senior instructors, Continuation School; and assistants, Continuation School.

Strike out the two paragraphs immediately following describing the eligibility requirements, and substitute in place thereof the following:

"The requirements for this certificate are: Graduation from a college or from a normal school, approved by the Board of Superintendents, and evidence of three years' successful experience in teaching and governing regular graded day schools."

Paragraph XXVI. Continuation School: Strike out the opening sentence and substitute in place thereof the following:

XXVI. Continuation School: To assistants, instructors, and heads of division (girls), Continuation Schools; and to prevocational assistants.

Paragraph XXX. Day and Evening Industrial Schools: Strike out the opening sentence and substitute in place thereof the following:

XXX. Day and Evening Industrial Schools: To shop instructors, helpers and trade assistants, in day or evening industrial, continuation and intermediate schools, and in prevocational schools or classes; and to vocational assistants in the Trade Schools for Girls.

Strike out the two paragraphs describing the eligibility requirements and substitute in place thereof the following:

The requirements for this certificate are:

I. Education.

Completion of a four years' course in an approved secondary school, either general or technical. Substantial equivalents of such secondary school education will be accepted, provided that the evidence of such equivalent education be complete and easily susceptible of proof.

II. Trade experience.

Eight years of all-round trade experience, including at least one year of experience in handling apprentices or as foreman.

Equivalents.

(a) Successful work as a student in a day vocational school will be accepted, year for year, as an equivalent for the earlier portion of the required eight years of trade experience.

(b) Half the time spent successfully as a student in secondary or technical schools or in other formal courses of corresponding grade, may be credited upon this requirement, not, however, to reduce it below four years of approved journeyman experience.

Candidates for this certificate, in addition to fulfilling the foregoing requirements, (both I. and II.) are required to have satisfactorily completed the State training course, or such equivalent thereof as may be approved by the Board of Superintendents.

Paragraph XXXI.—A: Day and Evening Industrial Schools: Strike out the opening sentence and substitute in place thereof the following:

XXXI.—A: Day and Evening Industrial Schools: To heads of departments, (both shop and academic), in the Trade School for Girls and to shop foremen in day or evening industrial, continuation and intermediate schools; and in prevocational schools or classes.

Strike out the two paragraphs describing the eligibility requirements, and substitute in place thereof the following:

"The requirements for this certificate are:

I. Education.

Graduation from an approved elementary school, and in addition, the satisfactory completion of the full four years' course of an approved secondary school, general or technical or the equivalent of such secondary school education; and in addition, evidence of such approved supplementary education as will enable the candidate to teach shop related subjects ordinarily presented in technical courses in high schools, and

II. Trade Experience.

Eight years of approved all-round trade experience, of which, two years shall have been experience in (one or both), teaching trade processes, or as foreman.

Equivalents.

(a) Successful work as a student in a day vocational school will be ac-

cepted, year for year, as an equivalent for the earlier part of the required eight years of trade experience.

(b) Half the time spent successfully as a student in secondary or technical schools, or in other formal courses of corresponding grade, may be credited upon this requirement, not, however, to reduce it below four years of approved journeyman experience.

Candidates for this certificate, in addition to fulfilling the foregoing requirements are required to have satisfactorily completed the State training course, or such equivalent thereof as may be approved by the Board of Superintendents.

XXXI.—B: Day and Evening Industrial Schools: Strike out the opening sentence and substitute in place thereof the following:

XXXI.—B: Day and Evening Industrial Schools: To division heads and shop superintendent in the Boston Trade School; to cooperative instructors and coordinators in day high schools; and to division foremen and heads of division in the Continuation School.

Strike out the two paragraphs describing the eligibility requirements, and substitute in place thereof the following:

"The requirements for this certificate are:

I. Education.

Graduation from an approved elementary school, and in addition, graduation from an approved secondary school, general or technical, having a four years' course or the equivalent of such secondary education; and in addition, evidence of such supplementary education as shall enable the candidate to teach shop related subjects ordinarily presented in technical courses one year beyond high school work.

II. Trade experience.

Eight years of approved all-round trade experience of which one year shall have been experience in handling apprentices or as foreman and three years shall have been experience in teaching trade processes, provided that in lieu of the three years' experience in teaching trade processes, candidates may offer two years of experience as foreman, and one year of executive work in industry.

Equivalents.

(a) Successful work as a student in a day vocational school will be accepted, year for year, as an equivalent for the earlier portion of the required eight years of trade experience.

(b) Half the time spent successfully as a student in secondary or technical schools or in other formal courses of corresponding grade, may be credited upon this requirement, not however to reduce it below four years of approved journeyman experience.

Candidates for this certificate, in addition to fulfilling the foregoing requirements are required to have satisfactorily completed the State training course or such equivalent thereof as may be approved by the Board of Superintendents.

Insert the following as a foot-note under paragraph XXXI.:

Note.—Teachers of cookery may meet the three-year experience requirement by the following equivalents:

(a) One year's experience as cook, with wages from employer other than own family, as the equivalent of one year's trade experience.

(b) Two years' service as home cook, under carefully established conditions, as the equivalent of one year's trade experience.

(c) Two years' satisfactory experience as aid in an approved school, as the equivalent of one year's trade experience.

Only one year's credit may be allowed under each of the foregoing items.

XXXII.—A. Day and Evening Industrial Schools: Strike out provision for the issue of the certificate, to take effect subsequent to the certificate examinations of January, 1921, and insert the following:

XXXII.—A. Day and Evening Industrial Schools: Certificate discontinued January, 1921.

XXXII.—B. Day and Evening Industrial Schools: Strike out provision for the issue of the certificate and insert the following:

XXXII.—B. Day and Evening Industrial Schools. Certificate discontinued June, 1920.

Insert the following as a footnote to paragraphs XXXII. A. and XXXII. B.:

Foot note: The rights and privileges of holders of certificates XXXII.—A and XXXII.B shall not be adversely affected by the discontinuance of these certificates.

Passed, under a suspension of the rules.

ELIGIBLE LIST.

A communication was received from the Board of Superintendents, under date of June 28, 1920, reporting that it has transferred the name of Josephine Wentworth from the list of successful candidates of the examination of January 26, 1920, for the certificate of qualification XI. Special: Commercial Branches, Day High Schools, to the list of candidates certificated for the IV. High School Certificate of the same date, in view of the fact that the candidate, being a college graduate, should have applied for the IV. High School Certificate rather than the certificate XI. Special, Valid in Day High Schools, and that the examinations for these two certificates are in all respects identical.

Placed on file and the amendment to the list of certificated candidates approved.

A communication was received from the Board of Superintendents, under date of June 28, 1920, submitting a list of successful candidates of June, 1920, for the certificate of qualification XXV., Junior Assistant, Day High Schools. These names do not constitute separate eligible lists, but should be included in School Document No. 14, 1919, at the places indicated by the several ratings.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,598 acres (*i. e.*, 47.81 square miles), 2,705 acres being filled land and 1,143 acres water area. Land area only, 27,732 acres (*i. e.*, 43.33 square miles). Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, viz., New York, Chicago, Philadelphia, St. Louis and San Francisco. The only city in Massachusetts with larger land area is Taunton.

MAYORS OF BOSTON.

In its 97 years of existence as a city Boston has had 36 elected mayors and five *ex officio* acting mayors. Of the 36 men who have held the office for one year or more, five were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England states, 5; in Ireland, 2. The mayor longest in office was Mayor Lincoln, who served 3 years ending 1860 and then 4 years ending 1866. Next in length of service were the first Mayor Quincy and Mayor Fitzgerald, who served 6 years each. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Curley. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five acting mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, United States Representative and United States Senator before becoming mayor. Mayor Armstrong was Lieutenant-Governor and at times acting governor before serving as mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as governor, after their terms as mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

PUBLIC DEBT, 1919.

Gross funded debt, February 1, 1919, \$127,124,217.69 (including \$400,666.69 issued by state for enlargement of Court House); sinking funds, \$43,068,184.85; other redemption means, \$1,589,130.09; net debt, \$82,466,902.75 (*i. e.*, \$2,103,274.29 less than on February 1, 1918), of which \$49,778,039.21 (*i. e.*, 60.36 per cent) was city debt; \$130,862,113.95 (*i. e.*, 37.42 per cent) Rapid Transit debt (the latter self-paying); \$1,474,749.59 (*i. e.*, 1.79 per cent) county debt, and \$352,000 (*i. e.*, 0.43 per cent) water debt. Net debt per capita (estimated population, 794,817) \$103.76; net debt exclusive of Rapid Transit debt, \$51,604,788.80, or \$64.93 per capita, which is \$25.54 less per capita than in 1907. Loans authorized but not issued (within debt limit) \$440,000.

In the fiscal year 1918-19, the net city debt was reduced by \$2,420,386.24; the net county debt by \$148,474.18; and the net water debt by \$16,000. The net rapid transit debt, *i. e.*, for new tunnel construction, was increased by \$481,586.13. Total debt contracted, \$2,220,500; total debt paid, \$3,694,646.66; total decrease of gross debt, \$1,474,146.66; of net debt, \$2,103,274.29. There has been no such debt reduction since 1901.

Total debt incurred in the ten years 1908-18, \$52,868,633, of which \$20,868,000, or 39.5 was rapid transit debt.

Total amount of debt incurred by the city in the 96 years since its incorporation (in 1822), \$256,113,937, of which 60 per cent belongs to the last 25 years, *i. e.*, 1894 to 1918, inclusive.

BOSTON PUBLIC RECREATION.

Number of large parks, 24; separate playgrounds, 46, with total area of 320 acres, also 12 playgrounds in parks, with area of 97.5 acres; small parks and squares 75; total area, 2,680 acres. Cost of main park system, land and construction (since 1877 when begun) \$11,743,619; of marine park system (since 1883), \$4,330,294; of all other parks and public grounds, \$2,287,446; of separate playgrounds, \$4,281,126. Total cost, \$22,642,485. There are also within the city limits 1,053 acres of metropolitan parks and parkways under state control.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasia, 11; total number of indoor baths taken in year 1917, 1,438,311, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1918-19, \$954,108 or \$13,880 more than in 1917. Outlay for playground improvements, \$124,623; for park improvements, \$485,515, of which \$122,752 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1919, \$11,992,050; for playgrounds, \$2,262,111; total, \$14,254,161 or \$579,450 less than in 1918.

Including the state assessments of \$784,885 for metropolitan parks, boulevards, etc., and \$222,515 for Charles River Basin improvements, the total expended for public recreation purposes in 1918 was \$2,571,646 or \$101,107 less than in 1917.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,598 acres (*i. e.*, 47.81 square miles), 2,705 acres being filled land and 1,143 acres water area. Land area only, 27,732 acres (*i. e.*, 43.33 square miles). Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, viz., New York, Chicago, Philadelphia, St. Louis and San Francisco. The only city in Massachusetts with larger land area is Taunton.

MAYORS OF BOSTON.

In its 97 years of existence as a city Boston has had 36 elected mayors and five *ex officio* acting mayors. Of the 36 men who have held the office for one year or more, five were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England states, 5; in Ireland, 2. The mayor longest in office was Mayor Lincoln, who served 3 years ending 1860 and then 4 years ending 1866. Next in length of service were the first Mayor Quincy and Mayor Fitzgerald, who served 6 years each. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Curley. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five acting mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, United States Representative and United States Senator before becoming mayor. Mayor Armstrong was Lieutenant-Governor and at times acting governor before serving as mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as governor, after their terms as mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

PUBLIC DEBT, 1919.

Gross funded debt, February 1, 1919, \$127,124,217.69 (including \$400,666.69 issued by state for enlargement of Court House); sinking funds, \$43,068,184.85; other redemption means, \$1,589,130.09; net debt, \$82,466,902.75 (*i. e.*, \$2,103,274.29 less than on February 1, 1918), of which \$49,778,039.21 (*i. e.*, 60.36 per cent) was city debt; \$130,862,113.95 (*i. e.*, 37.42 per cent) Rapid Transit debt (the latter self-paying); \$1,474,749.59 (*i. e.*, 1.79 per cent) county debt, and \$352,000 (*i. e.*, 0.43 per cent) water debt. Net debt per capita (estimated population, 794,817) \$103.76; net debt exclusive of Rapid Transit debt, \$51,604,788.80, or \$64.93 per capita, which is \$25.54 less per capita than in 1907. Loans authorized but not issued (within debt limit) \$440,000.

In the fiscal year 1918-19, the net city debt was reduced by \$2,420,386.24; the net county debt by \$148,474.18; and the net water debt by \$16,000. The net rapid transit debt, *i. e.*, for new tunnel construction, was increased by \$481,586.13. Total debt contracted, \$2,220,500; total debt paid, \$3,694,646.66; total decrease of gross debt, \$1,474,146.66; of net debt, \$2,103,274.29. There has been no such debt reduction since 1901.

Total debt incurred in the ten years 1908-18, \$52,868,633, of which \$20,868,000, or 39.5 was rapid transit debt.

Total amount of debt incurred by the city in the 96 years since its incorporation (in 1822), \$256,113,937, of which 60 per cent belongs to the last 25 years, *i. e.*, 1894 to 1918, inclusive.

BOSTON PUBLIC RECREATION.

Number of large parks, 24; separate playgrounds, 46, with total area of 320 acres, also 12 playgrounds in parks, with area of 97.5 acres; small parks and squares 75; total area, 2,680 acres. Cost of main park system, land and construction (since 1877 when begun) \$11,743,619; of marine park system (since 1883), \$4,330,294; of all other parks and public grounds, \$2,287,446; of separate playgrounds, \$4,281,126. Total cost, \$22,642,485. There are also within the city limits 1,053 acres of metropolitan parks and parkways under state control.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasias, 11; total number of indoor baths taken in year 1917, 1,438,311, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1918-19, \$954,108 or \$13,880 more than in 1917. Outlay for playground improvements, \$124,623; for park improvements, \$485,515, of which \$122,752 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1919, \$11,992,050; for playgrounds, \$2,262,111; total, \$14,254,161 or \$579,450 less than in 1918.

Including the state assessments of \$784,885 for metropolitan parks, boulevards, etc., and \$222,515 for Charles River Basin improvements, the total expended for public recreation purposes in 1918 was \$2,571,646 or \$101,107 less than in 1917.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

ALTITUDES IN BOSTON.

(1) Highest, Custom House tower, 510.71 feet, *i. e.*, top of finial above mean low water (same as "City base") or 495 feet from surface of street; (2) Bellevue Hill, West Roxbury, 376.3 feet to top of new reservoir, or about 320 feet to top of hill; (3) Bunker Hill Monument, 307.84 feet, or top of Breed's Hill, Charlestown at base of monument, 86.44 feet; (4) Slocum Hill, near Allandale street, Jamaica Plain, about 300 feet; (5) High Fort Observatory, Highland Park, Roxbury, 291 feet, on top of hill at base of tower, 158 feet; (6) Revolution Memorial Monument, Telegraph Hill, South Boston, 270 feet, or top of hill at base of monument, 145 feet; (7) State House, top of dome, 261 feet; (8) Hill between Poplar and Dale streets, West Roxbury, near Hyde Park boundary line, about 258 feet; (9) Peters' Hill, Arnold Arboretum, 237 feet; (10) Fairmount Hill, Hyde Park, about 220 feet. PAYMENT OF SALARIES OF DECEASED CITY EMPLOYEES.

*Judge Michael H. Sullivan, Chairman,
Boston Finance Commission, Tremont
Building, Boston, Mass.:*

DEAR SIR,—I am in receipt of the report of the Finance Commission of June 30 relative to my approval of certain special acts authorizing the City of Boston to continue the payment of salaries of specified deceased city employees to their relatives for a certain period after the death of the employees.

I am herewith inclosing for your information a copy of an opinion received by me today from the Corporation Counsel on your report.

Very truly yours,
ANDREW J. PETERS, Mayor.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Your Honor has referred to me the report of the Finance Commission, dated June 30, 1920, with the request that I will give you my opinion on the legal questions raised thereby.

This report opens with the statement that the Finance Commission has considered the course followed by your Honor in approving the *unlawful* use of public funds, and proceeds to criticise your action in approving three of the six special acts passed by the Legislature during your term which authorize the City of Boston, upon their acceptance by the City Council and the Mayor, to continue the payment of salaries of specified deceased city employees to their relatives for a certain period after the death of the employees.

In the course of their report occurs the following language:

The law is well established, as your Honor has acknowledged, that money raised by taxation can only be used for the benefit of the public. That the Legislature undertook to authorize any use of public funds other than for the benefit of the public, even with the approval of the City Council and your Honor, does not make such use of public funds legal. The Supreme Court has held in similar cases that to use public funds other than for the benefit of the public is a violation of the law of the Commonwealth. Even if it were lawful to extend payment of salaries of city employees beyond the date of their death, it should apply to all city employees and not alone to those whose relatives are able to secure the approval of your Honor.

It is difficult for me to see how the commission can believe the law to be as stated in view of the unanimous opinion of the justices rendered June 5, 1900, and reported in 175, Mass. 599. This opinion was given in answer to two questions submitted to the court by the Senate,—the first being whether the General Court had the right to appropriate money to pay to the widow or heirs or legal representatives of a person who died while holding a state office, and the second, whether it had the right to grant authority to counties, cities or towns to make such payments in the case of their respective employees. The court expressly answered both questions in the affirmative, subject to the proviso that the cases should be ones "where it fairly can be thought that the public good will be served by the grant of such an unstipulated reward." This opinion has never been overruled, but, on the contrary, has been referred to with approval in opinion of the justices to the Governor and Council, 186 Mass. 603, at page 606, and in William A. Earle v. Commonwealth, 180 Mass. 579, at page 583.

Applying it to the three cases in question in which your Honor approved payments to the relatives of deceased

city employees,—those were first, the case of Atlas Skinner, an assistant janitor in the Public Buildings Department (Statute 1920, chapter 62) who had been employed by the city for forty-seven years; second, Timothy Mooney, a supervisor of permits in the Street Laying-Out Department (Statute 1920, chapter 98), who had been employed by the city for thirty-seven years; third, Ellison B. Cushing, a teller in the Treasury Department (Statute 1919, chapter 31) who had been employed by the city forty-nine years. The amounts paid were \$900, \$1,100 and \$825, respectively.

It seems too clear to require argument that such long continued and faithful service as appears to have been rendered by the deceased employees in these cases would make it for the public interest that such service should be recognized to the moderate extent involved in the payments made, and that such payments were, therefore, within the principle laid down by the Supreme Judicial Court. I do not believe that the law requires the city to entirely disregard the instincts which would actuate a humane and fair-minded employer, but even if this must be assumed to be the case, I think that the effect on the morals of the whole body of city employees by such just and considerate action would amply repay the city from a purely business point of view.

In addition to the statements of law above considered, the commission further calls attention to the disapproval of the Resolves of the Council under three of the acts referred to, and in this connection state, "Your Honor has made it plain, however, that you appreciate the fact that the use of public funds in this manner is unlawful, and, although unlawful, you consent, for reasons that you have not set forth, to give your approval to this use of public funds in selected cases," and they terminate their report with the request that:

1. Your Honor disapprove all special privilege acts and adopt that course as your uniform policy.
2. You disapprove all orders for the payment of gratuities and adopt that course as your uniform policy.

I have examined the messages sent by your Honor to the City Council in the three cases referred to, and fail to find that you ever made any general statement that such payments would be unlawful, nor, for the reasons above given, do I believe that such a statement would have been in accordance with the law. Each such act when passed by the General Court is a legislative adjudication that the payment would be a proper one. Your Honor is, in my judgment, required to treat such adjudication with the respect to which it is entitled, and to consider each case on its merits. The three cases disapproved, as well as the three cases approved, were so considered by you, and I see no reason to question either the legality or the propriety of your action.

It does not seem to me that it would be proper or legal for your Honor to absolutely pledge yourself in the manner requested by the commission on what you will do in future cases, each of which, as I have stated, should be dealt with on its merits. In every instance the question must be one of discretion to be decided upon all the circumstances, including the character of the position held by the deceased employee, the length of his service, the financial situation of the persons to whom payment is to be made, and any other considerations which would influence a fair-minded employer in deciding such a question. The line may

sometimes be a difficult one to draw, but the legal principle is perfectly plain.

Of course the Legislature ought, and no doubt will exercise great care in passing special acts of this kind, for the practice is obviously liable to abuse. Such legislation should only be resorted to in the small number of exceptional cases where payment is both beneficial to the interests of the city and required by humanity and fair dealing. In these exceptional cases such legislation is entirely proper. As was said by Holmes, C. J., in *Earle v. Commonwealth*, 180 Mass. 579, in referring to the analogous case of injury to an individual by acts of the Commonwealth where no property was actually taken and no absolute right of compensation therefore existed, "some latitude is allowed to the Legislature. It is not forbidden to be just in some cases where it is not required to be by the letter of paramount law."

Yours respectfully,

ARTHUR D. HILL,
Corporation Counsel.

REPORT OF PLANNING BOARD ON HOUSING SITUATION IN BOSTON.

Generally speaking, a so-called "housing situation" has always existed in the City of Boston. To go back at least as far as the first rumblings of discontent with regard to housing conditions in Morton street, over half a century ago, now happily corrected, down to the present day, questions of congestion, overcrowding and sanitation have been serious and ever-present. During 1917, 1918 and 1919 the necessities of war concentrated every building effort upon industrial construction; home building stood almost at a standstill. At the same time a new factor of interference arose in the form of tremendously increased costs until a point over 100 per cent above 1915 costs was reached. Under these circumstances it is not strange that those persons who might ordinarily have contemplated construction for personal ownership and occupancy, or that those who might have built for rental purposes, abandoned their intentions. Thus, it has been estimated that, at the close of 1919, New England found itself \$86,000,000 short in its volume of home building, based on pre-war prices. Measured on the basis of present-day currency values, it would require an expenditure of \$165,000,000 to satisfy this shortage, and this would be sufficient only to bring the building supply level with the due proportion at the beginning of 1920. It is still further estimated that more than \$200,000,000 additional in present-day money would have to be expended during the current year in order to insure an even start for 1921. This would mean an expenditure of approximately \$365,000,000 during the year 1920 for residential construction throughout New England, or a corresponding shortage of homes. Thus the housing situation today has been by necessity translated into a question of "housing shortage," and although matters of congestion, overcrowding and sanitation are still with us, they have in a measure been superseded by the more pressing conditions brought about by the law of supply and demand. This does not presuppose neglect by any means, for many of the problems of former days have settled themselves through the demand for better housing accommodations and better living conditions generally, made possible by increased wages.

The first constructive attempt to cope with the housing situation in the City of Boston originated in the form of an order passed by the City Council at its meeting March 8, 1920, introduced by Councilor McLaughlin, *i. e.*,

Ordered, That his Honor the Mayor be requested to consult with the Boston Chamber of Commerce, the Boston Real Estate Exchange, the Master Builders' Association, the Boston Central Labor Union, and any other organization that he may consider advisable, and examine into the feasibility of forming a corporation of public spirited citizens who will undertake and finance the project of providing housing facilities for the great number of people in this city who are not properly provided for.

By virtue of the legislative act in accordance with which the City Planning Board of Boston was created, specifying that one of its duties should be to "make plans for the development of the municipality with special reference to the proper housing of its people," the above order was referred to the Board by his Honor the Mayor for attention and report.

Several conferences were held with representatives of practically all of the quasi-public organizations in the city, and while it was the consensus of opinion that a housing shortage existed, which was not likely to be met by the investment of private capital, it was also admitted that the exact nature and extent of such a shortage had never been determined. It was felt that the only way this information could be definitely and accurately secured was by a survey of the industrial plants and of the other large employers of labor within the city limits. This meant the assembling of information in each case as to whether there was a scarcity of houses among industrial employees, the average or approximate rental basis, general information with regard to the size and price of vacant areas, in the vicinity, the attitude of the employer with regard to assisting in financing a housing scheme should one be considered feasible, and other data of a similar nature. It was also felt that the city as a municipality should undertake and finance this next step, and the sum of \$2,000 was accordingly appropriated for the employment of investigators, traveling, postage, stationery and general office expenses.

After a preliminary discussion it was voted at a conference held April 12, 1920:

That the City Planning Board be requested to make a survey of conditions and report back to this organization the need of houses, and the conditions which exist in vacant houses today, and how they can be put into condition to meet the present housing situation.

Acting in accordance with the authority conferred by this vote, the City Planning Board at once instituted a survey covering the larger industrial plants, mercantile establishments, real estate dealers, and furniture storage warehouses. It was assisted in this work by the Chamber of Commerce who placed at the disposal of the Board on half time one of its assistant investigators, Mr. Nathaniel F. P. Nichols, who by reason of his services as secretary of the Industrial Bureau was particularly well qualified for the work. Assisting him were three men from the Graduate School of Business Administration at Harvard, Messrs. Donald Mackenzie, Hugh McGuire and A. S. Roberts; and Mr. James J. Driscoll, formerly assistant superintendent on Government housing in Maryland and Pennsylvania.

It was deemed impracticable to attempt to obtain an expression of opinion from all employers of labor, but a group of the larger ones were selected, *i. e.*

107 industrial plants employing over 50 per cent of the total number of wage earners.

75 real estate dealers, including local dealers in all the different sections of the city.
35 furniture storage warehouses.
24 of the larger mercantile establishments.

Three forms of questionnaires were mailed to the different groups, one to the industrial plants and mercantile establishments (Appendix A), one to the real estate dealers (Appendix B), and one to the furniture storage warehouses (Appendix C), together with appropriate letters soliciting their co-operation and assistance. These questionnaires were followed up by personal visits from the investigators assisting Mr. Nichols; Mr. Driscoll covering Boston Proper, including North End, West End and South End; Mr. Mackenzie, South Boston and Dorchester; Mr. McGuire, Roxbury, West Roxbury and Hyde Park; and Mr. Roberts, East Boston, Charlestown and Brighton.

The results of these different surveys we submit herewith:

INDUSTRIAL.

Eighty-nine returns have been received from industrial plants in the various districts as follows:

Boston Proper.....	10
East Boston.....	8
South Boston.....	21
Charlestown.....	8
Roxbury.....	16
Dorchester.....	7
Hyde Park.....	7
Brighton, including Allston.....	6
West Roxbury, including Forest Hills and Jamaica Plain.....	6

These eighty-nine industries employ a total of 39,335 industrial workers, 28,978 males and 10,357 females. The returns indicate that nearly 80 per cent of these industrial workers reside within the city limits. Over 50 per cent report that there is a shortage of homes. Rentals range from \$14 to \$40 per month, with an average of about \$30 per month. Fifty-one employers stated that there were indications that many of their employees desired to purchase their homes on a monthly payment plan. Nine of them submitted figures showing that 700 of their employees had expressed a desire to become home owners. Sixteen other employers expressed their doubt as to

any desire on the part of their employees to own their own homes, and several others, who had made no canvass of their plant, were not in a position to give any information.

The single-family and the double-family houses appear to be the most popular type among the industrial workers as indicated by the following returns:

Single-family.....	15	Three-family.....	9
Double-family.....	32	Apartment.....	8

Nearly 50 per cent of the employers indicated that they would be willing to assist financially in the formation of a housing corporation. This willingness, however, was conditional to some extent on the plan adopted for carrying out the proposition. It is believed, however, that many of those who said that they either could not or would not be interested in assisting financially at this time, might be willing to join with others if they knew more definitely what was expected of them.

Summaries from each of the nine districts in the industrial survey gave the following results:

DISTRICT.	Number of Industries.	Number of Employees.	Residence.		House Shortage.		Average Rent.	Vacant Areas.		Employees Desiring to Purchase.		Type Desired.				Attitude of Employers Toward Assisting in Financing Corporation.

One employer of labor near the Quincy line states in a letter that there is no question about there being a shortage of housing facilities in his district; that there is plenty available land for building, and as the district was fast becoming an industrial one, there was need for considerable home construction.

MERCANTILE.

The results of the survey among the mercantile establishments of the city were not as helpful as in other instances, due no doubt to the fact that the employees in these establishments come from widely scattered sections of the metropolitan districts. As stated by one of the store proprietors, it was not as essential for their employees to live in the city, or in the district, as it was in the case of industrial workers who were obliged to be at their place of employment much earlier in the day than was necessary in department stores. However, the information thus far received and tabulated does show a shortage among this class of workers, with a corresponding desire to purchase a home under reasonable conditions.

Returns have been received from six of these mercantile establishments employing 12,453 persons, of which number 3,860 are males and 8,593 are females. Of this number 45 per cent reside in Boston, the other 55 per cent coming from various sections of the metropolitan district.

The tabulation of the questionnaires thus far received shows the following:

Number of establishments.....	7
Number employees:	
Males.....	3,860
Females.....	8,593
Residence Boston district.....	45%

House shortage:	
Yes.....	4
No.....	0

Attitude of employers toward assisting in financing corporation:

In connection with the last answer regarding the attitude of employers toward assisting in financing a housing corporation, one of the establishments, which happens to be a public utility, raised the question as to whether a public service corporation should use its money for such a purpose, particularly at this time when the financial condition of many of these corporations were in more or less unsettled state.

REAL ESTATE.

From the returns received from thirty-two real estate operators, the outstanding results were, (1) a large number of unfilled requests for homes, and (2) a shortage of houses.

In the first instance, it is estimated that the unfilled requests for homes total between three and four thousand; and secondly, that the shortage of houses for the entire city might be conservatively estimated at from three to five thousand. These figures are based on average figures from each of the nine districts of the city, and not from the total estimate of all districts. There were many instances where the questionnaires were not filled out as requested, such expressions as "numerous," "great many," "unprecedented," "tremendous," etc., being used in reply to inquiry with regard to unfilled requests for homes, or estimated shortage of houses.

The returns would indicate that the housing shortage was most acute in that section south of Boston proper. This district comprises Forest Hills, West Roxbury, Jamaica Plain, Roslindale, Dorchester and Hyde Park. One real estate operator in Jamaica Plain reported that it would be an easy matter to dispose of 800 six-room houses at \$6,000, or eight-room houses at \$8,000. The tabulations indicate that there is a shortage of from 100 to 300 houses in the Jamaica Plain district, and approximately the same number in West Roxbury and Roslindale. In some sections of Dorchester there would appear to be a shortage of from 300 to

1,000 houses. An investigation of the East Boston district showed that there was a considerable lack of housing accommodations; the demand among real estate dealers was far greater than the supply, but in certain sections of the district there was plenty of available space which could be purchased at a reasonable figure for building purposes. Boston proper showed

a like scarcity of homes, estimated at from 500 to 1,000, with little or no space for building. Nearly all of the information received throughout the city indicated that there were practically no plans being made for home building, either by individuals or by corporations. With the exception of East Boston, certain parts of Roxbury, South Boston and Boston proper, there is plenty of available space

for building, with the price of land running from 15½ to 75 cents a square foot.

In the opinion of the real estate operators, the double house or the three-family house would be the most popular. They also believe that a large majority of the people would gladly purchase their homes if payments could be arranged on a monthly basis.

The summary of the real estate questionnaires is as follows:

DISTRICTS.	Number of Concerns.	Unfilled Requests for Homes.	Price Rental Most Desired (Average)	Available Land in Vicinity for Buildings.	Shortage in District.	Plans for Home Building.	Type Building Most Popular.				Would Tenants Purchase on Monthly Basis?

FURNITURE STORAGE WAREHOUSES.

The questionnaires submitted to the furniture storage warehouses included not only those located in municipal Boston, but also those located in the territory contiguous to the city. The questionnaires were designed to show the number of units of furniture then in storage in their warehouses from each of the nine districts in the city.

From the nineteen returns thus far received it appears that 6,546 families in Boston have their furniture in storage. Opinions from the various warehousemen indicate:

1. That there is a considerable increase in furniture storage this year over any previous year.

2. That a large number of families are doubling up, due to the shortage of homes.

3. That there is more permanent storage today than there has been before for many years, which is another indication of housing shortage.

4. That there is a smaller percentage of so-called summer storage.

The results from this questionnaire by districts are as follows:

Boston Proper.....	4,145 families.
East Boston.....	30 families.
Charlestown.....	24 families.
South Boston.....	55 families.
Roxbury.....	718 families.
West Roxbury.....	62 families.
Dorchester.....	1,118 families.
Hyde Park.....	2 families.
Brighton.....	367 families.
Total.....	6,545 families.

One warehouseman from Dorchester stated that he had fifty rooms that were not occupied, and that there was not as much storage at the present time as there was two years ago. Another said there was furniture representing 450 families in storage, due to the fact that many families were breaking up their homes, living with other families, etc., either because of house shortage or high rents. A Roxbury man said there were about as many rooms occupied now as last year, but he noticed that the goods were kept

in storage for long periods of time, rather than at intervals. A South End man reported that there was very little moving

in and out of his warehouse, much of the furniture stored there remaining indefinitely.

STUDY OF CITY EMPLOYEES' PENSION SYSTEM.

The following was received:

City of Boston,

Office of the Mayor, June 29, 1920.

To the City Council:

Gentlemen,—Some time ago in vetoing an order of the City Council to accept a recent act of the Legislature to extend the pension system in the City of Boston, I transmitted a report from the Finance Commission on the acceptance of this act. You will probably recall that in this report the Finance Commission recommended that it be provided with funds to make a comprehensive study of the general pension situation as it relates to city employees.

The amount that the Finance Commission states is necessary to conduct this study is \$9,000. I believe a survey of this kind should be made at the earliest possible moment, and I therefore recommend the passage of the accompanying order which will provide the necessary funds.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$9,000 from the Reserve Fund to the appropriation for Finance Commission, F-14, Investigation of Pension Situation as it relates to City Employees.

Referred to the Executive Committee.

VETO—BIRD STREET GRADE CROSSING.

The following was received:

City of Boston,

Office of the Mayor, July 9, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on June 28 relative to the abolition of the Bird street grade crossing of the New York, New Haven & Hartford Railroad.

Under the provisions of chapter 36 of the Resolves of 1920 the Legislature provided for a joint investigation by the Department of Public Utilities of the Commonwealth and the Transit Department of the City of Boston of a comprehensive system or systems of rapid transit in the Dorchester district, with feeders from Hyde Park and other places, and at the present time this Joint Board is considering the entire situation with a view of reporting to the incoming Legislature.

As the investigation, which is now in progress, will necessarily consider the question of grade crossings throughout the entire district and that the question of financing this proposed system will include the Bird street crossing, it seems inadvisable at the present time to have the city take the initiative in this matter.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

ORDINANCE CONCERNING BUILDERS' LICENSES.

The following was received:

City of Boston,

Office of the Mayor, July 12, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting to you the following:

1. A copy of a communication received from the chairman of the Board of Examiners on April 14.

2. A report from the Committee on New Sources of Revenue on the letter from the Board of Examiners which I submitted to the committee.

3. A communication from the Building Commissioner submitting to me a form of ordinance

which he felt should be put into force, after consultation with the Corporation Counsel on the proposed changes.

I recommend the passage of the accompanying ordinance.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Board of Examiners, Building Department,

April 14, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—I hereby desire to submit for your consideration certain suggestions relative to the issuance of builders' licenses, concerning the control of building operations in Boston now regulated by chapter 9 of the Ordinances of 1912.

Section 5 of the ordinances provides that any person who by affidavit or other evidence may show the Board that prior to the passage of the ordinances he has had charge or control of building operations may be issued such license. Under this section of the ordinance a number of licenses were issued to persons furnishing such recommendation, and in many instances such applicants, applying for extension, were found not qualified to pass the examination given by the Board. This condition we find exists in a number of cases. The building law has been so amended since the passage of this ordinance that we are certain a great number of license holders are unfamiliar with the changes contained in the present law.

The amendments suggested by our Board are in substance a revocation of licenses issued and re-issue of the same, charging an initial fee of five (5) dollars and a yearly renewal fee of two (2) dollars, instead of the present two (2) dollar initial fee and no renewal charge. At present a special license is issued by our Board to persons not qualified to hold regular license but who wish to do work of a minor nature. No charge is made for such privilege and we advise a fee of one (1) dollar.

Besides increasing the revenue of our office we are certain that the amendments suggested will have a good effect in properly regulating the supervision of building operations.

You will readily see that this will require a change in the ordinances of the city, and I would suggest that before this is done, if your Honor thinks best, to refer it to your Commission on Increased Revenue for the city for a study and report on the same and I as well as the Building Commissioner will be glad to appear before that commission and explain the situation more in detail to them.

Yours very truly,
JOHN F. HICKEY.

Committee on New Sources of Revenue,
Boston, June 1, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Sir,—The Committee on New Sources of Revenue has given careful consideration to the letter from the Board of Examiners of the Building Department forwarded by your Honor. As indicated by this letter the Board proposes certain changes in its licenses and fees for foremen and superintendents in charge of construction work in the City of Boston. The most important parts of the above-mentioned letter are as follows:

"The amendments suggested by our Board are in substance a revocation of licenses issued and a reissue of the same, charging an initial fee of five (5) dollars and a yearly renewal fee of two (2) dollars, instead of the present two (2) dollar initial fee and no renewal charge. At present a special license is issued by our Board to persons not qualified to hold a regular license but who wish to do work of a minor nature. No charge is made for such privilege and we advise a fee of one (1) dollar."

The committee doubts the practicability and legality of revoking all present licenses and requiring an annual renewal of the same on the grounds that builders' licenses are in much the same class as other occupational licenses which do not require reissue each year. The committee is of the opinion, however, that the office of the Board of Examiners should be on a self-sufficing basis and therefore instructed me to convey to your Honor its recommendations as follows:

The work of the Board of Examiners consists of the issuing of licenses to foremen and superintendents of construction having charge of building operations in the City of Boston. The fee for these licenses is at present \$2 and in 1919-20 one hundred fifty such licenses were issued, netting \$300. The expenses of the Board during the same period were \$2,812, thus leaving a deficit of \$2,512. In order to make the office pay for itself the committee recommends that the fees for all regular licenses hereafter issued be increased to \$5; that a fee of \$1 be established for special licenses which are now issued free of charge, and that a fee of \$1 be charged for the extension of regular licenses from one class to another. As there are about 200 regular licenses, 100 extensions and 2,500 special licenses issued each year the above-mentioned revision of fees would produce a yearly revenue of approximately \$3,500 and make the office of the Board of Examiners self-supporting.

In order to make this change it will be necessary to amend section 8 of chapter 8 of the Revised Ordinances of the city. The committee therefore submits the following proposed amendment to the existing ordinance.

An Ordinance Concerning Control of Building Operations.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section eight of chapter eight of the Revised Ordinances of 1914 is hereby amended by striking out said section and substituting the following:—Section 8. The board shall issue a license to each person so certified by the board to the building commissioner, and such license shall not be transferred. The fees to be paid to the board for such licenses shall be as follows:—regular licenses, five dollars; special licenses, one dollar; extensions of licenses from one class to another, one dollar. The fees received by the board shall be paid over to the city collector at least once a week.

The members of the committee who voted in favor of this recommendation were Nathan Matthews, Chairman; William B. Munro, Vice Chairman; Edward T. Kelly, W. Eugene McGregor, Malcolm E. Nichols, A. C. Ratschesky, John A. Sullivan and Edgar N. Wrightington. Mr. Francis R. Bangs was out of town at the time of the meeting.

Respectfully submitted,
A. C. HANFORD, Secretary.

City of Boston,

Building Department, July 3, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—I am inclosing herewith copies of the ordinance which will be necessary to pass in order to carry out the recommendations of the Board of Examiners. After consultation with the Corporation Counsel I have decided to leave section 9 without any change and incorporate a new section 8 of chapter 8, the copies of which I am inclosing herewith.

Yours very truly,
HERBERT A. WILSON,
Building Commissioner.

City of Boston.

In the year Nineteen Hundred and Twenty.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section 8 of chapter 8 of the Revised Ordinances of 1914 is hereby amended by striking out said section and substituting the following:—Section 8. The board shall issue a license to each person so certified by the board to the building commissioner. All licenses hereafter issued, or issued less than one year prior to the passage of this ordinance, shall expire in one year from the date of issuance; and all licenses issued more than one year prior to the passage of this ordinance shall expire on the date in the year 1921 corresponding to the date in the year of issuance. The board may renew a license upon any expiration thereof, for the further period of one year from the date of renewal, with or without re-examination, as the board may determine. The fees to be paid to the board for such licenses and renewals shall be as follows:

New license—five (5) dollars; and each yearly renewal thereof—two (2) dollars.

The first renewal of a license heretofore granted—five (5) dollars; and each yearly renewal thereof—two (2) dollars. Special license—one (1) dollar.

The fees received by the board shall be paid to the city collector at least once a week.

EASEMENT FOR ELEVATED RAILWAY COMPANY.

The following was received:

City of Boston,

Office of the Mayor, July 9, 1920.

To the City Council:

Gentlemen,—I am herewith transmitting a communication from the Commissioner of Public Works relative to the conveyance of an easement of the Boston Elevated Railway Company to locate certain tracks, etc., upon and across a parcel of land at the junction of Hyde Park avenue and Walk Hill street.

This easement is necessary to the Elevated for the extension in a southerly direction of its tracks in Forest Hills. Permission for this extension has been granted by the Department of Public Utilities of the Commonwealth. I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

Public Works Department, July 6, 1920.

To the Honorable the City Council:

In accordance with the provisions of section 50, chapter 25, Revised Laws, and any amendments thereof, you are hereby notified that such part of the land, easement and right taken for the City of Boston under an order of the Street Commissioners, dated June 24, 1910, for the improvement of Stony brook and its tributaries, in pursuance of the provisions of chapter 223, Acts of 1868, and acts in amendment thereof and in addition thereto, as is embraced within an easement to locate, construct, maintain and operate an elevated railway in the manner shown on plans of the Boston Elevated Railway Company, approved as to construction by

the Department of Public Utilities of the Commonwealth, under date of June 2, 1920, and to construct, maintain and operate surface car tracks, sewer and drain connections and retaining walls is no longer required for public purposes.

This notification follows an investigation by me to make certain that the contemplated construction in no way interferes with existing sewerage works by the location of the supporting columns or the foundations of the railroad or with the free access to the land by the city for the purpose of further construction or for the purpose of reconstruction, maintenance and repair of the sewerage works.

Respectfully,
T. F. SULLIVAN,
Commissioner of Public Works.

City of Boston,
Public Works Department, July 6, 1920.
To the Honorable the Mayor:

I submit herewith proposed order of the City Council conveying to the Boston Elevated Railway Company an easement for the location, construction, maintenance and operation of an elevated railway and surface track upon and across a parcel of land at the junction of Hyde Park avenue and Walk Hill street which was taken for the improvement of Stony Brook under an order of the Board of Street Commissioners, dated June 24, 1910, and which is no longer required for public purposes.

If your Honor approves, the inclosed deed prepared by the Law Department should be signed by you and transmitted with the order of the City Council.

Yours respectfully,
T. F. SULLIVAN,
Commissioner of Public Works.

Ordered, That his Honor the Mayor be and hereby is authorized in the name and behalf of the city to execute a deed in form approved by the Law Department, conveying to the Boston Elevated Railway Company an easement to locate, construct, maintain and operate an elevated railway (but not including the location of the supporting columns therefor) together with the right to construct, maintain and operate surface car tracks, sewer and drain connections and retaining walls in, upon and across a parcel of land at the junction of Hyde Park avenue and Walk Hill street, reserving to the grantor the right at all times to enter on the premises for the purpose of making necessary repairs or constructing additional work in connection with its use thereof for sewerage and drainage purposes, in accordance with the certification by the Commissioner of Public Works to the City Council that such part of said land, easement and right taken for the City of Boston under an order of the Street Commissioners, dated June 24, 1910, for the improvement of Stony Brook and its tributaries as is embraced within said easement, is no longer required for public purposes.

Referred to the Executive Committee.

FIRE HAZARD AT LONG ISLAND.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a copy of a report which I have just received from Thomas C. O'Brien, chairman of the Board of Trustees of the Infirmary Department, relative to fire hazard conditions at the institution at Long Island. It is obvious from this report that the situation at Long Island with reference to fire hazard is a serious one and no time should be lost in correcting conditions.

You will note from the chairman's report that the improvements which are immediately necessary will cost a total of \$105,000. In order to provide this amount a transfer will have to be effected from the appropriation made some time ago for a new ferryboat. As this appropriation of \$400,000 is not now essential and as the safety of the inmates of the institution at Long Island is paramount, I trust that immediate favorable action will be taken on the attached order, the passage of which I earnestly recommend.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Infirmary Department, July 9, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—The Boston Infirmary Trustees respectfully direct your attention to the lack of fire protection and prevention at the Boston Almshouse and Hospital at Long Island.

The female almshouse and old hospital buildings are grouped together; they range from one to two and one half stories in height and are of mill, wood and cement construction. They are of open construction and large areas. They are occupied by the aged and infirm inmates and should fire occur there would in all probability be a tremendous loss of life due to the physical incapacity of the inmates.

Careful consideration of building conditions at Long Island, with special reference to fire prevention, has been given by the Fire Commissioner and the Building Commissioner of Boston. It is their belief that the only sane solution of the fire problem is the installation of the sprinkler system.

Sprinkler companies have been requested to make a survey of the premises and an outside cost of

\$105,000 is estimated. This expenditure would provide for the installation of sprinklers in the men's dormitory and administration building, main hospital buildings and the female almshouse dormitory.

It is the belief of your trustees that a sprinkler system should be installed without delay and they respectfully request a special appropriation of \$105,000 for that purpose.

Yours very truly,
THOMAS C. O'BRIEN, Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of \$105,000 from the appropriation for New Ferryboat and Runways to an appropriation for Boston Infirmary Department, Long Island, Fire Protection.

Referred to the Executive Committee.

RAILWAY LINES, HYDE PARK.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a copy of chapter 613 of the Acts of 1920, entitled "An Act to Provide for the Public Operation of Street Railway Lines in the Hyde Park District of the City of Boston."

You will note that section 7 involves the payment of \$30,000 to the Hyde Park Transportation District. The request for the payment of this amount has already been made by the treasurer of the Hyde Park Transportation District, and I therefore recommend the passage of the accompanying order that the payment may be made.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of thirty thousand (\$30,000) dollars be and the same is hereby appropriated to meet the expenditure authorized by section 7 of chapter 613 of the Acts of 1920, the same to be raised by taxation upon the polls and estates taxable in the City of Boston.

Referred to the Executive Committee.

TRANSFER FOR ASSESSING DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, July 10, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith a request for an additional appropriation for the Assessing Department, and respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$7,054, to the appropriation for Assessing Department, C-9, Office, \$7,054.

Referred to the Executive Committee.

MAINTENANCE OF HIGHWAYS.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a communication from the Commissioner of Public Works relative to an increase in the patching squad of the Public Works Department. There is a great deal of work to be done in the ordinary maintenance of our highways. The present force under the control of the Commissioner of Public Works is wholly inadequate to care for the situation.

With the appropriation of the amount of money requested by the Commissioner of Public Works the ordinary needs of the main thoroughfares should be readily cared for. This is a work of the utmost importance and I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Public Works Department, July 9, 1920.
To the Honorable the Mayor:

I respectfully request permission to employ about fifty temporary laborers for a period of five months for the purpose of making immediate repairs to macadam streets throughout the city.

The exceptional weather conditions last year, together with the late spring and the embargoes on road building materials, are responsible in a great measure for the present condition of these roadways.

As we have no money available, request an additional appropriation of \$50,000, to be charged to street improvements.

Yours respectfully,
T. F. SULLIVAN,
Commissioner of Public Works.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$50,000 from the Reserve Fund to the appropriation for Street Improvements.

Referred to the Executive Committee.

COUNTY APPROPRIATION BILL

The following was received:

City of Boston,
Office of the Mayor, July 7, 1920.
To the City Council:

Gentlemen,—I submit herewith an additional appropriation bill for the County of Suffolk, due in large part to various acts of the Legislature, and I recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of February, 1920, of performing the duties and exercising the powers devolved by statute or ordinance upon the County of Suffolk or the courts or officers thereof, the respective sums of money specified in the tables hereinafter set forth be and the same are hereby appropriated to be expended for the objects and purposes hereinafter stated, that the same be raised by taxation upon the polls and estates taxable in the City of Boston, and that all orders heretofore passed by the City Council relating to appropriations, taxes and the interest thereon apply to the taxes herein provided for.

REVERE HOUSE SITE FOR POLICE BUILDING.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1920

To the City Council:
Gentlemen,—I am in receipt of the order of the City Council passed on June 14 requesting me to inform the City Council if in my opinion it would be advisable for the city to acquire the land known as the Revere House, for the erection thereon of a building suitable for the use of Police Stations No. 2 and No. 3, and the traffic squad and police headquarters, and for the use of the Municipal Courts of Suffolk County.

I believe it would be inadvisable for the city to acquire this land for such a purpose. A building adequate to house all of the activities enumerated would cost more money than the city has available. The immediate need is that of a

new station for the men of Division 2; a station which would also accommodate the traffic squad and the property clerk of the Police Department. While there may be something to be said in favor of more commodious quarters for the other groups mentioned, their problem is nowhere nearly as pressing as that which has been before the City Council on a number of occasions.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

Passed, under a suspension of the rules.

NAMING OF WILLIAM E. CANARY SQUARE.

Coun. WATSON offered an order—That the space at the junction of South Huntington avenue, Boylston, Moraine and Centre streets be named William E. Canary square, in honor of William E. Canary of the 101st Infantry, who lost his life in action at St. Mihiel, September 12, 1918, and that said space be suitably marked.

Passed, under a suspension of the rules.

NAMING OF MYRON B. WHITCOMB SQUARE.

Coun. WATSON offered an order—That the space at the junction of South, Centre and Eliot streets be named Myron B. Whitcomb square in honor of said Whitcomb of the 101st Infantry, who was killed in action at Chateau Thierry, July 18, 1918, and that said space be suitably designated.

Passed, under a suspension of the rules.

UNCLAIMED BAGGAGE.

Coun. COLLINS, for the Committee on Unclaimed Baggage, submitted a report on petition of the Boston & Maine Railroad Company (referred today) for leave to sell unclaimed baggage—recommending the passage of the following, viz.:

Ordered, That the Boston & Maine Railroad be and hereby is authorized to sell at public auction on or before July 15, 1920, and after publication of the time and place of sale according to law, the articles left and remaining unclaimed in the possession of said railroad in the City of Boston.

Report accepted; order passed.

OFFICE HOURS OF DEPARTMENTS.

President MORIARTY offered the following:

City of Boston.

In the Year Nineteen Hundred and Twenty.

An Ordinance Relating to Office Hours of Departments.

Be it ordained by the City Council of Boston, as follows:

Section 10, chapter 3, of the Revised Ordinances of the city of Boston is hereby amended by striking out the words "during the months of June, July, August and September and at one o'clock p. m. during the other months of the year."

Referred to the Committee on Ordinances.

RECESS TAKEN.

The Council voted, at 2.45 p. m., on motion of Coun. FORD, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber, and were called to order by the President at 4.55 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on petition of John Meade (referred today) for retirement under the provisions of chapter 765 of the Acts of 1914—recommending the passage of the following, viz.:

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special Acts of 1915, John Meade, employed in the labor service of the City of Boston in the Public Works Department.

Report accepted; order passed.

2. Report on petition of Gennaro Ciullo (referred today) for permit to sell, rent or lease firearms at 130 Salem street, Ward 5—that permit be granted.

Report accepted; permit granted on the usual conditions.

3. Report on message of Mayor, communication and order (referred today) transferring the sum of \$50,000 from the Reserve Fund to the appropriation for Street Improvements—that the order ought to pass.

Report accepted; order passed, yeas 6, nays 0.

4. Report on message of Mayor, communication and order (referred July 28) for transfer of \$5,000 for protection, etc., Rapid Transit Department—that the order ought not to pass.

Report accepted; order rejected.

5. Report on message of Mayor, communication and order (referred today) for transfer of \$105,000 from appropriation for New Ferryboat and Runway to an appropriation for the Boston Infirmary Department, Long Island, Fire Protection, that the order ought not to pass.

Report accepted; said order rejected.

In connection with the above, Coun. WATSON offered the following:

Ordered, That the sum of \$105,000 be appropriated for the Boston Infirmary Department, Long Island, Fire Protection, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Coun. WATSON—Mr. President, I offered that order by the unanimous vote of the Executive Committee.

The order was given its first reading and passed; yeas 6, nays 0.

The order will take its final reading not less than fourteen days from date.

6. Report on message of Mayor and order (referred today) appropriating \$30,000 to meet expenditure authorized by section 7 of chapter 613 of the Acts of 1920, the same to be raised by taxation upon the polls and estates taxable in the City of Boston—that the order ought to pass.

The report was accepted, and the question came on the passage of the order.

President MORIARTY—It was my understanding that the Executive Committee voted that this report "ought not to pass." I do not think that the Mayor or anybody else has the right to go out and agree in a conference on an appropriation of \$30,000 and then come back here and ask us to approve it. I think it is about time that we stood on our rights, and I am going to vote against the appropriation of \$30,000.

The order was laid on the table.

7. Report on message of Mayor, communication and orders (referred today) for transfers within department appropriations—that the orders ought to pass.

The report was accepted, and the orders were passed—yeas 6, nays 0.

8. Report on message of Mayor and order (referred today) for additional appropriation bill for the County of Suffolk—that the order ought to pass.

The report was accepted, and the appropriation bill was passed, yeas 6, nays 0.

In connection with the report and order the committee submitted the following statement.

STATEMENT BY MAYOR PETERS TO THE NEWSPAPERS.

I am submitting today to the City Council a supplementary County Budget totaling \$40,024.71.

Of this amount \$39,524.71 represents an appropriation which the City of Boston is forced to provide because of the action of the Legislature in granting certain increases to county employees. The Mayor and City Council had no control over the granting of these increases, and we are simply forced to provide for them because the Legislature disregarded our wishes in the matter.

It is interesting to note, that while the Legislature is very careful to limit the expenditures of Boston through fixing the tax limit for strictly city purposes, it exercises no such care when fixing salaries of court officials, which must be paid by the city and enter into its tax rate.

Among the larger salary increases are \$2,000 per year for judges of the Municipal Court, \$500 per year for clerks and assistant clerks of the Municipal Court, Civil and Criminal Sessions, and from \$414 to \$560 per year for various court officers in the upper courts, increases which are out of all proportion to those granted to employees under control of the Mayor, those averaging only a little more than \$200.

COUNTY ACCOUNTS.

Coun. FORD, for the Committee on County Accounts, submitted the following, viz.:

1. Report on communication from chief justice of Municipal Court (referred June 28) concerning salary of probation officer—recommending the passage of the following, viz.:

Ordered, That the salary of Alice D. Keating, probation officer, appointed in place of Mary A. Thumith, resigned, at an annual salary of \$1,950, to date from June 21, 1920, be and the same is hereby approved.

Report accepted; order passed.

2. Report on communication from justice of Dorchester Municipal Court (referred June 28) relative to salary of probation officer—recommending the passage of the following, viz.:

Ordered, That the salary of Reginald H. Mair, probation officer of the Municipal Court of the Dorchester District of Boston, determined by the justice of said court at the rate of \$2,200 per annum beginning January 1, 1920, be and the same hereby is approved.

Report accepted; order passed.

3. Report on communication from chief justice of Municipal Court (referred today) relative to additional appropriation for civil business—recommending the passage of the following, viz.:

Ordered, That in addition to the amount heretofore allowed, the allowance by the justices of the Municipal Court of the City of Boston of \$1,500 for clerical assistance in the office of the clerk of said court for civil business be and the same hereby is approved.

Report accepted; order passed.

OFFICE HOURS, REGISTRY OF DEEDS.

Coun. FORD offered an order—That the office of the Registry of Deeds be closed week days, with the exception of Saturdays, at four o'clock p. m., from July 15 to Labor Day, 1920.

Coun. FORD—Mr. President, I move that the rules be suspended and that the order go upon its passage today. This is the only department in the Courthouse that does not close at four o'clock daily. This order is introduced with the consent of the Register of Deeds, in order that all the offices at the Courthouse may close at a uniform hour.

The rule was suspended, and the order was passed.

CONFIRMATION OF APPOINTMENTS.

President MORIARTY called up unfinished business, Nos. 1, 2, 3 and 4, viz.:

Action on appointments submitted by the Mayor, June 28, 1920, viz.:

1. Harry Van Dam, to be a Constable.
2. John H. Kilduff, to be a Constable.
3. Mary Sheffer and John A. Reardon, to be Weighers of Goods.

4. Solomon LaFrosky, Mary Saperstein, Benjamin H. Cohen and Anna Rosenthal, to be Weighers of Coal.

The question came on confirmation. Committee—Coun. Lane and Ford. Whole number of ballots cast 6, yeas 6, and the appointments were confirmed.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.15 p. m., on motion of Coun. FORD, to meet on Monday, July 19, at two o'clock p. m.

MUNICIPAL GYMNASIA.

The Park and Recreation Department, City of Boston, desires to inform its patrons that the regular gymnastics of the municipal gymnasia have been resumed at the various municipal buildings.

The following buildings have gymnasia and shower rooms which are open to the free use of the public every week day:

Roslindale Building.—Corner of Ashland and Washington streets.

Curtis Hall Gymnasium and Swimming Pool.—South street, Jamaica Plain.

Cabot Street Gymnasium and Swimming Pool.—Roxbury.

Vine Street Gymnasium.—Corner Vine and Dudley streets.

Dorchester Gymnasium.—Corner Columbia road and Bird streets.

Ward 6 Gymnasium.—Corner Harrison avenue and Plympton street, South End.

Ward 5 Gymnasium.—Corner Tyler and Oak streets.

D Street Gymnasium.—South Boston.

North Bennet Street Gymnasium.—North End.

Paris Street Gymnasium.—East Boston.

Charlestown Gymnasium.—Corner of Bunker Hill and Lexington streets.

The department desires to present to the public the unusual facilities afforded for boys and girls, men and women, under well trained instructors in the different gymnasia where they may have recourse to health-building and recreational activities.

Candidates for the Police and Fire Departments are provided for on Tuesday and Friday of each week at the above named gymnasia.

Basketball is permitted in certain gymnasia on the part of those who participate in class work.

Esthetics and social dancing, handball, track athletics and recreational play in connection with the gymnasium work are regularly employed.

Monday and Thursday of each week are given over exclusively to the use of women and girls and the other days of the week to men and boys. Classes are held at 1.30 p. m. on Monday and Thursday for mothers; at 4.30 for school girls and at 7.30 for working girls

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending July 22, 1920:

FIRE DEPARTMENT.

On July 16 to John T. Shea, Jr., for the laying of approximately 2,820 feet of single duct, the setting of nineteen box posts and the construction of three hand-holes. Bids opened July 9, 1920:

Laying of approximately 2,820 feet of single duct, Hugh McNulty, \$2.30 per foot; John T. Shea, Jr., \$1.25 per foot.

Setting of nineteen box posts, Hugh McNulty, \$7 each; John T. Shea, Jr., \$5 each.

Construction of three hand-holes, Hugh McNulty, \$30 each*; John T. Shea, Jr., \$50 each.*

*The total amount of the contract, based on the above figures, is as follows: Hugh McNulty, \$6,709; John T. Shea, Jr., \$3,770. Owing to the nature of the work and the fact that only three hand-holes are to be constructed it would not be advisable to split the contract.

PUBLIC WORKS DEPARTMENT.

On July 16 to W. H. Ellis & Sons Company for repairing south drop at the East Boston landing of the North Ferry. Bids opened July 14:

W. H. Ellis & Sons Company, \$9,297; George T. Rendle Company, \$9,600; Richard T. Green Company, \$11,515; John F. Cavanagh & Co., \$14,000.

On July 16 to Coleman Brothers, second lowest bidder, for relaying granite block pavement in Blackstone street, as per following communication:

BOSTON, July 16, 1920.

To the Mayor of Boston:

I respectfully request permission to award a contract for relaying granite block pavement on Blackstone street, from Clinton street to Haymarket square, to Coleman Brothers, Inc., the second lowest bidder. The lowest bidder has had no experience in work of this kind, and at the present time has no organization or equipment available to carry on a piece of work of this magnitude.

This is a street which carries exceptionally heavy traffic, and the specifications required that the work be carried on night and day. Coleman Brothers have an organization and the equipment to do this work promptly, and the best interests of the city will be served, in my opinion, by awarding the contract to them.

The following bids were received, after advertisement, on July 12:

John Landis, \$18,632.85; Coleman Brothers, Inc., \$20,431.55; J. McCourt Company, \$24,757.80.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SCHOOLHOUSE DEPARTMENT.

On July 15 to M. L. McDonald for painting work at the Norcross School. Bids opened July 13:

M. L. McDonald, \$3,658; W. J. Kelly, \$3,694.

On July 16 to James J. Brock for rebuilding coal bin area roof in the Copley School. Bids opened July 13:

James J. Brock, \$2,992; Joseph Rugo, \$4,460; J. W. McArdle, \$4,650; John McCourt Company, \$5,500.

On July 16 to J. C. Coveney for painting work at the Trescott School. Bids opened July 8:

J. E. Coveney, \$1,575; A. D. Howlett Company, \$1,650.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

On July 16 to the Atlantic Works as per following communication:

BOSTON, July 14, 1920.

To the Mayor of Boston:

To authorize the Atlantic Works to put the ferryboat "General Hancock" on the marine railway, clean the bottom, put in new planking, do calking, repair wheels, lift and repair rudder gear, put in new strainer, the estimated cost for labor and materials being \$1,500. The boat has not been cleaned for four years. The Atlantic Works railway is near the ferry and the company is well equipped to do the work.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

On July 16 to the C. W. Hunt Company, Inc., as per following communication:

BOSTON, July 8, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract without publicly advertising for bids, to the C. W. Hunt Company, Inc., for supplying repair parts for the Hunt Conveyor system installed in coal pocket at the Boston City Hospital at a total price of thirteen hundred and ninety dollars, (\$1,390).

In view of the fact that the Boston City Hospital has decided not to install an oil-burning equipment this year, it is necessary that the parts covered by this contract be secured in order to effect the necessary repairs to the conveyor system now in use at the Boston City Hospital.

I am attaching letter from Dr. John J. Dowling, Superintendent of the Boston City Hospital, in further explanation of this request.

Respectfully yours,

C. E. THORNTON,
Acting Superintendent of Supplies.

On July 16 to the New England Coal and Coke Company, as per following communication:

BOSTON, July 15, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award contract without publicly advertising for same to the New England Coal and Coke Company for furnishing approximately two thousand (2,000) tons of semibituminous Pennsylvania coal to the Sewer Service, Calf Pasture pumping station, f. o. b. lighters at Everett at a price of \$16 per gross ton, with an additional charge of thirty-five cents (\$0.35) per gross ton for delivery at the pumping station, Calf Pasture. The City of Boston is allowed two days free time for discharging with a demurrage charge thereafter at the rate of five cents, (\$0.05) per ton per day.

In consideration of the fact that it is extremely difficult at the present time to secure shipments of coal at any price, I earnestly request that the permission asked for be granted.

Respectfully yours,

T. J. CRONIN,
Superintendent of Supplies.

On July 17 to the Coastwise Coal Company as per following communication:

BOSTON, July 15, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully

requested to award a contract without publicly advertising same to the Coastwise Coal Company for furnishing approximately five hundred (500) tons of semibituminous coal at the price of \$16.25 per gross ton f. o. b. East Boston, to be delivered to the Infirmary Department at Long Island.

In view of the unsettled condition of the coal market at the present time I respectfully request that the authority asked for be granted.

G. J. CRONIN,
Superintendent of Supplies.

Prices on Lighter of Soft Coal for Long Island.—Imperial Coal Corporation, \$20 net ton f. o. b. Boston; Stetson Coal Company, no coal; New England Coal & Coke Company*; Maritime Coaling Company, no coal; Burton-Furber Coal Company, no coal; Logan Coal Company, no coal; Northern Coal Company, no coal; C. H. Sprague & Sons, no coal; Castner, Curran & Bullitt, Inc., no coal; Coastwise Coal Company, \$16.25 net ton f. o. b. East Boston; East Boston Coal Company, no coal; City Fuel Company, \$20 net ton f. o. b. Boston.

*As per letter attached.

On July 19 to Burton-Furber Coal Company as per following communication:

BOSTON, June 14, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract to the Burton-Furber Coal Company, without publicly advertising bids, for three hundred (300) tons of semibituminous coal to be delivered to the Boston City Hospital at a price of twelve dollars and fifty cents (\$12.50) per gross ton.

In view of the fact that the City Hospital at the present time is in particular need of coal, the Burton-Furber Coal Company has offered the Supply Department this lighter as an emergency offer, and the price quoted of twelve dollars and fifty cents (\$12.50) per gross ton is much lower than can be secured from other coal companies.

I respectfully ask, in view of the reasons set forth above, that this permission be granted.

Respectfully yours,

C. E. THORNTON,
Acting Superintendent of Supplies.

STATEMENT OF THE FINANCE COMMISSION ON BIDS FOR PAINTING AT THE GASTON SCHOOL.

BOSTON, July 16, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—On June 22 the Schoolhouse Commission opened bids for painting work at the Gaston School and the lowest bidders were:

D. Dugan & Son..... \$2,500 00
P. Holdenson Company..... 3,788 00

The lowest bidder was rejected and the Schoolhouse Commission explained its rejection of the lowest bidder in a letter to your Honor as follows:

You will notice that the lowest bidder was D. Dugan & Son, in the sum of \$2,500, there being a difference of \$1,238. This Board has employed the firm of D. Dugan & Son as a painting contractor several times in the course of the last six years, and I am sorry to have to state that in many cases they have not complied with the terms and conditions of the contract. I wish to state also, on behalf of the Board, that this Board is of the opinion that if the contract were awarded to the said firm at the proposal price submitted, the work would not be done in compliance with the terms and conditions of the contract and therefore the City of Boston would not receive full value for the money paid.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

The Finance Commission therefore requested the chairman of the Schoolhouse Department to give it the names of the schools where the poor work had been done and the amount of penalty which had been imposed on the contractor for failure to perform his contract satisfactorily to the Schoolhouse Department officials.

The reply of the chairman of the Schoolhouse Department is given in full as evidence of how that department conducts its business:

Your communication of the 8th instant received. I desire to state that the proposal of D. Dugan & Son for the painting work on the Gaston School was rejected for the causes stated.

Replying to request for information regarding contracts which the said firm had not carried out, would say as follows: The contracts referred to were contracts for less than \$1,000 and were awarded under the limited competition custom of this department. As chairman of the Board, having charge of the repair and alteration work, at the close of the repair season in 1917, after looking over several of the schools where the said firm had the contracts for painting, I decided that the work was not performed in accordance with the terms and conditions of the contractor.

There were no deductions made on the contracts herein referred to for the reason that they all had been performed, accepted by the department and paid for before the department had formed its judgment as to the character of the work.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

Your Honor will note from the last paragraph of this letter that the department was negligent in accepting the work on faulty inspection and in approving the bill for payment.

Mr. Dugan was examined by the Finance Commission and stated that he never received a complaint from the Schoolhouse Department regarding the quality of his work and that he had received a great deal of work prior to February, 1918, but had received no contracts from the Schoolhouse Department since your Honor took office.

The Public Buildings Department, however, has regularly employed Mr. Dugan and at the present time he has a contract from that department for painting work in the City Hall Annex amounting to approximately \$1,900.

Your Honor knows that the Schoolhouse Department has complained that scarcely any contractors are bidding on school-

house work. This state of affairs has become a serious matter and one that ought to receive your immediate attention.

Treatment of lowest bidders as disclosed in this case by the Schoolhouse Department may well be one of the reasons why the number of contractors who bid at all on schoolhouse work is constantly becoming smaller and smaller.

The Finance Commission recommends:

1. That proper inspection of schoolhouse work be insisted upon before the work is accepted and payment is made.

2. That when contractors fail to execute their contracts according to their terms and conditions, the rights of the city under the contracts be enforced.

3. That the Schoolhouse Department be instructed to adopt a policy which will encourage a large number of high class bidders on its work.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

CONTRACT EXTENDED — PITO-METER COMPANY.

BOSTON, July 16, 1920.

To the Mayor of Boston:

On April 29 you granted permission to award a contract to the Pitometer Company for a waste water survey of the Charlestown district, in accordance with one of the recommendations of the Committee on Sources of New Revenue, and this survey will be completed next week. The results of this survey have more than equalled our expectations, for in this trial section we have discovered and stopped, up to the present time, a leakage of over 1,000,000 gallons a day, which is at least equal to the amount paid for the survey.

I am therefore asking your permission to continue this survey and extend it to the Brighton high service at an additional expense of \$2,500.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved July 16, 1920.

ANDREW J. PETERS, Mayor.

WORK ON FERRYBOAT "GOVERNOR RUSSELL."

BOSTON, July 16, 1920.

To the Mayor of Boston:

I respectfully request your approval of the bill of Simpson's Patent Dry Dock Company for work done on the ferryboat "Governor Russell" amounting to \$2,333.28.

This company was the lowest bidder on an advertised contract for repairs to the machinery of the "Governor Russell" and the boat was placed in the dry dock on June 18. The following day, after the underwater body could be inspected, it was found that additional work, not included in the contract, must be done, and as there is a minimum charge for the dry dock of \$400 a day, it was necessary to have this work done immediately to avoid an additional dry dock charge of about \$1,200.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved July 16, 1920.

ANDREW J. PETERS, Mayor.

LAND FOR SCHOOL PURPOSES.

BOSTON, June 1, 1920.

MR. FRANK V. THOMPSON,
Superintendent of Public Schools,
Boston, Mass.:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for addition to the yard of the School Street School, in order to provide on that site a sufficient amount of land for the erection thereon of an intermediate school, two certain parcels of land in the George Putnam District, bounded and described as follows:

Parcel 1. Beginning at a point at the northeasterly corner of School and Dixwell streets, thence northeasterly by line of Dixwell street 158 feet to land of Beckwith; thence turning and running southeasterly by land of Beckwith and the City of Boston 69 feet to land of said city; thence turning and running southwesterly by land of said city 158 feet to School street; thence turning and running northwesterly by line of School street 69 feet to the point of beginning; and contains 17,385 square feet of land. Be all said measurements, more or less.

Parcel 2. Beginning at a point on the northwesterly line of School Street place 74 feet northeasterly from the corner of School street and School Street place;

thence northwesterly by land of Danielson, Syjats and Larrabee 92 feet to land of the City of Boston; thence turning and running northeasterly by land of said city 79 feet to land of Herrick, Jr.; thence turning and running southeasterly by land of said Herrick, Jr., 92 feet to the line of School Street place; thence turning and running southwesterly by said line of School Street place 79 feet to the point of beginning; and contains 11,143 square feet of land. Be all said measurements, more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

J. P. LOMASNEY.

Chairman, Schoolhouse Commission.

FRANK V. THOMPSON,
Superintendent of Public Schools.

CITY OF BOSTON,
SCHOOLHOUSE DEPARTMENT,
June 22, 1920.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for addition to the yard of the School Street School, in order to provide on that site a sufficient amount of land for the erection thereon of an intermediate school, one certain parcel of land in the George Putnam District, bounded and described as follows:

Parcel 1.—Beginning at a point at the northeasterly corner of School and Dixwell streets, thence northeasterly by line of Dixwell street 158 feet to land of Beckwith street; thence turning and running southeasterly by land of Beckwith street and the City of Boston 69 feet to land of said city; thence turning and running southwesterly by land of said city 158 feet to School street; thence turning and running northwesterly by line of School street 69 feet to the point of beginning; and contains 17,385 square feet of land. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding—eminent domain—for carrying out the same.

Respectfully,

J. P. LOMASNEY,
Chairman Schoolhouse Commission.

Approved July 16, 1920.

ANDREW J. PETERS, *Mayor.*

LOAN FOR SEWER, COLUMBIA ROAD.

The following was received:

City of Boston,
Office of the Mayor, July 16, 1920.

To the City Council:
Gentlemen,—I am submitting an order authorizing the appropriation of the sum of \$100,000 in connection with the provisions of chapter 393 of the Acts of 1920, for the purpose of constructing, improving and completing the sewer and surface drain at present emptying into the Old Harbor on Columbia road in the South Boston district.

I recommend the immediate passage of the order as the early completion of this improvement is very desirable and we are anxious to start work at the earliest possible moment.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$100,000 be and hereby is appropriated to be expended by the Commissioner of Public Works for Old Harbor improvement, in accordance with chapter 393 of the Acts of 1920, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

LICENSING OF ITINERANT VENDORS.

The following was received:

City of Boston,
Office of the Mayor, July 16, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a copy of a report submitted by the Committee on New Sources of Revenue relative to the adoption of an ordinance designed to provide a source of revenue from itinerant vendors. The report covers the situation very thoroughly and I recommend the passage of the accompanying ordinance.

On December 28, 1906, in accordance with a recommendation of the then Mayor, dated November 26, 1906, the Board of Aldermen passed an order fixing a fee of \$50 for licenses granted to itinerant vendors under section 6 of chapter 65 of the Revised Laws.

In order that there may be no conflict between this order and the ordinance which I now propose to be adopted, it would be wise to pass the accompanying order, rescinding the order passed on December 28, 1906. I therefore recommend the passage of the order which I am attaching to this message.

Very truly yours,
ANDREW J. PETERS, Mayor.

Ordered, That the order passed by the Board of Aldermen on December 28, 1906, and approved by the Mayor January 2, 1907, establishing a fee of \$50 for licenses for itinerant vendors, be and the same hereby is repealed.

LICENSE FEES FOR ITINERANT VENDORS.

The committee has made a study of the licensing of itinerant vendors with the following results:

According to information provided by the Assessing Department there are about two hundred itinerant vendors or merchants who come to Boston regularly during the year and locate with their samples and stocks of goods at store rooms, hotels and other places, making sales at retail from such stocks and samples. These persons are very careful to arrange their time so that no merchandise is located in the city on the first of April, thus escaping local taxation. A review of the ordinances and regulations of other cities indicates that a number of cities such as Providence, Buffalo, Baltimore, Portland, Maine, Detroit, St. Louis, Los Angeles, San Francisco and Cincinnati impose a license fee on itinerant vendors which varies from a minimum of \$10 per year in Buffalo to as high as \$100 per day in San Francisco. In Providence the fee for a city license is \$350 in addition to a state fee of \$200.

MASSACHUSETTS STATUTE RELATING TO ITINERANT VENDORS.

In Boston itinerant merchants have been allowed to operate without the imposition of a license fee despite the fact that under the existing statutes the city has authority to require such a license and the payment of a fee which may be either a fixed sum or an amount equivalent to the taxes assessable against the average stock of goods kept by such merchants. Mention might also be made of an order passed by the old Board of Aldermen in 1906 requiring a license fee of \$50 for itinerant vendors which has not been enforced. The statutory provisions covering itinerant vendors are set forth in chapter 65 of the Revised Laws, as amended by chapter 120 of the General Acts of 1916 and chapter 237 of the General Acts of 1917. A brief digest of these provisions follows:

Definition of Itinerant Vendor.

The state law defines an itinerant vendor as "any person, either principal or agent, who engages in a temporary or transient business in this commonwealth, either in one locality or in travelling from one place to place selling goods, wares and merchandise, and who, for the purpose of carrying on such business, hires, leases or occupies a building or structure for the exhibition and sale of such goods, wares and merchandise." Section 2 of the law, however, stipulates that its provisions shall not apply to sales made by commercial travelers, or by agents selling to dealers in the usual course of business, nor to bona fide sales of goods, wares and merchandise by sample for future delivery, nor to ordinary hawkers and pedlers selling fruit, vegetables, produce, etc., from wagons. In other words, the state law applies only to transient dealers who make sales from actual stocks of goods and who lease, hire or occupy a store, hotel room, public hall or other building for the temporary exhibition of such goods.

State License.

Before commencing business in the state, every itinerant vendor must secure a license from the Commissioner of Weights and Measures of the Commonwealth, paying a state license fee of \$25 therefor, and must also make a special deposit of \$500 with the commissioner.

City License.

The law further provides that before selling under a state license in any city or town every itinerant vendor shall pay a local license fee to the clerk of the city or town in which he proposes to make sales. The mayor and aldermen or the selectmen may determine the amount of the fee according to two different methods. This fee may

be established either as a fixed sum or at a sum equivalent to the taxes assessable under the last preceding tax levy against the average quantity and value of the stock of goods kept by the said merchants. If this latter method is employed the law authorizes the mayor and aldermen to require every itinerant merchant to file a true statement under oath setting forth the average value and quantity of his stock of goods. This statement is then sent to the assessors who shall determine the valuation of the goods and transmit a certificate thereof to the mayor and aldermen who in turn shall forward the same to the city clerk to be used as the basis for fixing the amount of the license fee.

The present statute leaves it to the discretion of the local authorities to determine whether or not a license shall be required and a fee fixed therefor, but attention is called to a recent statute enacted by the Legislature which according to the interpretation by the state officials, will make it mandatory upon cities and towns to require a license and the payment of a fee by itinerant vendors if such persons are permitted to do business in a locality. (Chapter 257 of the General Acts of 1918.)

A review of the legislation on the subject indicates, therefore, that the city has the legal authority to impose a license fee upon itinerant vendors as defined in the state law. That this power exists is further shown by the fact that an order was passed by the old Board of Aldermen of the City of Boston in 1906 providing for the licensing of itinerant vendors upon the payment of a fee of \$50, which appears never to have been enforced.

REASONS FOR REQUIRING A LICENSE FEE FROM ITINERANT VENDORS.

There is a difference of opinion as to whether or not itinerant merchants should be licensed at all and it is asserted by some that such businesses should not be recognized or allowed to operate in Boston. On the other hand, it is maintained that itinerant merchants should be encouraged to locate in Boston, as they increase competition and thus tend to lower prices. The fact remains, however, that there are at least two hundred such vendors doing a regular business in the city who require a certain amount of regulation under the police power because of the transitory nature of their operations and who should be made to pay for the cost of such regulation. Those persons are at present escaping the payment of their share of the necessary expenses incurred for police and fire protection, street improvements, water supply and so on. At the same time, the city is annually losing thousands of dollars by allowing transient merchants with large stocks of goods to operate without payment for the privilege of carrying on business and for the services and opportunities furnished to them by the city. The committee is of the opinion that itinerant merchants should either not be licensed at all or if they are licensed that the provisions of the state law on the subject should be enforced.

Leaving aside then the question as to whether itinerant vendors should or should not be kept out of the City of Boston, the committee is of the belief that the present system of exempting such persons from their just share of the burden of taxation is unfair to the regular merchants who are subject to all local taxes and who take a more or less active part in the affairs of the community and also to the city because it is deprived of a considerable revenue to which it is justly entitled amounting to approximately \$50,000 per year.

RECOMMENDATIONS.

For the reasons stated above the committee recommends that the city avail itself of the provisions of the state law and that all itinerant vendors be required to take out a license and to pay a fee therefor which shall be equivalent to the taxes assessable against the average stock of goods kept by such merchants. According to an estimate made by the Chamber of Commerce after inquiry and investigation the establishment of a fee on this basis would add at least \$50,000 to the revenue of the city.

In order to provide the machinery necessary for action under the state law governing itinerant vendors it is recommended that your Honor request the City Council to rescind its order of December 23, 1906, and that the following ordinance be introduced providing for the licensing and taxation of itinerant vendors:

An Ordinance Concerning Itinerant Vendors.

Section 1. Every itinerant vendor, whether principal or agent, authorized by state license to do business in this commonwealth, before making any sales of goods, wares and merchandise in the city of Boston, shall make application for a local license to the city clerk stating the names, residences and places of business of the owners or parties in whose interest said business is conducted, and shall at the same time file with the city clerk a true statement, under oath, of the average quantity and value of the stock of goods, wares and merchandise kept or intended to be kept or exposed by him for sale. The city clerk shall submit said statement to the assessors who shall forthwith make an examination and valuation of such goods, wares and merchandise and transmit a certificate thereof to the city clerk.

Section 2. Upon the payment of a fee equivalent to the taxes assessable under the last preceding tax levy upon an amount of property equal to the valuation certified by the board of assessors as

provided for in section one of this ordinance, the city clerk shall issue to the itinerant vendor a license authorizing the sale of such goods, wares and merchandise within the city of Boston. Such license shall remain in force so long as the license shall continuously keep and expose for sale in the city of Boston such stock of goods, wares and merchandise, but not later than the first day of May following its date of issuance. Every itinerant vendor licensed under this ordinance shall also execute a bond to the city of Boston in the sum of \$500 with two sufficient sureties, conditioned for faithful observance of this ordinance.

Section 3. Every itinerant vendor who is granted a license under the provisions of this ordinance shall exhibit the same at all times, while in force, in some conspicuous part of the place of business for which it is issued.

Section 4. The term "itinerant vendor" for the purposes of this ordinance shall be the same as defined in sections one and two of chapter 65 of the Revised Laws of Massachusetts as amended by chapter 120 of the General Acts of 1916 and chapter 237 of the General Acts of 1917, and shall include any person, either principal or agent, who engages in a temporary or transient business in this city, and who, for the purpose of carrying on such business, hires, leases or occupies a building or structure for the exhibition and sale of such goods, wares and merchandise. The provisions of this ordinance, however, shall not apply to sales by commercial travelers or by selling agents to dealers in the usual course of business, nor to sales of goods, wares and merchandise by any person, either principal or agent, who engages in temporary or transient business within the city and who has paid taxes upon his stock in trade during the current year, nor to hawkers and peddlers as defined by the laws of this commonwealth and the ordinances of the city of Boston.

Section 5. Any person, association or corporation who shall engage in the business of an itinerant vendor, as herein defined, without having secured a license for that purpose as provided in this ordinance or neglects or refuses to file the statement described in section one of this ordinance, or makes a false or fraudulent representation in said statement, or who, having secured such license, shall thereafter fail to pay the sum required herein shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of twenty dollars for each day during which such goods, wares or merchandise are kept or exposed for sale.

Respectfully submitted,

A. C. HANFORD, Secretary.

An Ordinance.

Be it ordained by the City Council of Boston, as follows:

Section 1. Every itinerant vendor, whether principal or agent, authorized by state license to do business in this commonwealth, before making any sales of goods, wares and merchandise in the city of Boston, shall make application for a local license to the city clerk stating the names, residences and places of business of the owners or parties in whose interest said business is conducted, and shall at the same time file with the city clerk a true statement, under oath, of the average quantity and value of the stock of goods, wares and merchandise kept or intended to be kept or exposed by him for sale. The city clerk shall submit said statement to the assessors who shall forthwith make an examination and valuation of such goods, wares and merchandise and transmit a certificate thereof to the city clerk.

Section 2. Upon the payment of a fee equivalent to the taxes assessable under the last preceding tax levy upon an amount of property equal to the valuation certified by the board of assessors as provided for in section one of this ordinance, the city clerk shall issue to the itinerant vendor a license authorizing the sale of such goods, wares and merchandise within the city of Boston. Such license shall remain in force so long as the license shall continuously keep and expose for sale in the city of Boston such stock of goods, wares and merchandise, but not later than the first day of May following its date of issuance. Every itinerant vendor licensed under this ordinance shall also execute a bond to the city of Boston in the sum of \$500 with two sufficient sureties, conditioned for faithful observance of this ordinance.

Section 3. Every itinerant vendor who is granted a license under the provisions of this ordinance shall exhibit the same at all times, while in force, in some conspicuous part of the place of business for which it is issued.

Section 4. The term "itinerant vendor" for the purposes of this ordinance shall be the same as defined in section one and two of chapter 65 of the Revised Laws of Massachusetts as amended by chapter 120 of the General Acts of 1916 and chapter 237 of the General Acts of 1917, and shall include any person, either principal or agent, who engages in a temporary or transient business in this city, and who, for the purpose of carrying on such business, hires, leases or occupies a building or structure for the exhibition and sale of such goods, wares and merchandise. The provisions of this ordinance, however, shall not apply to sales by commercial travelers or by selling agents to dealers in the usual course of business, nor to sales of goods, wares and merchandise by any person, either principal or agent, who engages in temporary or transient business within the city and who has paid taxes upon his stock in trade during the current year, nor to hawkers and peddlers as defined

by the laws of this commonwealth and the ordinances of the city of Boston.

Section 5. Any person, association or corporation who shall engage in the business of an itinerant vendor, as herein defined, without having secured a license for that purpose as provided in this ordinance or neglects or refuses to file the statement described in section one of this ordinance, or makes a false or fraudulent representation in said statement, or who, having secured such license, shall thereafter fail to pay the sum required herein, shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of twenty dollars for each day during which such goods, wares or merchandise are kept or exposed for sale.

The President declared the matter referred to the Committee on Ordinances.

Coun. HAGAN—Mr. President, I ask for reconsideration of the reference, if there be no objection, so that this matter may be handled by the Executive Committee, rather than by the Committee on Ordinances, who may not meet until some time in the future. This matter is one which is very important, and particularly pertinent at the present time to the business interests and to the citizens of Boston, and they would like to see it acted upon. I therefore suggest that the reference be reconsidered, and that the matter be sent to the Executive Committee and treated there.

President MORIARTY—Is there any objection to the ordinance being referred to the Executive Committee? I will say that I think this is a very big matter. The Mayor has had a committee working on it, and I believe it ought to take its regular course and go to the Committee on Ordinances. There are some members of the Council absent today, and I think no good will be done by referring it to the Executive Committee.

Coun. FORD—Mr. President, can we have the order read again? Some of us didn't pay much attention to it when it was read.

President MORIARTY—I have already referred it to the Committee on Ordinances. Coun. Hagan says that unless there is objection he would like to have it go to the Executive Committee.

Coun. HAGAN—As long as there is objection, Mr. President, I will withdraw my request.

President MORIARTY—I will ask the chairman of the Committee on Ordinances, Coun. Brickley, to call a meeting of the committee at the earliest possible date, so that the matter may be taken up. The reference stands.

PROBATION OFFICERS' SALARIES.

The following was received:

Commonwealth of Massachusetts,
Municipal Court of the City of Boston,
Courthouse, Boston, July 16, 1920.

Hon. James Donovan,
City Clerk, Boston:

Dear Sir,—Subject to confirmation by the County Commissioners, the justices of this court have this day determined the annual salaries of the probation officers of this court as follows, in effect August 2, 1920:

Chief probation officer, \$5,000.

First assistant male probation officer, \$3,300.

Second assistant female probation officer, \$2,800.

Fourteen male assistant probation officers, \$2,800.

Nine female assistant probation officers, \$2,400.

Yours truly,

WILFRED BOLSTER, Chief Justice.

Referred to the Committee on County Accounts.

NAMING OF DONALD A. CAMERON SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Anawan avenue, Beech street and Metropolitan Parkway, West Roxbury, be named Donald A. Cameron square in honor of said Cameron who gave his life for his country in the World War, and that said space be suitably designated by signs.

Passed, under a suspension of the rule.

LIST OF LAND OWNED BY CITY.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to send to the City Council a list of all the real estate parcels owned by the city, and with assessed valuation of same, and whether vacant land or built upon, that is not at present being used for municipal purposes.

Coun. HAGAN—Mr. President, I move suspension of the rule and the passage of this order

at this time. This order is worded exactly the same as one which was passed by the City Council May 24. I think we have given the Mayor ample time to send that order back here, and nothing has been done. It is one of many orders that have been presented by me and other members of the Council, asking for information. For some reason or other that information is not sent in, although we have repeatedly asked for it, and I am making this request at this time to see if we can get some attention from the Mayor's office.

The rule was suspended, and the order was passed.

CLAIMS.

Coun. HAGAN, for the Committee on Claims, submitted a report on petition of Aug. E. Franke (referred July 12) for payment for loss of rabbits killed by dog or dogs—recommending the passage of the following, viz.:

Ordered, That there be allowed and paid to Aug. E. Franke, superintendent of the Martin Luther Orphans' Home, the sum of six dollars for compensation for the loss of eight rabbits killed by dog or dogs, May 26, 1920, said sum to be paid from the income from dog licenses.

Report accepted; order passed.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of July, 1919.

Report accepted; order passed.

CITY LABORERS' PAY, 1921.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to consider the advisability and, if possible, grant the request of the laboring men in the employ of the city, and therefore include in the budget appropriations for the next fiscal year a sum sufficient to pay all laborers, janitors and elevator men who are in the employ of the city the daily wage of \$5 per day.

Coun. WATSON—Mr. President, I move a suspension of the rule that the order may go upon its passage at this time.

The motion was carried, the rule was suspended, and the order passed.

RECESS TAKEN.

The Council voted, at 2.45 p. m., on motion of Coun. HAGAN, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President, at 4 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on petition of George S. Saunders & Co. (referred today) for permit to sell, rent, or lease firearms at 168 Washington street, Ward 5—that permit be granted.

Report accepted; permit granted on the usual conditions.

2. Report on message of Mayor and orders (referred today) for various transfers from the Reserve Fund—that the orders ought to pass.

Report accepted; orders passed, yeas 8, nays 0.

3. Report on message of Mayor and orders (referred today) for transfers within department appropriations—that the orders ought to pass.

Report accepted; orders passed, yeas 8, nays 0.

4. Report on message of Mayor and order (referred July 12) transferring \$7,054 from the Reserve Fund to appropriation for Assessing Department—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.

5. Report on message of Mayor and order (referred June 28) appropriating \$700 for the Printing Department—that the order ought to pass.

The report was accepted, and the question came on the passage of the order. The order was rejected, yeas 4, nays 4. Coun. Collins, Ford, Hagan and Lane voting in the affirmative, and Coun. Brickley, Donoghue, Moriarty and Watson voting in the negative. Later in the session, Coun. WATSON moved reconsideration of the action of the Council whereby the order was rejected, and the question came on reconsideration. The President declared the motion to reconsider lost, and Coun. WATSON doubted the vote and asked for the yeas and nays.

The motion to reconsider was carried, yeas 5, nays 3. Coun. Collins, Ford, Hagan, Lane and Watson voting in the affirmative, and Coun. Brickley, Donoghue and Moriarty voting in the negative.

The order was recommitted to the Executive Committee, on motion of Coun. WATSON.

6. Report on message of Mayor and order (referred July 12) for transfer of \$9,000 from Reserve Fund to appropriation for Finance Commission—that the order ought not to pass.

The report was accepted, and the order was rejected—yeas 3, nays 5. Coun. Collins, Hagan and Lane voting in the affirmative, and Coun. Brickley, Donoghue, Ford, Moriarty and Watson voting in the negative.

CONFIRMATION OF APPOINTMENTS.

President MORIARTY called up unfinished business, Nos. 1 to 4, inclusive, viz.:

Action on appointments submitted by the Mayor July 12, 1920, viz.:

1. Julian Codman, to be a Constable (connected with the Animal Rescue League and to serve without bonds).

2. Joseph A. Logan, to be a Constable.

3. Dennis J. Driscoll, to be a Constable.

4. Peter Martin and Patrick Kane, to be Weighers of Goods.

The question came on confirmation. Committee—Coun. Lane and Collins. Whole number of ballots cast 8, yeas 8, and the several appointments were confirmed.

OPERATION OF STREET RAILWAY LINES, HYDE PARK.

Coun. FORD called up No. 5, unfinished business, viz.:

5. Ordered, That the sum of thirty thousand dollars be and the same is hereby appropriated to meet the expenditure authorized by section 7 of chapter 613 of the Acts of 1920, the same to be raised by taxation upon the polls and estates taxable in the City of Boston.

The question came on the passage of the order.

Coun. FORD—Mr. President, I want to say before the matter is put upon its passage that that was laid upon the table last week through a mistake of fact, and would have gone on its passage last week had there not been a misunderstanding as to the order we were acting upon.

The order was passed, yeas 8, nays 0.

PARKING STATION, CHARLES STREET.

Coun. HAGAN offered an order—That the Street Commissioners, through his Honor the Mayor, be requested to study and make report to City Council as to the advisability of taking part of the sidewalk on the Common side of Charles street, and permit said space to be used for parking station, as is the Public Garden side.

Passed, under a suspension of the rule.

FIRE PROTECTION FOR EAST BOSTON.

Coun. HAGAN offered an order—That the Fire Commissioner, through his Honor the Mayor, be requested to inform the City Council if two new boats for East Boston ferries will be adequate to provide proper and sufficient facilities for the Fire Department to reach East Boston and provide proper fire protection, or whether a third boat is needed and should be provided.

Coun. HAGAN—Mr. President, I move suspension of the rule and passage of the order. I am making this request simply for information.

Coun. DONOGHUE—Mr. President, on that particular matter I desire to vote "no," and ask for a roll call.

Coun. FORD—Mr. President, I am going to vote "yes" upon that order, but that doesn't mean that I have as yet reconsidered my judgment as to the appropriation of the \$400,000 for a new ferry. I do not think that the answer of the Fire Commissioner will be decisive in any way, and in voting "yes" on the order—the councilor desiring information on the subject—does not mean by any means that I will vote "yes" if there is an attempt to transfer the \$400,000.

The PRESIDENT—The first question is on the suspension of the rules, and not on the passage of the order.

Coun. HAGAN—I will say, in answer to Coun. Ford, if I may be permitted, that that is exactly my own position in the matter.

The question came on the suspension of the rule. The Clerk called the roll, and the rule was suspended, yeas 6, nays 2. Coun. Brickley, Collins, Ford, Hagan, Lane and Watson voting in the affirmative, and Coun. Donoghue and Moriarty voting in the negative.

The question came on the passage of the order.

Coun. DONOGHUE—Mr. President, I want to say that the very reasons which the councilors have given as to why they are in favor of the order are the reasons why I am going to vote against it. I do not believe that any such order should be put up to the Fire Commissioner in the first place, and, in the second place, I think that I am going to use my judgment as to whether or not I think two ferryboats are sufficient, or whether the people of East Boston need three boats. I do not think that the opinion of the Fire Commissioner, or what he has to say on the subject, will alter my views one way or the other, any more so than it will alter the views of the other two councilors who spoke on this matter previously today. Therefore, I think it is needless to vote for the passage of such an order asking for information when each and every councilor here knows what

his position is as to whether the people of East Boston need one, two or three ferryboats. I want to say at this time that only last Sunday I read in the Sunday paper of a large conflagration over in East Boston which the East Boston companies were called upon to put out. They sent for help from what they call over town, and the overtime fire department arrived after the East Boston fire companies had the fire under control. Therefore, I do not think that this order asking for information is of any benefit whatsoever, and I shall vote against it.

The order was passed, yeas 5, nays 3, Coun. Brickley, Collins, Ford, Hagan and Lane voting in the affirmative, and Coun. Donoghue, Moriarty and Watson voting in the negative.

GENERAL RECONSIDERATION.

Coun. HAGAN moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.12 p. m., on motion of Coun. HAGAN, to meet on Monday, July 26, at two o'clock p. m.

PUBLIC IMPROVEMENTS FINANCED IN BOSTON FROM GENERAL INCOME INSTEAD OF LOANS.

In the seven fiscal years, 1912-18, inclusive, the total expenditures from general income for various improvements (such as were formerly financed from loans) amounted to \$9,737,062 or \$3,651,787 for new schoolhouses, etc., \$2,674,850 for streets, sidewalks and bridges; \$1,436,812 for public buildings; \$1,225,988 for parks, playgrounds, etc., and \$747,625 for other objects.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure of
such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COM-
MISSIONERS, Room 401, City Hall Annex, for
information relative to the laying out, relo-
cation, widening and the discontinuance of
highways; the taking of real property for
municipal purposes; the assessments of
betterments for streets and sewers; the
plotting of undeveloped areas for streets
and the opening of private ways; the
granting of licenses for the storage or
sale of merchandise in public streets; the
regulation of street traffic; the making
of specific repairs in public streets; the
naming of public streets; the planting
and removal of trees in public ways; the
issuing of licenses for the storage of gas-
olene, oil and other inflammable sub-
stances or explosive compounds; the use
of the public ways for any permanent or
temporary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marqueses,
bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

To Room 604, City Hall Annex, for in-
formation relative to the supplying or
metering of water and the water charges
of the city.

TION COMMISSIONERS, 33 Beacon street,
for information as to the care of the Com-
mon, Public Garden, Franklin Park,
Franklin Field, Commonwealth avenue,
Back Bay Fens, Marine Park and the
small parks and playgrounds in general
throughout the city; and as to the exter-
mination of gypsy moths and the charges
made for such service. Application may
be made to this department for informa-
tion regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
Room 1007, City Hall Annex, for informa-
tion as to the construction and repair of
school buildings.

On July 28 to the Wetmore-Savage Company as per following communication and bids:

BOSTON, July 20, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposal for furnishing electrical supplies to the Fire Alarm Branch of the Fire Department, which were publicly opened and read at this office under date of July 16, 1920.

Shortly after these bids were opened the Western Electric Company wrote this office that their bid of \$7,486.65 was an

error, and stated the bid should have been \$4,000 less, but as the amount of \$7,486.65 was the sum submitted in their proposal we are unable to accept their revised bid.

I, therefore, respectfully ask permission to award this contract to the Wetmore-Savage Company, the lowest bidder.

Respectfully yours,
G. J. CRONIN,
Superintendent of Supplies.

Bids opened July 16:

Stuart-Howland Company, \$3,528.38;
Pettingell-Andrews Company, \$3,574.05;
Wetmore-Savage Company, \$3,492.65;
Lewis Electrical Supply Company,
\$3,846.86; Western Electric Company,
\$7,486.65; F. S. Hardy Company,
\$3,739.89.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

Washer for Laundry.

On July 16 to the Troy Laundry Machinery Company as per following communication:

BOSTON, July 8, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract to the Troy Laundry Machinery Company, without publicly advertising for same, for furnishing one Henrici washer to the Boston City Hospital at a price of twenty-eight hundred and ten dollars (\$2,810).

This machine is to supplement two other machines of the same type now in use at the South Department of the Boston City Hospital which have proved perfectly satisfactory.

I am attaching correspondence received from Dr. John J. Dowling, Superintendent of the Boston City Hospital, in further explanation of this award.

Respectfully yours,

C. E. THORNTON,
Acting Superintendent of Supplies.

Coal.

On July 24 to the East Boston Coal Company as per following communication and bids:

BOSTON, July 22, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising the same, to the East Boston Coal Company for furnishing approximately 800 tons of semi-bituminous coal to the Children's Institutions Department at Rainsford Island and 500 tons of semi-bituminous coal to the Penal Institutions Department at Deer Island at a price of \$17 per ton f. o. b. East Boston.

Attached please find list of prices received upon this requirement of coal from all dealers in a position to quote, and in explanation of the price submitted by the New England Coal & Coke Company of \$16.35 per ton would state that this coal is high volatile Pennsylvania gas coal which it would be impossible for us to store due to its high volatility.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Prices on Lighter for Rainsford Island and Long Island.—Stetson Coal Company, no coal; New England Coal & Coke Company, \$16.35, high volatile Pennsylvania; Maritime Coaling Company, \$18, f. o. b. East Boston; Logan Coal Company, no coal; C. H. Sprague & Son, no coal; Castner, Curran & Bullett, no coal; Coastwise Coal Company, no coal; Northern Coal Company, no coal; Bunnell Coal Company, \$14, f. o. b. mines Pennsylvania; East Boston Coal Company, \$17, f. o. b. East Boston.

Coal.

On July 28 to Burton Furber Coal Company as per following communication:

BOSTON, July 22, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising the same, to the Burton Furber Coal Company, for 600 tons of semi-bituminous coal to be delivered to the Boston City Hospital at a price of \$12.50 per gross ton, plus demurrage charges, which will probably be considerably under \$1 per ton.

In view of the fact that the canal leading to the City Hospital is being dredged, it is imperative that we secure enough coal to tide the hospital over until such time as the dredging of this canal is completed. In view of this fact, I respectfully request that the permission asked for be granted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Sugar.

On July 28 to the American Sugar Refining Company as per following communication:

BOSTON, July 12, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Your permission is respectfully requested to award a contract, without publicly advertising same, to the American Sugar Refining Company for furnishing approximately 8,851 pounds of granulated sugar to the Boston City Hospital at a price of \$22.50 per hundred-weight.

As the American Sugar Refining Company has been the only company capable of taking care of the city requirements for sugar and also as the price is standard with the trade, I respectfully request that the permission asked for be granted.

Respectfully yours,

C. E. THORNTON,
Acting Superintendent of Supplies.

On July 28 to the R. H. White Company as per following communications and bids:

BOSTON, July 20, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully request that I be authorized to enter into a contract, without publicly advertising, with the R. H. White Company, Boston, for 10,000 towels, 16 inches by 30 inches, to be made of all linen crash as per sample to be seen in this office. The unit price is 22½ cents each for a towel 16 inches by 30 inches.

This office has opened bids twice on these towels. Bids received at the public openings were not satisfactory.

The price quoted by the R. H. White

Company is in my opinion very low for this class of material. I have another bid for the same grade of material at 25 cents each.

The Park and Recreation Department which will use the towels is satisfied with the material and the price. In addition, I have conferred with a textile expert who advises me I am making a very advantageous purchase.

Very truly yours,

G. J. CRONIN,
Superintendent of Supplies.

Approved.

JAMES B. SHEA, Chairman,
Park and Recreation Department.

Bids on 10,000 towels for the Park and Recreation Department, opened July 2, 1920:

R. H. White Company, 34 cents each, uncut and unstencilled as sample submitted, double; Thomas Butler & Co., * \$2.55 per dozen; 55 cents per yard, 40 inches; 18 cents each; 30½ cents per yard.

Bids on 10,000 towels for the Park and Recreation Department, opened July 15, 1920:

Blodgett, Ordway & Webber, towelling, 29½ cents per yard. Towels: ¾ yard, 25 cents each; ¾ yard, 30 cents each; 36 inches, 32 cents each.

* Bid irregular, being submitted on letter form.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$10, on contract with J. A. Singarella for artificial stone sidewalks in Ashmont street, Neponset avenue and Olney street, Dorchester, on account of removing existing edgestone and putting in new driveway at 7 and 9 Olney street. Original contract, \$5,014.24; total addition, \$10; contract as standing, \$5,024.24.

An addition, amounting to \$100, on contract with Coleman Brothers, Inc., for sewerage works in Berkeley street, between St. James avenue and Providence street, city proper, on account of cutting out and draining old unknown wooden sewer crossing line of trench at junction of Berkeley street and St. James avenue. Original contract, \$11,585; total addition, \$100; contract as standing, \$11,685.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$50, on contract with James Barletta for laying and relaying water pipes in Wood avenue, Hyde Park, Athol street, Raymond street, Riverdale street and Waverly street, Brighton, on account of furnishing extra labor for removal of post hydrant boxes and salvaging hydrant posts; removing old stone culvert; repairing same and uncovering gates. Original contract, \$5,047.50; total additions, \$60; contract as standing, \$5,107.50.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To build 33 catch-basins and connections in Washington street, between

Archdale road and Ashland street, West Roxbury, the estimated cost for labor and materials being \$6,500.

To build one chamber and equipment for an 18-inch regulator in Tremont street at East Dedham street, city proper, the estimated cost for labor and materials being \$3,000.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states that it is his intention:

To construct a surface drain of 2-foot 6-inch concrete and 18-inch earthen pipe and two catch-basins, in private land and Paine street, between Paine street and Canterbury branch of Stony brook, in the West Roxbury district, at an estimated cost of \$7,883.

To construct one chamber and equipment for an 18-inch regulator in Tremont street, at East Dedham street, in the city proper district, at an estimated cost of \$3,000.

To construct thirty-three catch-basins and connections in Washington street, between Archdale road and Ashland street, in the West Roxbury district, at an estimated cost of \$6,500.

To construct a surface drain of 4-foot circular concrete and a sanitary sewer of 15-inch earthen pipe in private land (Saville street extended), between Park and Wren streets; surface drains of 3-foot 9-inch circular concrete and 22-inch by 15-inch by 10-inch earthen pipe in Wren street, between Saville street extended and Oriole street; a sanitary sewer of 15-inch and 8-inch earthen pipe in Wren street, between Saville street extended and a point 50 feet northwest of Howitt road; surface drains of 2-foot 6-inch and 2-foot 9-inch circular concrete and 24-inch and 18-inch earthen pipe and a sanitary sewer of 12-inch and 8-inch earthen pipe in Board of Survey street No. 664, between Wren street and Emmons road, in the West Roxbury district, at an estimated cost of \$46,814.

To construct a surface drain of 15-inch and 12-inch earthen pipe and six catch-basins in River street, between Hyde Park avenue and Central avenue, in the Hyde Park district, at an estimated cost of \$6,767.

CONDITIONS IN EAST BOSTON.

A communication was received from Representative George F. Murphy, First Suffolk District, relative to conditions in East Boston.
Placed on file.

CLERK HIRE.

Notice was received from W. T. A. Fitzgerald, Register of Deeds, in accordance with the provisions of section 33, chapter 22, of the Revised Laws, certifying that certain persons had been employed in his office from June 21 to July 26, 1920, and that work had been performed to the amount of \$7,489.22.
Approved and ordered paid.

NAMING OF ERNEST R. McNAMARA SQUARE.

Coun. COLLINS offered an order—That the open space at the junction of Harvard, Washington and Bowdoin streets, Dorchester, be named and known as Ernest R. McNamara square, in memory of said McNamara of Company L, 23d Infantry, who was killed in action October 4, 1918, at Blancmont, Argonne, and that said space be suitably designated by signs.

Passed under suspension of the rule.

SIDEWALK ORDERS.

Coun. WATSON offered an order—That the Commissioner of Public Works make a sidewalk along Dudley street, southerly side, from Hyde Park avenue to Wenham street, Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk along Walk Hill street, east side, from Hyde Park avenue to Wenham street, Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.
Passed.

REGISTRATION OF WOMEN VOTERS.

Coun. FORD offered an order—That the Election Commissioners, through his Honor the Mayor, be requested to post placards upon every voting place in the City of Boston giving notice of the time and place for the registration of women desiring to become registered voters of the City of Boston.

Coun. FORD—Mr. President, the reason for that order is this: We are coming into a new era in political affairs and some districts of the city will have an advantage over others unless there is widespread publicity given by those who can afford to give it, namely, the cities and towns. For instance, in parts of the City of Boston there are those who are sending out literature, circulars and other material urging the women to become voters and get upon the voting list for the purpose of voting. Without any notification of a meeting, three or four weeks women will be qualified to vote. Now I think, as far as my district is concerned and other districts are concerned, outside of the newspaper notice and the notice required by law which the Election Commissioners give, that

placards or some sort of advertising in that direction should be furnished and put upon the voting precincts giving notice to the women and letting them know of their rights and their opportunity to become registered voters of the City of Boston. This will have more effect and greater effect in those districts where there are not public bodies willing to spend five, ten and probably hundreds of thousands of dollars in order to get the women upon the voting list. Because those districts that first get the women upon the voting lists in large numbers will, without any question of doubt, be certainly, if not in control, a predominating influence in the elections; and in order to make it widespread and in order to give notice to the women in all parts of the City of Boston, I move suspension of the rule in order to put this matter in line for immediate passage.

The rule was suspended and the order was passed.

LIST OF ELEVATED PROPERTY.

Coun. FORD offered an order—That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to furnish the City Council a full list of all real properties acquired either by purchase or lease since January 1, 1919, and the purposes therefor; also a full list of expenditures relating to said real estate from January 1, 1919, to date.

Referred to the Executive Committee.

NAMING OF ANDREW J. HAYES SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Tremont and Parker streets be named Andrew J. Hayes square in honor of said Hayes who gave his life for freedom in the World War, and that said space be suitably designated by signs.

Passed, under a suspension of the rule.

NAMING OF THOMAS J. CONNOLLY SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Columbus avenue and Tremont street be named Thomas J. Connolly square in honor of said Connolly who was killed in the World War, and that said space be suitably marked by signs.

Passed, under a suspension of the rule.

NAMING OF JAMES J. MURPHY SQUARE.

Coun. WATSON offered an order—That the space at the junction of Guild row, Roxbury street and Shawmut avenue be named in honor of James J. Murphy, 101st Regiment of Field Artillery, who was killed in action in France August 1, 1918, during the World War, and that said space be known as James J. Murphy square and be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF DANIEL L. MCGAFFIGAN SQUARE.

President MORIARTY offered an order—That the junction of Dorchester avenue and Columbia road be named and known as Daniel L. McGaffigan square in honor of said McGaffigan, Ninth Regiment of Infantry, who gave his life for the cause of liberty during the World War, and that said space be suitably marked by signs.

Passed, under a suspension of the rule.

RECESS TAKEN.

The Council voted at 2.30 p. m., on motion of Coun. FORD, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 6.10 p. m.

CONFIRMATION OF APPOINTMENTS.

President MORIARTY called up unfinished business, Nos. 1, 2 and 3, viz.:

Action on appointments submitted by the Mayor July 19, 1920, viz.:

1. Thomas Spinelli, to be a Constable.
2. Cecilia Mitchell, to be a Weigher of Coal, a Weigher of Goods and a Measurer of Wood and Bark.

3. Sigard L. Thideman and James M. Wilson to be Weighers of Coal.

The question came on confirmation. Committee—Coun. Watson and Donoghue. Whole number of ballots cast 7, yeas 7, and the appointments were confirmed.

LOAN FOR FIRE PROTECTION, LONG ISLAND.

President MORIARTY called up unfinished business, No. 4, viz.:

4. Ordered, That the sum of \$105,000 be appropriated for the Boston Infirmary Department, Long Island, Fire Protection, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On July 12, 1920, the foregoing order was read once and passed, yeas 6, nays 0.

The order was given its final reading, and passed, yeas 9.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Report on petition of Louis Lefkovich (referred today) for permit to sell, rent or lease fire-arms at 138 Merrimac street, Ward 5—that permit be granted.

Report accepted; permit granted on the usual conditions.

2. Report on order (referred today) that the Boston Elevated Railway Company furnish the City Council a full list of properties acquired since January 1, 1919, etc.—that the order ought to pass.

Report accepted; order passed.

3. Report on message of Mayor, communication and order (recommitted July 19) for appropriation of \$700 for machinery for Printing Department—that the order ought to pass.

The report was accepted and the order was passed, yeas 7, nays 2, Coun. Donoghue and Moriarty voting nay.

4. Report on message of Mayor, communications and order (referred July 12) for conveyance of easement to Boston Elevated Railway Company—recommending passage of order in the following new draft, viz.:

Ordered, That his Honor the Mayor be and hereby is authorized in the name and behalf of the city to execute, in consideration of the payment of the sum of five thousand dollars, a deed in form approved by the Law Department, conveying to the Boston Elevated Railway Company an easement to locate, construct, maintain and operate an elevated railway (but not including the location of the supporting columns therefor), together with the right to construct, maintain and operate surface car tracks, sewer and drain connections and retaining wall in, upon and across a parcel of land at the junction of Hyde Park avenue and Walk Hill street, reserving to the grantor the right at all times to enter on the premises for the purpose of making necessary repairs or constructing additional work in connection with its use thereof for sewerage and drainage purposes, in accordance with the certification by the Commissioner of Public Works to the City Council that such part of said land, easement and right taken for the City of Boston under an order of the Street Commissioners, dated June 24, 1910, for the improvement of Stony brook and its tributaries as is embraced within said easement, is no longer required for public purposes.

The report was accepted and the question came on the passage of the order, Coun. Collins, Ford, Hagan, Lane, and Watson voting yes, and Coun. Brickley, Donoghue, McLaughlin and Moriarty voting nay, and the President declared the order rejected, five having voted in the affirmative and four in the negative.

FINANCE.

Coun. McLAUGHLIN, for the Committee on Finance, submitted the following, viz.:

1. Report on order (referred June 28) that the Mayor petition the next General Court for authority to spend sufficient money outside the debt limit for the building of a passenger and teaming bridge to East Boston—that the order ought to pass.

Report accepted; order passed.

2. Report on message of Mayor and order (referred June 7) for loan of \$225,000 for Police Station 8 and Engine 31—that the order ought to pass.

The report was accepted and the order was given its first reading and passed, yeas 9.

The order will take its final reading not less than fourteen days from date.

3. Report on order (referred June 28) for loan of \$750,000 for additional facilities at the City Hospital—recommending passage of an order in the following new draft, viz.:

Ordered, That the sum of \$200,000 be appropriated to be expended by the trustees of the City Hospital for additional facilities, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. HAGAN—Mr. President, I am a little bit uneasy about the passage of this order at this particular time. Of course, I am not disposed to vote against an appropriation for the City Hospital, knowing the good, meritorious work which that institution is doing; but, because of the fact that the city's borrowing capacity is down to such a low ebb, it seems to me that it would be wise on the part of the Council to have

the trustees come in and outline to us some plan of what they propose to do with two hundred thousand, four hundred thousand or six hundred thousand dollars, if we had it and could give it to them, in advance of actually appropriating money blindly for some purposes for which no doubt they can use it. It seemed to me that it would be better to have a consultation with the trustees. I do not want to vote against it, and I do not think there is any member of this Council who wants to vote against it; but I believe that it would be wise to do as I suggest—there is no great, immediate rush—and I am going to ask or make the motion, if necessary, that the order be held in committee until the next meeting of the Council, when we can have a consultation with the Board of Trustees of the City Hospital on this pending matter.

Coun. COLLINS—Mr. President, as I understand it, we have nothing on the files of this committee relative to a report from the City Hospital Trustees. I suppose all of us feel that we ought to be very generous in dealing with the City Hospital, but it does not seem to me to be the proper thing at this time to pass the order without first having a report and request from them as to their actual needs at this time, and secondly, because our borrowing capacity is down to about \$300,000 or \$400,000. If the Council does not see fit to agree with the motion as suggested by the last member, I shall vote for the order today, with the reservation to vote "no" on the second reading pending an examination and report by the City Hospital Trustees, and I intend to ask them myself as to the emergency for this proposition.

Coun. FORD—Mr. President, inasmuch as some of us feel that we ought to get a report from the trustees and that a vote would be unanimous as to what amount they represent they want—whether it is \$50,000 or \$250,000, provided we have that borrowing capacity—I am going to move to lay the matter on the table until we can get the report from the trustees. If that motion does not prevail, with Coun. Collins I shall vote "yes" on the order, with the reservation that I may change my vote on the second reading if the report comes in by then.

Coun. DONOGHUE—Mr. President, I think that this is the first time in my connection with this Council that I have heard any objection to any appropriation for such a worthy purpose as the Boston City Hospital. Surely I and, I think, no member of this Council questions the way in which the trustees of the City Hospital have expended public funds in the past, and I do not think that there is any great fear that they may change their policy in the future. Only today, in executive meeting, we passed an appropriation for \$225,000 for a new police station for Station 8 without any quibbling or questions whatever regarding it. Now I think that this matter pertaining to the Boston City Hospital has been held in abeyance long enough. Those of us who were here at the budget hearings heard the testimony offered by the trustees as to improvements that were needed in the City Hospital. We were also favored at that time by a special talk by one of the leading medical men of the country, who pointed out the dire need of these particular things; and I think that from last March up to the present time has been long enough for the powers that be to see that something is started to alleviate the conditions that are now existing in the Boston City Hospital. I do not want to make any claims that conditions up there are disgraceful or any such utterance as that, but I know myself that when patients are being treated in basement wards, as they are in the hospital today, those conditions ought not to be allowed to continue any longer than we can possibly let them remain so. They are beyond the control of the trustees, for the reason that they have not had the money to put in the improvements that are needed there and have been needed for a long time; and I think that we are instituting a penny policy when we try to stint a hospital like the Boston City Hospital—an institution second to no hospital in the country. I think, also, that it is about time that something was done for the ordinary person who cannot afford to go to a private hospital to be treated when sick. At such time he should be provided with all the up-to-date sanitary conveniences that are needed for his care and convalescence. I will say further that the private ward pavilion which has been contemplated up there, on the testimony of the doctors themselves, will pay for itself in a very short time. These improvements are needed improvements. You have not got my word for it; my word does not amount to anything in comparison with the word of the trustees of that hospital—men who have been handling the affairs of the hospital for years. You have also the testimony of their medical expert who came in here—and all of you were supposed to listen to his remarks—and he stated that the conditions up there, as far as dormitory facilities for the young men who have dedicated their lives to the practice of medicine, are absolutely all out of proportion to what their home surroundings were and what their hospital surroundings should be for that type of young men; and when you consider that of the young men who have been up there as medical students three of them have lost their lives, possibly because of a lack of proper sanitary conditions in that hospital, it seems to

me that we have gone long enough without seeing that those conditions are remedied; and I will vote against referring the order to any committee.

Coun. WATSON—Mr. President, I think that the gentleman who has just taken his seat is entitled to and deserves all the praise that is possible to be given to anybody in attempting to bring about an improvement of conditions at the City Hospital. But I cannot conscientiously see where \$200,000 will do anything satisfactory in the matter of improvements. Secondly, I do not feel that I want to vote to pass an appropriation for \$200,000 without first having the opinion of the trustees. The Board of Trustees of the Boston City Hospital are public spirited gentlemen, and not one member of this Board would criticize any one of them, either publicly or privately, in the matter of the performance of their duties as trustees. If we vote today to pass this \$200,000, what is it to be used for? What are they going to do with \$200,000? I for one believe that they can do but very little in the matter of making any decided improvement,—in fact, I do not believe that they will do anything. I think the demand for improvements and money to pay for improvements ought to initiate with the trustees. If I had some specific plan in mind which had been presented by somebody in control that \$200,000 would do something to improve the conditions there, what improvements were going to be made, I would gladly vote for it; but we have not got one single bit of information, and I do not propose to take any half-way position on this matter. I will not vote for the \$200,000 until I first hear from the trustees what they will use it for, what would be a sufficient sum and all that goes with it. I do not propose to vote today and have any vote of mine passing any order that is a direct criticism of the trustees. If there are improvements needed there and they know it and are not asking for money sufficient to bring about these improvements, then they have failed to be trustees. But I am not in position today—I cannot bring myself to the position where I can feel that any member or all the members of the Board of Trustees of the City Hospital are derelict in their duty. Therefore, I shall vote to table the order, and will not vote in favor of any appropriation of \$200,000 or any amount until I know what it is going to be used for and whether it is a sum sufficient to bring about improvements which will mean something to the hospital.

Coun. LANE—I yield to no one in the desire, Mr. President, to vote for an appropriation for the City Hospital. I will be very glad to vote for a million dollar loan bill for the City Hospital, providing the finances of the city will stand it and we knew what that million dollars was needed for. There are many, many things, undoubtedly, needed by the City Hospital. There are always needs in public institutions of that kind. But this order came in for \$750,000 for the City Hospital without any regard to what it was to be spent for. It was simply stated how many things were needed. Today we found that the borrowing capacity of the city was so low that there was talk of keeping it at \$400,000; but now it is proposed to draw \$200,000 out and nobody knows what it is for. Certainly I think we should see the trustees, have a talk with them and find out what are the most necessary things needed in the hospital and get some estimate of what it would take to furnish those things. It might be \$150,000, it might be \$250,000; but I cannot vote for an appropriation for \$200,000 and not know specifically what it is appropriated for. I sincerely hope that this will be put upon the table, that we may consult with the trustees and find out what is most needed and take their advice.

Coun. HAGAN—I was going to say, Mr. President, that I hoped there would be no division on the question as far as these improvements were concerned. To hold this matter up for two weeks or until the next meeting of the Council in the committee where it originated will, to my mind, cause no damage. If the City Hospital has gotten along up to the present date and hour, it will get along for a week or two more without any great degree of danger to it and it will give us an opportunity to get in touch with the trustees and give them an opportunity to prepare a case and come in here and tell us what they want. I want to vote for \$200,000 or \$400,000, if we have it, or as much money as they require to put the institution in proper form in the opinion of the trustees and as you and I would like to see it; but I do not want to vote \$200,000 in the dark without knowing what it is to be used for. We do not know what the trustees will do with this \$200,000. We do know if they spend it, it will be spent wisely; but it is well that we ourselves should evade any unnecessary criticism by not appropriating money blindly without knowing for what purpose it is going to be used. I thought, therefore, that the easiest way was to ask that it matter be postponed, rather than have a division on the question come up; and I think it would be better for all of us to have that so we can sit down and have nine votes unanimously in the affirmative when the order comes through, and there will be if it is handled properly.

Coun. DONOGHUE—Mr. President, I want to say that I introduced this order asking for \$750,000 for needed improvements in the Boston City Hospital and some of the councilors who are objecting to this proposition now evidently were not in attendance before the budget committee. They say that we do not know what the trustees are going to use

this money for. Well, possibly that may be so; but whether we know what they are going to use it specifically for or not to my mind does not make any great difference. The statement of Doctor Rohan was:

"There was a fund of \$750,000, namely, the Thorndike Fund, left from the original trustees, and we hired an architect and attempted to have that building put up this year within that sum; but it was found that for what we needed the means were inadequate. In consequence, we are going to come and ask you folks for an additional \$100,000 or \$150,000 to equip the Thorndike Building. We have to do special investigating along certain lines,—for instance, scientific kidney work. That can be done only by intensive study," etc.

I want to call to the attention of the members of this Council that had they been in attendance at those budget hearings they would have received the same information which I received. My only thought in introducing the order was that somebody was delaying too long. Now, as to who shall initiate legislation along these lines, I do not think that it makes any material difference whether it is introduced by the trustees or by the Mayor or by the City Council. That is our right if we care to exercise it; and when those statements are made by that eminent medical man, they are sufficient, to my mind, to warrant voting not alone for the \$200,000 which we are attempting to appropriate today but for the entire amount of \$750,000. One of the councilors here says that he does not want to vote for \$200,000 at this time, but I want to say that in the committee meeting it was his suggestion that rather than appropriate the entire amount of, say \$400,000 or \$500,000 now, we appropriate \$200,000 this year, \$200,000 the next year, and, if necessary, \$200,000 the year to come; and it was by reason of that sort of compromise that I agreed to vote for an appropriation of \$200,000. Then when we came out here in the Council Chamber I find that considerable opposition has sprung up to this proposition. If we looked at it from the standpoint only of \$500,000 left in the amount to be appropriated this year, I think that we could not spend \$200,000 of that \$500,000 to any better advantage than to start right in and give the trustees of the City Hospital at least that amount to go ahead and procure those things which they have been trying to get for years; and if we do not do it now, there is no guaranty or none of us has any reason to believe that for many years to come there is going to be any material reduction in the price of building material or anything else, and it is only going to cost more money in the end than if we appropriate the money now and start right in. I hope that reference to the committee will be defeated and that the order will go upon its passage.

Coun. WATSON—I was present, Mr. President, during the entire evening when the City Hospital Trustees were here and heard Doctor Rohan make his entire statement, and I remember the talk about the Thorndike Building. They have not called for any bids in the matter; the contract has not been let out as yet; and therefore the matter of equipping the building is a long way off. Two hundred thousand dollars certainly won't be used for the purpose of equipping a building when bids have not been called for or the foundations laid. I cannot quite see the wisdom of using that argument for \$200,000.

Coun. DONOGHUE—I just want to say, Mr. President, that I merely referred to the Thorndike Building as a good example of what he was referring to. He also referred to a therapeutic department and also to a private ward pavilion, and I think that those men up there know what they want and I think we ought to give them the money to go ahead and make a start on it.

Coun. WATSON—Mr. President, I think the gentleman's statement concerning the other needs of the hospital are the very words of Doctor Rohan. How do we know that \$200,000 will be a drop in the bucket for either one of those propositions? That is just a particular proposition.

The order was assigned to the next meeting, yeas, Coun. Collins, Ford, Hagan, Lane, Watson, 5; nays, Coun. Brickley, Donoghue, McLaughlin, Moriarty, 4.

APPROVAL OF ACT RELATIVE TO STUART AND ELIOT STREETS.

Coun. McLAUGHLIN offered an order—That the Corporation Counsel be requested to furnish the City Council with his opinion as to whether or not in the event of the acceptance of chapter 329 of the Special Acts of 1917 relative to Stuart and Eliot streets, the agreements or guaranties furnished under its provision require the approval of the City Council.

Passed, under a suspension of the rule.

OFFICE HOURS, CITY HALL.

Coun. BRICKLEY, for the Committee on Ordinances, submitted a report on ordinance (referred July 12) relative to office hours for city departments—that the ordinance ought to pass. Report accepted; ordinance passed.

AMOUNT NEEDED FOR CITY HOSPITAL IMPROVEMENTS.

Coun. DONOGHUE offered an order—That the City Hospital Trustees be requested, through his Honor the Mayor, to submit to the City Council an estimate as to the amount of money needed by them to increase the facilities of the hospital and to make necessary improvements in same, and as to whether or not the sum of \$200,000 is necessary or desirable for their immediate needs.

Coun. COLLINS—Mr. President, I move suspension of the rules, that the order may go upon its passage.

Coun. FORD—Mr. President, I want to say that when that report comes in I shall most gladly vote for it, whatever the amount, provided we have the borrowing power left.

Coun. McLAUGHLIN—I had no intention, Mr. President, of opposing that order, but I do think, after the action which has taken place here today, that when a committee of which I am chairman holds a hearing on a matter and there is very little opinion expressed in committee and we bring out a report, that report should be sustained. I am not in the habit, Mr. President, of handling a matter and seeing it go to defeat, either here or any place else; and on this particular order which the gentleman has just introduced it seems to me that a play might be made upon it to indefinitely delay the work of Councilor Donoghue. There is no date upon it, and if they do not file a report within a reasonable length of time then the whole project is defeated. I move to amend the order so that the trustees shall report before the next meeting of the City Council, and I move suspension of the rules.

The amendment was adopted.

The rule was suspended and the order as amended was passed.

REMOVAL OF ELEVATED STAIRWAYS.

Coun. DONOGHUE offered an order—That the trustees of the Elevated Railway be requested to consider the advisability of removing some of the Elevated stairways at the corner of Dover and Washington streets.

Passed.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

NEXT MEETING.

The Council voted, on motion of Coun. LANE, that when it adjourned it be to meet on Monday, August 9, at two o'clock p. m.

Adjourned at 6.51 p. m.

The Boston Protective Department (not a city department) reported the total fire losses in 1918 on buildings as \$1,295,271 and on contents as \$1,526,838, or total of \$2,822,109, which is \$1,159,119 less than in 1917. Of total loss, the amount not covered by insurance was \$178,136.

Annual salaries: District chiefs, \$3,000; captains, \$2,000; lieutenants, \$1,800. From May 30, 1919, salaries of firemen below the position of lieutenant were increased \$200 per year, engineers to receive \$1,700; assistant engineers, \$1,600; first year privates, \$1,100, with \$100 yearly increase until maximum of \$1,600 is reached.

By chapter 4, City Ordinances of 1917, the firemen have one day off in three, dating from February 1, 1918, instead of one in five, as before, which called for an addition of about 180 men to the force.

By Ordinances of 1919, chapter 2, the Wire Department became the Wire Division of the Fire Department.

New motor apparatus ordered for 1919, four gasoline pumping engines, three combination chemical engine and hose cars and two aerial trucks, cost to be about \$95,000.

INCOME TAX DISTRIBUTION IN BOSTON AND VICINITY, 1917 (BY RANK).

(1) Boston, \$3,704,855; (2) Brookline, \$615,847; (3) Newton, \$405,111; (4) Cambridge, \$295,616; (5) Milton, \$230,306; (6) Lynn, \$191,133; (7) Malden, \$124,081; (8) Wellesley, \$101,336. Total distribution in metropolitan district outside Boston, \$3,198,281 or \$506,574 less than in Boston alone. Total for entire district, \$6,903,136 or 61.46 per cent of total for state, and \$1,423,401 in excess of the total shrinkage in taxes on personalty from 1916 to 1917 in the district due to the new law exempting intangible property.

BOSTON SCHOOL YEAR.

The school year begins on September 1 in each year and closes on August 31 next ensuing.

The sessions of the regular day schools begin the first week in September in each year and continue 40 weeks,—except as follows: Saturdays, Sundays, legal holidays; from 12 noon on day before Thanksgiving Day until the following Monday; the week in which Christmas falls, including New Year's Day; the week which includes April 19 (Patriots' Day), also June 17 (Bunker Hill Day). Whenever a holiday falls upon Sunday, the schools are closed on the following Monday.

The evening schools open on the last Monday in September and continue to the April vacation. The sessions of the high and industrial are on Monday, Tuesday and Thursday from 7.30 to 9.30; of the elementary on Monday, Tuesday, Wednesday and Thursday. The school centers are open from the third Friday in October to the last day of June, some on three evenings and one afternoon each week, others on two evenings only.

The summer review schools are in session for 40 consecutive days from the Monday following the close of the day schools in June, Sundays and holidays excepted.

The summer term of the day industrial schools extends from July 7 to August 29 in 1919.

The sessions of the regular day schools closed for the current year on Friday, June 27, 1919. They will be resumed on Monday, September 8, 1919, unless otherwise ordered by the School Committee.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure of
such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COM-
MISSIONERS, Room 401, City Hall Annex, for
information relative to the laying out, relo-
cation, widening and the discontinuance of
highways; the taking of real property for
municipal purposes; the assessments of
betterments for streets and sewers; the
plotting of undeveloped areas for streets
and the opening of private ways; the
granting of licenses for the storage or
sale of merchandise in public streets; the
regulation of street traffic; the making
of specific repairs in public streets; the
naming of public streets; the planting
and removal of trees in public ways; the
issuing of licenses for the storage of gas-
olene, oil and other inflammable sub-
stances or explosive compounds; the use
of the public ways for any permanent or
temporary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquis-
es, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

TION COMMISSIONERS, 33 Beacon street,
for information as to the care of the Com-
mon, Public Garden, Franklin Park,
Franklin Field, Commonwealth avenue,
Back Bay Fens, Marine Park and the
small parks and playgrounds in general
throughout the city; and as to the exter-
mination of gypsy moths and the charges
made for such service. Application may
be made to this department for informa-
tion regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
Room 1007, City Hall Annex, for informa-
tion as to the construction and repair of

On August 3 to John Landis for granite block pavement in Public Alley No. 710, from East Brookline street to East Newton street, and Public Alley No. 818, from St. Stephen street about 690 feet westerly, city proper. Bids opened July 20:

John Landis, \$11,084.30; J. S. Singarella, \$11,339.80.

On August 3 to James J. Conway as per following communication:

BOSTON, July 26, 1920.

To the Mayor of Boston:

I respectfully request permission to award a contract to James J. Conway for building sewerage works in Chestnut Hill avenue, between Cleveland circle and Commonwealth avenue, and in Glenville avenue, between Allston street and Greylock road, Brighton.

This is the third time that this work

has been advertised, bids having been rejected twice heretofore on account of unbalanced bidding. The lowest bidder at this time has submitted an unbalanced bid, and I therefore request that the second lowest bidder be awarded the contract. Conway's proposals are properly balanced.

The following bids were received, after public advertisement, on July 16, 1920:

James Barletta, \$12,139.40; James J. Conway, \$12,484; John T. Shea, Jr., \$12,575.50; Joseph Todesca, \$12,893; John Guarino & Co., \$16,683.25.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

On August 4 to Samuel Stephens and Wickersham Quoin Company as per following communication:

BOSTON, July 24, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The bids on furnishing and installing printing equipment in the Old Gibson School, submitted to the Schoolhouse Commissioners and opened on July 13, were as follows:

	American Type Founders Company.	Samuel Stephens & Wickersham Quoin Company.	H. C. Hansen Type Foundry.
Item 1.....	\$225 00	\$266 56	\$220 25
2.....	525 00	632 10	657 09
3.....	45 00	44 10	44 10
4.....	111 00	108 78	108 78
5.....	776 00	760 48	760 48
6.....	300 00	225 00	294 00
7.....	50 75	49 73	47 77
8.....	47 00	46 06	46 06
9.....	40 00	49 00	49 00
10.....	7 00	20 97	20 97
11.....	30 00	29 40	29 40
12.....	26 50	25 97	25 97
	\$2,183 25	\$2,258 15	\$2,303 87

The American Type Founders Company is the lowest bidder by \$74.90. Under Item 2, however, their bid was on a second-hand machine, and on Item 10 the machine quoted on was not according to the specifications. The bid of Samuel Stephens & Wickersham Quoin Company was on machines according to the specifications, and the Board has therefore voted, subject to the approval of your Honor, to award the contract for all the items to Samuel Stephens & Wickersham Quoin Company, the second lowest bidder, in the sum of \$2,258.15.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

On August 3 to bidders indicated in following communication and bids for furnishing hay, grain and straw during month of August:

BOSTON, August 3, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids received on proposals for furnishing hay, grain and straw to the different city departments for the month of August, 1920, which were publicly opened and read at this office under date of August 2, 1920.

I respectfully recommend that contracts be awarded to the lowest bidder in each district as starred on the accompanying sheet. In the Brighton district the lowest bidder is the Hosmer-Robinson Company on straw at \$26 per ton, but they have informed this office that they would prefer not to receive the contract for the straw alone in this district. For this reason I have awarded the contract for straw to the Whittemore Company at \$26.50 per ton as they are low for the requirements for grain in this district.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

On August 4 to H. E. Fletcher Company as per following communication and bids:

BOSTON, August 3, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing straight and circular edgestone and small corners to the Public Works Department, Paving Service, which were publicly opened and read at this office under date of August 2, 1920.

I respectfully recommend that this contract be awarded to H. E. Fletcher Company, the lowest average bidder, for supplying the straight and circular edgestone and small corners on the street at the following prices:

Straight edgestone at \$1.89 per lineal foot.
Circular edgestone at \$2.66 per lineal foot.
Small corners, \$7.98 each.

The price submitted by H. E. Fletcher Company on the small corners was \$7.98 per lineal foot, but this was an error as the price of \$7.98 covers the price for the small corner complete.

Yours respectfully,
G. J. CRONIN,
Superintendent of Supplies.

Bids on 40,000 lineal feet straight edgestone, 3,600 lineal feet circular edgestone and 200 small corners, opened on August 2, 1920:

Straight Edgestone on Wharf.—Rockport Granite Company, \$2.15 per lineal foot; Lombard Granite Corporation, \$2.05 per lineal foot.

Straight Edgestone on Street.—H. E. Fletcher Company, \$1.89 per lineal foot; Lombard Granite Corporation, \$2.25 per lineal foot.

Circular Edgestone on Street.—H. E.

Fletcher Company, \$2.66 per lineal foot; Lombard Granite Corporation, \$2.85 per lineal foot.

Small Corners on Wharf.—Rockport Granite Company, \$8 each; Lombard Granite Corporation, \$1.40 per lineal foot.
Small Corners on Street.—H. E. Fletcher Company, \$7.98 each; Lombard Granite Corporation, \$1.40 per lineal foot.

Straight Edgestone, f. o. b., Boston.—H. E. Fletcher Company, \$1.69 per lineal foot.

Circular Edgestone, f. o. b., Boston.—H. E. Fletcher Company, \$2.46 per lineal foot.

Small Corners, f. o. b., Boston.—H. E. Fletcher Company, \$7.38 per lineal foot.

INFIRMARY DEPARTMENT.

Heating System, Long Island.

On August 4 to J. P. Dwyer Company as per following communication:

BOSTON, August 2, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On June 1 Acting Superintendent Ryan of the Long Island Hospital called the attention of the trustees to the necessity of repairs to the heating system, and on June 8 invitations were extended to F. I. Rice & Bennett Company, J. J. Hurley Company and J. P. Dwyer Company to submit proposal for the repairs.

The proposal of J. P. Dwyer Company,

dated June 23, 1920, was accepted June 25 in the sum of \$949, being the lowest of three received.

The chief engineer, while the work covered by the proposal was being carried on, discovered further defects in the heating system which required attention and which the J. P. Dwyer Company agrees to do for \$287. (I transmit copy of the chief engineer's communication of the 20th ultimo.)

On July 24 the trustees invited proposals from the following firms for these extra repairs covered by the engineer's list of the 20th:

International Engineering Works; Hodge Boiler Works; J. J. Hurley Company; J. P. Dwyer Company; Rice & Bennett Company.

On July 29 proposals were requested from the following companies:

Barber Company, Cleghorn Company. Because of press of business or the fact that the small amount of work involved does not make it attractive, of the above-mentioned firms, Dwyer and Cleghorn alone are prepared to estimate. Cleghorn on a cost plus basis and Dwyer for the sum of \$287, as set forth above.

Lest it appear that the Infirmary Trustees were, through a subterfuge, trying to evade the rule which requires your permission to award contracts in excess of \$1,000, your permission is respectfully asked to award this contract to J. P. Dwyer Company,

Very truly yours,

THOMAS C. O'BRIEN,
Chairman.

July 20, 1920.

DEAR MR. RYAN,—In addition to the steam fitting now being done in the engine room, the following items should be considered.

(1.) The first girth seams on boilers Nos. 1 and 2 are leaking and should be caulked tight under hydrostatic pressure.

(2.) The elbow on feed pipe of No. 2 and the nipple in feed bushing of No. 5 are very thin and should be renewed from elbow outside dry sheet.

(3.) The main from elbow over front nozzle of No. 2 should be replaced by pipe of proper length, and with screw flanges.

(4.) The main stop-valve on No. 2 should be packed at bonnet.

(5.) A new steam trap should be supplied and installed on drip from high-pressure main in engine room.

Items Nos. 1 and 2 are ordered by the boiler inspector.

Respectfully submitted,

JOHN MURPHY,
Chief Engineer.

PUBLIC BUILDINGS DEPARTMENT.

On August 4 to John H. Pray & Sons Company as per following communication:

BOSTON, July 30, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On May 20, 1920, Mr. Alexander, Superintendent of the Courthouse, Pemberton square, made requisition on this department for six rugs of various dimensions ranging from 9 feet by 10 feet to 19 feet by 30 feet, stipulating that some would be with border and some without, but all to be made of Wilton carpet.

I accordingly, on May 24, 1920, sent invitations to several of the best known carpet dealers of the city to submit bids for furnishing same, with the following result:

Jordan Marsh Company, \$3,018.75; Pulsifer, Kingston Company, Inc., \$2,085.84; Frothingham, Heffernan & Co., \$2,048; Torrey, Bright & Capen Company, \$1,677.90; John H. Pray & Sons Company, \$1,502.78. Paine Furniture Company thanked me for the opportunity but did not care to submit a figure.

I then presented the result of my work to Mr. Alexander who in turn, I believe, took it up with some of the court judges in the building and on their request the two lowest bidders, namely, John H. Pray & Sons Company and Torrey, Bright & Capen Company, were asked to again take the subject up with Mr. Alexander, as to the quality, design, etc., and to submit a figure accordingly, which they did, with the following result:

John H. Pray & Sons Company, \$1,425; Torrey, Bright & Capen Company, \$1,684.93.

The whole question since that time has been in the hands of Mr. Alexander and the justices until yesterday, when the former informed me that the lowest bidder was John H. Pray & Sons Company in the sum of \$1,425, which was perfectly satisfactory to the courthouse officials, and requested me to award the contract accordingly.

This, of course, I cannot do inasmuch as it exceeds the sum of \$1,000, but feeling that I have gone to all extremes in an endeavor to fill this requisition to the best interests of the city and all concerned, I respectfully request that I be allowed to award this contract to John H. Pray & Sons Company in the sum of \$1,425 without the usual form of advertising.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

On August 3 to James Picker as per following communication:

BOSTON, July 23, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to James Picker, New York City, N. Y., for furnishing the following at the prices extended:

120 dozen 8 by 10 seed X-ray films...	\$314 82
60 dozen 10 by 12 seed X-ray films...	248 04
60 dozen 11 by 14 seed X-ray films...	314 82
65 dozen 14 by 17 seed X-ray films...	519 34
	<u>\$1,397 02</u>

Firms carrying this particular line of goods are very limited in number and no benefit would be obtained by this office in publicly advertising bids for this commodity. The only other bid which we were able to receive was from Robey-French Company, and the total aggregated \$1,493.67.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Vitrified Paving Brick.

On August 3 to John W. Hahn as per following communication and bid:

BOSTON, July 23, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids received on proposals for furnishing 200,000, more or less, vitrified paving brick as per specifications which were

opened and read at the Supply Department under date of July 16, 1920. Invitations to bid were sent to all reputable dealers and manufacturers, but under the existing conditions today of car shortage and lack of material, the Supply Department was able to secure but one bid, and this bid from John W. Hahn is irregular in that both proposals were deposited with the Supply Department, instead of one duplicate being furnished the City Auditor.

In view of the fact that the Paving Service, Public Works Department, is in immediate need of these bricks and also as the irregularity in the bid of John W. Hahn was due in a great measure to his unfamiliarity with the procedure necessary in bidding on the City of Boston requirements, I respectfully request that permission be granted to award this contract to John W. Hahn at the prices indicated on the attached sheet.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Bids on 200,000, more or less, vitrified paving brick, opened July 16, 1920:

60,000, More or Less, Vitrified Shale Flush Blocks per M.—John W. Hahn, \$58.
132,000, More or Less, Vitrified Chamfered Hillside Shale Blocks per M.—John W. Hahn, \$60.

Bulbs.

On August 4 to Fottler, Fiske, Rawson Company as per following communication and bids:

BOSTON, July 29, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to Fottler, Fiske, Rawson Company for furnishing the following:

4,000 Prosperine.....	\$210 40
4,000 Rose Louisanti.....	153 60
4,000 Pink Beauty.....	162 40
2,000 Sir Tom Lipton (Red).....	63 00
1,500 Keizer Kroon.....	42 00
2,000 Duchesse De Parme.....	60 00
6,000 White Swan.....	165 60
2,000 Prosperity.....	77 00
1,000 Col. De Cardinal.....	39 00
1,000 Chrysolor.....	30 00
	<u>\$1,008 00</u>

These tulips to be packed in Holland before shipment in individual packages. Bidders to state from whom tulips are to come.

I am attaching list of bids received on this requirement from the various bidders in this line of supplies.

The market for these seeds has been thoroughly canvassed so no benefit would accrue from publicly advertising for bids, and for this reason I respectfully request that the permission asked for be granted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Quotations on bulbs for Park and Recreation Department July 27, 1920:

Fottler, Fiske, Rawson Company, \$1,008; Thomas J. Grey Company, \$1,010; Joseph Breck & Sons, \$1,175.50; R. & J. Farquhar Company, \$1,337.

Bends and Reducers.

On August 4 to Davis & Farnum Manufacturing Company as per following communication:

BOSTON, July 26, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without

publicly advertising the same, to the Davis & Farnum Manufacturing Company for furnishing the following:

Ten 16-inch 1/32 bends.
Ten 20-inch 1/32 bends.
Ten 20-inch 1/16 bends.
Ten 16-inch by 12-inch reducers.

Total weight of above approximately thirty (30) tons at a price of 13½ cents per pound. Approximate amount of contract \$8,250.

The Supply Department has publicly advertised twice for the requirements mentioned above and has not been able to secure a bid for same in either instance, and as these bends and reducers are to be used in the completion of the high pressure fire service, it is imperative that work be started at once. Davis & Farnum Manufacturing Company have given assurance to Mr. McInnes of the Water Division that they will give this order priority and complete same at the very earliest date possible.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Lumber.

On August 4 to George McQuesten Company as per following communication:

BOSTON, July 28, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Under date of March 19, 1920, quotations were asked by this office on the following:

Six hundred pieces 4-inch by 10-inch by 2-foot 7-inch hard pine, planed one side; 600 pieces 4-inch by 10-inch by 4-foot 6-inch hard pine, planed one side; 600 pieces 4-inch by 10-inch by 10-foot 9-inch hard pine, planed one side; and the only price received was from George McQuesten Company at \$94 per thousand feet plus \$6 per thousand for cutting to extra lengths as ordered by the Bridge Service. The order was placed at this office, but, through an error at this department, a contract was not made as the order was estimated to be below \$1,000. It later developed that the order amounted to \$3,712.

The price offered by McQuesten Company has been checked by this department and it is from \$10 to \$15 per thousand cheaper than can be secured at the present time.

In view of the explanation offered above, I respectfully ask that permission be granted to make a contract with the George McQuesten Company covering this order.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

To repair and blanket coat with tar Hyde Park avenue, from Ashland street to Metropolitan avenue, the estimated cost for labor and material being \$2,500.

ARTIFICIAL STONE SIDEWALKS.

Boston, August 2, 1920.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks

in the public streets, without advertising, to the Ginter Company, 369 Congress street, South Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

The authority requested is hereby given.

ANDREW J. PETERS, Mayor.

OFFICIAL COMMUNICATIONS.

NEW SCHEDULE OF FEES.

Boston, July 30, 1920.

To the Mayor of Boston:

On account of the increase in the cost of labor and materials, it becomes necessary to conform to existing conditions and advance the price for repairing the surface of public streets opened by corporations and contractors under permits granted by this department.

Your authority is respectfully requested to the adoption of the following schedule of prices, to take effect August 15, 1920:

Notice to Contractors and Drainlayers.

Applicants for permits to make openings in the surface of a public street will be required to make advance payment for repairs to such surface in accordance with the following schedule:

	Per Square Yard.
Wood block and concrete base.....	\$12 00
Granite block and concrete base.....	12 00
Brick and concrete base.....	8 00
Asphalt, bitulithic or Topeka and concrete base.....	7 00
Hassam block and concrete base.....	10 00
Granite block and gravel base.....	1 50
Bituminous macadam.....	1 50
Macadam.....	1 25
Brick sidewalk.....	1 25
Artificial stone sidewalk.....	* 50

* Per square foot.

Any space opened in excess of that specified in the permit will be billed at above rates, and charges remaining unpaid may be considered cause for not issuing another permit.

This regulation is made under section 9 of chapter 28 of the Revised Ordinances of 1914.

Yours respectfully,

THOMAS F. SULLIVAN,
Commissioner of Public Works.

Approved August 4, 1920.

ANDREW J. PETERS, Mayor.

CONTROL OF PLAGUES.

HEALTH DEPARTMENT,
BOSTON, July 29, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I have the honor to acknowledge receipt of your memorandum of the 26th instant transmitting a letter from the State Commissioner of

Public Health inviting you to send a representative to Galveston, Tex., to be present at a demonstration of plague control and the approved repressive measures against that disease, arranged by the Surgeon-General of the United States Public Health Service.

With a view to the better organization of the defences of the City of Boston against plague, I have been endeavoring for a long time past to have an officer of the United States Public Health Service experienced in plague control work detailed to the City of Boston, but the demands for the services of such experienced officers, arising out of the actual presence of plague in certain parts of the United States and in other countries, has been so great as to render it impracticable for the Surgeon-General of the United States Public Health Service to comply with the requests that have been made for such a detail. It is highly desirable, it seems to me, that the officers of the City of Boston, upon whom devolves the responsibility for the inauguration and administration of measures to exclude plague from Boston and to limit its spread should it enter, be informed as fully and in as practicable a way as may be possible with respect to approved measures to accomplish these ends, and with the experience of other communities with respect thereto. The present invitation to attend the demonstration at Galveston seems to afford as satisfactory an opportunity as is likely to occur to acquire such information, and as compared with the ends sought the cost of attendance at the demonstration is negligible. Repressive measures for the introduction or the spread of plague call essentially for three lines of activity; (1) the discovery and isolation of cases of plague among human beings; (2) the discovery of cases of plague among rats, and the destruction of such vermin; (3) the general ratproofing of wharves, docks and buildings for the purpose of facilitating the destruction of rats and preventing them from multiplying in the community. For this reason I respectfully recommend that you authorize the Health Commissioner and the Deputy Commissioner in charge of the Laboratory Division of the Health Department to attend the demonstration at Galveston, Tex. on August 3 and 4.

In view of the extent to which building operations will be involved in any anti-rat work that may be undertaken, I have consulted with the Building Commissioner with respect to attendance at the proposed demonstration, and he has expressed to me his willingness to go to Galveston for the purpose. For that reason, I recommend further that the Building Commissioner likewise be authorized to attend the Galveston demonstration.

In view of the fact that the city of New Orleans, Louisiana, has been called upon to adopt very extensive repressive measures against the plague, especially along the line of ratproofing; in view of the fact that conditions in New Orleans are probably more nearly similar to those that are met with in Boston than are conditions in Galveston, New Orleans being an old city, whereas Galveston is not; and in view of the comparatively slight increase in expense that will be involved in an investigation of conditions in New Orleans with respect to anti-plague operations, I recommend that the three persons named above be authorized to visit New Orleans en route, to learn what they can there.

The estimated cost of carrying into effect the recommendations made above is \$900. This may be paid from the Health Department appropriation, budget group B, Item 4, transportation of persons; or it may be paid from said appropriation in so far as relates to the Health Commissioner and the Deputy Commissioner in charge of the Laboratory Division, and from the appropriation for the Building Department, corresponding group and item, in so far as relates to the Building Commissioner.

Inquiry at the auditor's office shows that the carrying of this recommendation into effect and the expenditure of approximately \$900 by reason of it will still leave a fair working balance of the total amount that the city is authorized by statute to expend for such purposes in any one year, \$2,500.

Yours very truly,

WM. C. WOODWARD,
Health Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 31.

REPORTING RETURN OF ABSENT MEMBERS TO DUTY.

The following suggestions relative to the new Form 3-B and the conditions to be complied with are herewith embodied:

Hereafter in reporting the return of absent members to duty, the new Form 3-B will be used instead of Form 5, as formerly.

After the word "from": The company and number should be inserted.

Under total time off, with and without loss, no dates should be used, but the total number of days and fraction thereof should be written in.

Under remarks: A statement should be made if a member of the fire-fighting force has applied for one half pay for sickness or injury. If the vacation period of a member enters during his period of leave, it should be so stated; also, if a member reports on light house duty or light duty, note of same should be made. In a word, any information necessary to complete the record should be submitted.

The approved leave of absence of a member sent from Headquarters should be placed in a conspicuous place by company commanders: First Deputy Chief in charge of Bureau of Supplies and Repairs; Superintendent of Fire Alarm; Superintendent of Wire Division; Veterinary and Chief of Bureau of Fire Prevention, and immediately upon return of absentee, whether he has been off with or without loss of pay, a Form 3-B must be forwarded to this office.

Said company commanders and heads of branches or divisions will be held responsible for failure in reporting immediately upon return of members and the proper recording of same as per Form 3-B.

By order of the Fire Commissioner,

DANIEL F. SENNOTT,
Acting Chief of Department.

General Order No. 32.

APPLICANTS FOR HALF PAY.

Relative to new Form 3-C: Members must comply strictly with the conditions in their entirety, as embodied in said form. If there is any doubt in the minds of applicants for half pay, General Orders No. 21 should be re-read before forwarding application on Form 3-C.

The new Forms 3-B and 3-C have been distributed to the department.

CHANGE OF ADDRESS.

Members of this department changing their place of residence should report same immediately on Form 5, giving the old and new addresses and the number of the ward.

This is necessary to complete our records here at Headquarters.

By order of the Fire Commissioner,

DANIEL F. SENNOTT,
Acting Chief of Department.

General Order No. 33.

ORDERS FOR SUPPLIES OR MATERIAL.

Blocks of form orders for the delivery of all articles needed have been distributed to each company. Commanding officers will see that in emergencies, when a messenger is sent to the Bureau of Supplies and Repairs for articles, he will have one of these forms properly made out. The attention of company commanders is drawn to the general order regarding this matter.

THE BOSTON FIREMEN'S RELIEF FUND.

The attention of the members of the department is directed to the recent changes in the following rules and regulations of the Boston Firemen's Relief Fund, namely, Rule No. 12, concerning special treatment, and Rule No. 14, concerning benefits.

CHAUFFEUR RECORD CARDS.

Hereafter, when a man, who has been certified as a chauffeur, is transferred from one district to another, the card concerning him and held by the chief of the district from which he was transferred will be forwarded to the supervisor of motor apparatus. The supervisor of motor apparatus will then forward the card to the chief of the district to which the member has been transferred. This will give the supervisor of motor apparatus and the district chiefs an opportunity to keep their records complete and up-to-date.

ACTING DISTRICT CHIEF.

Capt. James F. Ryan of Engine Company 25 has been promoted to be acting district chief of Fire District No. 3 during the absence of the district chief of that district.

HORSESHOEING.

The following changes in the cost of horseshoeing are hereby announced:

Four new shoes.....	\$4 00
One bar shoe.....	1 50
One rubber shoe.....	1 75
Four shoes sharpened.....	2 60
One rubber pad.....	1 25
One shoe reset.....	50
One leather.....	25

By order of the Fire Commissioner,

DANIEL F. SENNOTT,
Acting Chief of Department.

CLAIMS.

The Mayor has approved the following claims, with the indorsement of the Corporation Counsel:

C. H. Jennings, for expense incurred for cleaning drain at No. 10 Fairweather street, Roxbury, March, 1920, by payment of \$25.

N. E. Hollis & Co., for refund of portion of fee paid to Street Commissioners for use of space now discontinued, by payment of \$50.

Lillian Weber, for personal injuries caused by stepping into hole in street at corner of Humboldt avenue and Homestead street, Roxbury, April 22, 1920, by payment of \$125.

E. B. Frye, for loss and damage caused by rioters during the police strike, at 357 and 359 West Broadway, South Boston, by payment of \$138.11.

Estate of R. M. Morse, for damage at Nos. 63-79 Sudbury street, September 10, 1919, by rioters, by payment of \$500.

Etta Kaplan, for personal injuries caused by hole in sidewalk at No. 52 Chambers street, March 11, 1920, by payment of \$100.

Louis Benson, for personal injuries caused by defective condition of sidewalk at No. 43 Quincy street, Roxbury, March 13, 1920, by payment of \$150.

William B. Wilber, administrator, for loss and damage by rioters at No. 193 Broadway, South Boston, September 9, 1919, by payment of \$103.39.

Minerva G. Oliver, for personal injuries and damage to clothing caused by hole in crosswalk at Lexington and Prescott streets, May 18, 1920, by payment of \$100.

CLAIMS REJECTED.

The Law Department has disapproved six claims against the city, in three of which no amounts were specified, and the other three aggregated \$1,088.37, and are classified as follows:

Against the Police Department, two, amounting to \$888.37; against the Public Works Department, three, in which no amounts were specified; against the Street Laying-Out Department, one, amounting to \$200.

All these claims have been disapproved for the reason that there appeared to be no legal liability upon the city.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING WATER PIPES IN CITY PROPERTY ABUTTING CONCORD STREET, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for laying about 100 linear feet of 20-inch water pipe in the city property abutting Concord street, opposite Brooks street, East Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of six hundred (600) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying Water Pipes, Concord Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m., on Friday, August 13, 1920, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection to the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

BOSTON, August 6, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids covering uniforms and equipment for

the Boston Fire Department, which were publicly opened and read on August 3, 1920.

I respectfully request permission to place this contract with A. Shuman & Co., the lowest bidders on the cloth and the manufacture, the latter which includes the fittings, trimmings, etc., for the overcoat, blouse and trousers. This contract will amount to approximately \$36,282.40, and covers the overcoat, blouse, trousers, caps and rubber coats required by the Boston Fire Department. No award will be made at this time for rubber covers for caps. Inasmuch as A. Shuman & Co. bid on caps contemplated for members only, they have agreed to charge 25 cents extra for officers' caps which, I believe, to be a fair charge, and would recommend that when the contract is made that I be allowed to state that officers' caps will be \$2.75 each.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

Sugar.

On August 10 to Eastern Sugar and Products Company as per following communications:

BOSTON, August 9, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Your permission is respectfully requested to award a contract, without publicly advertising for bids, to the Eastern Sugar and Products Company, for furnishing fifteen barrels of granulated sugar to the Infirmary Department, Long Island Hospital, at a price of \$21.50 per hundred.

The price noted above is one cent (1 cent) per pound under the market for sugar, which has been ascertained by this

department. The sugar to be delivered under this contract is guaranteed American Sugar Refining Company or Revere Sugar Refining Company product.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Sugar.

On August 10 to the Eastern Sugar and Products Company as per following communication:

Boston, August 7, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston.

DEAR SIR.—Permission is respectfully requested to award a contract, without publicly advertising for bids, to the Eastern Sugar and Products Company, for furnishing eighty barrels of American or Revere white granulated sugar, of which seventy barrels goes to the Boston City Hospital and ten barrels to the Consumptives' Hospital, at a price of 21½ cents per pound.

As this price is one cent (1 cent) per pound under what this commodity can be bought for from any other company handling sugar at the present time, I earnestly request that the permission asked for be granted.

Yours respectfully,

G. J. CRONIN,

Superintendent of Supplies.

REPORT OF FINANCE COMMISSION ON PAVING OF CONANT, PARKER AND SMITH STREETS AND STATEMENT OF COMMISSIONER OF PUBLIC WORKS DEPARTMENT.

BOSTON, August 6, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR.—On October 31, 1919, the Finance Commission reported to your Honor that the work of surfacing Conant, Parker and Smith streets with sheet asphalt by the Bermudez Company, under a contract with the city, dated September 19, 1919, was being done in violation of the specifications in the contract and certain to result in great loss to the city. In that report it was specifically pointed out to your Honor that the material used in the work was inferior to the requirements of the contract and was being laid on a surface not properly prepared to receive it. That the inspector assigned to the work was not constant in his attendance upon the work, but even when present permitted violations of the contract. Apparently no action in this matter was taken by your Honor or the Public Works Department.

Upon completion of this work the Finance Commission caused an examination of the work to be made by the firm of Dow and Smith, consulting engineers, of New York City, and on December 5, 1919, a report was sent to your Honor pointing out, among other things, that these streets were "full of small hummocks and depressions"; that the surface was wavy and in many places showed evidence of having received practically no compression and that in those uncompressed portions the surface could easily be dug out with a dull knife; that such a pavement could not give the service which would reasonably be expected of it and that no amount of patching could ever convert it into a first-class job. These reports are printed in Vol. XV of the Finance Commission reports, pages 196-198, 232-234.

Although the Finance Commission recommended that the entire reserve under this contract be withheld, it now appears that this was not done but that all of the reserve, except \$1,000, was paid over to the contracting company.

The surface of Smith street, between Huntington avenue and Whitney street, has entirely disintegrated. The street has been too dangerous for public travel and barriers have been erected excluding traffic on this street. At various places throughout almost the entire length of both Smith and Conant streets the surface has become cracked and broken and it appears to be only a question of a few months when nearly the entire surface of these streets will require renewal although it is hardly eight months since \$22,993.95 was expended in surfacing it.

Samples of the street surfacing have been removed at various points and an analysis of the contents made, to find out if the materials were defective, as well as the foundations and methods of construction. In general, it was found that the thickness of the street surfacing was considerably less than the 3 inches required by the contract. In some places a total thickness of 1½ inches was found with a thickness of wearing surface of less than ¾ of an inch, and in the greater number of places tested the thickness of the wearing surface was less than 1 inch, although 1½ inches was specified. The sand used in the surfacing mixture was found to be of inferior quality. The stone used in the binder contained only a small

percentage of trap rock, although the specifications provided for best quality of trap rock. The grading of the mixture was not such as to secure the best work, and both the binder course and the wearing surface were found to be porous, indicating insufficient rolling and compression during the laying.

During the administration of your predecessor in office, upon the recommendation of the Finance Commission and a member of the City Council, a chemist was employed by the Public Works Department who made, or caused to be made in behalf of the city, an examination at the plants of all materials entering into bituminous pavements. This department of inspection by a properly qualified man is very important for proper safeguarding the city's interests.

The Finance Commission regrets that your Honor has permitted the discontinuance of this department of inspection of street materials. The other and only department of inspection now maintained to safeguard the city's interest is that of inspection at the place of construction. It should be borne in mind that the character of the materials furnished and quality of workmanship rendered under any contract for street construction are no better than that insisted upon by the inspectors.

The present condition of Smith and Conant streets is due to failure of the city to have the material inspected at the mixing plant and the neglect of its representatives, the inspector, at the point of construction.

Every inspector, therefore, should be selected for his competency and his loyalty to the city's interest. The inspector under the contract considered in this report failed utterly to represent the city's interests. Moreover, if the failure on the part of the city to require its contracts for street construction to be performed in accordance with their terms obtained only in this instance the whole street problem would not be so discouraging; but an examination of the reports on bituminous sheet pavements in Boston made by J. W. Howard, consulting engineer, of New York, in August, 1917, and reported to the Commissioner of Public Works early this year, of eighty-three contracts for bituminous sheet pavements, forty-three, or 52 per cent, were less than the thickness required by the specifications, and fifty-two, or 63 per cent, were below the quality required by the specifications.

In December, 1919, Mr. Howard examined twenty-eight different jobs of similar pavements laid during your Honor's administration. The only one reported on in detail, namely, Amory street, showed material inferior in quality and less than the thickness required. Mr. Howard stated as his belief that the asphalt pavements laid in 1918-19 are better than those laid in 1915, 1916 and 1917, but the only data furnished, namely, in the case of Amory street, did not bear out this statement.

In a report to your Honor, from the Bureau of Public Roads, United States Department of Agriculture, at your request, covering this whole matter of bituminous construction, dated June 7, 1919, the following pertinent advice was given:

It is our firm conviction that much unsatisfactory paving work may be attributed to poor quality of inspection, both of work and materials. No matter how perfect the specifications may be, no guaranty of satisfactory results is assured unless adequate inspection is furnished. All materials used should be tested for conformity with specification requirements and only experienced and conscientious inspectors should be

employed on the work. We understand that at present your paving laboratory is not in operation and would urgently recommend that it be put under the supervision of a competent testing engineer or chemist and equipped for making all necessary tests of materials. We further recommend that particular attention be paid to the selection of street inspectors with reference to their experience, honesty and unquestionable loyalty to the interests of the city. These two items alone, if properly cared for, will do much to safeguard the expenditure of the large amount of money which is to be invested in the construction and maintenance of your city pavements and will produce results which will amply warrant the comparatively slight additional expense incurred thereby.

Conant, Parker and Smith streets, as described in this report, were surfaced after the advice above quoted had been received by your Honor as well as several reports to the same effect from the Finance Commission.

Your Honor's attention is also called to a portion of the report rendered by your expert, Mr. Howard, under date of February 14, 1920.

I think true eventual economy in Boston would be to put down hot mixed asphalt concrete pavements (crushed stone, sand and asphalt cement of which bitulithic and Topeka are types) and sheet asphalt pavements, where smooth, quiet pavements are needed at lowest possible cost combined with reasonable, economic future maintenance for long terms of years.

This recommendation is substantially the same as that previously given to your Honor by the Finance Commission in connection with a report regarding the purchase and operation of a municipal asphalt plant. Only through the medium of such plants owned by the city can Mr. Howard's recommendation be completely adopted.

While all the cities larger than Boston and over fifty cities smaller than Boston in the United States find municipal asphalt mixing plants both efficient and economical it is difficult for the commission to understand why your Honor and the Commissioner of Public Works refuse to install a more adequately sized one in Boston. An adequately sized and equipped municipal mixing plant, properly supervised, would not only insure better material for street work, but would simplify the matter of plant inspection of material.

The Finance Commission recommends:

1. That the city's rights and interests be enforced under the contract of September 19, 1919, between the Public Works Department, in behalf of the city, and the Bermudez Company, for the surfacing of Smith, Conant and Parker streets.

2. That the paving laboratory be reopened under the charge of a competent testing engineer or chemist and equipped for making all necessary tests of materials.

3. That plant inspection be resumed at the plants of all contractors laying bituminous sheet pavement.

4. That the street inspection of bituminous sheet pavements be assigned to only such inspectors as have a knowledge of and experience in the technical details of such construction and who are unquestionably loyal to the interests of the city.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

BOSTON, August 9, 1920.

To the Honorable the Mayor:

Relative to the recommendations incorporated in the report of the Finance Commission, dated August 6:

1. The City's rights and interests

under this contract are being enforced. Where defects have appeared in this street, the Bermudez Company is now stripping the asphalt surface, and when it is definitely determined that the substructure is apparently fit for the surfacing, this work will be done.

2. The paving laboratory has never been closed up. Ever since the former chemist left the service of the city we have been endeavoring to secure a chemist, but none of the men whose names were on the Civil Service list would take the position. In the budget for this year we provided for a chemist at a salary of \$2,000 per year, which should be a very fair salary for the requirements of the position. The budget was approved by your Honor April 14, and on that same day I made requisition on the Civil Service Commission. Two names were certified and one declined and the other could not be located at the address given. On May 7 I addressed a letter to the Commissioner of Civil Service, calling his attention to the fact that I was unable to secure any person to fill this place and requested that an examination be held as early as possible. On May 13 the Secretary of the Civil Service Commission advised me that the Commissioner had ordered a competitive examination and that it would be held as early as possible. I have just talked with the Department of Civil Service and they inform me that this examination will be held on August 31st.

On August 29, last year, Bartholomew Flaherty was appointed asphalt tester, he having had about ten years' experience with asphalt companies as construction foreman and assistant superintendent. Flaherty was subjected to a five hour examination by Professor Grinnell Jones of the Department of Chemistry of Harvard University, and the Civil Service Commission advised me that he had successfully passed this examination with a general average of 84.63 per cent.

3. Flaherty's duties require that he inspect the material at the plant and on the street, and the reports on file in the office show that this has been done.

4. The men assigned to the inspection of laying bituminous sheet pavements have had years of experience in laying this pavement and are certified by the Civil Service Commission after public competitive examination.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

STATEMENT ISSUED BY MAYOR PETERS ON CONSTRUCTION OF TWO FERRYBOATS.

BOSTON, August 12, 1920.

After repeated conferences between the Mayor and the Finance Commission and the expert advisors of each, consisting of Judge Michael H. Sullivan, chairman of the Commission, James Swan, general manager of the Herreshof Manufacturing Company, Frederic H. Fay, Spofford and Thorndike, the designers of the boats, A. Loring Swasey and A. W. Raymond, consulting naval architects, Col. Thomas F. Sullivan, Commissioner of Public Works, Arthur D. Hill, Corporation Counsel and Guy Emerson, consulting engineer of the Finance Commission, it has been decided by the Mayor to divide the contracts for the two ferryboats, and award one to the Winisimmet Ship Yard, Inc. of Chelsea, the lowest bidder, and one to the Groton Iron Works, the second lowest bidder.

The reason this course has been adopted is primarily the saving of time and the great importance to the public of getting the ferries of East Boston in satisfactory operation at the earliest possible moment. The Finance Commission makes no objection to the plan proposed.

The two new ferryboats ordered by the City of Boston are to be of steel construction throughout, making them thoroughly fireproof. They are to have four roadways, similar in this respect to the "General Sumner" and the "John H. Sullivan," both of which were remodeled from the two roadway type by this administration. Access to these roadways is made easy by the special design of the ends of the boats, and with the installation of new drops or entrances now being designed by the Public Works Department it will be possible to load and unload two lines of traffic at the same time, greatly increasing the efficiency of the ferries.

The most important innovation is the equipment of these boats with powerful fire-fighting apparatus, permitting them to be used as auxiliary fireboats and increasing greatly the protection against fire on the waterfront. Another important feature is the fact that these boats will be equipped to burn either coal or oil, the transformation from one type of fuel to the other being possible in a few hours' time.

The boats are somewhat longer and larger than any of the existing boats in the East Boston service, being limited in width only by the size of the slips. There is also provided greater head room for vehicles, making it possible for the boats to carry any fire apparatus, including water towers, as well as the larger size motor trucks.

Each boat will have a capacity of about thirty vehicles.

Passenger space is provided on the upper deck as well as in the main deck cabins, thus permitting ample accommodations for foot passengers.

Safety gates of a new design are provided, which will furnish greater protection.

The general dimensions are:

Length over all, 174 feet.
Beam, extreme over guards, 57 feet.
Beam, hull molded, 40 feet.
Depth, molded, 15 feet 4 inches.
Draft molded, with water and fuel on board, 9 feet.
Displacement, with water and fuel approximately, 650 tons.

The two boats are to be named after veterans of the late war, namely, Lieut. Lawrence J. Flaherty of East Boston, of the 101st Infantry, and Private Ralph Palumbo of the North End, who was the first citizen of Italian descent killed in the United States Service.

CIVIL SERVICE EXAMINATIONS.

MASTER, HOUSE OF CORRECTION, DEER ISLAND, PENAL INSTITUTIONS DEPARTMENT, AUGUST 26, 1920.

The salary is \$2,500 a year.

The Master of the House of Correction is Chief Executive Officer having authority over employees and inmates and being responsible for the discipline, and for expenditures of money, both for the maintenance and the upkeep of the institution.

REPORT AND FINDINGS UPON CHARGES AGAINST DIRECTOR OF MUSIC.

The following report to His Honor the Mayor of the findings of the Board upon the report of the Finance Commission made to his Honor the Mayor concerning certain charges against the Director of Music, Mr. John A. O'Shea, in connection with the purchase of pianos for the Boston Public Schools, was presented and approved, and the conclusions and recommendations contained therein adopted unanimously, except that Miss Curtis desired to be recorded as concurring in the report of the School Committee so far as it dealt with the charges against Mr. O'Shea, but so far as the report enters into criticism of the procedure of the Finance Commission she does not deem it part of the matter to be considered at this time.

Honorable Andrew J. Peters,
Mayor of Boston,
City Hall,
Boston, Massachusetts:

Dear Sir:

The School Committee has carefully considered the report of the Finance Commission made to you under date of June 14, 1920, and transmitted by you to this Board on June 16, 1920, in which report the Commission has discussed the sale of a used Steinway grand piano, No. 52034, the property of the Director of Music, to the School Committee, and the alleged receipt of commissions by that Director for the sale of certain upright pianos to the School Committee and submits the following report.

The Finance Commission has divided its report into the following parts:

1. Sale of a used Steinway piano owned by John A. O'Shea, Director of Music in the Public Schools, to the School Committee of Boston.

2. Alleged receipt of commissions by John A. O'Shea, Director of Music in the Public Schools, on sales of pianos made by M. Steinert & Sons Company to the Boston School Committee.

3. Award of bid made to the School Committee for upright pianos in April, 1920.

The School Committee held two hearings on the matter, one on June 28th and the other on June 30th, at which were present all the members of the School Committee.

The Finance Commission was notified of the hearing, and advised that if it had any evidence which it wished to submit, the School Committee would be very glad to have it send a representative to present such evidence. The Finance Commission sent as its representative Mr. Robert E. Cuniff, Investigator. Mr. Cuniff, however, took no part whatever in the proceedings.

Mr. William A. Byrne, formerly sales manager of M. Steinert & Sons Company, now with the Chickering & Sons, and a prominent witness before the Finance Commission on the matters under consideration, was also invited and requested to be present, and to submit such evidence as he had on the matter. Mr. Byrne did not attend, and to the date of making this report no word has been received from him.

The following witnesses were heard:

Mr. Alexander M. Steinert, Treasurer of the M. Steinert & Sons Company;

Mr. Jerome F. Murphy, Assistant Treasurer;

Miss Vernie M. Kempton, Cashier; Miss Margaret E. McDade, in charge of the order department;

(all of the M. Steinert & Sons Company);

Mr. William A. O'Shea, son of the Director of Music;

Mr. John A. O'Shea, Director of Music, (against whom the charges had been preferred).

The Committee had before it the records and accounts of M. Steinert & Sons Company, and even confidential papers and letters of this company were furnished the School Committee when requested. Mr. John A. O'Shea was represented by counsel, Francis M. Carroll, Esquire.

As the charges against the Director of Music have to do with his relations with M. Steinert & Sons Company, dealers in pianos, the School Committee believes it would be well to make clear Mr. O'Shea's connection with, and the extent of his influence on the purchase of pianos.

The Business Agent is charged with the purchase, storage and delivery of all apparatus and supplies for the public schools. The variety of apparatus and supplies needed covers such a wide field as to necessitate securing the advice of experts in passing upon the quality and condition of the goods offered, and he has made it a practice to secure the services of such experts whenever the conditions are such as to make such action desirable.

For the purpose of advising him in the selection of pianos and other musical instruments and passing upon the quality of such pianos and musical instruments offered in competition, an advisory committee on musical instruments was appointed by the Superintendent at the request of the Business Agent. This Committee at the time of the matters under review consisted of Mr. Augustine L. Rafter, Assistant Superintendent; Mr. John A. O'Shea, Director of Music; Mr. Grant Drake, Assistant Director of Music. Mr. O'Shea had one vote on this committee and was responsible, of course, for any opinions or recommendations which the committee made to the

Business Agent, up to the extent of his participation in the examination of pianos and the reports of the committee thereon.

Taking up the charges of the Finance Commission in order:

1. SALE OF A USED STEINWAY PIANO OWNED BY JOHN A. O'SHEA, DIRECTOR OF MUSIC IN THE PUBLIC SCHOOLS, TO THE SCHOOL COMMITTEE OF BOSTON.

The Board finds that the M. Steinert & Sons Company in October, 1919, offered to the School Committee a Steinway concert grand piano No. 52034, at that time the property of Mr. O'Shea, but the fact that it was the property of Mr. O'Shea was not disclosed to the Mayor, the Finance Commission, City Council, Business Agent, or the School Committee, and that Mr. O'Shea as a member of the Advisory Committee on Musical Instruments took part in the examination of the piano and did not disclose his interest in it to either of the other members of the Advisory Committee.

The School Committee in an examination of the representatives of the M. Steinert & Sons Company has been unable to find anyone who offered the sum of \$200 for this piano as stated in the report of the Finance Commission. Mr. O'Shea testified that at the time he purchased two baby grand pianos from M. Steinert & Sons Company in 1916 he asked the company to accept two used pianos in exchange as part payment, one the concert grand piano No. 52034 and the other a baby grand of substantially less value. The company refused to take but one and left the selection to him. He selected the baby grand and was given an allowance of \$500 thereon. The concert grand No. 52034 was then placed in storage.

Evidence was submitted tending to show that the piano No. 52034 is worth substantially more than the \$550 paid for it by the School Committee, and Mr. Murphy, Assistant Treasurer of the M. Steinert & Sons Company, has offered to take the piano back and pay the sum of \$550 therefor, and he is confident this piano can be sold for a substantially larger sum.

The evidence submitted satisfied the School Committee that the City has received full value for the sum expended in the purchase of the Steinway concert grand piano No. 52034, and finds that Mr. O'Shea in failing to disclose his ownership of the piano was not prompted by any desire to obtain an excessive or unfair price for the piano (the piano had been offered by Mr. Byrne for \$550 on October 18, 1919, and before Mr. O'Shea knew of its being so offered).

The Board, however, finds that by his action in this case, Mr. O'Shea was guilty of a violation of Section 8 of the City Charter.

The Board also finds that Mr. O'Shea's action in taking a part in the examination and report on his own piano as a member of the Advisory Committee was improper and indicative of a lack of appreciation of the proprieties and ethics of the situation which should guide all men in transactions of this kind in either public or private business.

2. ALLEGED RECEIPT OF COMMISSIONS BY JOHN A. O'SHEA, DIRECTOR OF MUSIC IN THE PUBLIC SCHOOLS, ON SALES OF PIANOS MADE BY M. STEINERT & SONS COMPANY TO THE BOSTON SCHOOL COMMITTEE.

In its discussion of evidence purporting to show that Mr. O'Shea had accepted commissions on the sale of pianos to the City by the M. Steinert

& Sons Company, the Finance Commission has devoted considerable space to the details of a financial transaction between Mr. O'Shea on the one hand and Mr. Byrne, Mr. Murphy, and Mr. Steinert of the M. Steinert & Sons Company on the other.

In studying this evidence and in an examination of the witnesses it appears to the School Committee that the following facts are admitted by all parties:

1. That the sum of \$300 was paid by M. Steinert & Sons Company to Mr. O'Shea by check drawn in his favor on December 26, 1919.

2. That this sum paid Mr. O'Shea stood on the books of the M. Steinert & Sons Company as a loan until February, 1920.

3. That upon receipt of a check from Mr. Byrne by the M. Steinert & Sons Company, January 30, 1920, the loan was marked as paid on that date, or shortly thereafter, and the account closed up.

4. The following letter or memorandum was received by Mr. Murphy from Mr. Byrne:

"December 26, 1919."

"Dear Jerome—

John O'Shea has requested a loan from me personally to take care of his taxes. Will you be good enough to write a check for this amount and I will reimburse you in a few days. He will pay it to me in a few weeks—at least this is his promise. Thanks for the favor.

W. A. B."

The evidence of Mr. O'Shea and Mr. Murphy is that Mr. O'Shea applied to Mr. Byrne for a loan on December 26, 1919, that Mr. Byrne wrote the above memorandum and sent it up to Mr. Murphy. On that date Mr. Murphy drew a check in favor of Mr. O'Shea, and the transaction was entered on the books of M. Steinert & Sons Company as a loan; that a check for \$300 was given to Mr. O'Shea on that date; that Mr. O'Shea on January 28, 1920, paid Mr. Byrne \$300 in cash, that on January 30, 1920, Mr. Byrne gave his check to Mr. Murphy in payment of the loan, and the matter was thus closed up.

On the other hand, Mr. Byrne has stated to the Finance Commission that on January 30, 1920, he was told by Mr. Alexander Steinert that this \$300 paid to Mr. O'Shea stood on the books as a loan, but he did not like to have it stand that way for fear an investigation would disclose just what it was paid for; that in consequence of this conversation, and at Mr. Murphy's suggestion, he wrote the memorandum quoted above on January 30, 1920, and dated it back to December 26, 1919.

Mr. Byrne has also stated to the Finance Commission that the above check of the M. Steinert & Sons Company to Mr. O'Shea was not a loan, but was in payment of commissions on the sales of pianos to the city; that while he did draw his check in favor of the M. Steinert & Sons Company for \$300, he was paid \$300 in cash by the M. Steinert & Sons Company to reimburse him for the check so drawn, and that he has never received \$300 from Mr. O'Shea.

Both Mr. Steinert and Mr. Murphy deny the truth of these statements by Mr. Byrne.

The conclusions of the Finance Commission intimating, if not directly charging that Mr. O'Shea received commissions from M. Steinert & Sons Company on the sales of the pianos to the School Committee, are based practically entirely on the statements and accusations of William A. Byrne after he had left the employ of M. Steinert & Sons Company. From evidence introduced before us it is not

difficult for this Board to infer that Mr. Byrne was especially vindictive against the M. Steinert & Sons Company after he had left its employ. However, the facts ascertained by us in our investigations contradict the evidence of Mr. Byrne as reported in the report of the Finance Commission. Mr. Byrne who failed to accept the invitation of the School Committee to appear before it and testify had much to explain. The written evidence of his own acts in his own writing support the statements of Mr. O'Shea and M. Steinert & Sons Company that the \$300 transaction was a loan, and not a payment of commission, for it was Mr. Byrne who wrote the letter of December 26, 1919, requesting that the loan be made to Mr. O'Shea.

The written, private and confidential reports from Mr. Byrne to Mr. Alexander Steinert as to the day's transactions on the day when the pianos under investigation were sold to the School Committee, which report includes other sales to other people, with the names of people to whom commissions were paid, while it tabulates in details the sales to the School Committee it makes no mention of commissions paid, or promised to anybody, in relation to the transactions under investigation.

The School Committee appreciates that the Finance Commission has preferred to accept what appears to us to be an improbable explanation on Mr. Byrne's part in this transaction when they state "From all the evidence offered before the Commission on this transaction, the Commission finds itself unable to believe that the \$300 given to Mr. O'Shea by M. Steinert & Sons Company on December 26, 1919, and designated 'Loan,' was in fact given as a loan to Mr. O'Shea and does believe that this \$300 has never been returned to the Steinert Company by Mr. O'Shea or by anybody for him." But the School Committee finds no evidence to substantiate Mr. Byrne's accusations, and the evidence satisfies our committee that the \$300 transaction was in fact a loan and not a payment of any commission.

It also appeared in the testimony that the loaning of money to musicians was not an uncommon practice with this concern and at the present time it carries several such loans on its books.

Mr. Alexander Steinert testified that he never had any conversation whatever with Mr. Byrne on the matter; that he never was consulted by Mr. Byrne, Mr. Murphy, or anybody else about the loan; that he did not see or communicate, directly or indirectly, with Mr. Byrne, Mr. Murphy or Mr. O'Shea on the matter and knew nothing whatever about the matter until the receipt of Mr. Byrne's check in payment of the loan.

In a careful examination of the records of the M. Steinert & Sons Company, Mr. Steinert, Mr. Murphy and Miss Kempton, the Board found that on January 30, 1920, the petty cash account of the M. Steinert & Sons Company was increased by the sum of \$300 (from \$700 to \$1000), and that such petty cash account was kept at \$1000 through the remainder of the month of January and the month of February, 1920; that the check for \$300 referred to by the Finance Commission and stated by that Commission as being drawn to petty cash was not drawn to petty cash, but was, as a matter of fact, drawn to Miss Vernie L. Kempton, Cashier, and was not recorded as a disbursement because not regarded as a disbursement but a mere trans-

fer of funds from the bank to the petty cash drawer.

Mr. Steinert and Mr. Murphy have denied positively that Mr. Byrne was ever paid \$300 in cash as a part of this alleged transaction.

The Finance Commission has set forth as evidence of Mr. Byrne's receipt of \$300 in cash from the M. Steinert & Sons Company, Mr. Byrne's bank account showing that on January 31, 1920, he deposited \$275 in cash. It would appear to the School Committee that this entry was just as substantial evidence that the cash so deposited was received from Mr. O'Shea, as stated by him to the Finance Commission and to the School Committee.

In weighing the entire testimony and the records of this transaction, it appears to the School Committee that the Finance Commission in arriving at its conclusions has accepted the testimony of Mr. Byrne as against the directly contradictory evidence of Mr. Steinert, Mr. Murphy, Miss Kempton, and the records of the M. Steinert & Sons Company.

The Finance Commission has quoted a letter from M. Steinert & Sons Company to Mr. O'Shea under date of January 7, 1920, as follows:

"Dear Sir—We are pleased to advise you that we received your check (meaning check of City of Boston for his piano) of \$550 today in settlement of a Steinway grand No. 52034, and take pleasure in handing you our check for \$33.62, **being the difference between the amount you owe us, as shown by the enclosed receipts and the check of \$550.**

Wishing you a very happy New Year, we are,

Very truly yours,
M. STEINERT & SONS COMPANY."

The records of the M. Steinert & Sons Company show that receipts and disbursements from sales are kept wholly separate from personal accounts; that in the transactions covering the sale to Mr. O'Shea of two baby grand pianos, the acceptance by that company of Mr. O'Shea's used baby grand piano in part payment therefor, the cash payments on account, the amount received from the sale of Mr. O'Shea's concert grand piano 52034 to the City and the charges against him for repairs, regulation, etc., to the latter piano, and the cost of its removal to the Henry L. Pierce building, were kept entirely separate from his personal account and the loan transaction referred to above.

The records of the company show that the statement in the letter is correct as applied to such transactions, and was never intended to cover the loan transaction. The emphasis placed upon the words "being the difference between the amount you owe us" (by the use of italics in the printed report or underlineation as used in the original report), are alterations in the original letter made by the Finance Commission, are misleading to the public, unnecessary to any fair attempt to set forth the facts, and an injustice to the M. Steinert & Sons Company and to Mr. O'Shea.

The School Committee disagrees entirely with the Finance Commission that the letter referred to is conclusive evidence of the fact that Mr. O'Shea's indebtedness to the M. Steinert & Sons Company was entirely discharged and a contradiction of the testimony of Mr. Murphy and the records of the M. Steinert & Sons Company that Mr. O'Shea on that date still owed the M. Steinert & Sons Company the sum of \$300.

The School Committee believes that the Finance Commission has been led

into error in believing that the check for \$300 to Miss Kempton (increasing the petty cash account from \$700 to \$1000 on January 30, 1920), from the fact that it was not recorded as a disbursement, was evidence in support of Mr. Byrne's statement that it was payment of commissions to Mr. O'Shea.

The School Committee calls attention to the fact that M. Steinert & Sons Company knew that Mr. O'Shea was only one of an Advisory Committee of three. Its agents knew this from previous transactions with the School Committee. Its agents knew they had to satisfy Mr. Rafter and Mr. Drake as well as Mr. O'Shea upon the sale of pianos to the School Committee, and it is highly improbable that this company would pay commission to a minority number of such a board. We had evidence from Mr. Rafter in great detail as to what part he personally took in selecting pianos, and we find that he took a large part in testing tone and examining construction. The Board does not find the evidence substantiating the Finance Commission's findings, namely—"that in the matter of purchasing pianos especially, the Committee on Musical Instruments is guided largely by the Director of Music." Mr. Rafter especially is always very active and painstaking in the selection of pianos, and took a prominent part in testing tone.

The School Committee invites attention to the testimony of Mr. Byrne before the Finance Commission to the effect that Mr. O'Shea had told him "I think I ought to get ten per cent. on this sale." The report later states that referring to the sum of \$300 alleged to have been paid to the Director of Music as commissions. Mr. O'Shea testified "That this amount was more than he expected to receive"—the sale referred to of 19 pianos at \$300 each amounted to \$5700, ten per cent. of which sum would amount to \$570. It is difficult to reconcile this figure of the alleged satisfaction expressed by Mr. O'Shea upon the alleged receipt of \$300. Moreover, Mr. Byrne's testimony was to the effect that his understanding was that Mr. O'Shea up to the time had received \$25 commission for each piano sold to the city. As pianos had never been sold at prices as high as \$250 each up to the time referred to, the \$25 commission alleged by Mr. Byrne was more than ten per cent. It is also difficult to reconcile this testimony of Mr. Byrne's with his statement that Mr. O'Shea had said to him, "I think I ought to get ten per cent. on this sale." In other words, according to Mr. Byrne's own testimony, the time when the Director of Music was receiving more than ten per cent. commission (\$25 each on the pianos which up to that time had never cost over \$225) he stated that he ought to get ten per cent., and when he received \$300 after a sale amounting to \$5700 he stated that it was more than he expected to receive.

In his testimony, in explanation of securing the loan and his need of money at the time, Mr. O'Shea stated that Mr. Byrne was a director in the Prudential Trust Company, that he had frequently boasted of his financial connections, and had offered him financial assistance whenever he might be in need of such assistance. Mr. O'Shea further stated that the reason he went to Mr. Byrne for the loan was because of the fact that he was a director in the above trust company, and while the check he received was signed by the M. Steinert & Sons Company, he considered that Mr. Byrne was directly responsible for the loan, and that he was directly

responsible to Mr. Byrne for the amount of the loan.

The School Committee finds itself in complete disagreement with the Finance Commission in its conclusions on this transaction. The Finance Commission has accepted the conflicting, illogical, and uncorroborated testimony of one man, Mr. William A. Byrne, as against the testimony of Mr. O'Shea, Mr. Steinert, Mr. Murphy and Miss Kempton, and the evidence of the records of the M. Steinert & Sons Company. The School Committee is unable to reach such conclusions from the weight of the testimony, and believes that the transaction was a loan to Mr. O'Shea, and that the loan was paid and his obligation to M. Steinert & Sons Company discharged.

The School Committee has gone in detail into the evidence before it both as it affects M. Steinert & Sons Company as well as Mr. O'Shea, and we feel it is our duty to state that we find no evidence that M. Steinert & Sons Company in its financial dealings with the City of Boston, through the School Committee, has acted otherwise than honorably and fairly.

3. AWARD OF BID MADE TO THE SCHOOL COMMITTEE FOR UPRIGHT PIANOS IN APRIL, 1920.

The report of the Finance Commission describes in some detail the purchase of nine upright pianos in April of the current year.

Three bids were received—M. Steinert & Sons Company on the Berkshire upright piano for \$300, Charles S. Norris on an unnamed piano for \$300, and Chickering Sons on its Brewster piano at \$290. The Advisory Committee recommended the purchase of the Berkshire piano at \$300 offered by the M. Steinert & Sons Company because of its superior quality.

The Finance Commission has not offered any evidence to show that the decision was unwarranted or that Mr. O'Shea's participation in the recommendation or his conduct in the matter were in any way at fault. The School Committee is unable to see why the transactions referred to were brought to your attention.

While the award of the nine pianos were not made to the lowest bidder (a difference of \$10 on each piano existed between the lowest and the highest bid) as the Finance Commission has pointed out, the Business Agent, in accordance with the City Charter requirements has the right to reject any and all bids. The same evidence was before the Finance Commission that was before this Board that an extended hearing was given the unsuccessful bidder—Chickering & Sons—before Mr. Keough; that Mr. Rafter speaking for the Advisory Committee gave full explanation why the Berkshire piano offered by M. Steinert & Sons Company was selected. Mr. Keough made extended memorandum at the meeting of the complaint of Chickering & Sons, and the answers of Mr. Rafter. The explanation may not have been altogether satisfactory to the representatives of Chickering & Sons, but this Board fails to find any charge by the Finance Commission that the explanation of Mr. Rafter of the Advisory Committee was not honestly made and that Mr. Rafter and his associates on the Advisory Committee were not endeavoring to obtain for the School Committee the best pianos for the money.

The School Committee finds nothing in this charge detrimental to Mr. O'Shea or requiring further attention on its part.

CONCLUSIONS.

1. The School Committee finds that Mr. O'Shea is guilty of a violation of Section 8 of the City Charter in that he did not disclose to the Mayor, the City Council, and the Finance Commission his interest in the piano No. 52034 offered for sale to the city by the M. Steinert & Sons Company.

The School Committee believes that while ignorance of the law is no excuse for its violation, Mr. O'Shea was ignorant of the law, and guiltless of any deliberate intent to violate the law.

The School Committee believes, however, that while Mr. O'Shea has stated that he concealed his interest in the piano from the Advisory Committee on Musical Instruments for the purpose of securing an unbiased opinion from that committee his action was culpable, and he should have disclosed his interest in the piano; that he should have taken no part whatever in the action of the Advisory Committee on Musical Instruments on passing upon the quality of the piano in its sale to the city.

2. The School Committee finds that the weight of the evidence is overwhelmingly against the charge that Mr. O'Shea received commissions on the sales of pianos to the city, but finds that he did secure a loan from the M. Steinert & Sons Company through its sales manager, William A. Byrne, and that he repaid this loan.

The School Committee believes, however, that Mr. O'Shea's action in borrowing money from either the M. Steinert & Sons Company or its sales manager was improper and censurable; it does not believe that any officer or representative of any city department should place himself under any obligation whatever to an organization transacting business with the city, when his duties make it necessary for him to take part in such transactions.

3. The School Committee finds no defect in Mr. O'Shea's conduct in the purchase of the nine pianos referred to in April of the current year in the evidence submitted by the Finance Commission, nor does it find that the Finance Commission makes any charges in this matter, in consequence of which it finds it unnecessary to give the matter further consideration.

The School Committee believes that had the Finance Commission conducted its inquiry in such a manner as to permit Mr. O'Shea and M. Steinert & Sons Company, either directly or through counsel, to submit the evidence presented to the School Committee, it would not have reached the conclusions which it has submitted to Your Honor, and published broadcast through the newspapers doing substantial and permanent injury to the reputation of men who have lived long in the community and were entitled to a fair trial. The School Committee believes that the Finance Commission in its investigations in this case has reached erroneous conclusions as it did in January, 1915, in unjustly accusing a janitor in the service of the School Committee, in which case in a fair trial, the witnesses demonstrated themselves to be unreliable and their testimony unworthy of consideration both in the opinion of the School Committee and of the counsel of the Finance Commission who attended the entire trial.

In the present case the alleged charges under the second caption of the report as to Mr. O'Shea's receiving commissions from M. Steinert & Sons Company seem to the School Committee result in insinuation of

wrong doing rather than a direct finding of such wrong doing, and for that reason its procedure of giving publicity to the charges without trial is even more blameworthy than it would have been had the Finance Commission in its report shown that it had been absolutely convinced of the truth of such charge.

The School Committee believes that the Finance Commission will continue to make such serious mistakes so long as it continues its investigation in accordance with its practice in the present case, as in the past. It does not believe it possible for the Finance Commission, or any other board or individual, to investigate charges of this kind without making clear to the person so charged the nature of the charges, and giving him an opportunity to present evidence either directly or indirectly, or through counsel, in his own defence, and in contravention to the testimony submitted against him which may be frequently, and sometimes admittedly, given with a view to injuring the person charged.

The School Committee believes that the Finance Commission should either investigate each case in the manner suggested, or should submit its evidence to Your Honor the Mayor or officer of the Board charged with the responsibility of trying a case—in the latter event the matter should not be sent broadcast to the press until the case was tried and the person charged given a chance to present his case, unless the Commission wishes to risk the chance of doing irreparable injuries to the reputation of innocent persons.

In view of the findings of the School Committee, as incorporated in this report, as to the selling of his own piano to the City of Boston and his action in borrowing money from M. Steinert & Sons Company, through Mr. Byrne, although the School Committee finds him guiltless of any fraudulent intent, it concludes and finds it inadvisable that Mr. O'Shea should longer serve as a member of the Advisory Committee on the Purchase of Musical Instruments for the School Committee.

RECOMMENDATIONS.

The School Committee recommends the following:

1. That Your Honor transmit copy of this report to the Finance Commission.

2. That Your Honor recommend to the Finance Commission that it change its procedure and adopt one of the two following:

(a) Whenever evidence of wrongdoing is brought to its attention, the Finance Commission notify the person so charged of the charges, giving the person so charged a hearing and the right to be represented by counsel, and to present such evidence as he may have to refute the charges, and the privilege of cross-examining the witnesses presenting the charges, as well as the opportunity to examine all books and papers included in the evidence against him, upon the conclusion of the hearing the Finance Commission to report its findings and conclusions, but prior to such report none of the evidence or charges to be given publicity.

(b) Whenever evidence of wrongdoing is brought to its attention, the Finance Commission to notify Your Honor or the Board or officer in charge of the activity in which the alleged wrongdoing has occurred of the evidence it has secured, and request a hearing, the accused to be notified and allowed representation by counsel, the Finance Commission to present its evidence, counsel on both sides to be allowed full power

of examination and cross-examination, and Your Honor or the board in charge to report its findings and conclusions, but prior to such report none of the evidence or charges to be given publicity.

Miss Curtis concurs in the report of the School Committee so far as it deals with the charges against Mr. O'Shea, but so far as the report enters into criticism of the procedure of the Finance Commission, she does not deem it part of the matter to be considered at this time.

Respectfully submitted,

RICHARD J. LANE,

Chairman.

FREDERICK L. BOGAN.

MICHAEL H. CORCORAN.

FRANCES G. CURTIS.

CHARLES S. O'CONNOR.

Members of the School Committee of the City of Boston.

ADJOURNMENT.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor, with the exception of those dated August 13 to 17, inclusive, which were approved by the Acting Mayor. Those awarded without public advertisement are specially indicated. Week ending August 19, 1920.

SCHOOLHOUSE DEPARTMENT.

On August 17 to George L. Slack Company for installation of platform hydraulic ash hoist for the Bigelow School. Bids opened on August 6:

George L. Slack Company, \$1,455.87; Hub Steel and Iron Works, \$2,377.

On August 17 to Thomas H. Hanlon for installing permanent partitions on the first and second floors in the High School of Commerce. Bids opened August 13:

Thomas H. Hanlon, \$2,029; Walter Curley, \$2,450.

PUBLIC WORKS DEPARTMENT.

On August 11 to Winnisimmet Ship Yard, Inc., and the Groton Iron Works as per following communication:

BOSTON, August 11, 1920.

To the Honorable the Mayor:

I respectfully request permission to award a contract to the Winnisimmet Ship Yard, Inc., the lowest bidder, for the construction of one ferryboat at a cost of \$335,000, and to the Groton Iron Works, Groton, Conn., for one ferryboat at a cost of \$379,950.

The following bids were received on July 20, 1920, after public advertisement:

	Item A, One Boat.	Item B, Two Boats.	TIME OF COMPLETION.	
			A.	B.
			First Boat, Months.	Second Boat, Months.
Bath Iron Works, Inc., Bath, Me.	(3) \$387,000	(2) \$740,000	9	10 $\frac{1}{2}$
Bethlehem Shipbuilding Corporation, Bethlehem, Pa.	(7) 530,000	1,030,000	10	11
Downey Shipbuilding Corporation, New York City.	(5) 437,500	(5) 850,000	6	7
Groton Iron Works, New York City.	(2) 379,950	(3) 743,840	8	9
The Pusey & Jones Company, Wilmington, Del.	(4) 421,245	(4) 796,541	8	9
Tebco Yacht Basin Company, New York City.	(6) 453,678	(6) 874,000	10	11
Winnisimmet Ship Yard, Inc., Chelsea, Mass.	(1) 335,000	(1) 655,000	11	15

My reason for making this recommendation is that the Groton Iron Works agrees to build one boat in eight months and the Winnisimmet Ship Yard, Inc., would require fifteen months for building the second boat.

The present condition of two of the East Boston ferryboats, in my opinion, would not justify our going through two more winters, as would be necessary if the bid of the Winnisimmet Company for the second boat was accepted. This matter has been given careful consideration by the most expert shipbuilders that it has been possible for us to obtain, and they agree with this recommendation.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

WITHOUT ADVERTISING.

The Acting Mayor has approved the following contracts awarded without advertising; requests of heads of depart-

ments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

Coal.

On August 13 to the Burton-Furber Coal Company as per following communication:

BOSTON, August, 7, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising the same, to the Burton-Furber Coal Company for furnishing to the Boston City Hospital 600 tons of semibituminous coal to be delivered in lighter alongside wharf, East Boston, at a price of \$12.50 per gross ton, plus demurrage charges, which will probably be considerably less than \$1 per ton.

In view of the fact that the canal leading to the City Hospital is being dredged, it is imperative that we secure enough

coal to tide the hospital over until such time as the dredging of this canal is completed. In view of this fact, I respectfully request that the permission asked for be granted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Coal.

On August 17 to the Coastwise Coal Company as per following communication:

Boston, August 13, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising the same, to the Coastwise Coal Company for furnishing approximately 200 tons of semibituminous coal at a price of \$16.25 per gross ton f. o. b., East Boston, to be delivered to Long Island. This is an emergency case as coal which had been contracted for Long Island had to be transferred to Deer Island as the latter institution was practically out of coal. In view of the transfer from Long Island to Deer Island it is necessary at this time that coal be supplied at once to Long Island, and this permission is asked to take care of the needs of the Infirmary Department at Long Island.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Bridge Service).

An addition, amounting to \$150, on contract with John McCourt Company for building Clarendon Street Bridge, on account of removing so much of the brick wall within the street area as is necessary to permit the building of the foundation of the north abutment. Original contract, \$117,308; total additions, \$150; contract as standing, \$117,458.

An addition, amounting to \$25, on contract with Smith & Lovett Company for furnishing and installing navigation lights and appliances for same on Summer street, Dorchester avenue, Warren and Congress Street Bridges, on account of furnishing 2-angle or tee-iron braces and straps. Original contract, \$2,400; total addition, \$25; contract as standing, \$2,425.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$67, on contract with V. Grande for sewerage works in Rockdale street, Dorchester, on account of furnishing hand pump and necessary equipment; pumping water from sewer trench near Savin Hill Playground and building temporary earth dam, all due to the flooding of sewer trench from pond on Savin Hill Playground after this contract was awarded. Original contract, \$2,375; total addition, \$67; contract as standing, \$2,442.

Additions, amounting to \$1,375, on contract with William Barrett & Co. for sewerage works in Blackstone street, between Haymarket square and Clinton street, city proper, on account of cutting out and bracing old 4-foot by 4-foot 6-inch wooden sewer partly in and partly out of trench, between station O+10 and

station 1+30; cutting out old piles and other timbering not a part of old sewer between station O+05 and station 4+0; drilling and breaking out old reinforced concrete; and cutting out old timbers, piles, etc., in tunnel across Hanover street. Original contract, \$43,899.55; total additions, \$3,880; contract as standing, \$47,779.55.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$16.80, on contract with the C. & R. Construction Company for laying, relaying and removing water pipes in D, Claffin, C and unnamed streets, South Boston, and Eliot street, city proper, on account of additional material in C street, from Danby street to Claffin street, not included in extra work order. Original contract, \$13,697.50; total additions, \$436.02; contract as standing, \$14,133.52.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$195, on contract with C. S. Cunningham & Sons Construction Company, dated November 26, 1919, John Cheverus District School, viz., the sixteen, eighteen and twenty-two inch horizontal vent ducts to be flattened about 6 feet back from their entrance into the vertical uptake through the roof, to pass under the reinforced concrete beams forming the ventilator opening in the roof construction on both sides of the central corridor. Original contract, \$134,950; total additions, \$3,740.35; total deductions, \$2,872; contract outstanding, \$135,818.35.

ARTIFICIAL STONE SIDEWALKS.

Boston, August 10, 1920.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Antonio Paratore, 44 Elmore street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (\$1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved August 11.

It is the duty of the Finance Commission, under the charter amendments, to investigate any and all matters relating to matters of administration affecting the City of Boston or any department thereof. Having made an investigation in the performance of this duty and re-

ceived testimony under oath, it would seem without question that any department head of the City of Boston would welcome the report of such an investigation when it concerned a city employee who had deceived his superiors and at the same time violated a criminal provision of the city charter.

It is to be regretted that the School Committee resents having the Finance Commission, in the performance of this statutory duty, call to the attention of the public specific acts of the Director of Music in the public schools that were in violation of the city charter and by the provisions of that charter made criminal.

The School Committee, without power to administer oaths or compel attendance of witnesses or the production of books and papers, attempted to reinvestigate the matters covered in the Finance Commission's report and requested the Finance Commission to submit evidence in substantiation of its findings.

The Finance Commission thereupon offered to assist the School Committee in the only way permitted it by law, namely, by furnishing it with a list of the witnesses and their addresses and with a copy of the stenographic record of the evidence of those witnesses under oath. The School Committee, however, did not see fit to avail itself of either of those offers but proceeded with a hearing taking such testimony as was offered by the two city officials involved, their relatives and employees.

The School Committee, therefore, heard evidence, favorable to the defense only, and yet on such evidence came to the same conclusion as the Finance Commission, namely, that both Mr. O'Shea and Mr. Steinert violated a criminal section of the charter amendments and that in addition Mr. O'Shea, assisted by Mr. Steinert, worked a deceit upon the School Committee, in the sale of his own piano to the City of Boston, thereby rendering himself unfit, in the opinion of the School Committee, to serve as a member of the Advisory Committee on the Purchase of Musical Instruments.

The School Committee, having properly found that Mr. O'Shea had rendered himself unfit because of this deceit to serve upon the Advisory Committee on the Purchase of Musical Instruments for the public schools, and has removed him from that office, nevertheless has taken no action to discharge Mr. O'Shea from his position as Director of Music of the school children of the city.

This course of conduct of the School Committee follows closely its recent action of reinstating a teacher who, after a hearing on charges preferred by the superintendent in January of this year, was forced to resign his position by the unanimous opinion of the then school board and indicates that the present School Committee believes in the policy of retaining unfit persons in the school system.

The Finance Commission regrets that the School Committee's report could not be given wider publicity in full. It reveals the committee in an angry mood and confirms the impression that the School Committee does not like publicity in its affairs. It recommends that every person charged with an offense be shielded from publicity. It even suggests a method whereby the Finance Commission would be of no service to the city by recommending that the Finance Commission refrain from giving publicity to its findings.

It is also to be regretted that the School Committee charged with the education of the public school children of the City of

Boston should deem it more important to exceed its authority by making recommendations for the conduct of the Finance Commission than to perform the duties of its own office, made so plain in the report of the Finance Commission to your Honor dated June 14, 1920.

The Finance Commission believes that there should be more publicity given to the conduct of the schools than is now given in order that the citizens of Boston may know the present School Committee's standards and whether the present conduct of the Boston schools is for the benefit of the school children or for some other interests.

While your Honor has no primary duty in regard to Mr. O'Shea yet you have a duty to perform, as pointed out in the commission's report under date of June 14, 1920, with regard to the other city official involved with Mr. O'Shea, namely, Mr. Alexander M. Steinert, president and treasurer of the M. Steinert and Sons Company.

When Mr. Steinert appeared before this commission and was confronted with the evidence of his connection with the sale of the O'Shea piano to the City of Boston he offered to resign his position as Art Commissioner.

The School Committee, having failed to do its obvious duty in this case, the Finance Commission believes that your Honor should not seem to indorse this failure of the School Committee by delaying longer in asking for the resignation of Mr. Steinert.

The Finance Commission recommends that if your Honor has not already transmitted a copy of the Finance Commission's report of June 14, 1920, to the District Attorney of Suffolk County, that you should not delay longer in doing so.

Respectfully submitted,

THE FINANCE COMMISSION,

by MICHAEL H. SULLIVAN,
Chairman.

REPORT OF FINANCE COMMISSION ON PAVING OF CONANT, PARKER AND SMITH STREETS.

BOSTON, August 18, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR,—The Finance Commission is in receipt of a copy of communication to your Honor from the Commissioner of Public Works commenting on the recommendations of this commission in its report of August 6, 1920, on the surfacing of Conant, Parker and Smith streets, Roxbury.

The commission desires to emphasize certain established facts covered in its report which have apparently escaped the notice of the Commissioner of Public Works. These facts are as follows:

1. A contract was made on September 19, 1919, between the Bermudez Company and the Commissioner of Public Works, for the surfacing of Conant, Parker and Smith streets, Roxbury.

2. The Finance Commission on October 31 and December 5, 1919, reported to your Honor that this contract was not being performed in accordance with the specifications and that the city's interests were suffering.

3. In the early spring of this year a portion of the surface of Smith street broke up to such an extent that the street became unsafe for public use and was closed to traffic by the Public Works Department.

4. At the present time a portion of the surface of Smith street has been removed because of its unfit condition.

These four points are undisputed. Two of them are matters of public record. The other two can be verified by an inspection. In six months' time this street has begun to go to pieces and instead of safeguarding the city's interests in the matter, the Commissioner of Public Works is endeavoring to establish a cause for the condition of the street other than the sufficient causes already pointed out and which if established would permit the contractor to avoid responsibility under his contract. Further facts not in dispute and taken from the records of the asphalt tester in the Public Works Department and the records of the consulting engineer of the Finance Commission, both made at the time the work was being done on these streets, are as follows:

1. Materials inferior to requirements of the contract were used.

2. The streets were not prepared to receive the surfacing as required by the contract.

3. The work was carried on in rainy weather contrary to the provisions of the contract.

4. No city inspector was present when the work was visited by the consulting engineer of this commission.

It would seem, therefore, in the face of these established facts that if your Honor does not take the necessary steps immediately to have this contract, which was so flagrantly violated, made good by the contractor, or by the surety upon its bond, without additional cost to the city and without tying it up with any other contract between the city and this contractor, there can be little hope for proper street construction in this city.

The Commissioner of Public Works informs your Honor that the paving laboratory of the Public Works Department has not been closed but that there has been no chemist employed in the laboratory. The recommendation of this commission to your Honor was that

The paving laboratory be reopened under the charge of a competent testing engineer or chemist and equipped for making all necessary tests of materials.

To have the paving laboratory under the charge of a person without the necessary technical knowledge is worse than having no laboratory at all.

The Commissioner of Public Works fails in his understanding of the kind of man who should be in charge of the paving laboratory. On August 29 of last year he appointed a man as asphalt tester who had been employed for periods aggregating ten years as street foreman by three of the four companies that furnish about all of the asphalt pavement laid in the City of Boston. His last employer, prior to entering the city's service, was the Bermudez Company. It was this man who was in charge of the paving laboratory when Conant, Parker and Smith streets were surfaced by the Bermudez Company, yet even he reported to the Commissioner of Public Works that from such mechanical tests as he made the quality of the material used on those streets, in some instances, was inferior to the requirements of the contract, and to far as can be ascertained the Commissioner of Public Works failed to take the action then required of him. A paving laboratory however skillfully conducted is of no use unless its findings are acted upon.

In addition, therefore, to the recommendations made to your Honor on this

matter in the report of August 6, 1920, the commission further recommends:

1. That the matter of enforcing the city's rights and safeguarding its interests under the contract between the Public Works Department, representing the City of Boston, and the Bermudez Company, of September 19, 1919, for the surfacing of Conant, Parker and Smith streets, be no longer delayed.

2. That in enforcing the city's rights under this contract with the Bermudez Company no other contract of any kind be entered into with the Bermudez Company.

3. That unless the matter is speedily corrected by the Bermudez Company without further cost to or contract by the City of Boston, the matter be turned over to the Law Department for legal action.

4. That the paving laboratory be maintained in charge of a competent chemist or engineer and not an asphalt tester.

5. That the Public Works Department be instructed to get reports from the paving laboratory when properly organized in time to be of use and to act upon those reports before the material tested has been laid on the street.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

PROPOSALS FOR GRANITE BLOCK PAVEMENT IN ALBANY STREET, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for granite block pavement in Albany street, from Broadway to about 75 feet south of Troy street, city proper. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of twelve thousand (\$12,000) dollars to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Granite Block Pavement, Albany Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Tuesday, August 31, 1920, with a certified check for twenty-five hundred (\$2,500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m. President MORIARTY in the chair and all the members present.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council the Mayor submitted the following appointments for terms ending April 30, 1921, viz.:

(1) Albert Chester Norris, 23 Orkney road, Brighton, Mass., to the position of Constable.

(2) Russell A. Grant, 10 High street, Boston, to be a Weigher of Goods.

(3) Charles Herbert Boyden, care of White, Son Company, 530-540 Atlantic avenue, Boston, as a Measurer of Leather.

Laid over under the law.

VETO—CLERICAL ASSISTANCE,
MUNICIPAL COURT.

The following was received:

City of Boston,
Office of the Mayor, July 15, 1920.

To the City Council:

Gentlemen,—I am returning herewith without my signature the order passed by the City Council on July 12 allowing the sum of \$1,500 for clerical assistance in the office of the clerk of the Municipal Court in the City of Boston.

All city departments operate, as you know, under a segregated budget and except in extreme emergencies each department should adhere to the principle of the segregated budget. I am informed that the sum which would be provided in this order would be used for salary increases. This is a violation of the principle of the segregated budget and I am opposed to it.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—SALARY OF PROBATION OFFICER.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council passed on July 12 "that the salary of Reginald H. Mair, probation officer of the Municipal Court of the Dorchester District of Boston, be determined by the justice of said court at the rate of \$2,200 per annum beginning January 1, 1920."

On July 2, 1919, and again on February 11, 1920, I indicated my disapproval of increases in the salaries of probation officers. This disapproval was based on the recommendation of the Finance Commission. I am today, however, requesting the Finance Commission to review its previous decision on the salaries of probation officers, and I am vetoing the present order pending further advice from the Finance Commission. When this advice is received I shall be glad to take this matter up again.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—THOMAS J. CONNOLLY SQUARE.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the order of the City Council passed on July 19 to give to the open space at the junction of Columbus avenue and Tremont street the name of Thomas J. Connolly square. I am vetoing this order, as its passage would effect a change in the present name of this open space which is now known as William Pynchon square and I have previously indicated my disapproval of such changes.

I would again suggest that in selecting places to be named after Boston men who were killed in the war, the City Council confer with the Board of Street Commissioners.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—SATURDAY CLOSING OF CITY
HALL.

The following was received:

City of Boston,
Office of the Mayor, August 3, 1920.

To the City Council:

Gentlemen,—I am herewith returning without my signature the amendment of section 10, chapter 3, of the Revised Ordinances passed by the City Council on July 26 to effect the closing of City Hall during the entire year at 12 o'clock on Saturdays.

The diminution of the working hours of city employees necessarily means an increase in the cost of the service for which the city is paying. I do not believe that such increased cost at the present time is economically sound and it is for this reason that I am vetoing the proposed amendment to the ordinances.

Respectfully yours,
ANDREW J. PETERS, Mayor.

REAL ESTATE OWNED BY CITY.

The following was received:

City of Boston,
Office of the Mayor, July 29, 1920.
To the City Council:
Gentlemen,—In compliance with your request of July 19 I am herewith transmitting to you a list compiled by the Assessing Department of all the real estate owned by the city that is not at present being used for strictly municipal purposes.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Assessing Department, July 23, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Complying with your request of May 27 regarding order of the City Council calling for list of all the real estate parcels owned by the city that is not being used for municipal purposes, with assessed valuations and whether vacant or built upon, I submit herewith tabulation of the parcels in question.

We have applied to the various department heads for a list of all the city property, indicating against each parcel whether it was being used for municipal purposes or not, and, as a result of the questionnaire sent out, we inclose list of real estate not used or only partially used for municipal purposes, together with 1919 valuations.

Respectfully,
EDWARD T. KELLEY, Chairman.

PARKING SPACE, CHARLES STREET.

The following was received:

City of Boston,
Office of the Mayor, July 29, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a communication received from the Street Laying-Out Department in connection with the order of the City Council requesting the Street Laying-Out Department to report on the advisability of taking part of the sidewalk on the Common side of Charles street for parking space.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Street Laying-Out Department, July 26, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—With respect to the order of the City Council requesting this Board to report on the advisability of taking part of the sidewalk on the Common side of Charles street for a parking station, I am directed to say that this Board is informed that it is the Park Department's intention to construct a paved sidewalk on the Common along Charles street. This is to take the place of the sidewalk in Charles street, which is to be later abandoned. When the construction of this sidewalk is finished the Board intends to pass a traffic order designating the Common side of Charles street as a parking space.

Respectfully,
JOSEPH F. SULLIVAN, Secretary.

INVITATION TO COUNCIL.

The following was received:

City of Boston,
Office of the Mayor, August 3, 1920.
To the City Council:
Gentlemen,—The National Grange of the Order of Patrons of Husbandry will hold their 54th Annual Session at Mechanics Hall, Boston, from November 12 to 19, 1920. At ten o'clock on Friday, November 12, the convention will hold exercises during which degrees will be conferred on a large number of people, and it is my pleasure to inform you that the Grange extends to the members of the City Council a cordial invitation to be present on this occasion.

Respectfully yours,
ANDREW J. PETERS, Mayor.

STATEMENT CONCERNING "GREAT WHITE WAY."

The following was received:

City of Boston,
Office of the Mayor, July 28, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a statement just received from the Commissioner of

Public Works in connection with the order of the City Council requesting the Public Works Department to install the so-called "Great White Way" system of lighting on Tremont street, from Dover street to Roxbury Crossing.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Public Works Department,
July 26, 1920.

To the Honorable the Mayor:

I return herewith order of the City Council, "That the Commissioner of Public Works be requested, through his Honor the Mayor, to install the so-called 'Great White Way' system of lighting on Tremont street, from Dover street to Roxbury Crossing."

This matter has been taken up with the Edison Company and I find that it would cost about \$12,125.60 to install these lamps. There is no money in the budget this year for this type of lighting.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

NEEDED MONEY FOR HOSPITAL FACILITIES.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.

To the City Council:

Gentlemen,—In accordance with the request of the City Council of July 26, I am herewith transmitting a report from the City Hospital Trustees relative to the amount of money needed by them to increase the facilities of the hospital.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Hospital Department, August 6, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—The trustees are in receipt of your letter of August 5, 1920, relative to the order passed by the City Council on July 26, as follows: "Ordered, That the City Hospital Trustees be requested, through his Honor the Mayor, to submit to the City Council at its next meeting an estimate as to the amount of money needed by them to increase the facilities of the hospital and to make necessary improvement in same, and as to whether or not the sum of \$200,000 is sufficient, necessary or desirable for their immediate use."

If you will remember, we have called to your attention and to that of the Council as well, that the urgent needs of the hospital were as follows:

1. House officers' building . . . \$150,000
2. Thorndike Memorial Building . . . 150,000
3. Pathological building . . . 50,000

It is apparent, therefore, that the amount specified in the above order would not be sufficient to cover these three improvements.

At another time the trustees hope to have the opportunity of laying before your Honor and the Council plans for the further development and expansion of the Boston City Hospital.

Very respectfully yours,

JOSEPH P. MANNING,
President, Board of Trustees.

Referred to the Executive Committee.

OPERATION OF HYDE PARK RAILWAY LINES.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.

To the City Council:

Gentlemen,—I am transmitting herewith an order for the appropriation of \$50,000 to meet the expenditures authorized or to be authorized by section 9, chapter 613, Acts of 1920.

The act above referred to is one to provide for the public operation of the street railway lines in the Hyde Park district of the City of Boston by the trustees of the Boston Elevated Railway Company as a corporation under the name of the Hyde Park Transportation District.

Nothing can be done under this act which will relieve the people of Hyde Park until this appropriation is made, so as to provide the money required under the provisions of section 9, which authorizes the raising of money by taxation in excess of any tax limit imposed by law.

I respectfully recommend the passage of the order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the sum of fifty thousand (50,000) dollars be and the same is hereby appropriated to meet the expenditure authorized or to be authorized by section 9 of chapter 613 of the Acts of 1920, the same to be raised by taxation upon the polls and estates taxable in the City of Boston, and that all orders heretofore passed by the City Council relating to interest on taxes apply to the taxes herein provided for.

Referred to the Executive Committee.

Referred to the Executive Committee.

FENCING, GRADING, ETC., PORTSMOUTH
STREET PLAYGROUND.

The following was received:

City of Boston,

Office of the Mayor, August 9, 1920.

To the City Council:
Gentlemen,—I am transmitting herewith communications from the chairman of the Board of Park and Recreation Commissioners relative to charging the cost of grading and equipping the playground at Portsmouth street to the appropriation for Portsmouth Street Playground, Locker Building and Shower Baths. I respectfully recommend the passage of the accompanying order.

Respectfully,
ANDREW J. PETERS, Mayor.

City of Boston,

Park and Recreation Department,
August 3, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—The locker building at the Portsmouth Street Playground has now been completed. The original appropriation was \$25,000. There is a balance of approximately \$5,000.

This Board requests permission to charge the cost of the necessary fences, grading and equipping the playground to the balance of the original appropriation, as no further money will be required for the erection of the building.

Very truly yours,
JAMES B. SHEA, Chairman.

Ordered, That the expense of building abelter, fencing, grading, etc., at the Portsmouth Street Playground be charged to the appropriation for Portsmouth Street Playground, Locker Building and Shower Baths.

Referred to the Executive Committee.

SALARY INCREASE, SOLDIERS' RELIEF
COMMISSIONER.

The following was received:

City of Boston,

Office of the Mayor, July 29, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a revision of section 5 of chapter 3 of the Revised Ordinances which will increase the salary of the Soldiers' Relief Commissioner from its present rate of \$3,500 per annum to \$5,000 per annum.

The present incumbent is a veteran of the Civil War. He has been in the employ of the city since 1895, and has been in his present position for the past nineteen years. The recent war has greatly increased the work of the department, and I therefore feel that the increase in salary suggested by me is justified.

Respectfully yours,
ANDREW J. PETERS, Mayor.

An Ordinance Concerning the Salary of the
Soldiers' Relief Commissioner.
Be it ordained by the City Council of Boston, as follows:

Section 1. Chapter three of the Revised Ordinances of nineteen hundred and fourteen is hereby amended in section five in the clause establishing the salary of the soldier's relief commissioner by striking out the words "thirty-five hundred" and inserting in place thereof the words "five thousand."

Section 2. The salary of five thousand dollars to be received by John E. Gilman, the present soldiers' relief commissioner, shall be allowed from August first, nineteen hundred and twenty.

Referred to the Committee on Ordinances.

SALE OF MATERIAL, ETC., DEER ISLAND.

The following was received:

City of Boston,

Office of the Mayor, August 5, 1920.

To the City Council:
Gentlemen,—I am herewith transmitting a communication from the Penal Institutions Commissioner relative to the sale of certain old material, located at Deer Island, and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,

Penal Institutions Department,
August 4, 1920.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—Permission is respectfully asked for the sale of scrap iron, scrap lead, copper, zinc, barrels and other junk located at Deer Island, to an amount not to exceed \$2,500.

Yours respectfully,
THOMAS C. O'BRIEN, Commissioner.

Ordered, That the Commissioner of Penal Institutions be and hereby is authorized to sell, after due advertisement, a quantity of scrap iron, scrap lead, copper, zinc, barrels and other junk located at Deer Island, to an amount not to exceed \$2,500.
Referred to the Executive Committee.

RETIREMENT OF MARY RING.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting a request for the retirement of Mary Ring, a cleaner employed at the City Hospital. It is necessary to have an order of the City Council on this retirement, as the applicant has been employed only seventeen years. I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special

Acts of 1915, Mary Ring, employed as a cleaner at the Boston City Hospital.
Referred to the Executive Committee.

EXPENDITURE OF PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1920.
To the City Council:
Gentlemen,—I am attaching a communication from the Commissioners of the Park and Recreation Department relative to appropriations from the income of the Parkman Fund, and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Park and Recreation Department, August 4, 1920.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—At a meeting of the Board of Park and Recreation Commissioners held Tuesday, August 3, 1920, it was voted to ask his Honor the Mayor to request the City Council to appropriate from the income of the Parkman Fund the following amounts for the purposes stated below:

Referred to the Committee on Parkman Fund.

POLICE STATION SITE, MILK STREET.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.
To the City Council:
Gentlemen,—I am herewith transmitting an order for the appropriation of the sum of \$89,000 for the purchase of the property at the corner of Milk and Sears streets as a site for Police Station 2. I am also transmitting a copy of a letter which I have received this morning from the Police Commissioner in connection with this site.

It is because of the Commissioner's letter that I am again recommending that the City Council take favorable action on the proposed site on Milk

street. The architect has gone over the whole situation very thoroughly with the Police Commissioner, and the plans which have been prepared show beyond any shadow of a doubt that the Hawley place site is absolutely not only unsuited for the purpose for which it was purchased, but that it could not possibly be used in view of the needs of the Police Department.

I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Police Department, August 9, 1920.
Hon. Andrew J. Peters,

Mayor of Boston:
Dear Sir,—Having thoroughly and carefully gone over the matter, I beg to advise you that my requirements for a structure that will properly house Station 2, the traffic division and the fifty-eight hundred (5,800) square feet.

It is obvious that the Hawley place site, having a ground area of but thirty-eight hundred and sixty-two (3,862) square feet, does not meet this requirement. As the Milk street site appears to have a ground area of five thousand seven hundred and sixty-nine (5,769) square feet, it may, by careful planning, be made to do. As indicated in former correspondence with you, I, of course, prefer the Milk street site.

Very truly yours,

E. U. CURTIS,
Police Commissioner.

Ordered, That the sum of \$89,000 be and the same is hereby appropriated for the purchase of a new site for Police Station 2, the same to be met from the unappropriated cash remaining in the treasury January 31, 1920.

Referred to the Committee on Finance.

VARIOUS DEPARTMENT TRANSFERS.

The following was received:

City of Boston,

VETO—INSTALLATION OF SPRINKLERS. LONG ISLAND.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.
To the City Council:
Gentlemen,—I am herewith returning without my signature the order passed by the City Council authorizing the issuance of bonds to provide the sum of \$105,000 for the installation of a sprinkler

system and other improvements at the Long Island institutions, this order having been substituted for the one submitted by me on July 12 recommending the transfer of the sum of \$105,000 for this purpose from the appropriation for a new ferryboat.

I have two reasons for vetoing the order which is returned herewith. In the first place, the appropriation of \$400,000 for a new ferryboat which was made from cash in the treasury will never be spent while I am Mayor for a ferryboat as East Boston does not need the third new boat which this sum would provide. In the second place, it is a most shortsighted policy to have the city go out at the present time when interest rates are so high and borrow a sum which it already has in its treasury and which can be used without any additional cost to the taxpayers. It is most unfair to the taxpayer as a whole to ask them to bear the burden which would be imposed on them by the payment of interest on the bonds which the City Council recommends be floated.

When the financial estimates of the Ferry Service were prepared for the current year, it was planned to provide for one new boat, and a special appropriation of \$400,000 was made for this purpose. Some time after this, the United States Steamboat Inspection Service condemned the ferryboat "Noddle Island" and as the Legislature had passed an act providing for the expenditure of \$1,000,000 outside the debt limit, this was accepted in order that the city might provide two boats this year.

These two new boats will provide for a teaming area about double the capacity of the older type of boats, and with the "General Sumner" and the "John H. Sullivan," which have been reconstructed, the teaming capacity of these four boats alone will be in excess of the maximum ever operated.

In addition to these two new boats, it is proposed to reconstruct the slips, drops and teaming entrances, so that a double line of traffic can enter and leave at the same time.

When this work is completed it will reduce the loading and unloading time almost one half, and with the increased number of trips which these facilities provide, I feel certain that the Ferry Service will be in much better condition than ever in the history of the city.

I have just received a report from the Finance Commission urging me to veto the order which I am herewith returning. A copy of this report of the Finance Commission is herewith attached.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

MONEY FOR FIRE PROTECTION, LONG ISLAND.

The following was received:

City of Boston,

Office of the Mayor, August 9, 1920.

To the City Council:

Gentlemen,—I am herewith attaching an order providing for the transfer of the sum of \$105,000 from the appropriation for New Ferryboat and Runways to an appropriation for Boston Infirmary Department, Long Island Fire Protection. I am sending this to you in order that it may be passed in substitution for the order of the City Council which I have today vetoed. As the installation of the sprinkler system is of the greatest moment, I urge the Council to pass the attached order without delay.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of \$105,000 from the appropriation for New Ferryboat and Runways to an appropriation for Boston Infirmary Department, Long Island Fire Protection.

DWELLINGS FOR INHABITANTS OF BOSTON.

Coun. HAGAN offered the following:

Whereas, In the opinion of the members of the City Council a public exigency or emergency or public distress exists because of an insufficient supply of shelter or available dwellings in the City of Boston for its inhabitants:

Resolved, That his Honor the Mayor be hereby requested to issue the proclamation provided for in chapter 554 of the Acts of 1920, and to take immediate steps under the provisions of said act to relieve the present situation.

The preamble and resolve were declared referred to the Executive Committee.

Coun. HAGAN—Mr. President, I am going to move reconsideration with the hope that the same will not prevail.

The object of the order, Mr. President, is to acquaint the public of Boston of the fact that the City Council are aware of the present acute conditions, of the emergency and the period of distress which is now existing and which is going to

be much more acute in the early fall months; and so that some action may be taken by the Mayor or his City Committee upon Housing and that something may be done to relieve that situation is the real object of this order at this particular time. It seems to me, without endeavoring to criticize, that the City Committee on Housing which is handling this situation is not fully aroused to the exact condition. From investigations which I have personally made and from reports which have come to me, I think the whole thing is because we have no laws here in this city, either by city ordinance or by legislative act, which have any weight whatsoever upon the owners or lessees of property. It seems to me that New York is handling this matter in a more scientific and more accurate way, as the authorities there insist that any lessee of apartment house property leasing more than one apartment must before doing so take out a license from the City Clerk, which act places him under the control of the City Clerk—regulates him in some degree—and unless the lessee's license is renewed he cannot continue to operate and do business. We have no such condition as that here, and the consequence is that apartments in the Back Bay—for this affects not only those who are poor but those who are in middle class condition, fairly well-to-do—I have known of apartment houses in the Back Bay district where the rents have been raised already three times inside of a twelve-months' period. I know of some cases where it is probable that there will be further advances before the twelve-months' period has expired. I know that there are janitors today of apartment houses who are advertising apartments to let and the apartments are occupied; they are standing in with the lessees of these apartments—for it really is not, in a great many cases, the owner who demands the increased rent but his lessee who sublets in a speculative way. There are a hundred or more, possibly, in this town today who are dealing in that class of business, apparently speculating and increasing, advancing, rentals for apartments, in collusion with the janitors of those apartments, who find prospective tenants who are willing to pay ten, fifteen and twenty-five dollars in advance simply to get some place to live in, because the demand is far greater today than the present supply.

Now, this condition is going to continue to exist until some efforts are made from some source to create a greater supply of homes, and something has got to be done; for when people return from the beaches or from the country where they are living in the summer months and try to find some accommodation in this town in the early fall months there is going to be a very acute condition unless something is done.

The motion to reconsider was lost.

COMPENSATION OF PRISON VAN DRIVERS.

Coun. HAGAN offered an order—That his Honor the Mayor be requested to inform the City Council who is the "proper authority" to increase the compensation of the county prison van drivers, referred to in his message of May 26, 1920, vetoing the acceptance of the act making such increase.

Coun. HAGAN—Mr. President, I am going to ask for a suspension of the rule and passage of the order, as this is simply a question for information. It is based wholly upon a communication from the Mayor under date of June 7, when he vetoed a similar order passed by this Council, saying at that time: "Although I am vetoing this act I shall be willing to receive a recommendation from the proper authority for the increase in question." Now, we do not know and nobody seems to know who "the proper authority" is; and while the Mayor says that he will pass this—or could until this act—when he receives a recommendation from the proper authority, we are now asking him, the Mayor, to tell us, please, who is the proper authority. We thought that he was, and he says that he is not. Nobody can seem to find out who is.

The order was passed, under a suspension of the rule.

COUNTY ACCOUNTS.

Coun. FORD, for the Committee on County Accounts, submitted a report on communication from Chief Justice Bolster (referred July 19), concerning salaries of probation officers—recommending passage of the following, viz.:

Ordered, That the salaries of the probation officers of the Municipal Court of the City of Boston determined by the chief justice of said court from and after August 2, 1920, be, and the same hereby are approved, viz., chief probation officer, \$5,000 per annum; first assistant male probation officer, \$3,300 per annum; second assistant female probation officer, \$2,800 per annum; fourteen male assistant probation officers, \$2,800 per annum; nine female assistant probation officers, \$2,400 per annum.

Report accepted; order passed.

PLAYGROUND, WARD 9.

Coun. FORD offered an order—That the sum of \$15,000 be appropriated to be expended by the

Park and Recreation Department for the purchase and furnishing of a playground in Ward 9, South Boston, and to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. FORD—Mr. President, I want to say just one word—that the Committee on Finance considered that matter fully in its meeting today and were unanimously in favor of providing a playground in that section. I move suspension of the rule so that the matter may be given its first reading this afternoon.

The rule was suspended, and the order was given its first reading and passed, yeas 8, nays 0.

The order will take its final reading not less than fourteen days from date.

NAMING OF JOHN A. EWING SQUARE.

Coun. COLLINS offered an order—That the space at the junction of Columbia road and Blue Hill avenue be named John A. Ewing square, in honor of Lieut. John A. Ewing, who lost his life for the cause of liberty at Vignot, France, and that said location be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF JAMES F. DUFFY SQUARE.

Coun. COLLINS offered an order—That the junction of Endicott, Hanover, Salem and Blackstone streets be named James F. Duffy square, in honor of said Duffy, who died in the naval service of the United States on September 19, 1918, having enlisted in 1917, and that said space be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF THOMAS J. BURKE PARK.

Coun. DONOGHUE offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to cause the name of Madison Park to be changed to Thomas J. Burke Park, in honor of said Burke, who lost his life during the World War in the service of the United States, and that said park be suitably marked with signs.

Passed, under a suspension of the rule.

NAMING OF WILLIAM H. MARTELL SQUARE.

Coun. WATSON offered an order—That the space at the junction of Bancroft and Bragden streets and Columbus avenue be named William H. Martell square, in memory of Sergt. William H. Martell, who fell at Chateau Thierry July 15, 1918, and that said space be suitably marked with signs.

Passed, under a suspension of the rule.

CONSTRUCTION OF STUART STREET.

Coun. McLAUGHLIN, for the Committee on Finance, submitted a report on message of Mayor and order (referred 1919) to accept chapter 329, Special Acts of 1917, relative to Stuart and Eliot streets—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.

APPROPRIATION FOR CITY HOSPITAL.

Coun. DONOGHUE called up No. 1, assignment, viz.:

1. Ordered, That the sum of \$200,000 be appropriated to be expended by the trustees of the City Hospital for additional facilities, and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Coun. FORD—Mr. President, the trustees for the hospital sent in a communication today asking for considerably more money, and I feel very sorry myself at this time that the Council is not in a position financially to appropriate that money. I wish now, instead of voting for an order for \$200,000, I were voting for an order for \$750,000 to take care of all improvements.

Coun. WATSON—Mr. President, the communication from the trustees to the Mayor which the Mayor has sent here to us states that they can use \$150,000 for the Thorndike Memorial Building and they could also use \$150,000 for officers' quarters and \$50,000 for a pathological building; but I am willing to vote \$200,000 to take care of two of those, if they want to, or one of them.

Coun. DONOGHUE—Mr. President, I want to say that after hearing the communication from the trustees that this appropriation of \$200,000 could be used as they see fit to use it, whether it is for the improvement of the pathological hospital and the officers' quarters, or for the Thorndike Building and the officers' quarters. I think that that should be left to their judgment, but that

they should go ahead immediately and start work on some of these three projects and if I am here another year I am going to vote for the balance of the money to take care of the other needed improvements in that hospital. I hope the order will pass.

The order was given its first reading and passed, yeas 8, nays 0.

The order will take its final reading not less than fourteen days from date.

GENERAL RECONSIDERATION.

Coun. FORD moved a general reconsideration on all business transacted at the meeting, hoping the same would not prevail. Lost.

NEXT MEETING.

The Council voted, on motion of Coun. McLAUGHLIN, that when it adjourned it be to meet on Monday, August 23, at two o'clock p. m.

Adjourned at 5.45 p. m.

BOSTON NOTES.

METROPOLITAN DISTRICT OR "GREATER BOSTON."

Consists in the most inclusive sense of 40 municipalities, including Boston, or 14 cities and 26 towns, all within 15 miles of the State House. The 7 cities in the first zone, *i. e.*, adjacent to Boston, are these, *viz.*, Cambridge, Chelsea, Everett, Newton, Quincy, Revere and Somerville; the 6 cities in the second zone, not adjacent, are: Lynn, Malden, Medford, Melrose, Waltham and Woburn. The 6 adjacent towns are: Brookline, Dedham, Milton, Needham, Watertown and Winthrop; the 20 other towns are: Arlington, Belmont, Braintree, Canton, Cohasset, Dover, Hingham, Hull, Lexington, Nahant, Reading, Saugus, Stoneham, Swampscott, Wakefield, Wellesley, Weston, Westwood, Weymouth and Winchester. North and northwest of Boston are situated 11 of the cities and 12 of the towns; south and southwest, 2 cities and 14 towns. Area of Northern Division in 1915, 149.18 square miles and population 647,675, or a density of 4,342 per square mile; Southern Division, 219.62 square miles and 193,979 population, or density of only 883 per square mile; in the whole Metropolitan district, 3,851 per square mile. In percentages Boston shows 10.5 per cent of district's area and 47 per cent of population; Northern Division, 36.2 of area and 40.8 of population; Southern Division, 53.3 of area and 12.2 of population. In the period 1910-1915, increase of population 2.18 per cent larger in Northern than in Southern Division.

Total area of district in 1918, 409.5 square miles; population by census of 1915, 1,593,898. Estimated population in 1918, 1,708,860. Of the total population of the state, "Greater Boston" has 43 per cent; of total valuation, 54.66 per cent; of total value of manufactures 32.56 per cent.

Total valuation of taxable property in district on April 1, 1918, \$2,543,169,288 (*i. e.*, for realty and tangible personalty, including bank stock, intangible personalty being exempt from taxation (except income therefrom) in 1917 and thereafter. The said total exceeds the 1917 valuation by \$66,078,893, a gain of 2.67 per cent. Of said total 58.90 per cent was in Boston and 41.10 per cent outside. The four organized metropolitan districts existing for the purpose of constructing and maintaining certain extensive systems of public works under state control are as follows: Metropolitan park district, established by chapter 407, Acts of 1893, including all the cities and towns except Lexington, and managed by a State Board of five commissioners; metropolitan water district, established by chapter 488, Acts

of 1895, including 10 cities and 9 towns, and covering an area of 175 square miles; metropolitan sewerage district, established by chapter 439, Acts of 1889, consisting of the north system and south system, including 17 cities and towns in the former system and 8 in the latter, and covering an area of 225 square miles; the last two districts managed by a single state board of three commissioners; Charles River Basin district, established by chapter 465, Acts of 1903, including all the cities and towns except Cohasset and Lexington, and in charge of the Metropolitan Park Commission.

Another metropolitan district, *viz.*, the Fire Prevention District, was organized in 1914, by the enactment of chapter 795. In this district are the 14 cities of "Greater Boston", but only 10 of the towns, to which were added Reading and Rockland, a total of 26 municipalities. The district is in charge of a single commissioner, assisted by a deputy commissioner, both appointed for a term of three years. The number of fire alarms in the district decreased from 13,477 in 1914 to 10,568 in 1916, and the fire losses in 1916 were less than those of 1915 by \$893,900.

Total gross metropolitan debt for water, parks, sewers and Charles River Basin improvements on July 1, 1918, \$77,064,406; sinking funds, \$23,724,311; net debt, \$53,340,095 or \$1,252,123 less than in 1917. The division of this net debt was: Water supply, \$28,269,187; sewers, \$12,973,168; parks, boulevards, etc., \$8,632,354; Charles River Basin, \$3,465,386. Of the latter, \$1,129,322 is payable by Boston alone, *i. e.*, \$643,359 for Boston Embankment, and \$485,963 for Charles River Bridge. Of 1918 tax rates, the highest among the cities was Revere's (\$26.80) and the highest among the towns, Saugus's (\$27.95); the lowest among the cities was Newton's (\$18.40) and among the towns, Dover's (\$5.30). Mean tax rate of the 13 cities in the district outside of Boston, \$22.64, or \$1.44 in excess of Boston's rate. Mean tax rate of the 26 towns \$18.43 or 68 cents less than in 1917. Mean tax rate in the 23 cities and towns of Northern Division, \$22.99; in the 16 of Southern Division, \$15.96. There were in the district in 1917, 4,409 manufacturing establishments, value of product, \$947,853,776; capital invested, \$616,023,935; value of stock and materials used, \$564,318,619; total wages paid, \$156,950,905; average number of wage earners, 200,106 (maximum number 244,228); increase over 1916 product, 23.9 per cent. Rank, 1 to 10, in value of product: Boston, \$418,096,880; Lynn, \$113,590,818; Cambridge, \$101,605,403; Somerville, \$76,710,204; Watertown, \$35,021,584; Everett, \$28,138,303; Quincy, \$27,866,513; Chelsea, \$26,176,185; Woburn, \$15,930,793; Malden, \$15,713,334. The Northern Division produced 46.26 per cent of district's total manufactures in 1915; the Southern, 7.15 per cent, and Boston alone, 46.59 per cent.

DIMENSIONS, ETC., OF BOSTON.

Greatest length, 13.8 miles, *i. e.*, from northern end of East Boston to southern end of Hyde Park; greatest width, 7.75 miles, *i. e.*, from Marine Park shore to western end of Brighton; median transverse width, 5.75 miles, *i. e.*, from Charles river at Harvard Bridge to Neponset river at Blue Hill avenue; width of business center, 1.2 miles, *i. e.*, from Charles river at Cambridge Bridge to Fort Point channel at Summer street. Geographical center of city in Roxbury, corner Walnut and Westminster avenues.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,309,000; Washington Street Tunnel, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,234,471; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1919 for the Dorchester tunnel, \$10,738,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,000,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) are leased to the Boston Elevated Railway Company (which furnishes the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{1}{4}$ per cent of net cost (except East Boston Tunnel which is at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company). In accordance with chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By chapter 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By chapter 3, Ordinances of 1918, the Transit Department was established, to be in charge of three commissioners, appointed for term of one year.

EXPORTS AND IMPORTS, MASSACHUSETTS CUSTOMS DISTRICT, 1918.

Dating from July 1, 1913, the district includes Boston and the eight minor ports of the state. Value of exports in calendar year, 1918, \$221,477,295, or \$12,509,458 (*i. e.*, 5.99 per cent) more than in 1917; of imports, \$295,907,047 or \$66,665,716 (*i. e.*, 29.08 per cent) more than in 1917; total foreign trade, \$517,384,342, an increase of \$79,175,174 or 18.07 per cent over the same in 1917. Boston's total foreign trade for year 1918, the largest on record, ranks fifth among American ports, New York, Seattle, Philadelphia and New Orleans leading, the latter only slightly. Tonnage of vessels in foreign trade (entered and cleared) in year, 2,427,772, or 547,752 less than in 1917; number of vessels, 1,686 or 352 less than in 1917.

On August 24 to George L. Slack Company as per following communication:

BOSTON, August 11, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—There was but one bid received in answer to advertisement of the Board for proposals on installation of platform hydraulic ash hoist at the Girls' High School. This was from George L. Slack Company, in the sum of \$1,722.50.

This was the third time that this work was advertised. At the first opening but one bid was received, in the sum of \$3,050, which was rejected. At the second opening one bid was received which was not regular, no duplicate bid having been deposited with the City Auditor. The present bid has been checked up by the Board and found to be reasonable, and the Board has therefore voted, subject to the approval of your Honor, to award the contract to George L. Slack Company in the sum of \$1,722.50, as stated above.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

Addressograph fully equipped for collector's use..... 391 50

\$7,054 00

Edward T. Kelly, chairman of the Assessing Department, and Mr. Deland, City Collector, have gone into this matter quite thoroughly and they believe that the addressograph equipment is best suited for the needs of their departments.

I attach hereto a letter from Mr. Kelly requesting me to secure authority from your Honor to make this purchase.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Electrocardiograph.

On August 24 to Charles F. Hindle as per following communication:

BOSTON, August 6, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for bids, to Charles F. Hindle for furnishing and installing one No. 1 Hindle electrocardiograph at a total price of \$2,500. In view of the fact that this machine is recommended by Doctor Dowling, Superintendent of the Boston City Hospital, and the need for same is urgent, I respectfully ask that the permission asked for be granted.

I am attaching correspondence from Doctor Dowling regarding this purchase.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Apparatus, City Hospital.

On August 24 to the Victor Electric Corporation as per following communication:

BOSTON, August 10, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—I respectfully request permission to enter into contract and purchase from the Victor Electric Corporation, without advertising, the following special apparatus for the Boston City Hospital:

Ten Days' Discount.
(Per Cent.)

One V2395 Victor Wantz special frequency machine with meter and rotary for 220-volt, direct current..... \$807 00 10
One V2273 Victor multiplex machine, 110-volt, direct current..... 220 00 10

One J5252 Victor massage outfit, 110-volt, direct current	\$104 00	10
One J5239 Victor solar therapeutic lamp, 110-volt, direct current	60 00	10
Five J5530 Victor galvanic controller with meter at \$45 each, totaling	225 00	—
One special double eye electrode (Harris) No. 160	7 50	2
Two nose and throat electrodes (special) for galvanic at \$3 each	6 00	2
One insulated vaginal electrode, curved type for galvanic	1 75	2
Four surface vacuum tubes, Figure 500, No. 1 at 85 cents each	3 40	2
Two insulated nasals at \$1.50 (vacuum tubes)	3 00	10
Two insulated ear at \$1.50 (vacuum tubes)	3 00	10
Two double eye, curved type at \$1.50 each	3 00	10
Two surface (medical and laryngeal) nonvacuum tubes at \$7.50 each	15 00	10
One urethral, small non-vacuum tube	7 50	10
One rectal non-vacuum tube	7 50	10
One external throat non-vacuum tube	7 50	10
One auto-condensation handle	7 50	10
Ten pounds composition foil at \$1.50 per pound	15 00	10
	<u>\$1,503 65</u>	

F. o. b. Chicago, as noted above.

Doctor Granger of the City Hospital staff, who will use this apparatus, states that this special apparatus is standardized by the Medical Department of the United States Army, and that no other apparatus on the market meets this standard.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PARK AND RECREATION DEPARTMENT.

A deduction, amounting to \$80, on contract with James J. Brock, dated July 28, 1920, Sanitary Building, Charlestown, viz.: Omitting sixteen lockers called for in contract. Original contract, \$16,557; total additions, \$1,926.25; total deductions, \$980; contract outstanding, \$17,503.25.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To resurface with macadam and paint coat Columbia road, from Mercer street to I street, the estimated cost for labor and material being \$7,500.

FIRE DEPARTMENT ORDERS.

General Order No. 34.

ACCIDENTS AND SPEEDING.

Attention is drawn to rules 131, 132, 133, 134, 135, 136, 137, 184, 185 and 191 of the Rules and Regulations of the Department, and Paragraph VI., General Order No. 1, current series. Commanding officers of companies will see to it that the above mentioned rules are strictly enforced, and they will be held responsible for failure to do so.

DEPUTY CHIEFS.

The following designations and assignments of deputy chiefs is published for the information and guidance of the department.

John O. Taber is in charge of the Bureau of Supplies and Repairs and will rank as First Deputy Chief.

Daniel F. Sennott is in charge of the Third Division and will rank as Second Deputy Chief.

Henry A. Fox is in charge of the First Division and will rank as Third Deputy Chief.

Walter M. McLean is in charge of the Second Division and will rank as Fourth Deputy Chief.

PROMOTIONS.

The following promotion, which took effect Friday, August 6, 1920, is hereby announced:

James P. Maloney, Supervisor of Pay Accounts to Assistant Chief Clerk and Supervisor of Pay Accounts. In addition to his duties as Supervisor of Pay Accounts and Assistant Chief Clerk, he will have charge of the books and records of the department and will supervise the installation of accounting systems, filing devices and recording systems at Headquarters, Bureau of Supplies and Repairs, Fire Alarm Branch, Wire Division, Bureau of Fire Prevention and Veterinary Hospital.

The following promotion, which took effect July 30, 1920, is hereby announced:

Capt. Michael F. Silva of Engine Company 48 to be Acting District Chief of District No. 15 during the absence of the district chief of that district.

The following promotion is hereby announced to take effect as of January 2, 1920:

District Chief Frank A. Sweeney of District No. 7 to be acting deputy chief of the Second Division during the absence of the deputy chief of that division.

ENGINEER OF MOTOR APPARATUS.

The engineer of motor apparatus, James W. Ryan, is attached to the Bureau of Supplies and Repairs as heretofore.

He will inspect the motor apparatus in the various fire stations as often as necessary; examine from time to time the men assigned to operate the motor apparatus, and report direct through the usual official channels on the motor apparatus inspected, the members of the department examined, and make any recommendations he may deem necessary that will improve conditions in the various fire stations.

Engineer Ryan will wear the uniform of a lieutenant with an insignia on the coat collar in accordance with regulations and similar to that of a lieutenant, except that it will display the letters "E M A" instead of a trumpet.

AIR PRESSURE.

Commanding officers of fire stations will see that seventy pounds pressure is maintained on the tires of runabouts and seventy-five pounds in the tires of touring cars kept in their respective stations.

CLEANING OF GASOLINE TANKS.

In almost all gasoline tanks on apparatus there is installed a screen or sediment basket, with petcock for drain. These parts are removable and should be tested for water or any obstruction which is liable to occur. The test should be performed at least once each week, and a record of same made on the company journals.

These tests must be so arranged in adjoining districts, through deputy chiefs,

so that not more than one piece of apparatus will be out of service at any one time.

REPORT OF ACCIDENTS.

In addition to the usual reports forwarded to the Commissioner in regard to accidents in which fire apparatus is involved, every operator of a motor vehicle which in any manner is involved in an accident in which any person is killed or injured shall forthwith report the same in writing to the Massachusetts Highway Commission. This report to the Massachusetts Highway Commission will be forwarded to headquarters through the usual official channels and will be in duplicate. (Operators are required to make reports of accidents by chapter 530 of the Acts of 1913.)

By order of the Fire Commissioner,

PETER E. WALSH,
Chief of Department.

OPENING OF BOSTON PUBLIC SCHOOLS.

Boston Public Schools: The school term will begin on Wednesday, September 8, 1920. Teachers and members of the supervising staff are required to report for duty on Tuesday, September 7, 1920.

Examinations for admission to the Normal School (college section) and to the Latin and day high schools will be held as follows:

Normal School: (For admission to the one-year course open to graduates of approved colleges and universities.) On Friday, September 10, at 9 o'clock a. m., at the Normal Schoolhouse, Huntington avenue, near Longwood avenue.

Latin Schools: (For admission to the six-year course.) On Tuesday, September 7, at 9 o'clock a. m. Boys will be examined at the Public Latin Schoolhouse on Warren avenue; girls at the Girls' Latin Schoolhouse on Huntington avenue, near Longwood avenue.

Candidates are required to pass an examination equivalent to that required for admission to the seventh grade of the elementary schools. The subjects of examination will be English Language, including Reading, Writing and Spelling; Geography and Arithmetic.

(For admission to the four-year course.) Candidates for admission to the four-year course in the Public Latin or Girls' Latin Schools will be examined only on September 10, at the place and in the subjects indicated under high schools below.

High Schools: On Friday, September 10 at 9 o'clock a. m. Boys and girls will be examined at the Normal Schoolhouse on Huntington avenue, near Longwood avenue. The subjects of examination will be: English Language, including Reading, Writing and Spelling, Grammar and Composition; History and Civil Government of the United States; Geography and Arithmetic.

REPORT OF FINANCE COMMISSION ON CONDITION OF CITY STREETS.

BOSTON, August 24, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR.—The Finance Commission submits herewith a report of its consulting engineer relating to the condition of the streets in the City of Boston as they were during the latter part of July, 1920. The arrangement of this report and the matters contained are similar to previous reports issued in 1913 and 1915. The 1915 report may be found in the Finance Commission Reports, volume XI., page 256 *et seq.*

The information contained in the present report is the result of a personal examination of nearly all of the public highways of the city. Mention is made in the detailed reports by districts of the principal traffic highways needing immediate improvement as requested by your Honor.

Much longer lists of streets of secondary importance needing repairs either immediately or in the near future are available for your information if such are desired.

As a result of its consideration of the information contained in the report of its consulting engineer the Finance Commission points out for your consideration especially pertinent matters, as follows:

The principal need of the city's streets at the present time is the improvement of the radial highways of the city and the suburban crosstown thoroughfares.

Although in two districts of the city the general condition of the street surfaces is good in certain suburban districts the conditions are distinctly worse than at the time of the last examination in 1915. This is particularly true of the suburban thoroughfares.

Apparently due either to unfair discrimination by responsible officials or inefficiency on the part of subordinate officials directly responsible, there appears to be a wide difference in general street conditions in suburban districts.

There has apparently been discrimination against certain suburban districts by the authorities having charge of the Street Cleaning and Oiling Service. It appears that while certain districts have been cared for in these respects, other districts have been neglected. This neglect is causing a rapid deterioration of macadam street surfaces in certain districts with the result that extensive and unnecessarily expensive repairs will be required in the near future.

There appears to be such a lack of skill on the part of some of the subordinate officials in charge of the district repairs as to practically nullify the good effect of the work done. This inefficiency necessarily results in great waste of public money.

The policy of improving suburban highways by constructing short sections of a number of streets between substantially the same general points rather than constructing an entire street between the same points does not secure the best results in facilitating street traffic or in preventing justified complaints by citizens. Continuance of this policy in some districts has practically closed, for entire seasons, the direct arteries of travel between the City of Boston and adjoining cities.

The superiority of machine-mixed bituminous sheet pavements is so apparent that measures should be taken to increase

the use of such pavements, especially on the more important suburban traffic streets.

To insure good streets prompt repairing should have first consideration. Repair expenditures for the past four years show a marked reduction over previous years. Considering the increased cost of labor and materials the percentage of the total expenditures for streets devoted to repairs in the past four years has also decreased compared with previous years. Examination of the streets themselves indicate neglect in repairs. This neglect not only causes excessive expenditures when repairs are finally made, but also causes daily irritation of the traveling public and the many justified complaints of the citizens of Boston.

The Finance Commission recommends:

1. That larger expenditures be made in the immediate future for the improvement of suburban streets.

2. That the suburban resident streets be given equal attention in the different districts as regards repairs and the suppression of dust.

3. That officials in charge of district work be given adequate instruction in modern methods of street repairs and that they be held more strictly accountable to their superiors for repairs in their districts.

4. That where more than one thoroughfare connects the city with the same suburban district or connects suburban districts, that one entire route be fully completed before any section of any other thoroughfare between the same general points be constructed except very necessary temporary repairs.

5. That for the more important streets to be constructed with bituminous pavements only machine-mixed bituminous sheet pavements of the best quality be used in the future and that on all streets the use of the water-bound and bituminous macadam constructed by the penetration method be discontinued.

6. That the city secure immediately an asphalt mixing plant of adequate size so that street reconstruction and repairs may be done quickly and economically as soon as the necessity appears.

Respectfully submitted,

THE FINANCE COMMISSION,
by MICHAEL H. SULLIVAN,
Chairman.

BOSTON, July 29, 1920.

To the Finance Commission:

GENTLEMEN,—From time to time I have made, by instruction of the Finance Commission, a general survey of street conditions over the entire city to determine general conditions as compared with previous years and to point out areas in especially bad conditions that needed paving for various reasons, and improvements that have been made. A report of this character was made in 1913 and again a somewhat similar but more extended report was made of conditions in 1916.

The present report to a certain extent parallels the information given in former reports, except that introductory matter, tables showing areas, discussions of the essential qualities of pavements needed under different conditions, and the merits of different types of pavements, and also certain matters regarding appropriations and the legal status of the Boston Elevated Railway, as connected with city paving, have been omitted, as present conditions as regards these matters are essentially the same as in 1916 and the

information that may be found in the report of 1916, see volume XI., pages 256-290, is equally pertinent at the present time.

SOUTH BOSTON AND DORCHESTER NORTH.
—PAVING DISTRICT No. 1.

As found by the examination of 1916, the pavements of South Boston are, in general, in excellent condition and very little work either of construction or repair is required. Dorchester avenue, which was formerly in bad condition, was repaved after the completion of subway work with grouted granite blocks and at the present time is in good condition, except for openings that have been recently made and some necessary repairs between car tracks.

The pavement of Boston street also has been improved and the new asphalt pavement and granolithic sidewalks in Broadway have left comparatively very little work of street improvement to be done in South Boston.

The improvements on the streets already mentioned emphasize the condition of Dorchester street, from Dorchester avenue to East Fourth street. This street is paved with old style granite blocks, the greater part on a gravel base, and is worn and uneven. Whenever funds are available the paving blocks on this street should be relaid with grout joints, so far as their quality warrants, and the poorer blocks replaced with new granite blocks. Between East Fourth street and Broadway the bituminous sheet paving is in bad condition and for the greater part should be relaid. Several of the granite block streets that have car tracks are substantially in the same condition as in 1916. The car tracks in general are in rather bad condition and the granite block pavement for the greater part should be relaid.

L street, from the bridge over the Reserve channel to Broadway, has become one of the main thoroughfares for access to South Boston and the Dorchester district, by way of the Strandway. The granite blocks should be relaid with grout joints. A small amount of resurfacing on macadam streets where the surface has become broken is necessary. Little work is required in the South Boston district; in fact, street conditions in this district are, as a whole, markedly superior to any other district of the city.

EAST BOSTON.—PAVING DISTRICT No. 2.

Next to South Boston the general condition of the streets in this district is superior to other districts of the city. Chelsea street, between Maverick square and Day square, is badly worn and should be resurfaced. This street, on account of its heavy traffic, and also on account of the fact that it is made a playground by an immense number of small children, especially in the evenings, should be paved with some form of pavement more durable than macadam. In my opinion a first-class quality bituminous sheet pavement should be placed on this street for sanitary and sociological reasons, as well as for its wearing qualities under traffic. This street, always conspicuously dirty, is in its usual condition as regards the amount of waste and rubbish on its surface.

Bennington street boulevard, between Day square and Orient Heights, is badly worn in places and needs patching and surface coating, although the general condition is fair. If this street were placed in first-class condition the surface would probably last for a long time, as the greater

part of the traffic formerly following this route to Orient Heights appears at the present time to be following the new sheet asphalt surfaced Saratoga street route.

Meridian street, on account of its containing street railway tracks, is in about the same condition as when previously examined and should have some homogeneous form of pavement throughout its entire length, replacing the alternate narrow stretches of macadam and old type granite blocks at the sides of the car tracks.

The remarks made in the 1916 report regarding Lexington street still apply. The granite pavement on this street is, with possibly one exception (Western avenue, Brighton), the most conspicuous example of bad pavement in the City of Boston. This street should be improved before any other extensive street improvements are attempted in the East Boston district.

Particular attention is called to the condition of the asphalt surfaces of the bridges over the Boston & Albany Railroad tracks on Sumner and Maverick streets. The surfaces of these bridges are in such condition as to be dangerous to the traveling public and should be immediately repaired. This work comes under the jurisdiction of the Bridge and Ferry Division, rather than of the Paving Service.

Nearly all of the granite block paved streets in East Boston, including Border, Lexington, Liverpool, Meridian, Maverick, Sumner, Bremen, Lewis, etc., are paved with small, old type blocks. Although the surface of these streets is in nearly all cases in as good condition as can be reasonably expected with the type of pavement, several of them should be repaved when opportunity offers, particularly Lexington street, already referred to, and Lewis street, which furnishes the approach to the South Ferry.

CHARLESTOWN.—PAVING DISTRICT No. 3.

The comparatively small area of streets in this section of the city is about the same as in East Boston. The macadam streets are in as good condition as their generally steep grades allow, many of them being subject to deterioration by washing out of the surface at each heavy rainstorm. The repaving of Main street, Rutherford avenue—on which work is now in progress—and areas about City square and Sullivan square, has effected the greater part of the new improvements in this district. Future work should be the continued widening of Chelsea street, which has already been laid out and for which money has been appropriated under the provisions of chapter 393 of the Acts of 1906. Beyond this work, the greatest need for improvement is in paving Bunker Hill street. This street is for the greater part paved with small granite blocks, which should be replaced by a more modern form of pavement, and the macadam side roadways going down the hill from Auburn street to Sullivan square are in bad condition and should be paved.

BRIGHTON.—PAVING DISTRICT No. 4.

The street area of this suburb, except for a few streets that have been recently surfaced with bituminous pavements, is almost entirely macadam, either of the water-bound or the bituminous variety. Few of the streets are in such a condition as to be considered dangerous to travel, although nearly all of them require repairs, ranging from the entire rebuild-

ing of the surface to patching and surface coating with a thin layer of sand and bituminous cement.

Great improvements have been made since the report of 1916, on account of the surfacing with sheet asphalt of Brighton avenue, from Commonwealth avenue to Central square; Cambridge street, from Central square to Washington street, and Washington street, from Cambridge street to Oak square, these streets forming together a direct route to Newton and the towns beyond.

Except for these improvements the general condition of the streets has not been improved since the report of 1916, and the condition is decidedly worse at the present time than in 1913. With the exception of Brighton avenue, the list of streets contained in the 1916 report is still the most important for improvement at the present time. The portion of North Beacon street between Central square and Market street has been widened and paved. The improved condition of this street, however, emphasizes the need for the improvement of the remainder of the street between Market street and the Arsenal Bridge. The part of Cambridge street between the Charles river and Allston square is at present in a very bad condition, especially as regards the street railway tracks, that are badly worn, crooked, and in places dangerous as regards the paving. Allston square should be surfaced with bituminous sheet pavement, connecting with the adjoining surface of Harvard avenue; also Cambridge street, between Allston square and Central square. Warren street needs extensive repairs for its entire length but especially between Commonwealth avenue and Cambridge street.

Franklin street needs patching and resurfacing in parts. This street, together with Linden and North Harvard streets, furnishes one of the main thoroughfares for automobiles going from Commonwealth avenue to the Stadium at times when games are being held in the Stadium. Franklin, Linden and North Harvard streets should be among the first streets in this district to be improved and paved with bituminous sheet pavement.

Western avenue, taken as a whole, continues to be probably the worst example of street surfacing in the city. Its condition is dangerous, especially at night, when its imperfections cannot be readily seen.

Market street, also, which is one of the main thoroughfares of the district, is in rather a worse condition than usual—which is saying considerable. It should be resurfaced for its entire length and paved with some more permanent form of pavement whenever funds are available.

Lake street also requires considerable repairs, especially that portion from Washington street to St. John's Seminary, where the surface appears to be water-bound macadam. The remainder to Commonwealth avenue can be put in good condition by patching and surface coating.

Tremont street, from Oak square to the Newton line, should be surfaced with bituminous sheet pavement as an extension of the recently laid Washington street area.

Particular attention is called to the general condition of the streets in the exclusive residential Aberdeen district. Ordinarily the streets in this district are kept in perfect repair, as they carry very little heavy traffic. At present, with the exception of one or two streets that have been recently resurfaced, practically the

entire area requires patching and surface coating to put it in a reasonably good condition.

WEST ROXBURY.—PAVING DISTRICT No. 5.

The streets in this section, with the exception of a number of streets recently laid out by the Street Commissioners and paved with bituminous sheet pavements, are almost exclusively macadam. The street area, as a whole, is in about the same condition as in 1916. The residential streets in the West Roxbury end of the district are in somewhat better condition. In Jamaica Plain they are decidedly worse. A marked improvement has been made by the improvement of Centre street, between Eliot square and Forest Hills, and South street, between Eliot square and Allendale street. This last improvement, however, serves to emphasize the particularly bad and dangerous condition of South street, between Allendale and Centre streets. In West Roxbury substantially all the main thoroughfares, except those recently resurfaced, are badly in need of repairs, particularly that portion of South street between Forest Hills and Washington street, portions of Walk Hill street, Forest Hills street, Pond street from Jamaica-way to Brookline line, Spring street, Centre street, from Spring street to Dedham line, Vermont street, Corey street, Baker street, Church street and others.

Probably the greatest causes of numerous complaints regarding the streets in this district are the bad condition of Washington street, between Bussey street and La Grange street; Centre street, between Allendale street and Spring street, and Grove street, from Centre street to Washington street. Extensive repairs have been contemplated for a long time on these streets and it has apparently been the policy of the department to allow them to remain in a dangerous condition, with the idea that it was useless to expend money for temporary repairs, as the streets were to be rebuilt in the near future.

Centre street is now under construction and may be expected some time in the season of 1920-21 to be in good condition and available for traffic as far as Spring street. The work on Grove street has been started, but little if any progress is being made at the present time.

The pavement of Washington street, between Bussey street and Poplar street, is at present in progress and will furnish, when completed, a satisfactory street surface as far as Roslindale Village. This work, however, will simply emphasize to travelers the bad condition of Washington street, between Roslindale and La Grange street, and complaints regarding this street will not cease to any great extent until the entire length is improved to La Grange street, joining the state highway at that point and furnishing a satisfactory route to Dedham and the towns beyond.

Many of the streets in the West Roxbury end, particularly the comparatively new streets that have been surfaced with bituminous macadam, are beginning to deteriorate and ravel, either on account of poor work done originally, or on account of the evaporation of the volatile oil from the binder, which seems to be for the greater part of coal tar compounds. This condition is particularly noticeable in the streets on Bellevue Hill. Surface coating, which could be done at the present time at small expense, would place these streets in good condition for a long

term of years. If such precautions are not taken, extensive repairs will be needed in the near future.

In the Jamaica Plain end of the district, the recent paving of Green street from Washington street to the New York, New Haven & Hartford Railroad, the improvement of Amory street, and the resurfacing of South Huntington avenue, have effected needed improvements. The paving on Green street should be extended to Centre street, and the entire length of Centre street from Columbus avenue to Green street, which is in its usual poor condition, should be improved and paved.

With the exception of these streets and a few residential streets that are in good condition, the general condition of the district is such as not to warrant any extended analysis. It is sufficient to state that substantially all the streets are in need of repairs.

DORCHESTER.—PAVING DISTRICT No. 6.

The recommendations of the 1916 report were almost immediately adopted and Dorchester avenue, Neponset avenue, Freeport street, Adams street, Bowdoin street and several other heavily traveled streets that were in conspicuously bad repair have been either repaved with new blocks, or relaid with grout joints, or paved with bituminous sheet pavement and are now in excellent condition.

The large area of macadam streets in this district is apparently in about the same condition as in 1916 as regards their surface. Few of them are in conspicuously bad condition and a comparatively small amount spent for patching and surface coating with sand and bituminous cement would obviate the necessity for extensive repairs in the near future unless such work is done.

The condition of the granite block paving in Dudley street is about the same as usual, and this pavement should be relaid with grout joints whenever funds are available.

The conspicuous need of the district at the present time is for oiling and surface coating, it being apparent that this district has been neglected to the advantage of some other districts, particularly East Boston and South Boston.

ROXBURY SOUTH AND JAMAICA PLAIN.—PAVING DISTRICT No. 7.

The macadam residential streets of this district, especially in the Roxbury end, are generally in fairly good condition and comparatively few need resurfacing. The greater number are in considerable need of patching and surface coating.

As in the neighboring Dorchester district, the macadam streets are conspicuously in need of oiling. There seems to have been very little new work done in this district since the last examination. Warren street is somewhat better than previously, due to resurfacing work now going on in the outer end. The condition of Warren street and its importance as one of the principal radial thoroughfares of the city, and the necessity for improvement, has been frequently called to the attention of the city authorities. The street is paved in some portions of its length with the old type of granite blocks without foundation, and in others with macadam along the sides with granite blocks between the car tracks, and in still other short portions with bituminous pavements.

The excuse that has done duty for a number of years for neglecting to improve this important traffic route has been the necessity of placing sewerage works in the

street at some future time, which work would destroy a new pavement. An investigation of the matter shows that for a short section of the street near the Roxbury High School, extending southwardly, the surface drainage of the street will in the distant future be tributary to the Stony brook drainage area, the natural outlet being through Bower street, with a long, expensive outlet to be built to join the Stony brook conduit in the neighborhood of Ruggles street.

The time has not yet arrived when conditions require the construction of this outlet and in fact there appears to be no immediate need of the work. There is little doubt that at least twenty or thirty years will elapse before there is any urgent need for this outlet. Therefore it is safe at the present time to neglect this consideration and place a durable pavement on the street, as its condition—whatever form of pavement is adopted—will be such as to require extensive repairs, if not renewal, by the time the sewerage works outlined become actually necessary.

Blue Hill avenue, between Dudley street and Grove Hall, is in about the same condition and little, if any, improvement can be made until the present worn and uneven granite blocks are relaid with grout joints, or the street is repaved. Washington street, from Dudley street to Egleston square, is in its usual bad condition and must be entirely repaved before any decided improvement can be obtained. Between Egleston square and Green street the condition is fairly good, better than at the time of the previous report.

Hampden street, between Harrison avenue and Dudley street, is in its usual bad condition and the brick pavements on Dudley street have been deteriorating rapidly and are in need of extensive repairs, also the macadam on the north side of Dudley street, between Guild row and John Eliot square.

In the Jamaica Plain end of the district considerable resurfacing is needed in the area between Centre and Heath streets and among the thoroughfares of Boylston street, Centre street, Ruggles street, Parker street, Longwood avenue and Huntington avenue need immediate attention.

SOUTH END AND ROXBURY NORTH.—PAVING DISTRICT No. 8.

A decided improvement has been made in this district since the previous examination. The recommendations therein contained were adopted by the administration then in power at City Hall almost entirely and large street areas were improved, particularly Albany street and Harrison avenue. Tremont street is now being improved by laying asphalt pavement. The district bounded roughly by Cabot, Tremont, Northampton and Dudley streets has been very greatly improved by many sheet pavements on these residential streets. The condition of this district furnishes a gratifying object lesson as to how the general condition of a residential district can be improved by paving the street surfaces, and there is little doubt that the cost of the improvements made will be largely returned to the city on account of the increased desirability of this section as a residential district.

Many of the crosstown streets in the South End district have been paved with bituminous sheet pavements and the work should be continued at an early date to the remaining crosstown streets. The particular need for this form of pavement

is shown by the condition of the streets between Columbus avenue and the tracks of the New York, New Haven & Hartford Railroad, which appear to have been conspicuously neglected. Extensive repairs are needed to the wood block pavements of Massachusetts avenue, between Harrison avenue and Tremont street, that are in places in dangerous condition. Substantially all of Huntington avenue is in bad condition and should be paved with bituminous sheet pavement.

In this connection, although not directly connected with the matter of street pavements, the attention of the commission is called to the great length of street car tracks in the South End district, which is at the present time practically unused.

The tracks on Columbus avenue are still in use, although not nearly to the extent that they have been in former years; in fact the amount of use at the present time is hardly sufficient to warrant the inconvenience to horse-drawn and motor-driven traffic furnished by the car tracks and the pavement between. The traffic on Tremont street has been greatly decreased with resulting overcrowding on other lines, particularly the South Huntington avenue line from West Roxbury and Jamaica Plain.

The tracks on Shawmut avenue seem to have been entirely abandoned, although the condition of the street cannot be greatly improved so long as these car tracks remain. On Harrison avenue the only use of the tracks appears to be in carrying to and removing materials from the power station of the railway company. The question as to whether some of these tracks cannot be used for the benefit of the traveling public or to the benefit of general street traffic is, I believe, a question worthy of serious consideration at the present time.

ASHMONT.—PAVING DISTRICT No. 9.

A marked improvement over the conditions found in 1916 has been made in this district and the macadam streets in general are in good condition, except for the need of patching and surface coating and particularly application of oil for dust-laying purposes.

Among the streets mentioned as particularly needing improvement in 1916, Norfolk street has been improved for the greater part of its length; Washington street has been paved for a portion of its length, and the macadam resurfaced for nearly its entire length to Morton street; portions of Morton street have been improved, although there is still much desirable work to be done on this important thoroughfare, particularly from Norfolk street to River street. The improvement of this street is one of the most necessary in the district. River street for practically its entire length has been repaired, but there is still urgent necessity for widening whenever funds are available.

Granite avenue and Carruth street have also been repaired, as well as Adams street, from Pierce square to Milton street, which is now in excellent condition.

One of the greatest needs of the district is the improvement of the Blue Hill Avenue Boulevard, between Talbot avenue and Mattapan square, particularly on the east side. Parts of this thoroughfare are badly worn and in many places on both sides of the street repair work has been done unskillfully, so that hummocks have developed in the street in place of the holes which it was meant to repair, which are equally as uncomfortable

able for the riding public as the holes which they were intended to replace. Practically the entire surface of the street should be broken up and placed in a satisfactory condition by such means as the particular problems encountered in the different sections of the street require. The brick pavement of Talbot avenue requires extensive repairs.

The condition of Morton street throughout its entire length, from Washington street in West Roxbury to River street, has been frequently called to the attention of the city authorities without satisfactory results. This street furnishes, when in reasonably good condition, the main artery from the South Shore towns into Boston. Certain improvements have been made since the report of 1916, particularly in improving and widening the street on both sides of Blue Hill avenue, and in improving one half of the width of the street, through the grounds of the Pierce and Austin Asylums. This portion, however, is rapidly disintegrating and should be resurfaced and the street improved for its entire designed length. The portion between the railroad bridge near Norfolk street and River street is still in its customary bad condition. Although this part of the street has few abutting residences to be accommodated, the heavy volume of traffic warrants it being immediately drained and constructed in a permanent condition.

Walk Hill street, between Hyde Park avenue and Blue Hill avenue, is a cross-town thoroughfare, only second in importance to Morton street. The areas between Hyde Park avenue and Wachusett street in the West Roxbury district and between Canterbury and Harvard streets, notwithstanding some recent repairs, are still in bad condition and should be entirely resurfaced.

NORTH AND WEST ENDS AND BACK BAY.—PAVING DISTRICT No. 10.

The street area in this district has also been conspicuously improved over the condition at the time of the previous report. The recommendations and list of streets recommended for improvement by repaving with granite block, as shown on page 279 of Volume XI. of the Finance Commission's Reports, were adopted by the administration then in authority in total, together with some other streets upon which repairs were not as urgent. The work has been still further continued under the present administration by the improvement of Atlantic avenue, Commercial, State, Devonshire, Kilby, Federal and some other streets, so that with the improvements now under way or contemplated the downtown granite block paved end of the district will be in excellent condition. There will remain, however, for several years areas of granite block paving which, although in good condition for the type of pavement, will in the future be considered in bad condition as compared with the modern, smooth type, grouted granite blocks. No doubt there will be demand for the relaying of this pavement with grouted joints, or its replacement with new blocks, or with wood blocks so that there will be continuous work to be done in this district for a considerable term of years, particularly in the North and West End districts where many of the streets are rough and uneven, among others, Portland, Merrimac, Chardon, Friend, Pitts and some other streets.

In the Back Bay district several of the longitudinal thoroughfares, as well as crosstown streets, have been repaved

with bituminous sheet pavements and the work should be continued to cover the entire district. Pending the time when this work shall be done, some patching and resurfacing work is required, particularly on Gloucester and Hereford streets, Falmouth, Norway, St. Germain, Dundee, and other streets in the same neighborhood.

HYDE PARK.—PAVING DISTRICT No. 11.

This district, although comparatively small and unimportant from the traffic standpoint, compared with the districts nearer the business part of the city, is nevertheless the most conspicuously bad district as regards the condition of its street surfaces.

There has been a decided deterioration in the general character of the street surface in this suburb since the time of the previous report, and this deterioration extends to substantially all of the traffic and business streets of the district, with the exception of Business street and a portion of River street between the Providence Division of the New York, New Haven and Hartford Railroad and Readville street at John Tiberii square. This section of the street is now under reconstruction by the day labor force of the department and is nearly completed. The remainder of River street, from Readville to the Dedham line, is badly in need of repairs.

Considering the other thoroughfares of the district, Hyde Park avenue from Forest Hills to Ashland street is in the West Roxbury district but will be here considered for the purpose of continuity in considering the entire street. The macadam side roadways are in fair condition as far as Ashland street, except a short distance southerly from Forest Hills square, which should be resurfaced. The remainder can be put in good condition by a moderate amount of patching and surface coating. The paving between the car tracks is in very bad condition for the entire distance from Forest Hills to Ashland street and the trustees of the Elevated should be requested to make the necessary repairs at an early date.

The section from Ashland street to Clarendon Hills station, which was widened and reconstructed in 1910, is in very bad condition, except for the paving between the car tracks, which is still in excellent condition. The section requires reconstruction for the entire district.

Between Clarendon Hills and Cleary square the street is at present under construction, being widened and reconstructed according to the provisions of chapter 393 of the Acts of 1906. The contract for this work was made in the autumn of 1919. Since that time the section of street which is the main thoroughfare to Hyde Park has, due to various complications, remained in a condition almost dangerous to public traffic and at times practically impassable. To this condition has undoubtedly been due much of the complaint regarding the streets of the Hyde Park district, and this particular cause of complaint will undoubtedly be eliminated by the completion of the street, which should be some time during the present season.

From Cleary square to Readville the entire section is in bad condition and should be resurfaced, also the portion of Sprague street from Readville to the Dedham line, which is used as a continuous route with Hyde Park avenue by traffic going in that direction.

In the business section of the town substantially all of the street surface is still macadam and should be replaced by some

form of hard pavement, probably bituminous sheet pavements, or perhaps in the squares by granite blocks. This is particularly true of River street, from the Providence Division of the New York, New Haven and Hartford Railroad to Everett square; Fairmount street, from Everett square to the Midland Division of the New York, New Haven and Hartford Railroad, sections of Hyde Park avenue on both sides of Cleary square and sections of Harvard street and Maple street from River street.

Fairmount avenue should be resurfaced practically the entire distance to the Milton line. Going in an easterly direction from Everett square, the macadam surface of River street needs resurfacing as far as Wachusett street, as there are many rough places due to broken surface. The remaining portion, between Wachusett street and Mattapan square, can be placed in a satisfactory condition for a year or two by judicious patching and surface coating.

At the present time the street conditions of the Hyde Park district are decidedly worse, considering the area involved, than in any other suburb of the city.

GENERAL.

Notwithstanding the work that has been commenced on the radial thoroughfares of the city, the improvements have not yet progressed sufficiently far to obviate to any great extent the conditions of which the traveling public justly complains.

For example, although considerable work has been done on the streets of the West Roxbury district, no single street has been completed and the portions that it is intended to improve in the future have been allowed to deteriorate to an unsafe condition, apparently with the idea that it would be a waste of money to resurface them until permanent resurfacing is possible. At the present time all of the direct routes to Dedham and the towns beyond, including the city of Providence, are practically impassable to pleasure traffic and such traffic has to follow roundabout routes which in themselves are nearly as bad and of greater length than the direct routes. This condition will probably be remedied in a year or two, except possibly as regards the Washington street route, regarding which there seems to be no agitation at the present time for improvement.

The large sums now being expended in widening Hyde Park avenue will have little effect in eliminating complaints of traffic conditions, unless the portion of Hyde Park avenue from Forest Hills to Ashland street is repaired, the portion between Ashland street and Clarendon Hills reconstructed and also the portion between Cleary square and Readville.

In the Brighton district, although the improvement of Brighton avenue and parts of Cambridge and Washington streets has materially improved the entrance to Newton, the neglect to complete the widening and improvement of North Beacon street, and the general poor condition of Western avenue, Franklin street, Linden street and Harvard avenue, still leaves a valid cause of complaint by persons following the route through Watertown and Cambridge to Belmont, Waltham, Concord, etc. So far as I am aware there is no immediate intent on the part of the city authorities to complete these important routes.

The improvements in the East Boston streets have materially benefited traffic conditions in that section, although traffic

going to the North Shore and the beaches from other sections of the city does not, however, pass through East Boston to a great extent, but takes the route by way of Cambridge and Metropolitan parkways so that the improvement of East Boston is for the greater part of local importance.

The same remark, so far as pleasure traffic is concerned, applies to the improvement of the Charlestown routes. The greatest need at the present time still remains as at the time of the 1916 examination, the improvement of the radial highways of the city on the southerly and westerly sides of the city; coupled with this should be a greater expenditure of money for maintenance and repairs of the parts of radial highways either already rebuilt or which it is impossible to reconstruct for a considerable time. In the

future great amounts should also be spent on the suburban residential streets in order to obviate the necessity of greater expenditures for reconstruction in the near future.

Examination of the figures of the following table, which has been compiled from the figures for the maintenance of macadam streets shown in various reports of the Public Works Department, shows that there has been during recent years, and particularly during the term of the present administration at City Hall, a constantly decreasing percentage of the annual appropriation devoted to repairs and maintenance, notwithstanding the fact that since 1916 the amount of repairs that could be secured per dollar of expenditure is not more than half that which could be secured previous to that time.

1919-20.....	7,276,137	518,535 00	2,788,731 00	18.6

The figures of the above table are probably not exact, but they are the best available for departmental reports and sufficiently accurate for the purpose hereinafter shown.

Considering, therefore, the decreased expenditure and the increased cost of work per unit of area, it is shown that of necessity the amount of repair work has been much less than in previous years and consequently the deterioration of suburban streets must become increasingly rapid. A greater amount of the annual appropriation for the Paving Service should be devoted to the repairs of macadam streets, even though it necessitates delay in improving downtown conditions. The downtown conditions, although important, are not as important in general as the repairs and reconstruction of the radial traffic highways. The greater part of the traffic in the downtown section is of a slow moving variety and the streets are now in fairly good condition. The effect of the work, for which large sums of money are now being expended, is to replace a fairly satisfactory and serviceable pavement with one which is to a greater or less degree an improvement. Meanwhile, by the diversion of a greater part of the appropriation to the suburban districts a much greater area of street could be improved per unit of expenditure and the principal cause of the complaints regarding street conditions rapidly eliminated.

For several years past the complaints regarding generally poor street conditions have been answered through the columns of the daily press by city officials by pointing out the large area of macadam streets in the City of Boston and the difficulty

of keeping these streets in repair under the increasing traffic by the day labor force of the department.

These arguments do not appear to me to be warranted. At the present time the city has approximately 600 miles of accepted highways, totaling approximately 11,300,000 square yards. Of this amount approximately 425 miles, totaling 7,300,000 square yards, are surfaced with macadam, either of the water-bound or bituminous variety and with gravel. Although from time to time macadam streets have been surfaced with more permanent forms of pavement as the importance of the streets as traffic arteries warranted, there has been no great reduction in the total area of macadam streets, due to the fact that many of the newly accepted streets are surfaced with macadam, which balances to a certain extent the elimination of macadam by resurfacing with some more durable pavements. It is apparent that there will continue to be in the city for a considerable term of years at least approximately 7,000,000 square yards of macadam pavement for maintenance unless a change of policy is adopted by the authorities at City Hall.

The policy of the department has always been to consider the maintenance of the macadam streets as the province of the day labor force of the department, neglecting the fact that, by the expenditure under suitable contracts of a small part of the annual appropriation for streets, very large areas could be put in repair at a cost much less than the cost by the day labor force. It is apparent that on account of the decreased efficiency of the day labor force, due to various

causes, the need of repairs has outgrown the capacity of the force and therefore other means for doing repair work should be employed. The fact that the city has this large area of macadam pavements that requires constant repairs simply indicates a problem that must be met, rather than an excuse for allowing the streets to remain in poor condition.

The first duty of the city authorities should be to keep the present street area in good condition. After this task is accomplished, improvements and changes in types of pavement can be properly considered. One of the most impressive conditions shown by the recent examination of streets was the improvement as to character and wearing qualities of the bituminous macadam pavements laid during the past ten years over the still existing areas of water-bound macadam, and again, the great improvement still possible by substituting the construction of machine-mixed, bituminous sheet pavements for macadam pavements done by the inefficient and imperfect penetration method. This matter has already been elaborated, as regards its physical and financial aspects, in various reports to his Honor the Mayor, recommending the purchase of a municipal asphalt mixing plant, as has been done by substantially all of the up-to-date cities of the United States, amounting to approximately sixty-three in number, as shown on a list presented to his Honor the Mayor.

The excuses given by the city authorities for refusing to accept the opportunities offered by these recommendations are, in my opinion, not warranted by the facts in the case and the refusal to accept these recommendations is still inexplicable, especially as at the present time there is apparently little competition among contractors for the work of laying bituminous sheet pavements, the number of firms actually competing for such work being reduced to two or three at the most. As a result of this lack of competition, prices for machine-mixed pavements have become unnecessarily high.

Another particularly noticeable feature is the evident lack of skill used in the repairs of macadam streets with so-called "cold patch" material. In this type of bituminous binder the bituminous cement is fluxed or cut back with a volatile solvent that evaporates on exposure to the air and causes the cement to harden so that the effect is substantially the same as when cement that has been liquified by heating cools. This "cold patch" material is being used in large quantities for street repairs at the present time. It is mixed with stone and sand in amount supposedly suitable for the purpose and holes in street surfaces are filled with the mixture which slowly hardens into a comparatively solid mass.

In the greater number of cases the work is not skillfully done and in many cases the repairs create a condition actually worse than originally existed by making mounds where there were formerly depressions in the street surface. Some of the worst effects of this work may now be seen on Longwood avenue, between Brookline avenue and the Riverway, and in the same general neighborhood on Huntington avenue, between Longwood avenue and the Brookline line.

I suggest that the district foreman of the Paving Service be instructed to visit neighboring towns and cities and witness similar work and become acquainted with proper methods for handling "cold patch" material.

In many cases attempts have been made to repair streets with this material although nothing less than a complete resurfacing of the street would be adequate to remedy the conditions.

An estimate of the cost of placing the streets of the city in good condition, such as was submitted with the 1916 report, does not seem to be either practical or necessary. The amount annually expended for street construction during the past two or three years has been larger than for many previous years and larger probably than has been even hoped for by any official in charge of the work, at least since the completion of the boulevards of the city.

The remedy lies, not in an additional expenditure of money, but in a change of policy as already indicated, and the amount required to place the suburban streets of the city in good condition would, in any case, be small as compared with the total yearly appropriation for the past three years.

Respectfully submitted,

GUY C. EMERSON,
Consulting Engineer.

SCHOOL COMMITTEE.

Examinations for evening school certificates, will be held Friday, September 10, at 9 a. m., at the Normal Schoolhouse, Huntington avenue, near Longwood avenue.

XI. Special: Certificates valid in evening schools: For teachers in evening high schools of:

- (a.) Bookkeeping, commercial geography and commercial law.
- (b.) Phonography and typewriting.
- (c.) Penmanship.

XVII. Evening school limited: For teachers of cookery, dressmaking, embroidery and millinery in evening elementary schools.

For eligibility requirements and subjects of examination for the above-named certificates, see Board of Superintendents' Circular No. 53, 1920.

Typewriting Machines.

Typewriting machines will be available at the examinations for the use of candidates who are to be examined in typewriting. Those who wish may furnish their own machines and should send them, carefully marked for identification, to the Normal School building.

FIRE DEPARTMENT.

Boston, July 12, 1920.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I would request your permission to send Peter E. Walsh, Chief of Department, to attend the annual convention of the International Association of Fire Engineers, at Toronto, from July 24, 1920, until not later than August 2, 1920, his expenses to be paid out of the appropriation for the Fire Department.

It has been the custom in the past to send the Chief of Department to these conventions and pay his expenses.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved August 20, 1920.

SUPPLY DEPARTMENT.

On August 31 to bidders indicated in following communication for furnishing hay, grain and straw during month of September.

Boston, August 31, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Attached please find list of bids which were publicly opened and read at this office under date of August 30, 1920, on proposals for furnishing hay, grain and straw to the various city departments.

I respectfully request permission to award the contracts to the lowest bidders in each district as checked on the attached list of bids.

Regarding the award of the straw to the Whittemore Company in the city proper district at \$28 per ton, would state that Lord & Webster Company, the lowest bidder, has asked to be released from furnishing the straw only in this district, and for that reason I have awarded the contract to the second lowest bidder, the Whittemore Company.

Respectfully yours.

G. J. CRONIN,
Superintendent of Supplies.

Cleaning Catch-basins.

On August 25 to John T. Shea, Jr., as per following communication:

Boston, August 24, 1920.

To the Mayor of Boston:

I respectfully request your permission to award a contract, without advertising, for cleaning 277 catch-basins at \$2.50 per cubic yard, amounting to about \$2,770, to John T. Shea, Jr. This contract is to be made for the purpose of completing the work under the contract of James L. Pierce for cleaning 1,000 catch-basins, he having abandoned his work. The National Surety Company, surety on the bond of James L. Pierce, will be charged with the excess cost of doing the work under the new contract.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

Coal.

On August 27 to the Coastwise Coal Company as per following communication:

Boston, August 25, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Coastwise Coal Company for furnishing approximately 500 tons of semibituminous coal to the Infirmary Department, Long Island, at a price of \$17 per gross ton delivered alongside Long Island, which was the lowest price quoted us.

We received the following information from other coal dealers:

Coastwise Coal Company, \$17, gross ton, alongside Long Island; City Fuel Company, \$16.80, gross ton, alongside East Boston Wharf; Maritime Coal Company, \$17.50, gross ton, alongside Long Island; C. H. Sprague & Son, Burton-Furber Coal Company, Logan Coal Company, East Boston Coal Company, Castner, Curran & Bullett and Stetson Coal Company are unable to quote at this time.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

Power Plant, City Hospital.

On August 25 to the Murphy Iron Works as per following communication:

Boston, August 6, 1920.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for bids, to the Murphy Iron Works of Detroit, Mich., for supplying repair parts for the Murphy stokers in use at the power plant of the Boston City Hospital. As the amount of the contract exceeds \$1,900 (\$1,457.90) your permission is necessary in order that we may place the order, and as the repair parts are made only by the Murphy Iron Works no benefit would accrue from publicly advertising for same.

Attached hereto is list of articles required.

Yours respectfully,

G. J. CRONIN,
Superintendent of Supplies.

FERRYBOATS FOR FIRE SERVICE.

The following was received:

City of Boston,
Office of the Mayor, August 13, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting copies of a report prepared by the Fire Commissioner in accordance with the order of the City Council requesting information as to whether or not the two new boats for the East Boston ferry service will be adequate to provide proper and sufficient facilities for the Fire Department to reach East Boston.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Fire Department, August 13, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—I have received through you the following order:

"Ordered, That the Fire Commissioner, through his Honor the Mayor, be requested to inform the City Council if two new boats for the East Boston Ferry will be adequate to provide proper and sufficient facilities for the Fire Department to reach East Boston and provide proper fire protection, or whether a third boat is needed and should be provided."

In reply to the request contained in the order I submit the following:

At the present time there are six boats in commission at the East Boston ferries, but only five are operating, as one is out of service for overhauling.

The boats in service are divided. Two large boats, "John H. Sullivan" and "General Sumner," are at the North Ferry, and three boats of less carrying capacity at the South Ferry.

The large boats at the North Ferry have a greater carrying capacity for vehicles, owing to

the fact that they have double driveways, or four in all. The smaller boats have only two driveways. The larger boats are capable of taking all the apparatus that would respond to a second alarm in one load. In the event of either of them being out of service for some unforeseen reason they are replaced by a smaller boat from the South Ferry. A smaller boat would probably require two trips to get the apparatus across.

The South Ferry is closed every night at 10 p. m. At the North Ferry one boat runs during the night from 7 p. m. until 6 a. m., as traffic conditions evidently do not warrant the running of other boats.

This department, as a rule, uses the North Ferry. The boats have a greater carrying capacity, make better time as the distance across at this ferry is less than at the South Ferry, and the grade crossing on the East Boston side is avoided.

I am informed that the number of ferryboats is not to be curtailed, and that there will be in service in the next future six boats. I am further informed that the two new boats are of a very much larger capacity than the old ones in service.

The new boats are to be supplied with fire pumps. This will give the department a stronger auxiliary service in reserve for the waterfront.

Fire apparatus from the city proper has been called to East Boston as follows:

	Total Alarms.
1915, 1 second, 1 third, 1 fourth	3
1916, 3 seconds	3
1917, 1 second	1
1918, 3 seconds	3
1919, none	0
1920, to date, 3 times	—
Total	10

I am of the opinion, in view of the above facts, that a third new boat is not needed at this time to provide sufficient facilities for the Fire Department to reach East Boston and provide fire protection.

Yours very truly,
JOHN R. MURPHY,
Fire Commissioner.

Placed on file.

SALE OF OLD FIRE ENGINES.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1920.
To the City Council:

Gentlemen,—I am herewith transmitting a communication from the Fire Commissioner relative to the sale of two old steam fire engines, property of the Fire Department, and I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Fire Department, August 12, 1920.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—I recommend that permission of the City Council be obtained to sell two old steam fire engines (American-La France tractorized) to the American-La France Fire Engine Company. One engine has been in service seventeen years. The boiler is worn out and the pumps are in poor condition due to wear of parts. Its general condition necessitates this engine being condemned for further use. The second engine has been in service fourteen years. Its boiler is worn out, also its pumps are in poor condition due to wear of parts. Its general condition necessitates this engine being condemned for further use.

These engines will be sold for \$2,200 apiece, and the proceeds are to be applied as part payment on two American-La France motor pumping engines, one of 1,000-gallon capacity and one of 750-gallon capacity.

Yours very truly,
JOHN R. MURPHY,
Fire Commissioner.

Ordered, That the Fire Commissioner be and hereby is authorized to sell two old steam fire engines (American-La France tractorized) to the American-La France Fire Engine Company for \$2,200 each, the proceeds to be applied as part payment on two American-La France motor pumping engines, one of 1,000-gallon capacity and one of 750-gallon capacity.

Referred to the Executive Committee.

TRANSFERS FROM RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, August 19, 1920.
To the City Council:

Gentlemen,—I am transmitting herewith various requests for transfers from the Reserve Fund and respectfully recommend the passage of the accompanying orders.

Respectfully,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

VETO—LEAVE TO CITY EMPLOYEES TO ATTEND CONVENTION.

The following was received:

City of Boston,
Office of the Mayor, August 10, 1920.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on August 9 granting leave of absence without loss of pay to all city employees who are members

of the American Legion to attend the coming convention of the Legion.

I am perfectly willing to grant leave of absence without loss of pay to city employees who are duly elected delegates to the convention, but it would be unfortunate to initiate the policy of granting leaves of absence without loss of pay for attendance at a convention to all employees who happened to be members of any organization.

It is customary for the city to permit employees who are regularly elected delegates to attend the conventions of organizations similar to the American Legion. Further than this, however, it would be unwise for the city to go.

Respectfully yours,
ANDREW J. PETERS, Mayor.

VETO—NAMING OF JAMES J. MURPHY SQUARE.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1920.
To the City Council:

Gentlemen,—In accordance with an agreement with Councilor Watson I am herewith returning without my signature the order introduced by him and passed by the City Council on July 26 to name in honor of James J. Murphy the junction of Guild row, Roxbury street and Shawmut avenue. I am vetoing this order as Councilor Watson desires to substitute another order for it.

Very truly yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—PROBATION OFFICERS' SALARY INCREASE.

The following was received:

City of Boston,
Office of the Mayor, August 10, 1920.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on August 9 to increase the salaries of probation officers of the Municipal Court of the City of Boston.

I am vetoing this order as I have recently indicated to the chief justice of the Municipal Court the increases in salary that I am prepared to approve. The increases mentioned in the order which I am returning exceed those which I am willing to recommend.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Placed on file.

VETO—CONSUMPTIVES' HOSPITAL GUN CLUB ORDER.

The following was received:

City of Boston,
Office of the Mayor, August 19, 1920.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council relative to permission being granted to the Boston Consumptives' Hospital Gun Club to use the grounds of said club in the rear of the hospital for target practice.

Upon the receipt of the order of the City Council I wrote to Dr. John F. O'Brien, chairman of the Board of Trustees of the Consumptives' Hospital, requesting him to advise me what action the trustees desired to have me take on the order. I am today in receipt of the following reply signed by Dr. James J. Minot, Secretary:

"The trustees of the Boston Consumptives' Hospital wish me to reply in answer to your letter of August 10 in regard to the following order of the City Council:

"Ordered, That, until otherwise ordered, permission be granted to the Boston Consumptives' Hospital Gun Club to use the grounds of said club in the rear of the hospital for target practice," that they would be pleased if you would veto the order. The trustees had not heard of the Boston Consumptives' Hospital Gun Club before the receipt of your letter. They will consider the matter of shooting on the hospital property, etc., at their next meeting."

My veto of the attached order is based upon the request of the trustees of the hospital.

Respectfully yours,
ANDREW J. PETERS, Mayor.
